AN ACT WHEREBY THE GROWERS OF IRISH POTATOES MAY REGULATE THE GRADE AND SIZE OF IRISH POTATOES ENTERING INTERSTATE COMMERCE.

WHEREAS, the North Carolina Potato Association, Incorporated, an organization of potato growers established under the General Statutes of North Carolina, Article 50, Chapter 106 (as amended 1957), in a survey of its membership has found that the majority of such members are of the opinion that low-grade and small-size Irish potatoes now allowed to enter interstate commerce is detrimental to the industry as a whole and that the shipping of such potatoes tends to lower the consumption of North Carolina potatoes in that such low grade and small size are unattractive and undesirable to the consuming public; and

WHEREAS, such growers or producers are desirous of provisions whereby they, as producers, may in referendum determine the minimum grade and size of potatoes (based on U. S. Grades and Standards) which shall lawfully be allowed to enter interstate commerce: Now, therefore,

The General Assembly of North Carolina do enact:

Section 1. Chapter 106 of the General Statutes of North Carolina is hereby amended by adding a new Article immediately following Article 51, to be designated as Article 52, and to read as follows:

"G. S. 106-580. Administrative Committee; Establishment and Membership. The duly elected board of directors of the North Carolina Potato Association, Incorporated, as set forth in the Constitution and bylaws of said Association, shall be the Administrative Committee of this Act, and the same is hereby established.

"G. S. 106-581. Duties of Administrative Committee. The Administrative Committee shall have the following duties with respect to enforcement of this Act:

"1. To hold, or cause to be held among qualified producers of Irish potatoes in the herein designated counties a referendum to determine the minimum size and grade standard of potatoes of which it shall be lawful to enter into interstate commerce.

"2. To determine such minimum size and grade standards as established in said referendum at least twenty (20) days prior to June first of each marketing year; provided, however, the provisions of this subsection shall not apply to the year 1959.

"3. To enforce such minimum size and grade standards of Irish potatoes entering interstate commerce by causing inspection of certain lots of

potatoes by the Federal-State Inspection Service or by other means as may be determined by said Administrative Committee.

"G. S. 106-582. Exemption of Certain Producers. The committee may adopt, subject to the approval of the Commissioner of Agriculture, the procedures by which certificates of exemption will be issued to producers.

"The committee may cause to be issued certificates of exemption to any producer who furnishes adequate evidence to the committee that by reason of a regulation issued pursuant to this Section he will be prevented from shipping as large a proportion of his production as the average of all producers in said producer's district, township, or magisterial district. The committee shall be permitted at any time to make a thorough investigation of any producer's claim pertaining to exemptions. Such certificate shall permit the producer to ship the amount of potatoes specified thereon. Such certificates may be transferred with such potatoes at time of sale.

"If any producer is dissatisfied with the determination by the committee with respect to the producer's application for an exemption certificate, said producer may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any producer filing an appeal shall furnish evidence satisfactory to the committee, for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination, concerning the certificate of exemption to be granted. The committee shall notify the appellant of the final determination and shall furnish the Commissioner of Agriculture with a copy of the appeal and a statement of considerations involved in making the final determination.

"The Commissioner of Agriculture shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to this Section.

"G. S. 106-583. Issuance of Regulations. Whenever the committee finds, from the result of aforesaid referendum, that growers desire to prohibit shipment of potatoes below certain specified minimum grades, or smaller than certain specified minimum sizes, or both, such findings shall be made known to the Commissioner of Agriculture and he shall cause to be issued such regulations as would make effective the provisions of the referendum, such regulations to be publicly declared at least ten (10) days prior to June first of the marketing year; provided, the requirement for publication by June first of the regulations required herein does not apply to the year 1959.

"G. S. 106-584. Modification of Suspension of Regulations. The committee may recommend to the Commissioner the temporary modification or suspension of such regulation of minimum standards provided for or established pursuant hereto. If the Commissioner finds, upon the basis of such recommendation and information, or upon the basis of other available information, that to modify or suspend such regulation relating to minimum standards of quality and size will tend to effectuate the declared policy of this Act, he shall so modify or suspend such regulation for a specified period of time.

"G. S. 106-585. Referendum. Any referendum held pursuant hereto shall be in accordance with the provisions set forth in paragraphs 106-556 through paragraphs 106-563 of Article 50, Chapter 106 (as amended 1957) General Statutes of North Carolina, except that the provision of public notice provided in paragraphs 106-562 shall be thirty (30) days instead of stipulated sixty (60) days.

"G. S. 106-587. Limitation of Regulations. Subject to application and approval of the Administrative Committee, potatoes which do not meet the requirements that may be established under provisions herein may be shipped for certain designated purposes. The committee shall prescribe adequate safeguards to prevent potatoes shipped under this provision from entering interstate commerce contrary to the stated purpose.

"G. S. 106-588. Act Limited to Designated Production Areas. The provisions of this Article shall be limited to the following counties: Beaufort, Camden, Currituck, Hyde, Pasquotank, Pitt, Tyrrell and Wayne.

The General Assembly of North Carolina do enact:

Section 1. Chapter 139 of the General Statutes is amended by classifying the first 15 Sections thereof as Article I.

Sec. 2. Subsection (a) (3) of G. S. 139-2 is hereby rewritten to read as follows:

"(3) The Appropriate Corrective Methods. That to conserve soil resources and control and prevent soil erosion and prevent flood water and sediment damages, and further the conservation, utilization, and disposal of water, and the development of water resources it is necessary that land-use practices contributing to soil wastage and soil erosion be discouraged and discontinued, and appropriate soil-conserving land-use practices and works of improvement for flood prevention or the conservation, utilization, and disposal of water and the development of water resources be adopted and carried out. That among the procedures necessary for widespread adoption, are the carrying on of engineering operations such as the construction of terraces, terrace outlets, check dams, desilting basins, flood water retarding structures, channel improvements, floodways, dikes, ponds, ditches, and the like; the utilization of strip cropping, lister furrowing, contour cultivating, contour furrowing, farm drainage, land irrigation; seeding and planting of waste, sloping, abandoned, or eroded lands with water-conserving and erosion-preventing plants, trees, and grasses; forestation and reforestation; rotation of crops; soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops; the addition of soil amendments, manurial materials, and fertilizers for the correction of soil deficiencies and to promote increased growth of soil-protecting crops; retardation of runoff by increasing absorption of rainfall; and retirement from cultivation of steep, highly erosive areas and areas now badly gullied or otherwise eroded."

Sec. 3. Subsection (b) of G. S. 139-2 is hereby rewritten to read as follows:

"(b). Declaration of Policy: It is hereby declared to be the policy of the Legislature to provide for the conservation of the soil and soil resources of this State, and for the control and prevention of soil erosion, and for the prevention of flood water and sediment damages, and for furthering the conservation, utilization, and disposal of water, and the development of water resources and thereby to preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of this State."

Sec. 4. G. S. 139-3 is hereby amended by striking out the paragraph numbered (4) of said Section and substituting in lieu thereof the following:

"(4) 'Petition' means a petition filed under the provisions of Article I of this Chapter for the creation of a soil conservation district, or a petition filed under the provisions of Article II of this Chapter for the creation of a watershed improvement district."

G. S. 139-3 is hereby further amended by rewriting the paragraph numbered (10) of said Section to read as follows:

"(10) The terms 'land occupier' or 'occupier of land', and 'landowner' or 'owner of land' include any person, firm or corporation who shall hold title to or shall have contracted to purchase any lands lying within a soil conservation district or a watershed improvement district organized under the provisions of this Chapter."

G. S. 139-3 is hereby further amended by adding at the end thereof four numbered paragraphs to read as follows:

"(13) 'Trustees' means residents within a watershed improvement district who are appointed or elected to carry on the business of a watershed improvement district, organized under the provisions of Article II of this Chapter.

"(14) 'Watershed improvement district' means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of Article II of this Chapter, for the purposes, with the powers, and subject to the restrictions therein set forth.

"(15) 'Notice' as used in Article II of this Chapter shall mean notice published at least once a week for two consecutive weeks in at least one newspaper of general circulation published in each county wherein any part of a watershed improvement district lies or if in any instance there is no such newspaper then, in lieu thereof, in a newspaper of general circulation in such county.

"(16) 'Board' or 'State Board' means the Board of Water Commissioners of the State of North Carolina, or the board, body or commission succeeding to its principal functions, or in whom shall be vested by law the powers herein granted to the said Board of Water Commissioners."

Sec. 6. Subsection (a) of G. S. 139-5 is hereby amended by adding thereto at the end thereof the following unnumbered paragraph:

"No town or village lots or government-owned or controlled lands shall be included within the boundaries of any district. As used in this subsection: The term 'government-owned or controlled land' includes land owned or controlled by any governmental agency or subdivision,

Federal, State or local; and the term 'town and village lots' means parcels or tracts on which no agricultural operations are conducted, or (being less than three acres in extent) whose production of agricultural products for home use or for sale during the immediately preceding calendar year was of less than two hundred and fifty dollars ($250.00) in value. This Section applies to existing soil conservation districts as well as districts that may hereafter be formed. Insofar as it applies to existing districts it is intended to be declaratory of the present boundaries of such districts as defined by their charters."

Sec. 7. G. S. 139-8 is hereby rewritten to read as follows:

"Sec. 139-8. Powers of Districts and Supervisors. A soil conservation district organized under the provisions of this Act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district, and the supervisors thereof, shall have the following powers in addition to others granted in other Sections of this Chapter.

"(1) To conduct surveys and investigations relating to the character of soil erosion and flood water and sediment damages, and to the conservation, utilization, and disposal of water, the development of water resources, and the preventive and control measures and works of improvement needed, to publish the results of such surveys and investigations, and to disseminate information concerning such preventive and control measures and works of improvement.

"(2) To carry out preventive and control measures and works of improvement for flood prevention or the conservation, utilization, and disposal of water and development of water resources within the district, including, but not limited to, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in subsection (a) subdivision (3) of G. S. 139-2, on lands owned or controlled by this State or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the occupiers of such lands or the necessary rights or interest in such lands.

"(3) To cooperate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to, any agency, governmental or otherwise, or any occupiers of land within the district, in the carrying on of erosion control and prevention operations and works of improvement for flood prevention or the conservation, utilization, and disposal of water and development of water resources within the district, subject to such conditions as the supervisors may deem necessary to advance the purposes of this Chapter.

"(4) To obtain options upon and to acquire by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions

of this Chapter; and to sell, lease or otherwise dispose of its property or interests therein in furtherance of the purposes and the provisions of this Chapter.

"(5) To make available, on such terms as it shall prescribe, to land occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and such other material or equipment as will assist such land occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention and control of soil erosion and for flood prevention or the conservation, development, utilization, and disposal of water and the development of water resources.

"(6) To construct, improve, operate, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this Chapter.

"(7) To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion and for flood prevention or the conservation, utilization and disposal of water and development of water resources, within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to bring such plans and information to the attention of occupiers of lands within the district.

"(8) To act as agent for the United States, or any of its agencies, in connection with the acquisition, construction, operation, or administration of any project for soil conservation, erosion control, erosion prevention, flood prevention, or for the conservation, utilization, and disposal of water and development of water resources, or combinations thereof, within its boundaries; to accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this State or any of its agencies, and to use or expend such moneys, services, materials, or other contributions in carrying on its operations, except that all forest tree seedlings shall be obtained insofar as available from the State Forest Nursery, operated by the State Department of Conservation and Development in cooperation with the United States Department of Agriculture.

"(10) As a condition to the extending of any benefits under this Chapter to, or the performance of work upon, any lands not owned or controlled by this State or any of its agencies, the supervisors may re-

quire contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require land occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion and prevent flood water and sediment damages therein.

"(11) No provision with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the Legislature shall specifically so state.

"(12) Nothing contained in this Chapter shall authorize or allow the withdrawal of water from a watershed or stream except to the extent and degree now permissible under the existing common and statute law of this State; nor to change or modify such existing common or statute law with respect to the relative rights of riparian owners or others concerning the use or disposal of water in the streams of this State; nor to authorize a district, its officers or governing body or any other person, firm, corporation (public or private), body politic or governmental agency to utilize or dispose of water except in the manner and to the extent permitted by the existing common and statute law of this State."

Sec. 8. That Chapter 139 of the General Statutes is hereby further amended by adding a new Article immediately following G. S. 139-15 to be numbered Article II, and reading as follows:

"ARTICLE II

"139-16. Establishment Within Soil Conservation District Authorized. Watershed improvement districts may be established within one or more soil conservation districts or within and without such districts, to the extent permitted by G. S. 139-18 (a), in accordance with the provisions of this Article.

"139-17. Petition for Establishments: What to Set Forth. Any 100 owners of land lying within the limits of a proposed watershed improvement district, or a majority of such owners if their total number be less than 200, may file a petition with the supervisors of the soil conservation district in which the proposed watershed improvement district is situated asking that a watershed improvement district be organized to function in the area described in the petition. Any petition circulated in person by an official or employee of the United States Soil Conservation Service shall be void. Each owner of an undivided interest in real property located within the proposed watershed district shall have the right to sign petitions under this Section and subsection (c) of G. S. 139-21, to register and vote under G. S. 139-18 and otherwise exercise any right granted owners of land under this Article. The petition shall set forth:

"(a) The proposed name of the watershed improvement district;

"(b) That the said district appears to hold promise of administrative, engineering and economic feasibility, and the reasons therefor;

"(c) A description of the area proposed to be organized as a watershed improvement district, and the names and addresses of those landowners therein who are known to petitioners;

"(d) That the area described in the petition consists of contiguous territory and in what watershed or watersheds such area lies;

"(e) To the extent feasible: A description of the proposed work or works of improvement for the control and prevention of soil erosion, flood prevention, or the conservation, utilization, and disposal of water and development of water resources, contemplated for said district, together with an explanation of the effect which said work or works of improvement will have upon the lands of the various landowners in the proposed district;

"(f) That none of the land within the proposed watershed improvement district lies within the boundaries of any other watershed improvement district;

"(g) A request that the area described in the petition be organized as a watershed improvement district; and

"(h) The amount of the maximum annual assessment that may be levied against the landowners of the proposed district, as provided in G. S. 139-26.

"139-18. Notice and Hearing on Petition; Determination of Need for District and Defining Boundaries. (a) Within 30 days after such petition has been filed with the supervisors of the soil conservation district, they shall set the time and place for a public hearing upon the practicability and feasibility of creating the proposed watershed improvement district, and shall publish notice thereof once a week for two consecutive weeks. All owners of land within the proposed watershed improvement district and all other interested parties shall have the right to attend such a hearing and to be heard and may register their name and address with the supervisor if they want the notice provided for under G. S. 139-18(m) sent to them. During the hearings or thereafter the supervisors may recommend that the purposes of the proposed district or its proposed boundaries be changed. The supervisors may amend the proposed boundaries to include within such boundaries lands which lie within the watershed of the proposed district but do not lie within an existing soil conservation district, if the owner of such lands consents to their inclusion.

"(b) In passing upon the petition the supervisors shall consider whether:

"(1) The area proposed to be organized as a district consists of contiguous territory none of which lies in any other watershed improvement district. It is the intention of the General Assembly that the territory of a watershed district shall normally comprise all or part of a single watershed, or of two or more watersheds tributary to one of the major drainage basins of the State, but exceptions to this policy may be permitted in appropriate cases, but it is not the intention of the General Assembly to authorize hereby the diversion of water from one stream or watershed to another.

"(2) Any land or structure has been included in the proposed district which cannot be served or benefited by the proposed work or works of improvement and which could be excluded from the boundaries of the district without substantially impairing the effective purpose of the proposed work or works of improvement; and

"(3) The proposed district appears to hold promise of administrative, engineering and economic feasibility.

"If, in the judgment of the supervisors, there is substantial compliance with these requirements, the supervisors shall issue an order setting dates and places for a referendum (and for registration of voters therefor) to be held, after publication of the order as herein provided, among the landowners of the proposed district in order to assist the supervisors in determining the administrative and economic feasibility of creating the proposed district. The supervisors shall publish such order once a week for two successive weeks in the manner provided by this Article for publication of notices. They shall also send to the board of county commissioners of each county wherein any part of the proposed district lies a copy of the order, together with a request that the said board or boards conduct the referendum within their respective counties on the date set out in the order, and cash or certified check deposit furnished by the petitioners and sufficient in the judgment of said board or boards to defray the expenses of conducting the referendum within their respective counties. If (in connection with a district that lies in more than one county) the supervisors determine that only a single voting place shall be used or that all voting places should be located within one county, the said order and request shall be sent only to the board of county commissioners of the county containing such voting place or places.

"(c) The registration and voting dates and places shall be set by the supervisors and after consulting with the said board or boards of county commissioners. The referendum may be held on any day (Sunday excluded) during the week following the last day for registration as hereafter provided for, but the county commissioners shall not be required to conduct the referendum during any 30-day period immediately preceding nor during any ten-day period immediately following a county-wide election. Any such board of county commissioners may require its county board of elections or any other designated persons to conduct on its behalf the said referendum, and the term 'county election authority' as used in this Section means whatever authority shall be designated by the board of county commissioners to conduct the referendum.

"(d) All owners of land lying within the boundaries of the proposed watershed improvement district, and only such owners, shall be eligible to register and vote in the referendum. The registration shall be conducted at one or more registration places within the proposed district, as established by the supervisors. The supervisors shall furnish a registration book for each registration place, and shall appoint for each registration place at least two registrars to register the voters. One or

more supervisors may be assigned to perform the function of registrar. If the proposed district lies within more than one county, separate registration books shall be supplied and kept for each such county, regardless of the number of registration or voting places. Each registrar before entering upon the discharge of his duties shall take an oath before a justice of the peace or some other person authorized to administer oaths, that he will support the Constitution of the United States and the Constitution of North Carolina not inconsistent therewith and that he will honestly and impartially discharge his duties in registering the voters. The registration book shall be opened for the registration of voters at nine o'clock A. M. on the second Saturday before the referendum, and closed at sunset on the Saturday before the election. On each such Saturday, the registrars shall attend their respective registration places and keep open the registration books between the hours of nine o'clock A. M. and sunset for the registration of voters. If any person shall give satisfactory evidence to the registrars that he has become qualified to register and vote after the time for registration has expired, he shall be allowed to register on that date and his name shall be inserted in the registration book, except that no registration shall be allowed on the day of the referendum.

"(e) Each applicant for registration shall be sworn before being registered, shall state his name and place of residence, shall describe as accurately as possible the land he owns that lies within the boundaries of the proposed district, and shall state his interest in such land. The oath to be taken shall be as follows:

" 'I do solemnly swear (or affirm) that I will support the Constitution of the United States and the Constitution of the State of North Carolina not inconsistent therewith, and that I am the owner of land lying within the boundary of the proposed (here insert name of proposed district) watershed improvement district. So help me, God.'

"The registrar, if in doubt as to the right of the applicant to register, may require other evidence satisfactory to him as to qualifications of the applicant. Thereupon, if the applicant be found to be qualified to be registered, the registrar shall register the applicant and record his name, place of residence, and a description of the land he owns that lies within the boundaries of the proposed district.

"(f) On the second Saturday of the registration period, from the hour of nine A. M. until sunset, the registration books shall be open for inspection by the landowners of the proposed district, and any of said landowners shall be allowed to object to the name of any person appearing on the books. In case of any such objection, the registrars shall enter on their books opposite the name of the person so objected to, the word 'challenged,' and shall appoint a time and place, before the referendum date, when they shall hear and decide said objection, giving personal notice of such challenge to the voter so objected to. If for any cause personal notice cannot be given, then it shall be sufficient notice to leave a copy thereof at his residence. Nothing in this subsection shall prohibit any landowner from challenging or objecting to

the name of any person registered or offering to register at any time other than that above specified. If any person so challenged or objected to shall be found not duly qualified, the registrars shall erase his name from the books.

"(g) When any person is challenged, the registrars shall explain to him the qualifications of a voter in the referendum, and shall examine him as to his qualifications. If the person insists that he is qualified and proves his identity with the person in whose name he offers to vote, and his continued ownership of qualifying property since his name was placed on the registration book, as the case may be, by the testimony under oath of at least one person qualified to vote in the referendum, one of the registrars shall tender him the following oath or affirmation:

"'You do solemnly swear (or affirm) that you are a citizen of the United States, that your name is (here insert name given), that in such name you were duly registered as a voter of the proposed (here insert name of proposed district) watershed improvement district, and that you are the owner of lands that lie within the boundaries of the proposed district. So help you, God.'

"If he refuses to take such oath or affirmation when tendered, his vote shall be rejected. If, however, he does take the oath or affirmation when tendered, his vote shall be received; provided, that after such oath or affirmation shall have been taken, the registrars may nevertheless refuse to permit such person to vote, unless they be satisfied that he is a legal voter; and they are hereby authorized to administer the necessary oaths or affirmations to all witnesses brought before them to testify to the qualifications of a person offering to vote. Whenever any such person's vote shall be received, after having taken the oath or affirmation prescribed in this Section, one of the registrars shall write in the registration book, at the end of such person's name, the word 'sworn'. The same powers as to the administration of oaths and affirmations and the examination of witnesses, as in this Section granted to registrars, may be exercised by the registrars in all cases where the names of persons registered or offering to register are objected to.

"(h) After all challenges have been heard and decided, and before the day of the referendum, the registrars shall deliver the registration books to the county election authorities responsible for conducting the referendum. The supervisors of the soil conservation district shall cause to be printed or otherwise duplicated ballots for the referendum in substantially the form set forth in G. S. 139-5 (c), but the watershed improvement district shall be substituted by name for the soil conservation district. Not later than the day before the referendum, the supervisors shall cause to be delivered to the county election authorities a number of said ballots equal to five per cent (5%) greater than the number of persons registered to vote therein. The supervisors shall appoint one registrar from each registration place to attend the referendum as a poll watcher and to assist the election authorities in identifying the voters.

"(i) The county election authorities shall conduct the referendum at the date and place or places set out in the order published pursuant to subsection (d) of this Section. They shall open the polls and superintend the same until the close of elections, shall keep poll books in which shall be entered the name of every person who shall vote, and at the close of the referendum they shall certify the same over their proper signatures and deposit them with the supervisors of the soil conservation district. The polls shall open and close at the same hours as provided for primary and general elections by chapter 163 of the General Statutes. At the end of the referendum at each voting place the polls shall be closed, the ballot boxes opened, and the ballots counted by or under the supervision of the county election authorities in the manner provided for with respect to general elections by Chapter 163 of the General Statutes.

"(j) If there be only one voting place the county election authorities shall immediately after the counting of the ballots form a board of canvassers and, in the presence of such voters as chose to attend, shall canvass and judicially determine the results.

"If there be more than one voting place the county election authorities at each voting place shall elect one of their members to attend the meeting of the board of canvassers as a member thereof. When the results of the counting of the ballots shall have been ascertained, such results shall be embodied in a duplicate statement, one copy of which shall be placed in a sealed envelope and delivered to the official elected to attend the meeting of the board of canvassers, and the other copy of which shall be mailed by another county election official to the board of supervisors of the soil conservation district. The members of the board of canvassers so appointed shall meet at eleven A. M. on the second day after the election at the county courthouse of the county wherein the largest portion of the proposed district lies, as determined by the said board of supervisors. A majority of the board of canvassers shall constitute a quorum, and such board shall organize by the election of one of its number as chairman and one as secretary. Any member of such board who shall fail to deliver the certified returns from his voting place by twelve noon on the day of such board meeting shall be guilty of a misdemeanor, unless for illness or good cause shown for such failure. If any returns have not been received by twelve noon on the day of the meeting, or if any returns are incomplete or defective, it may dispatch an officer to the residence of such officials for the purpose of securing the proper returns for such voting place. The board of canvassers at its meeting shall in the presence of such voters as choose to attend, open, canvass, and judicially determine the results.

"Whether there be one or more than one voting place, the board of canvassers after judicially determining the results shall make abstracts stating the number of legal ballots cast in each voting place and the number of votes cast for and against creation of the watershed improvement district, and shall sign the same in duplicate with its certificate as to the correctness of the abstracts. It shall have power to pass

upon judicially all the votes relative to the election and judicially determine and declare the results of the same; to send for papers and persons and examine the latter upon oath; and to pass upon the legality of any disputed ballots transmitted to it by any election official. The board of canvassers shall transmit one copy of the certified abstract of the results to the State Soil Conservation Committee, and shall file the other copy with the supervisors of the soil conservation district.

"(k) The board of county commissioners shall apply the deposit heretofore provided for toward defraying the costs of the election. If there be any excess of such deposit remaining after all such costs have been defrayed, the board shall return the balance thereof remaining to the petitioners. If the deposit shall prove insufficient to defray all such costs, the petitioners shall pay over sufficient funds to cover any deficit therein within seven days after they have been notified by the board of such deficit.

"(l) The results of the referendum shall be considered by the supervisors in determining whether it is administratively and economically feasible to create the district. The supervisors shall not approve the petition unless a majority of the voters in the referendum, and also a majority in number of the signers of the petition, voted in favor of the creation of the district, and (such requirement being met) shall approve the petition if, in their judgment, the district appears to hold promise of administrative and economic feasibility.

"(m) After the completion of the referendum the supervisors shall enter a final order approving or disapproving the petition, and shall record such order in their official minutes. The supervisors shall by personal service or registered mail serve a copy of the final order upon every person who attended the hearings and signed a roster provided for that purpose, and shall publish notice of such order once a week for two successive weeks. Any order of approval shall declare the district to be duly organized; shall specifically define the boundaries of the district, and shall be certified by the supervisors to the State Soil Conservation Committee, the State Board, and the Clerk of the Superior Court of the county or counties wherein any part of the district lies for recordation in the special proceedings docket thereof. If a petition is disapproved, subsequent petitions covering the same or substantially the same territory may be filed after six months have elapsed from the date of the order of disapproval, and new proceedings held thereon.

"(n)(i) Corporations and associations owning property located within a proposed district shall be entitled to register and vote in referenda held pursuant to this Section through representatives designated by them. Persons owning property as trustees, guardians, executors, administrators, or in other fiduciary capacities, (hereinafter collectively referred to as 'fiduciaries'), such property being located within a proposed district, shall also be entitled to register and vote in such referenda.

"(ii) In lieu of meeting the requirements of subsection (e) of this Section a fiduciary or a voting representative of a corporation or as-

sociation shall state his name and place of residence; shall describe as accurately as possible the land, on behalf of which he seeks to register, that lies within the boundaries of the proposed district; shall show satisfactory evidence of his authority to register on behalf of such corporation or association, or of his fiduciary status; and shall state, as the case may be, his interest as a fiduciary or the interest of the corporation or association, in such land.

"(iii) Fiduciaries shall be subject to the same oaths as required of other prospective voters under subsection (e) and (g) of this Section. The oaths to be taken by the voting representatives of a corporation or association shall be as follows:

"Under subsection (e)

"'I do solemnly swear (or affirm) that I will support the Constitution of the United States and the Constitution of the State of North Carolina not inconsistent therewith, and that I am the duly designated voting representative of the (here name corporation or association) which is the owner of land lying within the boundary of the proposed (here give name of proposed district) watershed improvement district. So help me, God.'

"Under subsection (g)

"'You do solemnly swear (or affirm) that you are a citizen of the United States, that your name is (here insert name given), that in such name you were duly registered as a designated voting representative of the (here name corporation or association) to vote upon the proposed (here insert name of proposed district) watershed improvement district, and that such (corporation) (association) is the owner of lands that lie within the boundaries of the proposed district. So help you, God.'

"139-19. Establishment of Watershed Improvement District Situated in More Than One Soil Conservation District. If a proposed watershed improvement district is situated in more than one soil conservation district, copies of the petition shall be presented to the supervisors of all the soil conservation districts in which any part of such proposed watershed improvement district is situated, and the supervisors of all such soil conservation districts shall act jointly as a board of supervisors with respect to all matters concerning such watershed improvement district, including its creation. Such watershed improvement district shall be organized in like manner and shall have the same powers and duties as a watershed improvement district situated entirely in one soil conservation district.

"139-20. Inclusion of Additional Area. Petitions for including additional land within a duly created and existing watershed improvement district may be filed with the supervisors of the soil conservation district and in such cases the provisions hereof in respect to the creation of watershed improvement districts shall be observed.

"139-21. Board of Trustees; Selection and Tenure.

"(a) Each watershed improvement district shall be governed by a board of trustees to be composed of three members, all of whom shall be residents of the district, and shall be selected in the manner provided in this Section.

"(b) Within 30 days after they have entered a final order under G. S. 139-18 declaring the organization of a watershed improvement district, the soil conservation district supervisors shall appoint an interim board of trustees for the watershed improvement district to serve until their successors are elected and qualified. Such interim board shall have all of the powers and duties of, and be subject to all of the provisions of this Chapter respecting, the board of trustees whose election is provided for in this Section.

"(c) At the next general election occurring not less than 180 days after the appointment of said interim board, there shall be elected three members of the board of trustees of the watershed improvement district. At each succeeding general election one member of said board shall be elected.

"Nominations in all cases shall be by written petition signed by any 25 owners of land lying within said district, or one-third of such owners if their total number be less than 75. Such petitions shall be notarized and shall be presented, not later than 120 days before the date of the general election, to the supervisors of the soil conservation district or districts within which the watershed improvement district lies. It shall be the duty of the said supervisors to examine said petitions and determine their validity. Not later than 90 days before the date of the general election the said supervisors shall certify to the boards of election of each county wherein any part of the watershed improvement district lies the names of the candidates thus nominated, together with a request that these candidates be presented to the voters at the next general election.

"All qualified voters residing within the watershed improvement district shall be eligible to register and vote for said trustees. For such election the board of elections of each such county, at county expense, shall provide polling places in said district and in their respective counties, and shall provide for a registrar or registrars and judges of election at each said polling place. In their discretion the said board or boards of elections may designate the general election polling places and election officials as polling places and election officials for such election (for registrations as well as for elections). The said board or boards of elections shall provide for the printing and distribution of ballots in the same way they provide ballots for county and precinct offices. Said ballots shall be printed separately, shall contain the names of all nominees certified to the board of elections, and shall carry the facsimile signature of the chairman of the county board of elections. The ballots shall indicate the title and term of the office being voted on, shall contain an instruction as to the number of candidates to be voted for, and shall state that if the voter tears or defaces or wrongly marks a ballot he may return it and get another. Write-in votes shall be treated as provided for write-in votes in the general election under subdivision three of G. S. 163-175. The said board or boards of elections shall certify the results of the elections to the supervisors of the soil conservation district or districts within which the watershed improvement district lies.

"The board of elections of each county wherein any part of the watershed improvement district lies shall provide for a new registration of all qualified voters residing in said district and in their respective counties. Said board or boards shall give notice thereof once a week for two consecutive weeks by advertisement in a newspaper of general circulation published in the district and in their respective counties or, if there is no such newspaper so published, then in a newspaper of general circulation in the district and in their respective counties. The first of such notices shall be published at least 30 days in advance of the first day for such registration. Such notices shall specify the dates, times and places for registration and for challenges to be received. Each registrar shall be furnished with a separate registration book for such watershed improvement district registration. The period for registration and the times when the registrars shall attend the polling places with the registration books shall be the same as those provided for the general election in G. S. 163-31. Challenges may be made and shall be heard and decided at the polling places, and at the times and in the manner provided for the general election in G. S. 163-78 to 163-80.

"(d) Of the trustees first elected, the one receiving the largest number of votes shall serve a term of six years, the one receiving the second largest number of votes shall serve a term of four years, and the one receiving the third largest number of votes shall serve a term of two years. Their successors in every case shall serve terms of six years.

"(e) Members elected to the board of trustees shall qualify and enter upon the duties of their offices on the first Monday of December next suceeding their election. Appointed members shall qualify and enter upon the duties of the offices not later than the second Monday next succeeding their appointment. All members shall take the oath of office prescribed by the State Constitution before the Clerk of the Superior Court, or some judge, or justice of the peace or other person qualified by law to administer oaths.

"(f) Vacancies in the membership of the board of trustees occurring otherwise than by expiration of term shall be filled by appointment to the unexpired term by the soil conservation district supervisors.

"139-22. Board of Trustees: Organization and Compensation.

"(a) The interim board of trustees at its first meeting shall select a chairman, vice chairman and secretary-treasurer to serve until their successors are selected. The elected board at its first meeting shall select corresponding officers to serve two-year terms. All official acts done by the board shall be entered in a book of minutes to be kept by the secretary-treasurer. A majority of the membership of the board shall constitute a quorum. The board shall meet in regular session at least quarterly and may meet specially upon the call of the chairman or any two members, and upon at least three days' notice of the time, place and purpose of the meeting.

"(b) Members of the board of trustees shall receive a per diem allowance of seven dollars ($7.00) and necessary expenses for attendance upon meetings of the board.

"139-23. Officers, Agents and Employees; Surety Bonds; Annual Audit. The trustees may employ such officers, agents, consultants, and other employees as they may require; shall determine their qualifications, duties and compensation; shall provide for the execution of surety bonds for the secretary-treasurer and such other officers, agents and employees as shall be entrusted with funds or property of the watershed improvement district; and shall provide for the making and publication of an annual audit of the accounts of receipts and disbursements of the watershed improvement district.

"139-24. Status and General Powers of District; Power to Levy Assessment; Approval of Land-owners Required. A watershed improvement district organized under the provisions of this Article shall constitute a political subdivision of this State, and a public body corporate and politic, exercising public powers, and such watershed improvement district shall have all of the powers of the soil conservation district or districts in which the watershed improvement district is situated, and in addition thereto shall have the authority to levy and the county tax collector or collectors shall collect an assessment as hereinafter provided, to be used for the purposes for which the watershed improvement district was created and for the operation and maintenance thereof.

"139-25. Benefit Assessments to Defray District Expenses; Classification of Land According to Benefits.

"(a) The expenses of a watershed improvement district under this Chapter shall be assessed in the manner hereafter provided against lands specially benefited by the activities of the district.

"(b) As soon as practicable after the organization of a district and the formulation of plans for construction of works of improvement, the trustees shall examine and classify the lands in the district (and from time to time may reclassify them) according to the relative benefits they will receive from the activities of the district. The lands may be classified into as many as five classes, marked 'Class A', 'Class B', etc. In making such classifications the trustees shall consider the fertility of the soil, the proximity of the land to the watercourse (or, in the case of drainage benefits, its proximity to the ditch or a natural outlet), the degree of wetness on the land, the location of the land relative to existing or proposed works of improvement of the district, its susceptibility to damage from floods or erosion, and other factors evidencing anticipated benefits or lack thereof to particular lands.

"The holdings of any one landowner need not necessarily be all in one class, but the number of acres in each class shall be ascertained and listed, though its boundary need not be marked on the ground, but shall be shown on a separate map of the district designated 'Classification Map'.

"The total number of acres owned by one person in each class and the number of acres benefited shall be determined. The total number of acres benefited in each class in the entire district shall be set

forth in tabulated form. The scale of assessment upon the several classes of land shall be determined by the trustees.

"(c) Following completion of such classification the trustees shall publish at least once a week for two successive weeks a notice of the time and place for a public hearing to hear the objections of all interested persons to the classification. In addition, the trustees shall mail a copy of the notices of classification to all owners of classified land. The notice shall be mailed to the owner's last known address. The certificate of the person designated to mail the notices that such notices were mailed, giving the mailing date, shall be conclusive in the absence of fraud. The hearing shall be held not earlier than ten days from the first publication of the notice or the certified mailing date of the notices whichever occurred last. The notice shall refer to the district by name, describe generally the property included in the classification, set forth the scale of assessment upon the various classes of land, state where and when the classification will be available for inspection, and state that all objections must be made in writing, signed in person or by attorney, and filed with the secretary-treasurer of the district at or before the time of the hearing, and that any objections not so made shall be waived. At the hearing or some other time to which it may be adjourned the trustees shall consider objections made in compliance with the above requirements. If any objection is made and not sustained by the trustees, their action thereupon shall be the final adjudication of the issues presented, subject to appeal pursuant to subsection (d) of G. S. 139-26.

"(d) The proceedings for a reclassification shall be in all respects as in the case of the original classification.

"139-26. Estimate of Expenses; Filing and Confirmation of Initial Assessment Roll; Subsequent Assessments.

"(a) After the classification of lands has been completed, the trustees shall estimate as near as may be:

"(1) The cost of the contemplated works of improvement and incidental expenses; and

"(2) The amount of all other expenses of the district (including expenses of maintaining the works of improvement, administrative expenses, and interest on borrowed funds): (A) That have accrued or will accrue prior to the first fiscal year of the district during which assessments are turned over to the county authorities for collection and (B) that will accrue during such fiscal year and the two succeeding fiscal years. (The fiscal year of the district shall begin on July 1 and end on June 30.)

"The trustees shall thereupon make an assessment of the sum of the amounts estimated pursuant to paragraphs (1) and (2) above. For that purpose the trustees shall make out an assessment roll in which shall be entered the names of the landowners assessed so far as the same can be ascertained, and the amounts assessed against them, respectively, with a brief description of the parcels or tracts of land assessed. The said assessment roll shall also indicate the amount of the

assessment installments to be paid during each of the first three fiscal years of the district by each landowner who elects to pay his assessment in installments. The maximum assessment on any assessment roll shall not exceed an annual rate of five dollars ($5.00) per acre.

"(b) Immediately after such assessment roll has been completed the trustees shall publish at least once a week for two consecutive weeks a notice of the completion of the assessment roll. Such notice shall describe the proposed improvement in general terms, state where and when the assessment roll will be available for inspection, and specify the time and place for a meeting of the trustees to hear objections to the assessments. In addition, the trustees shall mail a copy of the notice to each owner of land against which an assessment has been made. The notices shall be mailed to the owner's last known address. The certificate of the person designated to mail the notices that such notices were mailed, giving the mailing date, shall be conclusive in the absence of fraud. The meeting shall be held not earlier than ten days from the first publication of the notice or the certified mailing date of the notices whichever occurred last.

"(c) At such meeting the trustees shall hear the objections of all interested persons who appear and offer proof in relation thereto. The trustees shall either annul or sustain or modify in whole or in part the prima facie assessment as indicated on said roll, either by confirming the prima facie assessment against any or all tracts or parcels described therein, or by cancelling, increasing or reducing the same according to the special benefits which the trustees decide each tract or parcel has received or will receive on account of the activities of the district during the period of assessment. If any property subject to assessment has been omitted from the roll or if the prima facie assessment has not been made against it, the trustees may place on the roll an apportionment against such property. The trustees may thereupon confirm the roll, but shall not confirm any assessment in excess of the special benefits to the property assessed and the assessments so confirmed shall be in proportion to the special benefits. Whenever the trustees shall confirm an assessment roll the secretary-treasurer shall enter in the minute books of the district the date, hour and minute of such confirmation, and he shall immediately cause the assessment roll to be filed with the tax collector of the county wherein the land is located and from that time the assessment shall constitute a lien on the real property against which the same is assessed. Subsequent assessments levied in accordance with this Article shall be a lien against real property from the dae of filing of said assessment.

"(d) If the owner of, or any person interested in, any land assessed or classified is dissatisfied with the amount of the assessment under this Section or with the classification under G. S. 139-25, he may give written notice to the secretary-treasurer of the district within ten days after confirmation of the assessment roll or after the last day of the classification hearing, respectively, that he takes an appeal to the State Board. Within 20 days after such confirmation or after the last day of

the classification hearing, respectively, he must file with the State Board and the secretary-treasurer of the district a brief statement of the grounds for his dissatisfaction with the ruling of the trustees. The State Board shall set a date for a hearing not more than 90 days from the date of the filing of the statement. At said hearing, evidence shall be taken by the State Board from the district and the landowner, both of whom shall have the right to be represented by counsel. After hearing the evidence, the State Board may affirm, overrule or modify the ruling of the trustees and may tax the cost of the hearing against the losing party. Either party may appeal from the ruling of the State Board to the Superior Court of the county wherein the land is located for trial de novo. The appeal from the trustees or the State Board shall not delay or stop the operation of the district or any of its works of improvement. The State Board in order to fulfill the duties herein granted shall have the powers given it under G. S. 139-35 (e). The State Board may delegate to one of its members or to a deputy the function of holding any or all hearings which it is required to hold under the provisions of this subsection.

"(e) The trustees may correct, cancel or remit any assessment, and may remit, cancel or adjust the interest or penalties thereon. The trustees have the power, when in their judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto to set aside the whole of the assessment made by them, and thereupon to make a reassessment. The proceedings shall be in all respects as in the case of the original assessment, and the reassessment shall have the same force as if it had originally been properly made. In the event of a reassessment the trustees may, if necessary, postpone the dates for payment of assessments and installments and for performance of other acts required to be performed on or before designated dates.

"(f) No change of ownership of any property or interest therein after the last day of the classification hearing shall in any manner affect subsequent proceedings, and the works of improvement may be completed and assessments made therefor as if there had been no change of ownership.

"(g) The following provisions of the General Statutes concerning municipal special assessments, with modifications as specified, shall apply to assessments by watershed improvement districts:

"G. S. 160-95 to 160-97, which relate to assessments in case of tenants for life or years;

"G. S. 160-98, which relates to liens in favor of cotenants or joint tenants paying assessments;

"G. S. 160-101, which relates to apportionment of assessments where property has been or is about to be subdivided (except that: for 'governing body', read 'trustees'.)

"(h) Subsequent to the initial assessment the trustees may annually, biennially or triennially, at their discretion, levy additional assessments to meet:

"(1) The cost of contemplated additional works of improvement and incidental expenses; and

"(2) All other expenses of the district (including expenses of maintaining the works of improvement, administrative expenses and interest on borrowed funds) that will accrue during the ensuing fiscal year, biennium or triennium, as the case may be.

"The trustees shall prepare estimates, make out the assessment roll, hold hearings and in all other respects proceed as in the case of the initial assessment, except that:

"(1) The estimate shall be prepared on or before May 20th preceding the fiscal year during which the assessment (or the first installment thereof) shall come due, but failure to comply with this requirement shall not affect the validity of subsequent proceedings;

"(2) The period covered by the estimate of 'all other expenses' shall be the succeeding fiscal year, biennium or triennium, as the case may be; and

"(3) The assessment installments, if any, to be indicated on the assessment roll shall be those to be paid during each year of the fiscal biennium or triennium, as the case may be, by land-owners electing to pay in installments.

"139-27. Collection and Payment of Assessments; Expenditure of Proceeds thereof and of Other District Funds.

"(a) The landowner against whom an initial assessment is made shall have the option of paying it in cash or, if he should so elect and give written notice of the fact to the secretary-treasurer of the district within 15 days after the confirmation of the assessment roll, in three equal annual installments. He shall have the same option of paying subsequent biennial or triennial assessments, if any, in cash or in two or three equal annual installments, respectively. The initial and any subsequent assessment shall be due on the first Monday of August next following after the receipts for the first annual installment are mailed, pursuant to subsection (c) of this Section. The first annual installment of any such initial or subsequent assessment shall be due on the same date. The second and third annual installments shall be due and payable on the first Monday of August, one and two years, respectively, thereafter. All such assessments shall bear interest until paid at the rate of one-third of one per cent (1/3 of 1%) per month, or fraction thereof, after the first day of September of the year in which they become due, as illustrated in the table set forth in subsection (1) of this Section. In case of the failure or neglect of the property owner to pay any installment when the same becomes due, then and in that event all of the installments remaining unpaid shall at once become due. The entire assessment may be paid at the time of paying any installment by payment of the principal and all interest accrued to that date.

"(b) After confirmation of the assessment roll the district shall have prepared a form of receipt, with appropriate stubs attached, for the assessments due on each tract or parcel of land as recited in the assessment roll. A separate sheet shall be used for each tract or parcel assessed, and each such separate sheet shall contain three perforated receipts attached to a single stub, with appropriate entries and blank

spaces substantially as set forth in subsection (h) of this Section. The receipts and stubs for land within each county wherein any part of the district lies shall be separately bound. The bound books of assessment receipts shall be endorsed 'Assessments of the (here give the name of the district) Watershed Improvement District due on the first Monday of August, 19.....,' and the same endorsement shall be printed at the top of each assessment receipt. The necessary cost of printing and binding such books of assessment receipts and the filling in of the same shall be a proper charge against the district and shall be paid by the board of trustees.

"(c) During the month of July next following the confirmation of the assessment roll the district shall mail to the landowners the receipts for the first annual installment with the blanks duly filled in. The district shall also remove from the bound books, and retain, the receipts for the second and third annual installments. On or before the 25th day of such month the appropriate bound book of stubs, with the names of the property owners and assessment and installment amounts duly filled in, shall be delivered to the board of commissioners of each county wherein any part of the district lies. On or before the first Monday of August next following the said boards of commissioners shall cause such bound books to be delivered to their respective county tax collectors, together with appended orders in substantially the following form:

"Tax Collector, ... County:

"This is to certify that the attached book of assessment stubs embraces watershed assessments made on certain lands in the County of ..... which are located within the boundaries of the ..... Watershed Improvement District. The affected landowners, unless otherwise indicated to the contrary, have elected to pay their assessments in installments, the first of which becomes due on the first Monday of August, 19....., and must be paid and collected within the time and in the manner required by law. (See G. S. 139-27.) If such installment is not paid on or before the first day of September, 19....., the unpaid balance of the entire assessment becomes due with interest at the rate of one-third of one per cent (1/3 of 1%) per month, or fraction thereof, as set forth in subsection (i) of G. S. 139-27. You will enter the dates of payments on the stubs and retain the book of stubs in a safe place for use in recording subsequent annual installments. You will make monthly settlements of your collections with the secretary-treasurer of the ..... Watershed Improvement District, and in all other respects you will discharge your duties as tax collector as required by law.

"In witness whereof I have hereunto set my hand and official seal, this ..... day of ....., 19.....

.....

Chairman, Board of Commissioners,

..... County.

"(d) The procedure for the second and third annual installments shall be as set forth in this subsection. The district shall mail the re-

ceipts for such installments with blanks duly filled in to the landowners during the month of July, one and two years, respectively, after the mailing of the receipts for the first installment. On or before the 25th day of such month there shall be delivered to the boards of county commissioners a notice of the due date of the installment. On or before the first Monday of August next following the said boards of commissioners shall cause to be delivered to their respective county tax collectors orders in substantially the following form, omitting therefrom the appropriate bracketed words and phrases:

"Tax Collector ..... County:

"This is to certify that the (second) (third) installment of the watershed assessment of the ..... Watershed Improvement District becomes due on the first Monday of August, 19....., and must be paid and collected within the time and in the manner required by law. (See G. S. 139-27.) If such installment is not paid on or before the first day of September, 19....., the unpaid balance of the entire assessment becomes due with interest at the rate of one-third of one per cent (1/3 of 1%) per month, or fraction thereof, as set forth in subsection (i) of G. S. 139-27. You will enter the dates of payments on the stubs (and retain the book of stubs in a safe place for use in recording the third annual installment) (and thereafter retain or dispose of the book of stubs in the manner provided by law). You will make monthly settlements of your collections with the secretary-treasurer of the ..... Watershed Improvement District, and in all other respects you will discharge your duties as tax collector as required by law.

"In witness whereof I have hereunto set my hand and official seal, this ..... day of ....., 19.....

.....

Chairman, Board of Commissioners,

..... County.

"(e) All watershed assessments shall be collected by the county tax collector in the same manner as county taxes, except as otherwise herein provided, and such collections shall be enforced in the manner provided by G. S. 105-414 and subsections (f)-(v) of G. S. 105-391; provided however, that there shall be no right to proceed against personal property in enforcing such collections. The tax collector shall be required on the first day of each month to make settlements with the secretary-treasurer of the watershed improvement district of all collections of watershed assessments for the preceding month, and to deposit all moneys so collected in an account maintained in the name of the district at an official depository designated by the district. Such account shall also be used for the deposit of all other funds of the district. Expenditures from such account may be made with the approval of the trustees of the district on requisition from the chairman and the secretary-treasurer of the district. The fee allowed the tax collector for collecting the watershed assessments shall be two per cent (2%) of the amount collected, except that, where the tax collector is on a salary basis, such fee shall be paid into the general fund of the county.

"If the tax collector shall willfully fail or neglect to comply with any requirement of law concerning collection or deposit of watershed assessments, he shall be guilty of a misdemeanor, and upon conviction shall be subject to fine and imprisonment, in the discretion of the court. He shall likewise be liable to a civil action for all damages which may accrue either to the trustees of the district or the holders of its bonds, to either or both of whom a right of action is hereby given.

"(f) No statute of limitation, whether fixed by law especially referred to in this Chapter or otherwise, shall bar the right of the district to enforce any remedy provided by law for the collection of unpaid assessments, save from and after ten years from default in the payment thereof, or, if payable in installments, ten years from the default in the payment of any installment. No penalties prescribed for failure to pay taxes shall apply to watershed assessments, but they shall bear interest as herein provided only.

"(g) All proceedings for watershed assessments under the provisions of this Article shall be regarded as proceedings in rem, (and no mistake or omission as to the name of the owner or person interested in any tract or parcel of land affected thereby shall be regarded as substantial mistake or omission.)

"139-28. Fiscal Powers of Governing Body; May Hold Referendum on Question of Incurring Indebtedness and Issuing Bonds. The trustees of any watershed improvement district shall have power, subject to the conditions and limitations of this Article, and with the approval of the Local Government Commission, to incur indebtedness and issue bonds of the watershed improvement district to defray any part of the expenses of the district. If the repayment of any such indebtedness or bonds be limited to the proceeds of benefit assessments to be levied by the district, the indebtedness may be incurred or bonds issued with or without a referendum. If their repayment be not so limited, a referendum shall be required, upon which all qualified voters residing within the district shall be eligible to register and vote. If a referendum is to be held the said trustees shall request the board or boards of election of each county wherein any part of the district lies to call a referendum on the question of whether the district shall incur an indebtedness or issue bonds for one or more of the purposes for which it was created.

"139-29. Conduct of Referendum. Such referendum may be held at the same time as the initial or a subsequent election for officers of the district. Such referendum shall be conducted in the manner provided for the conduct of elections for officers by the last two paragraphs of subsection (c) of G. S. 139-21; except that in place of the provisions thereof requiring that

the ballots contain the names of nominees, the title and term of office, and the instruction as to the number of candidates to be voted upon, the ballots shall contain a question and a voting instruction in the form certified to the board or boards of election by the trustees of the district. The form of the said question and instruction, with appropriate insertions and deletions, shall be substantially as follows:

"Shall the ..... Watershed Improvement District (incur an indebtedness to ..... in the amount of .....) (issue bonds in the amount of .....) for the purpose of .....? Vote 'Yes' or 'No'.

"139-30. Order Authorizing Governing Body to Incur Indebtedness or Issue Bonds. If a majority of the votes cast in such referendum, shall have been cast in favor of incurring the indebtedness or issuing the bonds, the Local Government Commission shall enter on record an order authorizing the trustees of the district to incur the indebtedness or issue the bonds for one or more of the purposes for which such district was created.

"139-31. Form of Indebtedness Incurred and Bonds Issued. The form of indebtedness incurred and bonds issued by the watershed improvement district shall be that adopted by the trustees of the watershed improvement district and approved by the Local Government Commission.

"139-32. Annual Assessment for Payment of Interest or to Amortize Indebtedness or Bonds. The trustees of the watershed improvement district shall, if necessary for the payment of the interest on such indebtedness or bonds and to amortize such indebtedness or bonds in such a manner as may be approved by the Local Government Commission, levy an annual assessment on all the real estate in the watershed improvement district subject to assessment under G. S. 139-25 to 139-27 to pay such interest and to amortize such indebtedness or bonds. Such additional assessment shall be apportioned and collected in the same manner as the assessment provided for in G. S. 139-25.

"139-33. Powers Granted Additional to the Powers of Soil Conservation Districts; Soil Conservation Districts to Continue to Exercise their Powers. The powers herein granted to watershed improvement districts shall be additional to those of the soil conservation district in which the watershed improvement district is situated; and such soil conservation district or districts shall be authorized, notwithstanding the creation of the watershed improvement district, to continue to exercise their powers within the watershed improvement district.

"139-34. Power to Incur Debts and Accept Gifts, Etc. A watershed improvement district shall have the power, in the manner hereinabove set forth, to incur debts and repay the same over such period of time and at such rate or rates of interest, not exceeding six per centum (6%) per annum, as the lender or lenders agree to; and to accept, receive, and expend gifts, grants or loans from whatever source received.

"139-35. Supervision by State Board. (a) The State Board, to the extent herein provided, shall have supervisory responsibility over the programs provided for in this Article.

"(b) Each watershed improvement district (to the extent that moneys are made available therefor by the State of North Carolina or any of its agencies or political subdivisions, by any municipality, or otherwise) shall:

"(1) By means of suitable measuring and recording devices and facilities and at intervals prescribed by the Board, record the inflow of water into and release of water from such reservoirs of the district as may be designated by the Board; and

"(2) Make periodic reports of such records as required by the Board.

"(c) The State Board shall be the State agency to which watershed work plans developed under Public Law 566 (83rd Congress, as amended) for contemplated works of improvement shall be submitted for review and approval or disapproval. All other work plans for contemplated works of improvement pursuant to this Chapter shall likewise be submitted to the Board for review and for approval or disapproval. The Board shall approve such work plans if, in its judgment, the work plans

"(1) provided for proper and safe construction of proposed works of improvement;

"(2) show that the construction and operation of the proposed works of improvement (in conjunction with other such works and related structures of the district and the watershed) will not appreciably diminish the flow of useful water that would otherwise be available to existing downstream water users during critical periods; and

"(3) are otherwise in compliance with law.

"No work of improvement may be constructed or established without the approval of work plans by the Board pursuant to this subsection. The construction or establishment of any such work of improvement without such approval, or without conforming to a work plan approved by the Board, may be enjoined. The Board may institute an action for such injunctive relief in the Superior Court of any county wherein such construction or establishment takes place, and the procedure in any such action shall be as provided in Article 37, Chapter 1 of the General Statutes.

"(d) In conjunction with any work plans submitted to the Board under subsection (c) of this Section, a watershed improvement district shall submit in such form as the Board may prescribe a plan of its proposed method of operations for works of improvement covered by the work plans and for related structures. With the approval of the Board, the district may amend its initial plan of operations from time to time. Board approval of the initial plan of operations shall not be required.

"(e) If the Board has reason to believe that a watershed improvement district is not operating any work of improvement or related structure in accordance with its plan of operations as amended, the Board on its own motion or upon complaint may order a hearing to be held thereon upon not less than 30 days' written notification to the district and complainant, if any, by personal service or registered mail. Notice of such hearing shall be published at least once a week for two successive weeks. In connection with any such hearing the Board shall be empowered to administer oaths; to take testimony; and, in the same manner as the Superior Court, to order the taking of depositions, issue subpoenas, and to compel the attendance

of witnesses and production of documents. If the Board determines from evidence of record that the district is not operating any work of improvement or related structure in accordance with its plan of operations, as amended, the Board may issue an order directing the district to comply therewith or to take other appropriate corrective action. Upon failure by a district to comply with any such order, the Board may institute an action for injunctive relief in the Superior Court of any county wherein such noncompliance occurs, and the procedure in any such action shall be as provided in Article 37, Chapter 1, of the General Statutes.

"(f) As used in this Section the term 'critical periods' means monthly periods, or other periods designated by the Board when (in the area affected) below-average stream flows coincide with above-average utilization of water; provided, that where insufficient data are available to permit reliable determinations concerning these matters, the Board may adopt as the 'critical period' for any particular area the period June 15-September 15.

"139-36. Dissolution of Watershed Improvement District. A watershed improvement district, after all outstanding debts or obligations have been satisfied, if any, may be dissolved upon:

"(1) Petition filed with the supervisors of the soil conservation district or districts wherein the watershed improvement district lies, setting forth the change of circumstances which causes such district to be no longer of any benefit, and signed by any 100 owners of land lying within the limits of the watershed improvement district, or a majority of such owners if their total number be less than 200;

"(2) Public hearings held, as provided in Section 139-18; and

"(3) An order of the supervisors of the soil conservation district or districts approving the action sought.

"If the foregoing requirements are met, the supervisors shall declare the watershed improvement district to be dissolved. Such declaration of dissolution shall be recorded in their official minutes, and the same certified to the State Soil Conservation Committee, the State Board, and the Clerk of the Superior Court of the county or counties wherein any part of the district lies for recordation in the special proceedings docket of such Clerk.

"139-37. Participation by Cities, Counties, Industries and Others.

"(a) Any industry, or private water user, the State of North Carolina, the United States or any of its agencies, any county, municipality or any other political subdivision may participate in watershed improvement district works or projects upon mutually agreeable terms relating to such matters as the construction, financing, maintenance and operation thereof.

"(b) Any county or municipality may contribute funds toward the construction, maintenance and operation of watershed improvement district works or projects, to the extent that such works or projects:

"(1) Provide a source (respectively) of county or municipal water supply; or protect an existing source of such supply, enhance its quality or increase its dependable capacity or quantity; or

"(2) Protect against or alleviate the effects of flood water or sediment damages affecting, or provide drainage benefits for, (respectively) county

or municipally-owned property or the property (respectively) of county or municipal inhabitants located outside the boundaries of such district but within the respective boundaries of such county or municipality.

"County and municipal expenditures for the aforesaid purposes are declared to be necessary expenses; and county expenditures therefor are declared to be for special purposes, for which the special approval of the General Assembly is hereby given."

Sec. 9. Nothing in the provisions of this Act shall change or modify the substantive law relative to the rights, powers and duties concerning the utilization or disposal of water as the same existed under the common and statute law of this State immediately prior to the ratification of this Act.

Sec. 10. Amend Chapter 139 of General Statutes by adding a new Article designated as Article III and reading as follows:

"ARTICLE III

"Expenditure by Counties.

"§ 139-39. Alternative Method of Financing Watershed Improvement Programs by Special County Tax. The board of county commissioners in any county is authorized to call a special election to determine whether it be the will of the qualified voters of the county that they levy and cause to be collected annually, at the same time and in the same manner as the general county taxes are levied and collected, a special tax at a rate not to exceed twenty-five cents (25¢) on each one hundred dollars ($100.00) valuation of property in said county, to be known as a 'Watershed Improvement Tax', the funds therefrom, if the levy be authorized by the voters of said county, to be used for the prevention of flood water and sediment damages, and for furthering the conservation, utilization and disposal of water and the development of water resources, within the county.

"§ 139-40. Conduct of Election. (a) There shall be no new registration of voters for such an election. The registration books shall be open for registration of new voters in said county and registration of any and all legal residents of said county, who are or could legally be enfranchised as qualified voters for regular general elections, shall be carried out in accordance with the general election laws of the State of North Carolina as provided for local elections. Notice of such registration of new voters shall be published in a newspaper circulated in said county, once, not less than 30 days before and not more than 40 days before, the close of the registration books, stating the hours and days for registration. The special election, if called, shall be under the control and supervision of the county board of elections.

"(b) The form of the question shall be substantially the words 'For Watershed Development Tax', and 'Against Watershed Development Tax', which alternates shall appear separated from each other on one ballot containing opposite, and to the left of each alternate, squares of appropriate size in one of which squares the voters may make a mark 'X' to designate the voter's choice for or against such tax. Such ballot shall be printed on white paper and each polling place shall be supplied with a

sufficient number of ballots not later than the day before the election. At such special election the election board shall cause to be placed at each voting precinct in said county a ballot box marked 'Watershed Improvement Tax Election'.

"(c) The duly appointed judges and other election officials who are named and fixed by the county board of elections shall count the ballots so cast in such election and the results of the election shall be officially canvassed, certified and announced by the proper officials of the board of elections, according to the manner of canvassing, certifying and announcing the elections held under the general election laws of the State as provided for local elections.

"(d) If a majority of those voting in such election favor the levying of such a tax, the board of commissioners of such county is authorized to levy a special tax at a rate not to exceed twenty-five cents (25¢) on each one hundred dollars ($100.00) of assessed value of real and personal property taxable in said county, and the General Assembly does hereby give its special approval for the levy of such special tax.

"§ 139-41. Powers of County Commissioners. (a) If the majority of the qualified voters voting in such election favor the levying of such tax, then and in that event, the board of county commissioners shall have all powers of soil conservation districts as set forth in subdivisions (1), (2), (3), (5), (6), (7), (8), and (10) of G. S. 139-8 (subject to the limitations set forth in subdivision (12) of such Section) concerning flood prevention, development of water resources, flood water and sediment damages, and conservation, utilization and disposal of water. It is the intention of the General Assembly that such powers shall normally be exercised within all or parts of one or more single watersheds, or of two or more watersheds tributary to one of the major drainage basins of the State, but exceptions to this policy may be permitted in appropriate cases; provided, however, it is not the intention of the General Assembly to authorize hereby the diversion of water from one stream or watershed to another.

"(b) The board of county commissioners may itself directly exercise such powers or, for that purpose, may create a Watershed Improvement Commission to be composed of three members appointed by the board. The terms of office of the members of the commission shall be six years, with the exception of the first two years of existence of the commission, in which one member shall be appointed to serve for a period of two years, one for a period of four years, and one for a period of six years; thereafter all members shall be appointed for six years, and shall serve until their successors have been appointed and qualified. Vacancies in the membership of the commission occurring otherwise than by expiration of term shall be filled by appointment to the unexpired term by the board of county commissioners. The commission shall hold its first meeting within 30 days after its appointment as provided for in this Act, and the beginning date of all terms of office of commissioners shall be the date on which the commission holds its first meeting. The provisions of G. S. 139-22 and 139-23 concerning the organization and compensation of the elected board of trustees of a watershed improvement district, and concerning the powers and

duties of such trustees respecting personnel, surety bonds and audits, shall apply to the commission. The commission shall provide the board of county commissioners 30 days prior to July 1 a proposed budget for the fiscal year commencing on July 1 and shall provide the board of county commissioners an audit by a certified public accountant within 60 days after the expiration of the fiscal year ending on June 30.

"(c) The board of county commissioners may create a single watershed improvement commission for the entire county or may create separate commissions for individual projects or watersheds.

"(d) Counties which carry out watershed improvement programs under this Article shall be subject to supervision by the State Board pursuant to G. S. 139-35 to the same extent as are watershed improvement districts, and, for this purpose, the words 'districts' and 'watershed improvement districts', wherever they occur in such Section, shall be read as referring to counties.

"(e) Any industry or private water user, the State of North Carolina, the United States or any of its agencies, any municipality, any other county, or any other political subdivision may participate in county watershed improvement programs hereunder in the same manner and to the same extent as provided by G. S. 139-37 with respect to participation in watershed improvement district programs.

"§ 139-42. Article Intended as Supplementary. This Article is intended to provide an alternative method of financing and operating watershed improvement programs, supplementary to the method set forth in Article II of this Chapter.

"§ 139-43. Transfer and Continuation of Programs. A watershed improvement program initiated under this Article may be discontinued as a county program and thereafter transferred to or renewed as a watershed district program under Article II, upon compliance with the provisions of said Article II for initiating district programs; and a watershed improvement district program initiated under Article II may be discontinued as a district program and thereafter transferred to or renewed as a county program under this Article, upon compliance with the provisions of this Article for initiating county programs."

The Fund shall consist of all moneys and funds paid into the system from the Firemen's Relief Fund of the City of Henderson from time to time and as provided by law; all gifts of money, property of all kinds and description, proceeds from property of all kinds and description, all moneys, funds or property transferred to the Fund by will, devise, bequest or by other means provided by law for the transfer or devolution of property, donations and gifts made by the firemen of the City of Henderson, investments, earnings on investments, interest, dividends and any other funds or property that may accrue to the Fund, and the board of trustees is authorized to accept gifts, devises and bequests, and any property or funds that may in any wise be transferred in operation of law. Refunds may be made from the Fund to anyone entitled thereby by reason of clerical mistake or any clerical error or inadvertence. The Fund shall be liable for the payment of the supplemental benefits hereinafter referred to and defined. Any donations made to the Henderson City Fire Department in excess of the amount of one hundred dollars ($100.00) may be given and transferred to the Fund by a majority vote of the members of the Henderson City Fire Department. The Fund shall be liable for all reasonable and necessary expenses of administration as shall be determined by the board of trustees.

Sec. 4. Eligibility for supplemental benefits. For the purpose of this Section "supplemental benefit" as used in this Section shall be defined to mean any sum of money payable by the Fund to a fireman of the Henderson City Fire Department who is a full-time paid member of the Henderson Fire Department at the time of ratification of this Act or any person who shall become such a full-time paid member, provided that no person shall be eligible for benefits unless or until such person has twenty years service in the Henderson Fire Department, whether continuous or not, and has been retired as a member of the Henderson Fire Department and is at least sixty (60) years old, or because of a disability. Any disability retirement shall be on a medical board's recommendation. The board of trustees shall designate a medical board composed of three physicians. If required, other physicians may be employed in special cases. The medical board shall arrange for and make physical examinations and pass upon all medical examinations, all essential statements and certificates by or on behalf of a member in connection with an application for disability retirement and shall report in writing to the board of trustees its conclusion and recommendations upon all matters referred to it. Upon the application of a member for disability retirement, he may be retired by the board of trustees not less than thirty days nor more than ninety days next following the date of filing application, provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for further performance of duty, that such incapacity is likely to be permanent and that such member should be retired. Once each year during the first five years following retirement of a member on a disability retirement allowance and once in every three-year period thereafter, the board of trustees may, and upon his application shall, require any disabled member who has not yet attained the age of sixty (60) years to undergo a medical examination, such examination to be made at the place of residence of said member or other place mutually agreed upon, by a physician or physicians designated by the board of trustees. Should any disabled member who has not yet attained the age of sixty (60) years refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the board of trustees, his allowance may be discontinued until his withdrawal of such refusal and should his refusal continue for one year, all his rights in and to his pension may be revoked by the board of trustees. Should the medical board report and certify to the board of trustees that such disabled member is engaged in or is able to engage in a gainful occupation paying more than the difference between his retirement allowance and his monthly compensation at time of disability, and should the board of trustees concur in such report, then the amount of his pension shall be reduced to an amount which together with his pension and the amount earnable by him, shall equal the amount of his monthly compensation. Should his earning capacity be later changed, the amount of his pension may be further modified. Should he be restored to full employment in Henderson Fire Department or by any other employer at a salary equal to his compensation at the time of disability, his retirement shall cease. Should it be determined he is physically

able to return to full employment in the Henderson Fire Department and he is offered full employment in the Henderson Fire Department before he has attained sixty (60) years of age and he refuses employment, he forfeits all rights to retirement pension. It is further provided that this Act does not modify or alter in any way the Workmen's Compensation Laws of the State of North Carolina. All firemen of the Henderson City Fire Department, who retire under the above conditions, including disability retirement, as provided herein, shall receive for the remainder of his life a minimum supplemental benefit of twenty-five dollars ($25.00) per month, except that the total amount paid all retired members of the Henderson City Fire Department shall not exceed eighty per cent (80%) of the income received by the Fund during the preceding fiscal year from interest on investment of capital funds, plus the amount derived from other sources. In the event that eighty per cent (80%) of the income above-mentioned is insufficient to pay such minimum of twenty-five dollars ($25.00) per month to each person receiving supplemental benefit, the amount shall be equally prorated among the retired members of the Henderson City Fire Department. Each retired fireman receiving supplemental benefit in accordance with this Act shall receive the same amount of supplemental benefit per month; provided, that the maximum payment to any retired member of the Henderson City Fire Department from said Fund shall be fifty dollars ($50.00) per month. All amounts received for the Fund, except eighty per cent (80%) of the interest and funds received from other sources, which is to be used for the payment of supplemental benefits to retired members of the Henderson City Fire Department, as herein provided, together with any part of said eighty per cent (80%) which is not paid out during the fiscal year, shall become a part of said Fund and may be invested as provided in this Act. Should any fireman die, subsequent to the payment of a supplemental benefit for any preceding month and prior to the payment of any supplemental benefit in the month in which such fireman dies, then such supplemental benefit for that month shall be paid to the deceased fireman's personal representative. The board of trustees shall have the authority and power to promulgate rules and regulations to the end that the supplemental benefits herein provided may be properly administered and carried out and for the purpose of achieving the objectives herein sought.

Sec. 5. The provisions of Section 4 of this Act shall not become effective as to the payment of any supplemental benefits thereunder until on and after July 1, 1959.

Sec. 7. Should said election carry, the City of Asheville is hereby authorized and empowered to plan for extending and to extend, municipal public works into the territory coming into the city limits by virtue of said election. The City of Asheville is granted the right to acquire the necessary lands in connection with such public works and to acquire property in connection therewith by condemnation, if necessary, under the present law governing condemnation of property within the present city limits of the City of Asheville, which said law is hereby extended to cover such added territory.

This Act shall

not be interpreted to make the city responsible for establishing any property line; it shall be expressly the obligation of the property owner requesting boundary changes to have filed a plat of his property with the Buncombe County Register of Deeds. After these conditions have been met, the city council may revise said city limits boundary, and upon completion of all revisions a certified plat of the boundaries of the City of Asheville shall be duly recorded in the Buncombe County Courthouse.

Sec. 10. (a) The City of Asheville shall assume responsibility for street and storm sewer maintenance in the newly annexed area on June 30, 1960, or such date as will not interfere with the City of Asheville receiving 1960-1961 "Powell Bill" appropriations for these streets from the North Carolina State Highway Commission.

It shall be its duty to furnish all services in this area and to maintain the same standard of service as is now furnished in the present boundary limits of the City of Asheville after July 1, 1960.

Sec. 12. If the corporate limits of the City of Asheville should be extended as herein provided, the City of Asheville shall succeed to any real and personal property within the newly annexed area now held by any municipality, or special sanitary and water district (not including the Woodfin Sanitary and Water District), and in consideration of these properties the City of Asheville shall become obligated for its proportionate part of the bonded indebtedness of these agencies as hereinafter described. The City of Asheville shall assume a portion of the bonded debt of all water and sewer districts or municipalities in Buncombe County where part or parts of the territory of such water and sewer districts or munic-

(3) Grandnephews and Grandnieces. (4) Great-Grandnephews and Great-Grandnieces. Divide equally among the great-grandnephews and great-grandnieces of the intestate any property not taken under the preceding subdivisions of this subsection.

"(e) If a natural parent has previously married, is married to, or shall marry an adoptive parent, the adopted child is considered the child of such natural parent for all purposes of intestate succession.

"Article 5. Legitimated Children.

S. 49-12 or in accordance with the applicable law of any other jurisdiction, and the heirs of such child, are entitled by succession to property by, through and from his father and mother and their heirs the same as if born in lawful wedlock; and if he dies intestate, his property shall descend and be distributed as if he had been born in lawful wedlock.

"Article 6. Illegitimate Children.

"§ 29-19. Succession By Illegitimate Children. For purposes of intestate succession, an illegitimate child shall be treated as if he were the legitimate child of his mother, so that he and his lineal descendants are entitled to take by, through and from his mother and his other maternal kindred, both descendants and collaterals, and they are entitled to take from him.

"§ 29-20. Descent and Distribution Upon Intestacy of Illegitimate Children. All the estate of a person dying illegitimate and intestate shall descend and be distributed, subject to the payment of costs of administration and other lawful claims against the estate, and subject to the payment by the recipient of State inheritance taxes, as provided in this Article.

"§ 29-21. Share of Surviving Spouse. The share of the surviving spouse of an illegitimate intestate shall be the same as provided in G. S. 29-14 for the surviving spouse of a legitimate person except:

(1) If the intestate is not survived by a child, children or any lineal descendant of a deceased child or children, but is survived by his or her mother, a one-half undivided interest in the real property and the first ten thousand dollars ($10,000.00) in value plus one-half of the remainer of the personal property; or

(2) If the intestate is not survived by a child, children or any lineal descendant of a deceased child or children, or his mother, the surviving spouse shall take all of the net estate.

"§ 29-22. Shares of Others Than the Surviving Spouse. Those persons surviving the illegitimate intestate, other than the surviving spouse, shall take that share of the net estate not distributable to the surviving spouse, or the entire net estate if there is no surviving spouse, as follows:

(1) If the intestate is survived by only one child or by only one lineal descendant of only one deceased child, that person shall take the entire net estate or share, but if the intestate is survived by two or more lineal descendants of only one deceased child, they shall take as provided in G. S. 29-16; or

(4) If the intestate is not survived by such children or lineal descendants or by a surviving mother, the other children of the mother of the intestate, whether legitimate or illegitimate, and the lineal descendants of any such children who are deceased, shall take as provided in G. S. 29-16; or

(5) If there is no one entitled to take under the preceding subdivisions of this Section or under G. S. 29-21, the maternal grandparents shall divide the entire net estate or if either is dead the survivor shall take the entire net estate, and if neither maternal grandparent survives, then the maternal uncles and aunts of the intestate and the lineal descendants of deceased maternal uncles and aunts shall take as provided in G. S. 29-16.

"Article 7. Advancements.

"§ 29-23. In General. If a person dies intestate as to all his estate, property which he gave in his lifetime as an advancement shall be counted toward the advancee's intestate share, and to the extent that it does not exceed such intestate share, shall be taken into account in computing the estate to be distributed.

"§ 29-24. Presumption of Gift. A gratuitous inter vivos transfer is presumed to be an absolute gift and not an advancement unless shown to be an advancement.

"§ 29-25. Effect of Advancement. If the amount of the advancement equals or exceeds the intestate share of the advancee, he shall be excluded from any further portion in the distribution of the estate, but he shall not be required to refund any part of such advancement; and if the amount of the advancement is less than his share, he shall be entitled to such additional amount as will give him his full share of the intestate donor's estate.

"§ 29-26. Valuation. The value of the property given as an advancement shall be determined as of the time when the advancee came into possession or enjoyment, or at the time of the death of the intestate, whichever first occurs. However, if the value of the property, so advanced, is stated by the intestate donor in a writing signed by him and designating the gift as an advancement, such value shall be deemed the value of the advancement.

"§ 29-27. Death of Advancee Before Intestate Donor. If the advancee dies before the intestate donor, leaving an heir who takes by intestate

succession from the intestate donor, the advancement shall be taken into account in the same manner as if it had been made directly to such heir, but the value shall be determined as of the time the original advancee came into possession or enjoyment, or when the heir came into possession or enjoyment, or at the time of the death of the intestate donor, whichever first occurs. If such heir is entitled by inheritance to a lesser share in the estate than the advancee would have been entitled to had he survived the intestate donor, then the heir shall only be charged with the advancement in the proportion his share in the estate bears to the share which the advancee would have taken.

"§ 29-28. Inventory. If any person who has, in the lifetime of an intestate donor, received a part of the donor's property, refuses, upon order of the Clerk of Superior Court of the county in which the administrator or collector qualifies, to give an inventory on oath, setting forth therein to the best of his knowledge and belief the particulars of the transfer of such property, he shall be considered to have received his full share of the donor's estate, and shall not be entitled to receive any further part or share.

"§ 29-29. Release by Advancee. If the advancee acknowledges to the intestate donor by a signed writing that he has been advanced his full share of the intestate donor's estate, both he and those claiming through him shall be excluded from any further participation in the intestate donor's estate.

"Article 8.

"Election to Take Life Interest in Lieu of Intestate Share.

"§ 29-30. Election of Surviving Spouse to Take Life Interest in Lieu of Intestate Share Provided. (a) In lieu of the share provided in G. S. 29-14 or G. S. 29-21, the surviving spouse of an intestate or the surviving spouse who dissents from the will of a testator shall be entitled to take as his or her intestate share a life estate in one-third in value of all the real estate of which the deceased spouse was seized and possessed of an estate of inheritance at any time during coverture, except that real estate in which the surviving spouse has waived his or her rights by joining with the other spouse in a conveyance thereof.

"(b) Regardless of the value thereof and despite the fact that a life estate therein might exceed the fractional limitation provided for in subsection (a), the life estate provided for in subsection (a) shall include a life estate in the usual dwelling house occupied by the surviving spouse at the time of the death of the deceased spouse if such dwelling house were owned by the deceased spouse at the time of his or her death, together with the outbuildings, improvements and easements thereunto belonging or appertaining, and lands upon which situated and reasonably necessary to the use and enjoyment thereof, as well as a fee simple ownership in the household furnishings therein.

"(c) The election provided for in subsection (a) may be made at any time within six months after the death of the deceased spouse by the filing of a notice thereof, in the nature of a petition, with the Clerk of

Superior Court of the county in which the administration of the estate is pending or should be commenced. The notice of election shall:

(1) Be directed to the clerk with whom filed;

(2) State that the surviving spouse making the same elects to take under this Section rather than under the provisions of G. S. 29-14 or G. S. 29-21, as applicable;

The notice of election, whether in person or by attorney, shall be filed as a record of the court, and a summons together with a copy of the notice shall be served upon each of the interested persons named in the notice of election.

"(d) In case of election to take a life estate in lieu of an intestate share, as provided in subsection (a), the Clerk of Superior Court, with whom the notice of election has been filed, shall summon and appoint a jury of three disinterested persons who being first duly sworn shall promptly allot and set apart to the surviving spouse the life estate provided for in subsection (a) and make a final report of such action to the clerk.

"(e) The final report shall be filed by the jury not more than sixty days after the summoning and appointment thereof, shall be signed by all jurors, and shall describe by metes and bounds the real estate in which the surviving spouse shall have been allotted and set aside a life estate. It shall be filed as a record of court and a certified copy thereof shall be filed and recorded in the office of the register of deeds of each county in which any part of the real property of the deceased spouse, affected by the allotment, is located.

"(f) In the election and procedure to have the life estate allotted and set apart provided for in this Section, the rules of procedure relating to partition proceedings shall apply except insofar as the same would be inconsistent with the provisions of this Section.

"(g) Life estates taken by election under this Section shall not be subject to the payment of debts due from the estate of the deceased spouse, except those debts secured by a purchase money mortgage or purchase money deed of trust.

"(h) If no election is made in the manner provided for in subsection (c) within six months after the death of the deceased spouse, the surviving spouse shall be conclusively deemed to have waived his or her right to

elect to take under the provisions of this Section, and any interest which the surviving spouse may have had in the real estate of the deceased spouse by virtue of this Section shall terminate."

The General Assembly of North Carolina do enact:

ARTICLE I. ELECTION ON CONSOLIDATION

Section 1. PETITION. After June 1, 1960, the qualified voters of the Towns of Hazelwood and Waynesville shall have the right to petition the mayor and board of aldermen of their respective towns for the call of an election on the question of consolidation of said towns. A petition in either town shall be signed by at least fifteen per cent (15%) of the qualified voters therein; shall be certified by the town clerk as to the sufficiency thereof; and shall be presented to the mayor and board of aldermen at their next regular meeting following the date of receipt of such petition or at a special meeting called for the purpose of acting upon such petition.

Sec. 2. ACTION UPON PETITION. Upon presentation of such a petition, duly certified by the town clerk, the mayor and board of aldermen so petitioned shall adopt a resolution directing the Board of Elections of Haywood County to call an election on the question of consolidation, and shall thereupon forward copies of such petition and resolution to said Board of Elections.

Sec. 3. COUNTY BOARD OF ELECTIONS: PROCEDURE. Upon receipt of such a resolution from one of said towns, the Board of Elections shall notify the mayor and board of aldermen of the other of said towns that such resolution has been filed. The mayor and board of aldermen of the other town shall within ten (10) days cause to be published in a newspaper having general circulation in said other town a notice stating that a request for an election on the question of consolidation of the two towns has been filed with the County Board of Elections by the petitioning town and that if a petition requesting an election on the question of consolidation signed by fifteen per cent (15%) of the qualified voters of said other town is presented within twenty (20) days from the date of publication of the notice, said mayor and board of aldermen will also adopt a resolution directing the Board of Elections to call such an election to be held at the same time as the election in the first petitioning town. Upon receipt of such resolution and petition from the mayor and board of aldermen of the second petitioning town, the Board of Elections shall call an election in each town on the same day which day shall be not later than sixty (60) days from the date of call. If no such petition and resolution is filed by said other town within twenty-five (25) days from the date of publication of notice in said other town, the Board of Elections shall proceed to call an election on the question of consolidation in the petitioning town.

All such elections called and held under this Section shall be held pursuant to the municipal election law, Article 3, Chapter 160, General

If such an election is held in only one of said towns as hereinabove provided, and a majority of the votes cast are for consolidation, the proposition shall be carried. In any event, the Board of Elections shall certify the results of any such election to each of said towns and the mayor and board of aldermen of each town shall cause such certification to be recorded in the official minute book of the town.

Sec. 5. CONSOLIDATION. If the results of an election or elections are for consolidation, the two towns shall become consolidated under the charter set forth in Article II of this Act upon the taking of the oath of office of the mayor and board of aldermen elected pursuant to said charter at the regular municipal election next following the consolidation election held pursuant to arrangements made by the boards of aldermen of both towns acting jointly; provided, that at any time between an election for consolidation which has carried and the next following regular municipal election, the mayor and board of aldermen of the towns may consolidate said towns under the charter set forth in Article II of this Act to become effective at the beginning of the next succeeding fiscal year by joint resolution adopted by each and form one governing body as follows: the Mayor of Waynesville shall be mayor of the consolidated town; the Mayor of Hazelwood shall become the mayor pro tem; and all the aldermen of each of the towns shall become the board of aldermen to serve until the next regular municipal election. Sec. 6. CONTINUING AUTHORITY. The voters of each of said towns shall continue to have the right to petition for an election on the question of consolidation in the event that no petitions are filed in 1960 or in the event that the question of consolidation is defeated at any election or elections held in 1960, and if defeated in any subsequent elections shall continue as a method by which the voters of said towns may petition for an election on the question of consolidation; provided, such right of petition may be exercised only in even-numbered years and at any time during said even-numbered years.

AN ACT TO AUTHORIZE IREDELL COUNTY TO ZONE CERTAIN LANDS ADJACENT TO COWANS FORD LAKE.

The General Assembly of North Carolina do enact:

Section 1. For the purpose of promoting health, safety, morals, or the general welfare, the board of county commissioners of a county is hereby empowered to regulate and restrict.

(a) the height, number of stories, and size of buildings and other structures,

(b) the percentage of lot that may be occupied,

(c) the size of yards, courts, and other open spaces,

(d) the density of population, and

(e) the location and use of buildings, structures, and land for trade, industry, residence or other purposes, except farming. No such regulations shall affect bona fide farms, but any use of such property for non-farm purposes shall be subject to such regulations. Such regulations may provide that a board of adjustment may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules therein contained.

Sec. 2. For any and all said purposes, the board of commissioners may divide the county, or portions of it as determined in accordance with the provisions of Section 4 below, into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of this Act; and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land. All such regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts.

Sec. 3. Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the

general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water sewerage, schools, parks, and other public requirements. Such regulations shall be made with reasonable consideration, among other things, as to the character of each district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such county. Such regulations shall further be made with reasonable consideration to expansion and development of municipalities within the county, so as to provide for the orderly growth and development of such municipalities.

Sec. 4. The county zoning ordinance may regulate all territory in the county outside the zoning jurisdiction of any municipalities within the county.

Where the board of commissioners determines that it is not necessary to zone the entire county in order to serve the public interest, the board may, after a public hearing, designate one or more portions of the county as a zoning area or areas. Any such area or areas may be regulated in the same manner as if the entire county were zoned, and the remainder of the county need not be regulated.

Sec. 5. In order to avail itself of the powers conferred by this Act, the board of commissioners shall appoint a county planning board or a joint planning board under the provisions of G. S. 153-9(40) or of a special Act of the General Assembly. If the board of commissioners creates one or more zoning areas within the county under the provisions of Section 4 hereof, it shall also appoint an advisory commission for each zoning area, composed of residents of the area. Each advisory commission shall be charged with the duty of making recommendations to the planning board and the board of commissioners concerning zoning regulations for its area.

Sec. 6. The county planning board or joint planning board shall have the duty of preparing a zoning plan, including both the full text of a zoning ordinance and a map or maps showing proposed district boundaries. The planning board may hold such public hearings as it deems necessary in the course of preparing this plan. The planning board shall certify this plan to the board of county commissioners.

On receipt of a zoning plan from the county planning board, the board of commissioners shall hold a public hearing thereon, after which it may adopt the zoning ordinance and map as recommended, adopt it with modifications, or reject it.

The zoning ordinance, including the map or maps, may from time to time be amended, supplemented, changed, modified, or repealed. No amendment shall become effective unless it first be submitted to the planning board for its recommendations; failure of the planning board to make recommendations for a period of 30 days after the amendment has been referred to it shall constitute a favorable recommendation. No amendment may be adopted until after a public hearing thereon.

Sec. 7. Whenever in this Act a public hearing is required, all parties in interest and other citizens shall be given an opportunity to be heard. A

notice of such public hearing shall be given once a week for two successive calendar weeks in a newspaper published in the county, or, if there be no newspaper published in the county, by posting such notice at four public places in the county, said notice to be published the first time or posted not less than fifteen days prior to the date fixed for said hearing.

Sec. 8. If it exercises the powers granted by this Act, the board of commissioners shall provide for the appointment of a board of adjustment consisting of five members, each to be appointed for three years; provided, that the board of commissioners in the appointment of the original members of such board, or in the filling of vacancies caused by the expiration of the terms of the existing members of any such board, may make appointments of certain members for less than three years to the end that thereafter the terms of all members shall not expire at the same time. The board of commissioners may, in its discretion, appoint not more than two alternate members to serve on such board in the absence, for any cause, of any regular members. Such alternate member or members shall be appointed for the same term or terms as regular members, and shall be appointed in the manner as regular members and at the regular times for appointment. Each alternate member, while attending any regular or special meeting of the board and serving in the absence of any regular member, shall have and exercise all the powers and duties of such regular member so absent.

Such board of adjustment shall hear and decide appeals from and review any order, requirement, decision, or determination made by an administrative official charged with the enforcement of any ordinance adopted pursuant to this Act. Such appeal may be taken by any person aggrieved or by an officer, department, board, or bureau of the county. Such appeal shall be taken within such time as shall be prescribed by the board of adjustment by general rule, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal, specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment, after notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the board of adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken and on due cause shown. The board of adjustment shall fix a reasonable time for the hearing of the appeal and give due notice thereof to the parties, and decide the same within a reasonable time. The board of adjustment may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from, and shall make such order, requirement, decision, or determination as in its opinion ought to be made in the premises, and to that end shall have all the powers of the officer from whom the appeal is taken.

The zoning ordinance may provide that the board of adjustment may permit special exceptions to the zoning regulations in the classes of cases or situations and in accordance with the principles, conditions, safeguards, and procedures specified in the ordinance. The ordinance may also authorize the board to interpret the zoning maps and pass upon disputed questions of lot lines or district boundary lines and similar questions as they arise in the administration of the ordinance. The board shall hear and decide all such matters referred to it or upon which it is required to pass any such ordinance.

Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of such ordinance, the board of adjustment shall have the power, in passing upon appeals, to vary or modify any of the regulations or provisions of such ordinance relating to the use, construction or alteration of buildings or structures or the use of land, so that the spirit of the ordinance shall be observed, public safety and welfare secured, and substantial justice done.

The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision or determination of any administrative official charged with the enforcement of an ordinance adopted pursuant to this Act, or to decide in favor of the applicant any matter upon which it is required to pass under any such ordinance, or to grant a variance from the provisions of such ordinance. Every decision of such board shall be subject to review by the Superior Court by proceedings in the nature of certiorari.

Sec. 9. In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained, or any building, structure, or land is used in violation of this Act, or of any ordinance or other regulation made under authority conferred hereby, the proper authorities of the county, in addition to other remedies, may institute any appropriate action or proceedings:

(a) to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use,

(b) to restrain, correct, or abate such violation,

(c) to prevent the occupancy of said building, structure, or land, or

(d) to prevent any illegal act, conduct, business, or use in or about such premises.

Sec. 10. Wherever the regulations made under authority of this Act require a greater width or size of yards or courts, or require a lower height of building or less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required in any other statute or local ordinance or regulation, the provisions of the regulations made under authority of this Act shall govern. Wherever the provisions of any other statute or local ordinance or regulation require a greater width or size of yards or courts, or require a lower height of building or a less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required by the regulations made under authority of this Act, the provisions of such statute or local ordinance or regulation shall govern.

Sec. 11. This Act shall not have the effect of repealing any zoning act or county planning act, local or general, now in force; but it shall be construed to be in enlargement of the duties, powers, and authority contained in such statutes and all other laws authorizing the appointment and proper functioning of county planning boards or zoning commissions by any county in the State of North Carolina.

Sec. 12. All of the provisions of this Act and any ordinance adopted pursuant hereto are hereby made applicable to the erection and construction of buildings by the State of North Carolina and its political subdivisions.

Sec. 13. Notwithstanding any other provisions of this Act, no territory shall be zoned or regulated pursuant to this Act which does not lie within the regulating county and within three miles of the high-water mark on the perimeter of Cowans Ford Lake which is or will be formed by the construction of Cowans Ford Dam across the Catawba River in Mecklenburg County.

Sec. 14. This Act shall apply only to Iredell County.

Sec. 15. This Act shall be in full force and effect on and after its ratification.

H. B. 729 CHAPTER 913

AN ACT TO INCREASE THE PENALTY FOR OPERATING A MOTOR VEHICLE IN EXCESS OF EIGHTY MILES PER HOUR.

WHEREAS, the operation of motor vehicles, especially high-powered late models, at extremely high rates of speed has become a major menace to the life and safety of the citizens of North Carolina; and

WHEREAS, the operation of motor vehicles at such extremely high rates of speed means almost certain death for any person involved in an accident involving such motor vehicles; and

WHEREAS, the automobile manufacturers have in recent years continued to make automobiles increasingly high powered and capable of ridiculously high speeds, frequently more than double the lawful limit, although such power and speed is useless and unjustified in the lawful operation of motor vehicles; and

WHEREAS, under the present law the maximum punishment upon conviction of speeding in excess of eighty (80) miles per hour is one hundred dollars ($100.00) or sixty (60) days imprisonment, or both, even in cases where the facts establish cruel and reckless disregard for human life and criminal conduct of the most depraved type; and

WHEREAS, it is estimated that in the past several years there have been thousands of cases of speeding in excess of eighty (80) miles per hour, often as high as one hundred (100), one hundred and ten (110) and one hundred and twenty (120) miles per hour, and yet the most punishment that can be given is no more than can be given for speeds only slightly in excess of the speed limit and for many minor traffic violations; and

WHEREAS, the court should be permitted, in its discretion, where the circumstances warrant, to impose punishment in cases of high speed in excess of eighty (80) miles per hour as great as the penalty for unlawful racing; and

WHEREAS, it is greatly in the public interest of the people of North Carolina that positive steps be taken to curb the sharply increasing practice of extremely high speeds on the streets and highways jeopardizing the lives of all citizens: Now, therefore,

The General Assembly of North Carolina do enact:

Section 1. Chapter 20 of the General Statutes of North Carolina is hereby amended by changing G. S. 20-180 to read as follows:

"§ 20-180. Penalty for Speeding. Every person convicted of violating G. S. 20-141 shall be guilty of a misdemeanor, and shall be punished as prescribed in G. H. B. 60 CHAPTER 1003

AN ACT TO ENACT THE INTERSTATE COMPACT ON MENTAL HEALTH.

The General Assembly of North Carolina do enact:

Section 1. The Interstate Compact on Mental Health is hereby enacted into law and entered into by this State with all other states legally joining therein in the form substantially as follows: The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

(a) "Sending state" shall mean a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent.

(b) "Receiving state" shall mean a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent.

(c) "Institution" shall mean any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency.

(d) "Patient" shall mean any person subject to or eligible as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact.

(e) "After-care" shall mean care, treatment and services provided a patient, as defined herein, on convalescent status or conditional release.

(f) "Mental illness" shall mean mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, or the welfare of others, or of the community.

(g) "Mental deficiency" shall mean mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs, but shall not include mental illness as defined herein.

(h) "State" shall mean any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(a) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.

(b) The provisions of paragraph (a) of this Article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

(c) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (b) of this Article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.

(d) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(e) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive after-care or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such after-care in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(b) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby, and if the public safety would not be jeopardized thereby, the patient may receive after-care or supervision in the receiving state.

(c) In supervising, treating, or caring for a patent on after-care pursuant to the terms of this Article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

Article VII

(a) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution

in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(b) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs as among themselves.

(c) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(d) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(e) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a non-party state relating to institutionalization, care or treatment of the mentally ill or mentally deficient, or any statutory authority pursuant to which such agreements may be made.

Article VIII

(a) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall upon being duly advised of the new appointment, and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances; provided, however, that in the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(b) The term "guardian" as used in paragraph (a) of this Article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(a) No provision of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge, or whose institu-

tionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(b) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

(a) Each party state shall appoint a "compact administrator" who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

(b) The compact administrators of the respective party states shall have power to promulgate reasonable rules and regulations to carry out more effectively the terms and provisions of this compact.

Article XI

The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned shall find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

Article XII

This compact shall enter into full force and effect as to any state when enacted by it into law and such state shall thereafter be a party thereto with any and all states legally joining therein.

Article XIII

(a) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect one year after notice thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

(b) Withdrawal from any agreement permitted by Article VII (b) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

Article XIV

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any party state or of the United States or to applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Sec. 2. Pursuant to said compact, the Commissioner of Mental Health shall be the Compact Administrator and who, acting jointly with like officers of other party states, shall have power to promulgate rules and regulations to carry out more effectively the terms of the compact. The Compact Administrator is hereby authorized, empowered and directed to cooperate with all departments, agencies and officers of and in the government of this State and its subdivisions in facilitating the proper administration of the compact of any supplementary agreement or agreements entered into by this State thereunder.

Sec. 3. The Compact Administrator is hereby authorized and empowered to enter into supplementary agreements with appropriate officials of other states pursuant to Articles VII and XI of the compact. In the event that such supplementary agreements shall require or contemplate the use of any institution or facility of this State or require or contemplate the provision of any service by this State, no such agreement shall have force or effect until approved by the head of the department or agency under whose jurisdiction said institution or facility is operated or whose department or agency will be charged with the rendering of such service.

Sec. 4. The Compact Administrator, subject to the approval of the Director of the Budget, may make or arrange for any payments necessary to discharge any financial obligations imposed upon this State by the compact or by any supplementary agreement entered into thereunder.

Sec. 5. The Compact Administrator is hereby directed to consult with the immediate family of any proposed transferee and, in the case of a proposed transferee from an institution in this State to an institution in another party state, to take no final action without approval of the Superior Court of county in which patient is located.

Sec. 6. Copies of this Act shall, upon its approval, be transmitted by the Compact Administrator to the governor of each state, the attorney general of each state, the Administrator of General Services of the United States, and the Council of State Governments.

Sec. 7. All laws and clauses of laws in conflict with this Act are hereby repealed.

Sec. 8. This Act shall become effective July 1, 1959.

In the General Assembly read three times and ratified, this the 16th day of June, 1959.

H. B. 372 CHAPTER 1006

AN ACT AUTHORIZING COUNTIES TO ADOPT ORDINANCES PROVIDING FOR THE ZONING AND REGULATION OF BUILDINGS AND OTHER STRUCTURES AND THE USE OF LAND, OTHER THAN FOR FARMING, IN AREAS OUTSIDE THE ZONING JURISDICTION OF MUNICIPALITIES.

The General Assembly of North Carolina do enact:

Section 1. Chapter 153 of the General Statutes is amended by adding a new Article immediately following Article 20A, to be designated as Article 20B, and to read as follows:

"ARTICLE 20B.

"G. S. 153-266.10. For the purpose of promoting health, safety, morals, or the general welfare, the board of county commissioners of any county is hereby empowered to regulate and restrict

"(a) the height, number of stories, and size of buildings and other structures,

"(b) the percentage of lot that may be occupied,

"(c) the size of yards, courts, and other open spaces,

"(d) the density of population, and

"(e) the location and use of buildings, structures, and land for trade, industry, residence or other purposes, except farming.

"No such regulations shall affect bona fide farms, but any use of such property for nonfarm purposes shall be subject to such regulations. Such regulations may provide that a board of adjustment may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules therein contained.

"G. S. 153-266.11. For any and all said purposes, the board of commissioners may divide the county, or portions of it as determined in accordance with the provisions of G. S. 153-266.13 below, into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of this Article; and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land. All such regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts.

"G. S. 153-266.12. Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Such regulations shall be made with reasonable consideration, among other things, as to the character of each district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such county. Such regulations shall further be made with reasonable consideration to expansion and development of municipalities within the county, so as to provide for the orderly growth and development of such municipalities.

"G. S. 153-266.13. The county zoning ordinance may regulate all territory in the county outside the zoning jurisdiction of any municipalities within the county. In addition, the county zoning ordinance may regulate territory within the zoning jurisdiction of any municipality whose governing body, by resolution, agrees to such regulation; provided, however, that any such municipal governing body may, upon one year's written notice, withdraw its approval of the county zoning regulations, and those regulations shall have no further effect within the municipality's jurisdiction.

"Where the board of commissioners determines that it is not necessary to zone the entire county in order to serve the public interest, the board may, after a public hearing, designate one or more portions of the county as a zoning area or areas. Any such area or areas may be regulated in the same manner as if the entire county were zoned, and the remainder of the county need not be regulated. No zoning area may be designated which is less than six hundred forty (640) acres in area, or which contains less than ten separate tracts of land in separate ownership.

"G. S. 153-266.14. In order to avail itself of the powers conferred by this Article, the board of commissioners shall appoint a county planning board or a joint planning board under the provisions of G. S. 153-9(40) or of a special Act of the General Assembly. If the board of commissioners creates one or more zoning areas within the county under the provisions of G. S. 153-266.13 hereof, it shall also appoint an advisory commission for each such zoning area, composed of residents of the area. Each advisory commission shall be charged with the duty of making recommendations to the planning board and the board of commissioners concerning zoning regulations for its area.

"G. S. 153-266.15. The county planning board or joint planning board shall have the duty of preparing a zoning plan, including both the full text of a zoning ordinance and a map or maps showing proposed district boundaries. The planning board may hold such public hearings as it deems necessary in the course of preparing this plan. The planning board shall certify this plan to the board of county commissioners.

"On receipt of a zoning plan from the county planning board, the board of commissioners shall hold a public hearing thereon, after which

it may adopt the zoning ordinance and map as recommended, adopt it with modifications, or reject it.

"The zoning ordinance, including the map or maps, may from time to time be amended, supplemented, changed, modified, or repealed. No amendment shall become effective unless it first be submitted to the planning board for its recommendations; failure of the planning board to make recommendations for a period of 30 days after the amendment has been referred to it shall constitute a favorable recommendation. No amendment may be adopted until after a public hearing thereon.

"G. S. 153-266.16. Whenever in this Act a public hearing is required, all parties in interest and other citizens shall be given an opportunity to be heard. A notice of such public hearing shall be given once a week for two successive calendar weeks in a newspaper published in the county, or, if there be no newspaper published in the county, by posting such notice at four public places in the county, said notice to be published the first time or posted not less than 15 days prior to the date fixed for said hearing.

"G. S. 153-266.17. If it exercises the powers granted by this Article, the board of commissioners shall provide for the appointment of a board of adjustment consisting of five members, each to be appointed for three years; provided, that the board of commissioners in the appointment of the original members of such board, or in the filling of vacancies caused by the expiration of the terms of the existing members of any such board, may make appointments of certain members for less than three years to the end that thereafter the terms of all members shall not expire at the same time. The board of commissioners may, in its discretion, appoint not more than two alternate members to serve on such board in the absence, for any cause, of any regular members. Such alternate member or members shall be appointed for the same term or terms as regular members, and shall be appointed in the same manner as regular members and at the regular times for appointment. Each alternate member, while attending any regular or special meeting of the board and serving in the absence of any regular member, shall have and exercise all the powers and duties of such regular member so absent.

"Such board of adjustment shall hear and decide appeals from and review any order, requirement, decision, or determination made by an administrative official charged with the enforcement of any ordinance adopted pursuant to this Article. Such appeal may be taken by any person aggrieved or by an officer, department, board, or bureau of the county. Such appeal shall be taken within such time as shall be prescribed by the board of adjustment by general rule, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal, specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment, after notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life

or property, in which case proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the board of adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken and on due cause shown. The board of adjustment shall fix a reasonable time for the hearing of the appeal and give due notice thereof to the parties, and decide the same within a reasonable time. The board of adjustment may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from, and shall make such order, requirement, decision or determination as in its opinion ought to be made in the premises, and to that end shall have all the powers of the officer from whom the appeal is taken.

"The zoning ordinance may provide that the board of adjustment may permit special exceptions to the zoning regulations in the classes of cases or situations and in accordance with the principles, conditions, safeguards, and procedures specified in the ordinance. The ordinance may also authorize the board to interpret the zoning maps and pass upon disputed questions of lot lines or district boundary lines and similar questions as they arise in the administration of the ordinance. The board shall hear and decide all such matters referred to it or upon which it is required to pass under any such ordinance.

"Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of such ordinance, the board of adjustment shall have the power, in passing upon appeals, to vary or modify any of the regulations or provisions of such ordinance relating to the use, construction or alteration of buildings or structures or the use of land, so that the spirit of the ordinance shall be observed, public safety and welfare secured, and substantial justice done.

"The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision, or determination of any administrative official charged with the enforcement of an ordinance adopted pursuant to this Article, or to decide in favor of the applicant any matter upon which it is required to pass under any such ordinance, or to grant a variance from the provisions of such ordinance. Every decision of such board shall be subject to review by the Superior Court by proceedings in the nature of certiorari.

"G. S. 153-266.18. In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained, or any building, structure, or land is used in violation of this Article or of any ordinance or other regulation made under authority conferred hereby, the proper authorities of the county, in addition to other remedies, may institute any appropriate action or proceedings

"(a) to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use,

"(b) to restrain, correct, or abate such violation,

"(c) to prevent the occupancy of said building, structure, or land, or

"(d) to prevent any illegal act, conduct, business, or use in or about such premises.

"G. S. 153-266.19. Wherever the regulations made under authority of this Article require a greater width or size of yards or courts, or require a lower height of building or less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required in any other statute or local ordinance or regulation, the provisions of the regulations made under authority of this Article shall govern. Wherever the provisions of any other statute or local ordinance or regulation require a greater width or size of yards or courts, or require a lower height of building or a less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required by the regulations made under authority of this Article, the provisions of such statute or local ordinance or regulation shall govern.

"G. S. 153-266.20. This Article shall not have the effect of repealing any Zoning Act or County Planning Act, local or general, now in force; but it shall be construed to be in enlargement of the duties, powers, and authority contained in such statutes and all other laws authorizing the appointment and proper functioning of county planning boards or zoning commissions by any county in the State of North Carolina.

"G. S. 153-266.21. All of the provisions of this Act and any ordinance adopted pursuant hereto are hereby made applicable to the erection and construction of buildings by the State of North Carolina and its political subdivisions.

"G. S. 153-266.22. This Article shall not apply to the following counties: Alleghany, Ashe, Bertie, Bladen, Brunswick, Caswell, Craven, Currituck, Duplin, Franklin, Greene, Halifax, Harnett, Hoke, Iredell, Lenoir, Martin, Moore, New Hanover, Onslow, Pender, Person, Scotland, Surry, Tyrrell, Warren, Washington, Watauga and Wayne."'

Sec. 1½. The provisions of this Act shall not apply to Cumberland County and Johnston County.

Sec. 2. This Act shall become effective upon its ratification.

In the General Assembly read three times and ratified, this the 16th day of June, 1959.

H. B. 374 CHAPTER 1007

AN ACT AUTHORIZING COUNTIES TO REGULATE THE SUBDIVISION OF LAND IN AREAS OUTSIDE MUNICIPAL SUBDIVISION-REGULATION JURISDICTION.

The General Assembly of North Carolina do enact:

Section 1. Chapter 153 of the General Statutes is amended by adding a new Article immediately following Article 20, to be designated Article 20A and to read as follows:

"Article 20A.

"G. S. 153-266.1. The board of county commissioners of any county is hereby authorized to enact an ordinance regulating the platting and recording of any subdivision of land as defined by this Article, lying

within the county and outside the subdivision-regulation jurisdiction of any municipality. Such ordinance may also regulate territory within the subdivision-regulation jurisdiction of any municipality whose governing body by resolution agrees to such regulation; provided, however, that any such municipal governing body may, upon one year's written notice, withdraw its approval of the county subdivision regulations, and those regulations shall have no further effect within the municipality's jurisdiction.

"G. S. 153-266.2. Before the county commissioners may adopt a subdivision control ordinance or any amendment thereto under the provisions of this Article, the said board of county commissioners shall hold a public hearing on the proposed ordinance. A notice of such public hearing shall be given once a week for two successive calendar weeks in a newspaper published in the county, or if there be no newspaper published in the county, by posting such notice at four public places in the county, said notice to be published the first time, or posted, not less than fifteen days nor more than twenty-five days prior to the date fixed for said hearing.

"G. S. 153-266.3. No county shall regulate the platting and recording of subdivisions in any manner other than through the adoption of an ordinance pursuant to the provisions of this Article. Such ordinance may provide for the orderly development of the county; for the coordination of streets and highways within proposed subdivisions with existing or planned streets and highways and with other public facilities; for the dedication or reservation of rights of way or easements for street and utility purposes; and for the distribution of population and traffic which shall avoid congestion and overcrowding and which shall create conditions essential to public health, safety and the general welfare.

"Such ordinance may include requirements for the final plat, plat to show sufficient data to determine readily and reproduce accurately on the ground the location, bearing, and length of every street and alley line, lot line, easement boundary line, and other property boundaries, including the radius and other data for curved property lines, to an appropriate accuracy and in conformance with good surveying practice.

"G. S. 153-266.4. Any subdivision ordinance adopted pursuant to this Article shall contain provisions setting forth the procedures to be followed in granting or denying approval of a subdivision plat prior to its registration. Such ordinance shall give the following agencies an opportunity to make recommendations prior to the approval of any individual subdivision plat:

(a) The district highway engineer as to proposed streets, highways, and drainage systems;

(b) The county health director as to proposed water and sewerage systems;

(c) The county school superintendent as to proposed school sites;

(d) Such other agencies and officials as the county commissioners may deem necessary or desirable.

The ordinance may provide that final approval of each individual subdivision plat is to be given by (a) the board of county commissioners,

(b) the board of county commissioners on recommendation of the county planning board, or (c) the county planning board.

"From and after the time that a subdivision ordinance is filed with the register of deeds of the county, no subdivision plat of land within the county's subdivision-regulation jurisdiction shall be filed or recorded until it shall have been submitted and approved by the appropriate board, as specified in the subdivision ordinance, and until such approval shall have been entered on the face of the plat in writing by the chairman of said board. The register of deeds shall not file a plat of a subdivision of land located within the territorial jurisdiction of the county commissioners as defined in G. S. 153-266.1 hereof which has not been approved in accordance with these provisions, nor shall the Clerk of Superior Court order or direct the recording of a plat where such recording would be in conflict with this Section. The owner of land shown on a subdivision plat submitted for recording, or his authorized agent, shall sign a statement on the plat stating whether or not any land shown thereon is within the subdivision-regulation jurisdiction of the board of county commissioners.

"G. S. 153-266.5. The approval of a plat pursuant to regulations adopted under this Article shall not be deemed to constitute or effect the acceptance by the county or the public of the dedication of any street or other ground, public utility line, or other public facility shown on the plat.

"G. S. 153-266.6. If a board of county commissioners adopts an ordinance regulating the subdivision of land as authorized herein, any person who, being the owner or agent of the owner of any land located within the platting jurisdiction granted to the county commissioners by G. S. 153-226.1, thereafter transfers or sells such land by reference to a plat showing a subdivision of land before such plat has been properly approved under such ordinance and recorded in the office of the appropriate register of deeds, shall be guilty of a misdemeanor. The description by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties. The county, through its county attorney or other official designated by the board of county commissioners, may enjoin such illegal transfer or sale by action for injunction.

"G. S. 153-266.7. For the purpose of this Article, the following definition shall apply:

"Subdivision. A 'Subdivision' shall include all divisions of a tract or parcel of land into two or more lots, building sites, or other divisions, for the purpose, whether immediate or future, of sale or building development, and shall include all divisions of land involving the dedication of a new street or a change in existing streets; provided, however, that the following shall not be included within this definition nor be subject to the regulations authorized by this Act: (1) The combination or recombination of portions of previously platted lots where the total number of lots is not increased and the resultant lots are equal to or exceed the standards of the county as shown in its subdivision ordinance; (2) the division of land into parcels greater than five acres where no street right of way dedication is involved; (3) the public acquisition by purchase of strips of land for

the widening or opening of streets; (4) the division of a tract in single ownership whose entire area is no greater than two acres into not more than three lots, where no street right of way dedication is involved and where the resultant lots are equal to or exceed the standards of the county as shown in its subdivision ordinance.

"G. S. 153-266.8. The powers granted to counties by this Article shall be deemed supplementary to any powers heretofore or hereafter granted by local act for the same or a similar purpose, and in any case where the provisions of this Article conflict with or are different from such provisions of any local act, the board of county commissioners may in its discretion proceed in accordance with the provisions of this Article or, as an alternative method, in accordance with the provisions of such local act.

"G. S. 153-266.9. Should any Section, clause or provisions of this Article be decided by the courts to be unconstitutional or invalid for any reason, such decision shall not affect the validity of the Article as a whole or any part thereof other than the part so decided to be unconstitutional or invalid.

"G. S. 153-266.10. This Article shall not apply to the following counties: Alleghany, Ashe, Bertie, Bladen, Brunswick, Caswell, Craven, Currituck, Duplin, Franklin, Greene, Halifax, Harnett, Hoke, Iredell, Lenoir, Martin, Moore, Pender, Person, Scotland, Surry, Tyrrell, Warren, Washington, and Wayne."

Sec. 2. All laws and clauses of laws in conflict with the provisions of this Act, except as indicated by G. S. 153-266.8 above, are hereby repealed to the extent of such conflict.

Sec. 3. This Act shall become effective upon its ratification.

In the General Assembly read three times and ratified, this the 16th day of June, 1959.

H. B. 506 CHAPTER 1009

AN ACT PROVIDING A PROCEDURE FOR THE EXTENSION OF MUNICIPAL CORPORATE LIMITS IN MUNICIPALITIES HAVING A POPULATION OF 5,000 OR MORE PERSONS.

The General Assembly of North Carolina do enact:

Section 1. Declaration of Policy. It is hereby declared as a matter of State policy:

(a) That sound urban development is essential to the continued economic development of North Carolina;

(b) That municipalities are created to provide the governmental services essential for sound urban development and for the protection of health, safety and welfare in areas being intensively used for residential, commercial, industrial, institutional and governmental purposes or in areas undergoing such development;

(c) That municipal boundaries should be extended, in accordance with legislative standards applicable throughout the State, to include such areas and to provide the high quality of governmental services needed therein for the public health, safety and welfare;

(d) That new urban development in and around municipalities having a population of 5,000 or more persons is more scattered than in and around smaller municipalities, and that such larger municipalities have greater difficulty in expanding municipal utility systems and other service facilities to serve such scattered development, so that the legislative standards governing annexation by larger municipalities must take these facts into account if the objectives set forth in this Section are to be attained;

(e) That areas annexed to municipalities in accordance with such uniform legislative standards should receive the services provided by the annexing municipality as soon as possible following annexation.

Sec. 2. Authority to Annex. The governing board of any municipality having a population of 5,000 or more persons according to the last federal decennial census may extend the corporate limits of such municipality under the procedure set forth in this Act.

Sec. 3. Prerequisites to Annexation; Ability to Serve. A municipality exercising authority under this Act shall make plans for the extension of services to the area proposed to be annexed and shall, prior to the public

hearing provided for in Section 5 of this Act, prepare a report setting forth such plans to provide services to such area. The report shall include:

(a) A map or maps of the municipality and adjacent territory to show the following information:

(1) The present and proposed boundaries of the municipality.

(2) The present major trunk water mains and sewer interceptors and outfalls, and the proposed extension of such mains and outfalls as required in subsection (c) of this Section.

(3) The general land use pattern in the area to be annexed.

(b) A statement showing that the area to be annexed meets the requirements of Section 4 of this Act.

(c) A statement setting forth the plans of the municipality for extending to the area to be annexed each major municipal service performed within the municipality at the time of annexation. Specifically, such plans shall:

(1) Provide for extending police protection, fire protection, garbage collection and street maintenance services to the area to be annexed on the date of annexation on substantially the same basis and in the same manner as such services are provided within the rest of the municipality prior to annexation. If a water distribution system is not available in the area to be annexed, the plans must call for reasonably effective fire protection services until such time as water lines are made available in such area under existing municipal policies for the extension of water lines.

(2) Provide for extension of major trunk water mains and sewer outfall lines into the area to be annexed so that when such lines are constructed, property owners in the area to be annexed will be able to secure public water and sewer service, according to the policies in effect in such municipality for extending water and sewer lines to individual lots or subdivisions.

(3) If extension of major trunk water mains and sewer outfall lines into the area to be annexed is necessary, set forth a proposed time-table for construction of such mains and outfalls as soon as possible following the effective date of annexation. In any event, the plans shall call for contracts to be let and construction to begin within twelve months following the effective date of annexation.

(4) Set forth the method under which the municipality plans to finance extension of services into the area to be annexed.

Sec. 4. Character of Area to be Annexed. (a) A municipal governing board may extend the municipal corporate limits to include any area (1) which meets the general standards of subsection (b), and (2) every part of which meets the requirements of either subsection (c) or subsection (d).

(b) The total area to be annexed must meet the following standards:

(1) It must be adjacent or contiguous to the municipality's boundaries at the time the annexation proceeding is begun.

(2) At least one-eighth of the aggregate external boundaries of the area must coincide with the municipal boundary.

(3) No part of the area shall be included within the boundary of another incorporated municipality.

(c) Part or all of the area to be annexed must be developed for urban purposes. An area developed for urban purposes is defined as any area which meets any one of the following standards:

(1) Has a total resident population equal to at least two persons for each acre of land included within its boundaries; or

(2) Has a total resident population equal to at least one person for each acre of land included within its boundaries, and is subdivided into lots and tracts such that at least sixty per cent (60%) of the total acreage consists of lots and tracts five acres or less in size and such that at least sixty per cent (60%) of the total number of lots and tracts are one acre or less in size; or

(3) Is so developed that at least sixty per cent (60%) of the total number of lots and tracts in the area at the time of annexation are used for residential, commercial, industrial, institutional or governmental purposes, and is subdivided into lots and tracts such that at least sixty per cent (60%) of the total acreage, not counting the acreage used at the time of annexation for commercial, industrial, governmental or institutional purposes, consists of lots and tracts five acres or less in size.

(d) In addition to areas developed for urban purposes, a governing board may include in the area to be annexed any area which does not meet the requirements of subsection (c) if such area either:

(1) Lies between the municipal boundary and an area developed for urban purposes so that the area developed for urban purposes is either not adjacent to the municipal boundary or cannot be served by the municipality without extending services and/or water and/or sewer lines through such sparsely-developed area; or

(2) Is adjacent, on at least sixty per cent (60%) of its external boundary, to any combination of the municipal boundary and the boundary of an area or areas developed for urban purposes as defined in subsection (c).

The purpose of this subsection is to permit municipal governing boards to extend corporate limits to include all nearby areas developed for urban purposes and where necessary to include areas which at the time of annexation are not yet developed for urban purposes but which constitute necessary land connections between the municipality and areas developed for urban purposes or between two or more areas developed for urban purposes.

(e) In fixing new municipal boundaries, a municipal governing board shall, wherever practical, use natural topographic features such as ridge lines and streams and creeks as boundaries, and if a street is used as a boundary, include within the municipality land on both sides of the street and such outside boundary may not extend more than 200 feet beyond the right of way of the street.

Sec. 5. Procedure for Annexation. (a) Notice of Intent. Any municipal governing board desiring to annex territory under the provisions of this Act shall first pass a resolution stating the intent of the municipality

to consider annexation. Such resolution shall describe the boundaries of the area under consideration and fix a date for a public hearing on the question of annexation, the date for such public hearing to be not less than thirty days and not more than sixty days following passage of the resolution.

(b) Notice of Public Hearing. The notice of public hearing shall

(1) Fix the date, hour and place of the public hearing.

(2) Describe clearly the boundaries of the area under consideration.

(3) State that the report required in Section 3 of this Act will be available at the office of the municipal clerk at least fourteen days prior to the date of the public hearing. Such notice shall be given by publication in a newspaper having general circulation in the municipality once a week for at least four successive weeks prior to the date of the hearing. The period from the date of the first publication to the date of the last publication, both dates inclusive, shall be not less than twenty-two days including Sundays, and the date of the last publication shall be not more than seven days preceding the date of public hearing. If there be no such newspaper, the municipality shall post the notice in at least five public places within the municipality and at least five public places in the area to be annexed for thirty days prior to the date of public hearing.

(c) Action Prior to Hearing. At least fourteen days before the date of the public hearing, the governing board shall approve the report provided for in Section 3 of this Act, and shall make it available to the public at the office of the municipal clerk. In addition, the municipality may prepare a summary of the full report for public distribution.

(d) Public Hearing. At the public hearing a representative of the municipality shall first make an explanation of the report required in Section 3 of this Act. Following such explanation, all persons resident or owning property in the territory described in the notice of public hearing, and all residents of the municipality, shall be given an opportunity to be heard.

(e) Passage of the Annexation Ordinance. The municipal governing board shall take into consideration facts presented at the public hearing and shall have authority to amend the report required by Section 3 of this Act to make changes in the plans for serving the area proposed to be annexed so long as such changes meet the requirements of Section 3. At any regular or special meeting held no sooner than the seventh day following the public hearing and no later than sixty days following such public hearing, the governing board shall have authority to adopt an ordinance extending the corporate limits of the municipality to include all, or such part, of the area described in the notice of public hearing which meets the requirements of Section 4 of this Act and which the governing board has concluded should be annexed. The ordinance shall:

(1) Contain specific findings showing that the area to be annexed meets the requirements of Section 4 of this Act. The external boundaries of the area to be annexed shall be described by metes and bounds. In showing the application of Section 4(c) and 4(d) to the area, the govern-

ing board may refer to boundaries set forth on a map of the area and incorporate same by reference as a part of the ordinance.

(2) A statement of the intent of the municipality to provide services to the area being annexed as set forth in the report required by Section 3 of this Act.

(3) A specific finding that on the effective date of annexation the municipality will have funds appropriated in sufficient amount to finance construction of any major trunk water mains and sewer outfalls found necessary in the report required by Section 3 to extend the basic water and/or sewer system of the municipality into the area to be annexed, or that on the effective date of annexation the municipality will have authority to issue bonds in an amount sufficient to finance such construction. If authority to issue such bonds must be secured from the electorate of the municipality prior to the effective date of annexation, then the effective date of annexation shall be no earlier than the day following the statement of the successful result of the bond election.

(4) Fix the effective date of annexation. The effective date of annexation may be fixed for any date within twelve months from the date of passage of the ordinance.

(f) Effect of Annexation Ordinance. From and after the effective date of the annexation ordinance, the territory and its citizens and property shall be subject to all debts, laws, ordinances and regulations in force in such municipality and shall be entitled to the same privileges and benefits as other parts of such municipality. The newly annexed territory shall be subject to municipal taxes levied for the fiscal year following the effective date of annexation. Provided that annexed property which is a part of a sanitary district, which has installed water and sewer lines, paid for by the residents of said district, shall not be subject to that part of the municipal taxes levied for debt service for the first five years after the effective date of annexation. If this proviso should be declared by a court of competent jurisdiction to be in violation of any provision of the Federal or State Constitution, the same shall not affect the remaining provisions of this Act. If the effective date of annexation falls between January 1 and June 30, the municipality shall, for purposes of levying taxes for the fiscal year beginning July 1 following the date of annexation, obtain from the county a record of property in the area being annexed which was listed for taxation as of said January 1. If the effective date of annexation falls between June 1 and June 30, and the effective date of the privilege license tax ordinance of the annexing municipality is June 1, then businesses in the area to be annexed shall be liable for taxes imposed in such ordinance from and after the effective date of annexation.

(g) Simultaneous Annexation Proceedings. If a municipality is considering the annexation of two or more areas which are all adjacent to the municipal boundary but are not adjacent to one another, it may undertake simultaneous proceedings under authority of this Act for the annexation of such areas.

(h) If, not earlier than one year from the effective date of annexation, and not later than fifteen months from the effective date of annexa-

tion, any person owning property in the annexed territory shall believe that the municipality has not followed through on its service plans adopted under the provisions of Sections 3(c) and 5(e), such person may apply for a writ of mandamus under the provisions of Article 40, Chapter 1 of the General Statutes. Relief may be granted by the Judge of Superior Court (1) if the municipality has not provided the services set forth in its plan submitted under the provisions of Section 3(c) (1) on substantially the same basis and in the same manner as such services were provided within the rest of the municipality prior to the effective date of annexation, and (2) if at the time the writ is sought such services set forth in the plan submitted under the provisions of Section 3(c) (1) are still being provided on substantially the same basis and in the same manner as on the date of annexation of the municipality. Relief may also be granted by the Judge of Superior Court (1) if the plans submitted under the provisions of Section 3 (c) (3) require the construction of major trunk water mains and sewer outfall lines and (2) if contracts for such construction have not yet been let. If a writ is issued, costs in the action, including a reasonable attorney's fee for such aggrieved person, shall be charged to the municipality.

Sec. 6. Appeal. (a) Within thirty days following the passage of an annexation ordinance under authority of this Act, any person owning property in the annexed territory who shall believe that he will suffer material injury by reason of the failure of the municipal governing board to comply with the procedure set forth in this Act or to meet the requirements set forth in Section 4 of this Act as they apply to his property may file a petition in the Superior Court of the county in which the municipality is located seeking review of the action of the governing board.

(b) Such petition shall explicitly state what exceptions are taken to the action of the governing board and what relief the petitioner seeks. Within five days after the petition is filed with the court, the person seeking review shall serve copies of the petition by registered mail, return receipt requested, upon the municipality.

(c) Within fifteen days after receipt of the copy of the petition for review, or within such additional time as the court may allow, the municipality shall transmit to the reviewing court (1) a transcript of the portions of the municipal journal or minute book in which the procedure for annexation has been set forth and (2) a copy of the report setting forth the plans for extending services to the annexed area as required in Section 3 of this Act.

(d) If two or more petitions for review are submitted to the court, the court may consolidate all such petitions for review at a single hearing, and the municipality shall be required to submit only one set of minutes and one report as required in subsection (c).

(e) At any time before or during the review proceeding, any petitioner or petitioners may apply to the reviewing court for an order staying the operation of the annexation ordinance pending the outcome of the review. The court may grant or deny the stay in its discretion upon such terms

as it deems proper, and it may permit annexation of any part of the area described in the ordinance concerning which no question for review has been raised.

(f) The court shall fix the date for review of annexation proceedings under this Chapter, which review date shall preferably be within thirty days following the last day for receiving petitions to the end that review shall be expeditious and without unnecessary delays. The review shall be conducted by the court without a jury. The court may hear oral arguments and receive written briefs, and may take evidence intended to show either (1) that the statutory procedure was not followed or (2) that the provisions of Section 3 were not met, or (3) that the provisions of Section 4 have not been met.

(g) The court may affirm the action of the governing board without change, or it may

(1) Remand the ordinance to the municipal governing board for further proceedings if procedural irregularities are found to have materially prejudiced the substantive rights of any of the petitioners.

(2) Remand the ordinance to the municipal governing board for amendment of the boundaries to conform to the provisions of Section 4 if it finds that the provisions of Section 4 have not been met; provided, that the court cannot remand the ordinance to the municipal governing board with directions to add area to the municipality which was not included in the notice of public hearing and not provided for in plans for service.

(3) Remand the report to the municipal governing board for amendment of the plans for providing services to the end that the provisions of Section 3 of this Act are satisfied.

If any municipality shall fail to take action in accordance with the court's instructions upon remand within three months from receipt of such instructions, the annexation proceeding shall be deemed null and void.

(h) Any party to the review proceedings, including the municipality, may appeal to the Supreme Court from the final judgment of the Superior Court under rules of procedure applicable in other civil cases. The appealing party may apply to the Superior Court for a stay in its final determination, or a stay of the annexation ordinance, whichever shall be appropriate, pending the outcome of the appeal to the Supreme Court; provided, that the Superior Court may, with the agreement of the municipality, permit annexation to be effective with respect to any part of the area concerning which no appeal is being made and which can be incorporated into the city without regard to any part of the area concerning which an appeal is being made.

(i) If part or all of the area annexed under the terms of an annexation ordinance is the subject of an appeal to the Superior or Supreme Court on the effective date of the ordinance, then the ordinance shall be deemed amended to make the effective date with respect to such area the date of the final judgment of the Superior or Supreme Court, whichever is appropriate, or the date the municipal governing board completes action to make the ordinance conform to the court's instructions in the event of remand.

Sec. 7. Annexation Recorded. Whenever the limits of a municipality are enlarged in accordance with the provisions of this Act, it shall be the duty of the mayor of the municipality to cause an accurate map of such annexed territory, together with a copy of the ordinance duly certified, to be recorded in the office of the register of deeds of the county or counties in which such territory is situated and in the Office of the Secretary of State.

Sec. 8. Authorized Expenditures. Municipalities initiating annexations under the provisions of this Act are authorized to make expenditures for surveys required to describe the property under consideration or for any other purpose necessary to plan for the study and/or annexation of unincorporated territory adjacent to the municipality. In addition, following final passage of the annexation ordinance, the annexing municipality shall have authority to proceed with expenditures for construction of water and sewer lines and other capital facilities and for any other purpose calculated to bring services into the annexed area in a more effective and expeditious manner prior to the effective date of annexation.

Sec. 9. Definitions. The following terms where used in this Act shall have the following meanings, except where the context clearly indicates a different meaning:

(a) "Contiguous area" shall mean any area which, at the time annexation procedures are initiated, either abuts directly on the municipal boundary or is separated from the municipal boundary by a street or street right of way, a creek or river, the right of way of a railroad or other public service corporation, lands owned by the city or some other political subdivision, or lands owned by the State of North Carolina.

(b) "Used for residential purposes" shall mean any lot or tract five acres or less in size on which is constructed a habitable dwelling unit.

Sec. 10. Population and Land Estimates. In determining population and degree of land subdivision for purposes of meeting the requirements of Section 4 of this Act, the municipality shall use methods calculated to provide reasonably accurate results. In determining whether the standards set forth in Section 4 have been met on appeal to the Superior Court under Section 6 of this Act, the reviewing court shall accept the estimates of the municipality:

(a) As to population, if the estimate is based on the number of dwelling units in the area multiplied by the average family size in such area, or in the township or townships of which such area is a part, as determined by the last preceding federal decennial census; or if it is based on a new enumeration carried out under reasonable rules and regulations by the annexing municipality; provided, that the court shall not accept such estimates if the petitioners demonstrate that such estimates are in error in the amount of ten per cent (10%) or more.

(b) As to total area if the estimate is based on an actual survey, or on county tax maps or records, or on aerial photographs, or on some other reasonably reliable map used for official purposes by a governmental agency, unless the petitioners on appeal demonstrate that such estimates are in error in the amount of five per cent (5%) or more.

(c) As to degree of land subdivision, if the estimates are based on an actual survey, or on county tax maps or records, or on aerial photographs, or on some other reasonably reliable source, unless the petitioners on appeal show that such estimates are in error in the amount of five per cent (5%) or more.

Sec. 11. Effect on Other Laws. From and after July 1, 1959, this Act shall be in full force and effect with respect to all municipalities having a population of 5,000 or more persons according to the last preceding federal decennial census. The provisions of Article 36 of Chapter 160 of the General Statutes of North Carolina shall remain in full force and effect with respect to such municipalities as an alternative procedure until June 30, 1961. From and after July 1, 1961, all the provisions of Article 36 of Chapter 160 of the General Statutes of North Carolina, with the exception of Section 160-452 as it exists at the time of the passage of this Act or as it may be amended at this Session of the General Assembly, shall be repealed. Insofar as the provisions of this Act are inconsistent with the provisions of any other law, the provisions of this Act shall be controlling.

Sec. 12. The provisions of this Act shall not apply to the following counties: Columbus, Cumberland, Edgecombe, Franklin, Halifax, Harnett, Iredell, Nash, Pender, Perquimans, Person and Randolph.

Notwithstanding any other provisions of this Act, Article 36 of Chapter 160 of the General Statutes of North Carolina and specifically G. S. 160-452, as the same may be rewritten or amended, shall remain in full force and effect as to the counties herein named.

In the General Assembly read three times and ratified, this the 16th day of June, 1959.

H. B. 508 CHAPTER 1010

AN ACT PROVIDING A PROCEDURE FOR THE EXTENSION OF MUNICIPAL CORPORATE LIMITS IN MUNICIPALITIES HAVING A POPULATION OF LESS THAN 5,000 PERSONS.

The General Assembly of North Carolina do enact:

Section 1. Declaration of Policy. It is hereby declared as a matter of State policy:

(a) That sound urban development is essential to the continued economic development of North Carolina;

(b) That municipalities are created to provide the governmental services essential for sound urban development and for the protection of health, safety and welfare in areas being intensively used for residential, commercial, industrial, institutional and government purposes or in areas undergoing such development;

(c) That municipal boundaries should be extended, in accordance with legislative standards applicable throughout the State, to include such areas and to provide the high quality of governmental services needed therein for the public health, safety and welfare; and

(d) That new urban development in and around municipalities having a population of less than 5,000 persons tends to be concentrated close to the municipal boundary rather than being scattered and dispersed as in the vicinity of larger municipalities, so that the legislative standards governing annexation by smaller municipalities can be simpler than those for large municipalities and still attain the objectives set forth in this Section;

(e) That areas annexed to municipalities in accordance with such uniform legislative standards should receive the services provided by the annexing municipality as soon as possible following annexation.

Sec. 2. Authority to Annex. The governing board of any municipality having a population of less than 5,000 persons according to the last Federal decennial census may extend the corporate limits of such municipality under the procedure set forth in this Act.

Sec. 3. Prerequisites to Annexation: Ability to Serve. A municipality exercising authority under this Act shall make plans for the extension of services to the area proposed to be annexed and shall, prior to the public hearing provided for in Section 5 of this Act, prepare a report setting forth such plans to provide services to such area. The report shall include:

(a) A map or maps of the municipality and adjacent territory to show the following information:

(1) The present and proposed boundaries of the municipality.

(2) The proposed extensions of water mains and sewer outfalls to serve the annexed area, if such utilities are operated by the municipality.

(b) A statement showing that the area to be annexed meets the requirements of Section 4 of this Act.

(c) A statement setting forth the plans of the municipality for extending to the area to be annexed each major municipal service performed within the municipality at the time of annexation. Specifically, such plans shall:

(1) Provide for extending police protection, fire protection, garbage collection and street maintenance services to the area to be annexed on the date of annexation on substantially the same basis and in the same manner as such services are provided within the rest of the municipality prior to annexation. If a water distribution system is not available in the area to be annexed, the plans must call for reasonably effective fire protection services until such time as water lines are made available in such area under existing municipal policies for the extension of water lines.

(2) Provide for extension of water mains and sewer lines into the area to be annexed so that property owners in the area to be annexed will be able to secure public water and sewer service according to the policies in effect in such municipality for extending water and sewer lines to individual lots or subdivisions. If the municipality must, at its own expense, extend water and/or sewer mains into the area to be annexed before property owners in the area can, according to municipal policies, make

such connection to such lines, then the plans must call for contracts to be let and construction to begin on such lines within one year following the effective date of annexation.

(3) Set forth the method under which the municipality plans to finance extension of services into the area to be annexed.

Sec. 4. Character of Area to be Annexed. (a) A municipal governing board may extend the municipal corporate limits to include any area which meets the general standards of subsection (b), and which meets the requirements of subsection (c).

(b) The total area to be annexed must meet the following standards:

(1) It must be adjacent or contiguous to the municipality's boundaries at the time the annexation proceeding is begun.

(2) At least one-eighth of the aggregate external boundaries of the area must coincide with the municipal boundary.

(3) No part of the area shall be included within the boundary of another incorporated municipality.

(c) The area to be annexed must be developed for urban purposes. An area developed for urban purposes is defined as any area which is so developed that at least sixty per cent (60%) of the total number of lots and tracts in the area at the time of annexation are used for residential, commercial, industrial, institutional or governmental purposes, and is subdivided into lots and tracts such that at least sixty per cent (60%) of the total acreage, not counting the acreage used at the time of annexation for commercial, industrial, governmental or institutional purposes, consists of lots and tracts five acres or less in size.

(d) In fixing new municipal boundaries, a municipal governing board shall, wherever practical, use natural topographic features such as ridge lines and streams and creeks as boundaries, and if a street is used as a boundary, include within the municipality developed land on both sides of the street.

Sec. 5. Procedure for Annexation. (a) Notice of Intent. Any municipal governing board desiring to annex territory under the provisions of this Act shall first pass a resolution stating the intent of the municipality to consider annexation. Such resolution shall describe the boundaries of the area under consideration and fix a date for a public hearing on the question of annexation, the date for such public hearing to be not less than thirty days and not more than sixty days following passage of the resolution.

(b) Notice of Public Hearing. The notice of public hearing shall

(1) Fix the date, hour and place of the public hearing.

(2) Describe clearly the boundaries of the area under consideration.

(3) State that the report required in Section 3 of this Act will be available at the office of the municipal clerk at least fourteen days prior to the date of the public hearing. Such notice shall be given by publication in a newspaper having general circulation in the municipality once a week for at least four successive weeks prior to the date of the hearing. The period from the date of the first publication to the date of the last publication, both dates inclusive, shall be not less than twenty-two days

including Sundays, and the date of the last publication shall be not more than seven days preceding the date of public hearing. If there be no such newspaper, the municipality shall post the notice in at least five public places within the municipality and at least five public places in the area to be annexed for thirty days prior to the date of public hearing.

(c) Action Prior to Hearing. At least fourteen days before the date of the public hearing, the governing board shall approve the report provided for in Section 3 of this Act, and shall make it available to the public at the office of the municipal clerk. In addition, the municipality may prepare a summary of the full report for public distribution.

(d) Public Hearing. At the public hearing a representative of the municipality shall first make an explanation of the report required in Section 3 of this Act. Following such explanation, all persons resident or owning property in the territory described in the notice of public hearing, and all residents of the municipality, shall be given an opportunity to be heard.

(e) Passage of the Annexation Ordinance. The municipal governing board shall take into consideration facts presented at the public hearing and shall have authority to amend the report required by Section 3 of this Act to make changes in the plans for serving the area proposed to be annexed so long as such changes meet the requirements of Section 3. At any regular or special meeting held no sooner than the seventh day following the public hearing and not later than sixty days following such public hearing, the governing board shall have authority to adopt an ordinance extending the corporate limits of the municipality to include all, or such part, of the area described in the notice of public hearing which meets the requirements of Section 4 of this Act and which the governing board has concluded should be annexed. The ordinance shall:

(1) Contain specific findings showing that the area to be annexed meets the requirements of Section 4 of this Act. The external boundaries of the area to be annexed shall be described by metes and bounds. In showing the application of Section 4(c) and 4(d) to the area, the governing board may refer to boundaries set forth on a map of the area and incorporate same by reference as a part of the ordinance.

(2) A statement of the intent of the municipality to provide services to the area being annexed as set forth in the report required by Section 3 of this Act.

(3) A specific finding that on the effective date of annexation the municipality will have funds appropriated in sufficient amount to finance construction of any water and sewer lines found necessary in the report required by Section 3 to extend the basic water and/or sewer system of the municipality into the area to be annexed, or that on the effective date of annexation the municipality will have authority to issue bonds in an amount sufficient to finance such construction. If authority to issue such bonds must be secured from the electorate of the municipality prior to the effective date of annexation, then the effective date of annexation shall be no earlier than the day following the statement of the successful result of the bond election.

(4) Fix the effective date of annexation. The effective date of annexation may be fixed for any date within twelve months from the date of passage of the ordinance.

(f) Effect of Annexation Ordinance. From and after the effective date of the annexation ordinance, the territory and its citizens and property shall be subject to all debts, laws, ordinances and regulations in force in such municipality and shall be entitled to the same privileges and benefits as other parts of such municipality. The newly annexed territory shall be subject to municipal taxes levied for the fiscal year following the effective date of annexation. If the effective date of annexation falls between January 1 and June 30, the municipality shall, for purposes of levying taxes for the fiscal year beginning July 1 following the date of annexation, obtain from the county a record of property in the area being annexed which was listed for taxation as of said January 1. If the effective date of annexation falls between June 1 and June 30, and the effective date of the privilege license tax ordinance of the annexing municipality is June 1, then businesses in the area to be annexed shall be liable for taxes imposed in such ordinance from and after the effective date of annexation.

(g) Simultaneous Annexation Proceedings. If a municipality is considering the annexation of two or more areas which are all adjacent to the municipal boundary but are not adjacent to one another, it may undertake simultaneous proceedings under authority of this Act for the annexation of such areas.

(h) If, not earlier than one year from the effective date of annexation, and not later than fifteen months from the effective date of annexation, any person owning property in the annexed territory shall believe that the municipality has not followed through on its service plans adopted under the provisions of Sections 3(c) and 5(e), such person may apply for a writ of mandamus under the provisions of Article 40, Chapter 1 of the General Statutes. Relief may be granted by the Judge of Superior Court (1) if the municipality has not provided the services set forth in its plan submitted under the provisions of Section 3(c) (1) on substantially the same basis and in the same manner as such services were provided within the rest of the municipality prior to the effective date of annexation, and (2) if at the time the writ is sought such services set forth in the plan submitted under the provisions of Section 3 (c)(1) are still being provided on substantially the same basis and in the same manner as on the date of annexation of the municipality. Relief may also be granted by the Judge of Superior Court (1) if the plans submitted under the provisions of Section 3(c)(3) require the construction of major trunk water mains and sewer outfall lines and (2) if contracts for such construction have not yet been let. It a unit is issued, costs in the action, including a reasonable attorney's fee for such aggrieved person, shall be charged to the municipality.

Sec. 6. Appeal. (a) Within thirty days following the passage of an annexation ordinance under authority of this Act, any person owning property in the annexed territory who shall believe that he will suffer

material injury by reason of the failure of the municipal governing board to comply with the procedure set forth in this Act or to meet the requirements set forth in Section 4 of this Act as they apply to his property may file a petition in the Superior Court of the county in which the municipality is located seeking review of the action of the governing board.

(b) Such petition shall explicitly state what exceptions are taken to the action of the governing board and what relief the petitioner seeks. Within five days after the petition is filed with the court, the person seeking review shall serve copies of the petition by registered mail, return receipt requested, upon the municipality.

(c) Within fifteen days after receipt of the copy of the petition for review, or within such additional time as the court may allow, the municipality shall transmit to the reviewing court (1) a transcript of the portions of the municipal journal or minute book in which the procedure for annexation has been set forth and (2) a copy of the report setting forth the plans for extending services to the annexed area as required in Section 3 of this Act.

(d) If two or more petitions for review are submitted to the court, the court may consolidate all such petitions for review at a single hearing, and the municipality shall be required to submit only one set of minutes and one report as required in subsection (c).

(e) At any time before or during the review proceeding, any petitioner or petitioners may apply to the reviewing court for an order staying the operation of the annexation ordinance pending the outcome of the review. The court may grant or deny the stay in its discretion upon such terms as it deems proper, and it may permit annexation of any part of the area described in the ordinance concerning which no question for review has been raised.

(f) The court shall fix the date for review of annexation proceedings under this Chapter, which review date shall preferably be within thirty days following the last day for receiving petitions to the end that review shall be expeditious and without unnecessary delays. The review shall be conducted by the court without a jury. The court may hear oral arguments and receive written briefs, and may take evidence intended to show either (1) that the statutory procedure was not followed or (2) that the provisions of Section 3 were not met, or (3) that the provisions of Section 4 have not been met.

(g) The court may affirm the action of the governing board without change, or it may

(1) Remand the ordinance to the municipal governing board for further proceedings if procedural irregularities are found to have materially prejudiced the substantive rights of any of the petitioners.

(2) Remand the ordinance to the municipal governing board for amendment of the boundaries to conform to the provisions of Section 4 if it finds that the provisions of Section 4 have not been met; provided, that the court cannot remand the ordinance to the municipal governing board with directions to add area to the municipality which was not included in the notice of public hearing and not provided for in plans for service.

(3) Remand the report to the municipal governing board for amendment of the plans for providing services to the end that the provisions of Section 3 of this Act are satisfied. If any municipality shall fail to take action in accordance with the court's instructions upon remand within three months from receipt of such instructions, the annexation proceeding shall be deemed null and void.

(h) Any party to the review proceedings, including the municipality, may appeal to the Supreme Court from the final judgment of the Superior Court under rules of procedure applicable in other civil cases. The appealing party may apply to the Superior Court for a stay in its final determination, or a stay of the annexation ordinance, whichever shall be appropriate, pending the outcome of the appeal to the Supreme Court; provided, that the Superior Court may, with the agreement of the municipality, permit annexation to be effective with respect to any part of the area concerning which no appeal is being made and which can be incorporated into the city without regard to any part of the area concerning which an appeal is being made.

(i) If part or all of the area annexed under the terms of an annexation ordinance is the subject of an appeal to the Superior or Supreme Court on the effective date of the ordinance, then the ordinance shall be deemed amended to make the effective date with respect to such area the date of the final judgment of the Superior or Supreme Court, whichever is appropriate, or the date the municipal governing board completes action to make the ordinance conform to the court's instructions in the event of remand.

Sec. 7. Annexation Recorded. Whenever the limits of a municipality are enlarged in accordance with the provisions of this Act, it shall be the duty of the mayor of the municipality to cause an accurate map of such annexed territory, together with a copy of the ordinance duly certified, to be recorded in the office of the register of deeds of the county or counties in which such territory is situated and in the office of the Secretary of State.

Sec. 8. Authorized Expenditures. Municipalities initiating annexations under the provisions of this Act are authorized to make expenditures for surveys required to describe the property under consideration or for any other purpose necessary to plan for the study and/or annexation of unincorporated territory adjacent to the municipality. In addition, following final passage of the annexation ordinance, the annexing municipality shall have authority to proceed with expenditures for construction of water and sewer lines and other capital facilities and for any other purpose calculated to bring services into the annexed area in a more effective and expeditious manner prior to the effective date of annexation.

Sec. 9. Definitions. The following terms where used in this Act shall have the following meanings, except where the context clearly indicates a different meaning:

(a) "Contiguous area" shall mean any area which, at the time annexation procedures are initiated, either abuts directly on the municipal boundary or is separated from the municipal boundary by a street or street

right of way, a creek or river, the right of way of a railroad or other public service corporation, lands owned by the municipality or some other political subdivision, or lands owned by the State of North Carolina.

(b) "Used for residential purposes" shall mean any lot or tract five acres or less in size on which is constructed a habitable dwelling unit.

Sec. 10. Land Estimates. In determining degree of land subdivision for purposes of meeting the requirements of Section 4 of this Act, the municipality shall use methods calculated to provide reasonably accurate results. In determining whether the standards set forth in Section 4 have been met on appeal to the Superior Court under Section 6 of this Act, the reviewing court shall accept the estimates of the municipality:

(a) As to total area if the estimate is based on an actual survey, or on county tax maps or records, or on aerial photographs, or on some other reasonably reliable map used for official purposes by a governmental agency unless the petitioners on appeal demonstrate that such estimates are in error in the amount of five per cent (5%) or more.

(b) As to degree of land subdivision, if the estimates are based on an actual survey, or on county tax maps or records, or on aerial photographs, or on some other reasonably reliable source, unless the petitioners on appeal show that such estimates are in error in the amount of five per cent (5%) or more.

Sec. 11. Effect on Other Laws. From and after July 1, 1959, this Act shall be in full force and effect with respect to all municipalities having a population of less than 5,000 persons according to the last preceding Federal decennial census. The provisions of Article 36 of Chapter 160 of the General Statutes of North Carolina shall remain in full force and effect with respect to such municipalities as an alternative procedure until June 30, 1961. From and after July 1, 1961, all the provisions of Article 36 of Chapter 160 of the General Statutes of North Carolina, with the exception of Section 160-452 as it exists at the time of the passage of this Act or as it may be amended at this Session of the General Assembly, shall be repealed. Insofar as the provisions of this Act are inconsistent with the provisions of any other law, the provisions of this Act shall be controlling.

Sec. 12. The provisions of this Act shall not apply to the following counties: Alleghany, Cumberland, Edgecombe, Franklin, Halifax, Harnett, Iredell, Nash, Pender, Perquimans, Person and Randolph.

Said answer shall, in addition, contain the following:

1. Such admissions or denials of the allegations of the complaint as are appropriate.

2. The names and addresses of the persons filing said answer, together with a statement as to their interest in the property taken.

3. Such affirmative defenses or matters as are pertinent to the action.

(b) A copy of the answer shall be served on the Director of Highways, State Highway Commission, in Raleigh, provided that failure to serve the answer shall not deprive the answer of its validity. The affirmative allegations of said answer shall be deemed denied. The Highway Commission may, however, file a reply within thirty (30) days from receipt of a copy of the answer.

(c) The Highway Commission, within sixty (60) days from the filing of the answer shall file in the cause a plat of the land taken and such additional area as may be necessary to properly determine the damages, and a copy thereof shall be mailed to the parties.

§ 136-107. Time for Filing Answer. Any person named in and served with a complaint and declaration of taking shall have twelve (12) months from the date of service thereof to file answer. Failure to answer within said time shall constitute an admission that the amount deposited is just compensation and shall be a waiver of any further proceeding to determine just compensation; in such event the judge shall enter final judgment in the amount deposited and order disbursement of the money deposited to the owner. For good cause shown and upon notice to the Highway Commission the judge may within the initial twelve months' period extend the time for filing answer for a period not to exceed an additional six (6) months.

§ 136-108. Determination of Issues Other than Damages. After the filing of the plat, the judge, upon motion and ten (10) days' notice by either the Highway Commission or the owner, shall, either in or out of term, hear and determine any issue raised by the pleadings other than the

issue of damages, including, if controverted, questions of necessary and proper parties, title to the land, interest taken, and area taken.

§ 136-109. Appointment of Commissioners. (a) Upon request of the owner in the answer, or motion by either the Highway Commission or the owner within sixty (60) days after filing of answer, and after the determination of other issues as provided in Section 136-108 of this Chapter, the Clerk shall appoint three competent, disinterested freeholders residing in the county to go upon the property and under oath appraise the damage to the land sustained by reason of the taking and report same to the Court within a time certain. If no request or motion is made for the appointment of commissioners within the time permitted, the cause shall be transferred to the civil issue docket for trial at term as to the issue of just compensation.

(b) Such commissioners, if appointed, shall have the power to make such inspection of the property, hold such hearings, swear such witnesses, and take such evidence as they may, in their discretion, deem necessary, and shall file into Court a report of their determination of the damages sustained.

(c) Said report of commissioners shall in substance be in written form as follows:

TO THE SUPERIOR COURT OF ..... COUNTY

We, ..., ... and ....., Commissioners appointed by the Court to assess the damages that have been and will be sustained by ....., the owner of certain land lying in ..... County, North Carolina, which has been taken by the State Highway Commission for highway purposes, do hereby certify that we convened, and, having first been duly sworn, visited the premises, and took such evidence as was presented to us, and after taking into full consideration the quality and quantity of the land and all other facts which reasonably affect its fair market value at the time of the taking, we have determined the fair market value of the part of the land taken to be the sum of $..... and the damage to the remainder of the land of the owner by reason of the taking to be the sum of $..... (if applicable).

We have determined the general and special benefits resulting to said owner from the construction of the highway to be the sum of $..... (if applicable).

GIVEN under our hands, this the ..... day of ....., 19.....

.....(SEAL)

.....(SEAL)

.....(SEAL)

(d) A copy of the report shall at the time of filing be mailed to each of the parties. Within thirty (30) days after the filing of the report, either the Commission or the owner, may except thereto and demand a trial de novo by a jury as to the issue of damages. Whereupon the action shall be placed on the civil issue docket of the Superior Court for trial de novo by a jury at term as to the issue of damages, provided, that upon agreement of both parties trial by jury may be waived and the issue determined by

the judge. The report of commissioners shall not be competent as evidence upon the trial of the issue of damages in the Superior Court, nor shall evidence of the deposit by the Commission into the Court be competent upon the trial of the issue of damages. If no exception to the report of commissioners is filed within the time prescribed final judgment shall be entered by the judge upon a determination and finding by him that the report of commissioners, plus interest computed in accordance with Section 136-114 of this Chapter, awards to the property owners just compensation. In the event that the judge is of the opinion and, in his discretion, determines that such award does not provide just compensation he shall set aside said award and order the case placed on the civil issue docket for determination of the issue of damages by a jury.

§ 136-110. Parties. The judge may appoint some competent attorney to appear for and protect the rights of any party or parties in interest who are unknown, or whose residence is unknown and who has not appeared in the proceeding by an attorney or agent. The judge shall appoint guardians ad litem for such parties as are minors, incompetents, or other parties who may be under a disability and without general guardian, and the judge shall have the authority to make such additional parties as are necessary to the complete determination of the proceeding and enter such other orders either in law or equity as may be necessary to carry out the provisions of this Article.

§ 136-111. Remedy Where No Declaration of Taking Filed. Any person whose land or compensable interest therein has been taken by the Highway Commission and no complaint and declaration of taking has been filed by said Highway Commission may, within twelve (12) months of the completion of highway project for which the land was taken, file a complaint in the Superior Court setting forth the names and places of residence of the parties, so far as the same can by reasonable diligence be ascertained, who own or have, or claim to own or have, estates or interests in the said real estate and if any such persons are under a legal disability, it must be so stated, together with a statement as to any encumbrances on said real estate; said complaint shall further allege with particularity the facts which constitute said taking together with the dates that they allegedly occurred; said petition shall describe the property allegedly owned by said parties and shall describe the area and interests allegedly taken. Upon the filing of said complaint, summons shall issue and together with a copy of said complaint be served on the Director of Highways. The allegations of said complaint shall be deemed denied; however, the Highway Commission within thirty (30) days of service of summons and complaint may file answer thereto, and if said taking is admitted by the Highway Commission, it shall, at the time of filing answer, deposit with the Court the estimated amount of compensation for said taking and notice of said deposit shall be given to said owner. Said owner may apply for disbursement of said deposit and disbursement shall be made in accordance with the applicable provisions of Section 136-105 of this Chapter. The

procedure hereinbefore set out shall be followed for the purpose of determining all matters raised by the pleadings and the determination of just compensation.

§ 136-112. Measure of Damages. The following shall be the measure of damages to be followed by the commissioners, jury or judge who determines the issue of damages.

(1) Where only a part of a tract is taken, the measure of damages for said taking shall be the difference between the fair market value of the entire tract immediately prior to said taking and the fair market value of the remainder immediately after said taking, with consideration being given to any special or general benefits resulting from the utilization of the part taken for highway purposes.

(2) Where the entire tract is taken the measure of damages for said taking shall be the fair market value of the property at the time of taking.

§ 136-113. Interest as a Part of Just Compensation. To said amount awarded as damages by the commissioners or a jury or judge, the judge shall, as a part of just compensation, add interest at the rate of six per cent (6%) per annum on said amount from the date of taking to the date of judgment; but interest shall not be allowed from the date of deposit on so much thereof as shall have been paid into court as provided in this Article.

§ 136-114. Additional Rules. In all cases of procedure under this Article where the mode or manner of conducting the action is not expressly provided for in this Article or by the statute governing civil procedure or where said civil procedure statutes are inapplicable the judge before whom such proceeding may be pending shall have the power to make all the necessary orders and rules of procedure necessary to carry into effect the object and intent of this Chapter and the practice in such cases shall conform as near as may be to the practice in other civil actions in said Courts.

§ 136-115. Definitions. For the purpose of this Article (1) the word "Judge" shall mean the Resident Judge of the Superior Court in the district where the cause is pending, or Special Judge residing in said district, or the Judge of the Superior Court assigned to hold the courts of said district or the Emergency Judge holding court in the county where the cause is pending. (2) The words "person", "owner", and "party" shall include the plural; and the words "Highway Commission" shall mean the State Highway Commission.

§ 136-116. Final Judgments. Final judgments entered in actions instituted under the provisions of this Article shall contain a description of the property affected, together with a description of the property and estate or interest acquired by the Commission and a copy of said judgment shall be certified to the Register of Deeds in the county in which the land or any part thereof lies and be recorded among the land records of said county.

§ 136-117. Payment of Compensation. If there are adverse and conflicting claimants to the deposit made into the Court by the Highway Commission or the additional amount determined as just compensation, on

which final judgment is entered in said action, the judge may direct the full amount determined to be paid into said Court by the Highway Commission and may retain said cause for determination of who is entitled to said moneys and may by further order in the cause direct to whom the same shall be paid and may in its discretion order a reference to ascertain the facts on which such determination and order are to be made.

§ 136-118. Agreements for Entry. The provision of this Article shall not prevent the Highway Commission and the owner from entering into a written agreement whereby the owner agrees and consents that the Highway Commission may enter upon his property without filing the summonses, the complaint and declaration of taking as herein provided and the Highway Commission shall have the same rights under such agreement with the owner in carrying on work on such project as it would have by having filed a summons, complaint and a declaration of taking as provided in this Article.

§ 136-119. Costs and Appeal. The Highway Commission shall pay all court costs taxed by the Court. Either party shall have a right of appeal to the Supreme Court for errors of law committed in any proceedings provided for in this Article in the same manner as in any other civil actions and it shall not be necessary that an appeal bond be posted.

§ 136-120. Entry for Surveys. The State Highway Commission without having filed a complaint and a declaration of taking as provided in this Article is authorized to enter upon any lands and structures upon lands to make surveys, borings, soundings or examinations as may be necessary in carrying out and performing its duties under this Chapter, and such entry shall not be deemed a trespass, or taking within the meaning of this Article; provided, however, that the Highway Commission shall make reimbursement for any damage resulting to such land as a result of such activities and the owner, if necessary, shall be entitled to proceed under the provisions of Section 136-111 of this Chapter to recover for such damage.

§ 136-121. Refund of Deposit. In the event the amount of the final judgment is less than the amount deposited by the Highway Commission pursuant to the provisions of this Article, the Highway Commission shall be entitled to recover the excess of the amount of the deposit over the amount of the final judgment and court costs incident thereto: Provided, however, in the event there are not sufficient funds on deposit to cover said excess the Highway Commission shall be entitled to a judgment for said sum against the person or persons having received said deposit."

Sec. 3. All laws and clauses of laws in conflict with this Act are hereby repealed except that as to those actions or proceedings pending upon the effective date of this Act or to any takings or causes of actions arising prior to the effective date of this Article the present provisions of the law shall remain in full force and effect until such actions or proceedings are concluded.

Sec. 4. The provisions of this Article shall not apply to any actions or proceedings now pending or to any takings or causes of actions arising prior to the effective date of this Article which shall be July 1, 1960.

AN ACT TO AMEND ARTICLE 2, SECTION 4(b) OF CHAPTER 107 PRIVATE LAWS OF 1931, RELATING TO THE CHARTER OF THE CITY OF HIGH POINT.

The General Assembly of North Carolina do enact:

Section 1. Article 2, Section 4(b) of Chapter 107 of the Private Laws of 1931 be and the same is hereby amended by adding at the end thereof the following:

EMINENT DOMAIN

1. Condemnation Procedure; Interest Acquired.

The City of High Point shall possess the power of eminent domain, and may acquire, either by purchase or condemnation, any land, right of access, right of way, water right, privilege, easement, or any other interest in or relating to land or water, either within or beyond the city limits, including and limited to a right of way in and across lands owned

or held as right of way by a railroad or other public utility company (provided that the operation of such railroad or other public utility company may not be impaired unreasonably thereby), for any lawful public use or purpose. Unless otherwise expressly provided in the condemnation resolution, a fee simple title shall pass to the city upon the condemnation of any such interest. In any case where the owner of land to be condemned or of any interest therein is a minor, an insane person, or otherwise under any disability, any notice hereinafter required by this Article to be served upon such owner shall be served upon his guardian, and service upon such guardian shall be sufficient without service on the minor, insane person, or person under disability. Thereafter such guardian may exercise on behalf of his ward with respect to such condemnation proceeding all the powers conferred upon such person as owner. Water rights or other interests relating to water may be condemned under the procedure set forth in this Article for the condemnation of land and interests therein.

2. Effort to Purchase Not Required.

It shall not be necessary to the condemnation by the city of any land or interest therein, whether pursuant to this Article or otherwise, that the city shall have attempted to acquire the needed land by grant or purchase prior to the commencement of condemnation proceedings.

3. Resolution Proposing Condemnation.

(a) When any land required by the city for any purpose allowed by this charter or the general law of the State is proposed to be condemned under the specific provisions of this charter, the city council shall adopt a resolution which shall contain substantially the following provisions:

(1) A description of the land proposed to be condemned in fee, or the interest or easement proposed to be condemned.

(2) If there is any building or other property situated wholly or partly upon the land to be condemned, the determination of the city council as to whether the owner shall be allowed to remove such property or whether the same shall be condemned;

(3) A statement of the purpose for which said land or easement is proposed to be condemned;

(4) The name and address of the owner or owners of said land and of any other person or persons interested therein whom it is necessary to make a party to the proceeding;

(5) The name of a disinterested freeholder of the city appointed as appraiser by the city council;

(6) A notice that the owner or owners of said land, or interest therein, or a majority in interest of said owners, may, within five days after service of said resolution upon all of them, appoint one appraiser (who shall be a disinterested freeholder of the city) to represent them, the name of which appraiser shall be reported in writing to the city clerk within said five days;

(7) A notice that the appraiser appointed by the city and the appraiser appointed by the owner or owners, or if the owner or owners fail to appoint, then the two appraisers appointed by the city, shall appoint a third appraiser, and that the three thus appointed shall constitute a

board of appraisers, whose duty it shall be to determine the damages and benefits which will result from the condemnation of said land or easement or interest therein;

(8) A notice of the time fixed for the first meeting of the appraisers, and that said meeting will be held upon the premises to be condemned.

(b) It shall not be necessary to institute separate condemnation proceedings against the several owners of tracts or parcels of land affected by proposed local improvements.

4. Service of Resolution Proposing Condemnation.

A copy of the resolution proposing condemnation shall be personally served upon each of the owners of the land proposed to be condemned; provided, that if the resolution cannot be personally served upon any of the owners, then it may be served by publication once a week for two successive weeks in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city.

5. Failure of Owners to Appoint Appraiser.

If within five days after service of the resolution upon all of the owners, they or a majority in interest of them fail to appoint an appraiser and to report his name to the city clerk, the city council shall appoint a disinterested freeholder of the city to represent them.

6. Appointment of Third Appraiser; Oath.

The appraiser appointed by the city council, and the appraiser appointed by the owner or owners, or if the owner or owners fail to appoint, then the two appraisers appointed by the city council, shall appoint a third appraiser, who shall be a disinterested freeholder of the city, and shall report his name to the city clerk. Each appraiser shall take an oath or affirmation that he will fairly and impartially discharge his duties as an appraiser.

7. First Meeting of Appraisers.

At the time fixed by the resolution of condemnation, the appraisers shall meet on the premises proposed to be condemned. If for any reason a meeting cannot be held at the time fixed by the city council, then a meeting shall be held at another time fixed by the appraisers, in which case notice of the time and place of the meeting shall be personally served upon each of the owners of the land or easement proposed to be condemned, or if the notice cannot be personally served, it may be served by publication once a week for two successive weeks in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city. The notice, whether given personally, by publication, or by posting, shall be served not less than five days prior to the date of the hearing. At the first meeting the appraisers shall view the premises affected by the proposed condemnation; and shall hear, but need not reduce to writing, any evidence as to damages and benefits that will result from the proposed condemnation presented by the owners or by the city. The appraisers may make their report at or after the hearing or they may, in their discretion, hold subsequent meetings.

8. Subsequent Meetings; When Notice Required.

Subsequent meetings of the appraisers shall be held at such times and places as may be determined by them. Of such meetings no notice need be given either to the owners or to the city unless such meetings are to be public and for the purpose of hearing evidence. If held for such purpose, then unless such meeting is held at a time and place to which a former meeting of which the parties had lawful notice was adjourned, notice of the meeting shall be personally served upon all the parties, or, if such notice cannot be personally served, it may be served by publication once a week for two successive weeks in a newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city. The notice shall be served or publication or posting thereof completed not less than five days prior to the time fixed for the meeting.

9. Determination of Damages and Benefits; Report.

In determining the compensation to be paid by the city for the land or easement condemned, the appraisers shall take into consideration both the loss or damage which will result to the owners from the condemnation of the land or easement and the benefits that will result to any remainder of such land from the improvement for which the land or easement is to be condemned, the benefits to include both benefits or advantages special to the land and the benefits or advantages to the land in common with other lands affected by the improvement. The appraisers shall also take into consideration the value of any building or other property situated on the land proposed to be condemned if the owner is to be allowed to remove the building or other property, and the value thereof shall not be included in the compensation award. Having determined damages and benefits, the appraisers shall make their report to the city council, in which report the appraisers shall show separately the amount of damages, the amount of benefits, and the amount which shall be paid by the city if it finally condemns the land or easement. In the event the property condemned is subject to a recorded lease or leases, the appraisers shall apportion the award between or among the person or persons owning the fee or fees and the person or persons owning the leasehold interest or interests; but in no event shall the total of the amounts so apportioned exceed the value of the property were it not subject to a recorded lease or leases. The report shall be sufficient if it is concurred in by two of three appraisers. In the event that no two of the three appraisers can agree upon an appraisal, three new appraisers may be appointed in the same manner as the original appraisers, and the new appraisal board shall follow the same procedure as required of the orginal appraisal board.

10. Action of Council on Report.

Within thirty days after the report of the appraisers is submitted to the city council, the council shall determine what action it will take thereon. If the council determines to abandon the proposed condemnation, it shall adopt a resolution to that effect; but the abandonment of the condemnation shall not prevent the city council from thereafter instituting a proceeding

to condemn the same land or easement. If the council determines to condemn the land or easement, it shall adopt a resolution which shall contain substantially the following:

(1) A recital that a board of appraisers has been appointed to determine the compensation to be paid for the land or easement, as provided by this charter, and that the appraisers have submitted their report to the council;

(2) A statement of the amount of damages and benefits as fixed by the appraisers and of the compensation to be paid by the city for the land or easement condemned as fixed by the appraisers;

(3) The determination of the council as to the condemnation of the land or easement;

(4) A description of the land condemned in fee or of the easement condemned;

(5) A statement of the purpose for which the land or easement is condemned;

(6) The name of the owner or owners of the land and of other persons interested therein who were made parties to the proceeding;

(7) The determination of the council as to the time when the city will take possession of the land or easement condemned, and a direction that such premises shall be vacated by such time, and, in case the owner is allowed to remove any building or part thereof or any other property on the premises, a direction that such property shall be removed before said date and that if the owner fails to remove the same within said time, the council will have the same removed and the cost thereof shall be a lien upon the remainder of the property.

11. Vesting of Title in City.

The adoption by the city council of a final resolution of condemnation, as provided in the preceding Section shall have the effect of a judgment against the City of High Point for the amount of compensation fixed by the appraisers and shall vest in the city title to the land or easement condemned.

12. Appeal to Superior Court.

If upon the adoption by the city council of a final resolution of condemnation, either the owner of the land or easement condemned or the city council itself is dissatisfied with the amount of the compensation to be paid for such land or easement as fixed by the appraisers, such owner or the city or both may, within ten days from the date of adoption of such resolution, appeal to the Superior Court of Guilford County. The party or parties appealing shall, within ten days, give notice of appeal to the other party by personal service if practicable and, if not, by publication of a notice one time in a newspaper published in the city which is qualified to carry legal notices. The appeal or appeals shall not interfere with the vesting in the city of the title to the land or easement condemned or hinder the city in any way from proceeding with the improvements for which such land or easement was condemned, except that if the land or interest therein is owned by another public or quasi-public body, or by a railroad or public utility company, the vesting of title in the city shall

not become effective until the court has rendered final judgment on the question of whether the condemnation by the city is in the public interest, and has determined the amount of compensation to be awarded for the condemnation, in which case the court may, in its discretion, reduce the amount of land or interest therein which it shall allow to be condemned.

13. Record upon Appeal.

Upon an appeal taken by either party, the city clerk shall certify a copy of the record in the condemnation proceeding to the Superior Court of Guilford County, and such appeal shall be tried as other actions at law. The record upon appeal shall be composed of the preliminary resolution of condemnation, the oath of appraisers, the report of appraisers, the final resolution of condemnation, and the notice or notices of appeal. The record upon appeal, or any part thereof, shall be competent as evidence upon the trial of an appeal.

14. Condemnation before Determination of Compensation.

When, in the judgment of the city council, the public interest requires that the city enter into immediate possession of any land, it shall adopt a resolution stating such necessity and the reason therefor, and condemning the required land or easement, and providing for the determination of the compensation to be paid by the city for the land or easement. The procedure therefor with respect to determination of such compensation shall follow as closely as practicable the provisions of this Article, or of the provisions of general law concerning "Eminent Domain." This Section shall not apply to land, or interests therein, owned by another public or quasi-public body, or railroad or public utility company.

15. Registration of Condemnation Proceedings.

In any case where any land or any easement therein has been or may hereafter be condemned by the city council, a copy of so much of the condemnation proceedings as may be necessary to show the land or easement therein condemned and the condemnation thereof shall be certified by the city clerk and the same, upon being probated by the Clerk of the Superior Court, or other person authorized by law to probate instruments for registration, shall be registered in the office of the Register of Deeds of Guilford County.

16. Sale or Other Disposition of Land Condemned.

When any land condemned in fee by the city is no longer needed for the purpose for which it was condemned, the same may be used by the city for any other public purpose or may be sold or otherwise disposed of.

17. Removal by City of Structures on Condemned Land; Lien.

When property upon which any building or other structure is wholly or partly located is condemned by the city under the provisions of this charter or any other law, and the owner is allowed to remove such building or structure or part thereof, the city council may, after the report of the appraisers has been made, name the time within which the owner may remove the building or structure, or part thereof, and if the owner fails to remove the same within said time, the council may remove the same and the cost thereof shall be a lien upon the remainder of said land, or such cost may be recovered by the city in any court of competent jurisdiction.

18. Procedure Not Exclusive.

The condemnation procedure set forth in this Article shall not be exclusive, but shall be in addition to any other procedure provided by law.

19. Procedure Not Applicable Outside of Guilford County.

The condemnation procedure set forth in Article 2 of Chapter 40 of the General Statutes of North Carolina and not the procedure set forth in this Article shall be applicable to the exercise of the power of eminent domain by the city for the condemnation of any land, right of access, right of way, water right, privilege, easement, or any other interest in or relating to land or water which is or are located outside of the geographic boundaries of Guilford County.

Sec. 2. All laws and clauses of laws in conflict with this Act are repealed.

Sec. 3. This Act shall be in full force and effect from and after its ratification.

In the General Assembly read three times and ratified, this the 16th day of June, 1959.

The governing body appointing any member shall have the authority to remove such member at any time after filing written notice with the Planning Commission. Any vacancy in the membership of the Commission shall be filled by the appropriate governing body for the unexpired term. Members of the Planning Commission shall serve without compensation except in the discretion of the Planning Commission, members may be reimbursed for necessary travel expenses outside the county while engaged in the work of the Commission.

Sec. 2. Organization of Planning Commission. On the date and at the time designated by the Board of County Commissioners but not later than October 15, 1959, the members of the Planning Commission appointed by the several governing bodies as provided for in Section 1 of this Act shall meet at the Carteret County Courthouse and organize the Commission as follows: The Commission shall elect from among its members a chairman, a vice chairman and a secretary-treasurer, and such other officers as it may deem necessary for such terms of office as the Commission may prescribe. The Commission shall adopt such rules and regulations not inconsistent with this Act as it may deem necessary for the proper discharge of its duties. The Commission may establish and the chairman may appoint such committees as the work of the Commission may require. The Commission shall meet regularly, at least once every two months at the places and on the dates as determined by the Commission. Special meetings may be called by the chairman, and the chairman shall be required to call a special meeting of the Commission when requested to do so in writing by three or more members of the Commission. All members shall be notified in writing by the chairman of the time and place of regular or special meetings at least five days in advance of such meeting. All meetings of the Commission shall be open to the public.

Sec. 3. Commission's Fiscal Affairs. The Commission shall by agreement of its members determine the amount of funds to be appropriated annually to the Commission for its work by the county and the amount of funds to be appropriated annually by each municipality represented on the Commission. The Commission shall distribute to the county and to each member municipality during the month of May each year a statement of the proposed appropriations for the fiscal year for each governmental unit. The county and each municipality represented on the Commission shall, not later than June 1st each year, notify the Commission in writing of its acceptance or rejection of the amount of funds requested to be appropriated to the Commission for the ensuing fiscal year. In determining the proportionate share of the annual cost to be borne by the county and the several municipalities, the Commission may use any reasonable method that they may deem best.

The Commission in carrying out its functions may accept, receive and disburse any funds or grants made available by the Federal Government

and its agencies, the State Government and its agencies, the county or any municipality therein and funds from private or other sources.

The Commission shall annually prepare and adopt during the month of June a budget for the fiscal year beginning on July 1. Copies of the Commission's budget shall be distributed to the county and to each municipality. The budget may be amended from time to time during the year by a vote of a majority of all members of the Commission. The Commission shall keep accurate records of all receipts and disbursements and shall prepare an annual report of its activities including a financial statement which shall be distributed to the county and each municipality. Copies of this annual report may be made available for further distribution as the Commission may determine.

Carteret County and each municipality within Carteret County which is represented on the Planning Commission is hereby granted the authority to appropriate nontax funds and to annually levy taxes for the payment of funds to the Planning Commission for its support as a special purpose in addition to any allowed by the Constitution.

Sec. 4. Contract for Services. The Planning Commission is hereby authorized to enter into and carry out contracts for services which shall include but shall not be limited to the following: (a) State and Federal Government. The Commission may enter into and carry out contracts with the State or Federal Government or any agencies thereof under which said government or agencies grant financial or other assistance. The Commission may accept such assistance or funds as may be granted by the State or the Federal Government with or without such a contract, and the Commission may agree to and comply with any reasonable conditions which are imposed upon such grants. (b) County and Municipal Government. The Commission may enter into and carry out contracts with any city, county or joint planning board or boards under which it agrees to pay such other planning board or boards for technical planning assistance. In addition, the Commission may enter into and carry out contracts with any city, county or joint planning board or boards under which it agrees to furnish technical planning assistance to such other planning board or boards. (c) Consultants. The Commission may enter into and carry out contracts with consultants, planners, engineers and others for such services as it may deem necessary. (d) Staff. The Commission may enter into and carry out a contract with or employ such secretarial or staff assistance as it may deem necessary. (e) Office. The Commission is authorized to enter into an agreement or contract with any government or agency thereof or with any person, firm or corporation for the use or rental of such office space or other facilities as the Commission may require.

Sec. 5. Powers and Duties of Commission. It shall be the duty of the Commission to make comprehensive studies of the present and future needs of the county with the general purpose of guiding and providing for the coordinated and orderly growth and sound physical development of the county that will best promote the health, safety, convenience, prosperity and general welfare of all the people within the county.

In guiding and providing for the orderly growth and sound physical development of the county, the Planning Commission shall prepare and adopt a comprehensive plan or plans for the future development of the county which shall be known as the "Carteret County Development Plan". The County Development Plan or parts thereof when adopted by the Planning Commission shall be recommended to the Board of County Commissioners or to the governing bodies of the several municipalities, if appropriate, for adoption or other action necessary to implement such plan or part thereof. The County Development Plan shall include the following:

(1) Zoning Plan. The zoning plan shall include a plan for the zoning and regulation of buildings and other structures and the use of land, other than for farming, in areas outside the zoning jurisdiction of municipalities. If the Planning Commission determines it is not necessary to zone the entire county or recommends the zoning by the county of an area or areas within the corporate boundaries of municipalities, the Planning Commission may prepare and recommend such plans in accordance with Section 6 of this Act. Any zoning plan prepared for the county or any part thereof shall include both the full text of a zoning ordinance and a map or maps showing proposed district boundaries.

(2) Subdivision Regulations. Subdivision regulations shall include a recommended ordinance regulating the platting and recording of any subdivision of land as defined in Section 7(7) of this Act, lying within the county and outside the subdivision regulation jurisdiction of any municipality. Any such subdivision regulation ordinance shall be prepared in accordance with Section 7 of this Act.

(3) Major Highway Plan. The major highway plan shall include a coordinated plan for the location, construction, extension or improvement of major highways and streets within the county and the several municipalities. The major highway plan shall be based upon surveys or studies designed to indicate the future vehicular traffic needs of the county or parts thereof and shall be prepared in cooperation with the State Highway Commission and the several municipalities affected by such plan.

(4) Resource Plan. The resource plan shall include a plan for encouraging the development and expansion of the commercial, industrial and agricultural resources of the county. Such plan may include an inventory of the resources of the county and recommendations for meeting existing and emerging problems of commerce, industry or agriculture affecting the economic development of the county.

(5) Public Facilities Plan. The public facilities plan shall include a coordinated plan or plans for the development, expansion and extension of public facilities including but not limited to plans for primary and secondary schools, hospitals, port and harbor facilities, governmental service and utility facilities, public recreation facilities, flood control and pollution control facilities, water resources and air transportation facilities which are deemed important to the development of the entire county.

The County Development Plan or parts thereof may from time to time be revised, amended or enlarged in accordance with the provisions of this Act as the Planning Commission deems necessary and desirable.

The Planning Commission is hereby authorized to undertake or engage in the following activities:

(1) Building Codes. The Commission may prepare and recommend for adoption to the appropriate governing body, building, plumbing, electrical and such other similar regulatory codes not inconsistent with the codes or laws of the State of North Carolina as they may deem necessary.

(2) Assistance to Municipalities. The Commission may provide technical planning assistance including surveys, studies and recommended plans or provide other planning services to the municipalities in the county.

(3) The Commission may engage in any other general planning activity designed to carry out the intent and purpose of this Act.

It shall be the duty of the Planning Commission to cooperate and consult with the municipalities, the appropriate departments, agencies and instrumentalities of the Federal, State and county governments; public and private institutions and organizations and with other individuals and groups in guiding and accomplishing the coordinated planning for the development of the entire county.

It shall be the duty of the Planning Commission prior to the adoption by the Commission of any zoning plan, subdivision regulations, major highway plan or public facilities plan to advertise and conduct a public hearing concerning such plan or plans. At such hearing, an explanation shall be made of the proposed plan or plans and every interested person shall be given the opportunity to be heard concerning such proposals. The method of advertising such hearing shall be determined by the Commission. The Planning Commission may advertise and hold public hearings concerning any proposal under consideration when it is deemed expedient.

Sec. 6. County Authorized to Adopt Zoning Ordinance. (1) Grant of power. For the purpose of promoting health, safety, morals, or the general welfare, the Board of Commissioners of Carteret County is hereby empowered to regulate and restrict (a) the height, number of stories, and size of buildings and other structures, (b) the percentage of lot that may be occupied, (c) the size of yards, courts, and other open spaces, (d) the density of population, and (e) the location and use of buildings, structures, and land for trade, industry, residence or other purposes, except farming. No such regulations shall affect bona fide farms, but any use of such property for non-farm purposes shall be subject to such regulations. Such regulations may provide that a board of adjustment may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules therein contained.

(2) Districts. For any and all said purposes, the Board of Commissioners may divide the county, or portions of it as determined in accordance with the provisions of subsection (4) of this Section, into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of this Section; and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration,

repair, or use of buildings, structures, or land. All such regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts.

(3) Purposes in view. Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Such regulations shall be made with reasonable consideration, among other things, as to the character of each district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the county. Such regulations shall further be made with reasonable consideration to expansion and development of municipalities within the county, so as to provide for the orderly growth and development of such municipalities.

(4) Territory subject to zoning; zoning areas. The county zoning ordinance may regulate all territory in the county outside the zoning jurisdiction of any municipalities within the county. In addition, the county zoning ordinance may regulate territory within the zoning jurisdiction of any municipality whose governing body, by resolution, agrees to such regulation; provided, however, that any such municipal governing body may, upon one year's written notice, withdraw its approval of the county zoning regulations, and those regulations shall have no further effect within the municipality's jurisdiction.

Where the Board of Commissioners determines that it is not necessary to zone the entire county in order to serve the public interest, the board may, after a public hearing, designate one or more portions of the county as a zoning area or areas. Any such area or areas may be regulated in the same manner as if the entire county were zoned, and the remainder of the county need not be regulated. No zoning area may be designated which is less than 640 acres in area, or which contains less than ten separate tracts of land in separate ownership.

(5) Planning Commission; advisory committees. In order to avail itself of the powers conferred by this Section, the Planning Commission shall have made recommendations concerning the zoning of the county or parts thereof to the Board of County Commissioners as provided for elsewhere in this Act. If the Board of Commissioners creates one or more zoning areas within the county under the provisions of subsection (4) of this Section, it shall also appoint an advisory committee for each such zoning area, composed of residents of the area. Each advisory committee shall be charged with the duty of making recommendations to the Planning Commission and the Board of Commissioners concerning zoning regulations for its area.

(6) On receipt of a zoning plan from the County Planning Commission, the Board of Commissioners shall hold a public hearing thereon,

after which it may adopt the zoning ordinance and map as recommended, adopt it with modifications, or reject it.

The zoning ordinance, including the map or maps, may from time to time be amended, supplemented, changed, modified, or repealed. No amendment shall become effective unless it first be submitted to the Planning Commission for its recommendations; failure of the Planning Commission to make recommendations for a period of 30 days after the amendment has been referred to it shall constitute a favorable recommendation. No amendment may be adopted until after a public hearing thereon.

(7) Public hearings. Whenever in this Section a public hearing is required, all parties in interest and other citizens shall be given an opportunity to be heard. A notice of such public hearing shall be given once a week for two successive calendar weeks in a newspaper published in the county.

(8) Board of adjustment. If it exercises the powers granted by this Section, the Board of Commissioners shall provide for the appointment of a board of adjustment consisting of five members, each to be appointed for three years; provided, that the Board of Commissioners in the appointment of the orginal members of such board, or in the filling of vacancies caused by the expiration of the terms of the existing members of any such board, may make appointments of certain members for less than three years to the end that thereafter the terms of all members shall not expire at the same time. The Board of Commissioners may, in its discretion, appoint not more than two alternate members to serve on such board in the absence, for any cause, of any regular members. Such alternate member or members shall be appointed for the same term or terms as regular members, and shall be appointed in the same manner as regular members and at the regular times for appointment. Each alternate member, while attending any regular or special meeting of the board and serving in the absence of any regular member, shall have and exercise all the powers and duties of such regular member so absent.

Such board of adjustment shall hear and decide appeals from and review any order, requirement, decision, or determination made by an administrative official charged with the enforcement of any ordinance adopted pursuant to this Section. Such appeal may be taken by any person aggrieved or by an officer, department, board, or bureau of the county. Such appeal shall be taken within such time as shall be prescribed by the board of adjustment by general rule, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal, specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment, after notice of appeal shall have been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the board of

adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken and on due cause shown. The board of adjustment shall fix a reasonable time for the hearing of the appeal and give due notice thereof to the parties, and decide the same within a reasonable time. The board of adjustment may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from, and shall make such order, requirement, decision, or determination as in its opinion ought to be made in the premises, and to that end shall have all the powers of the officer from whom the appeal is taken.

The zoning ordinance may provide that the board of adjustment may permit special exceptions to the zoning regulations in the classes of cases or situations and in accordance with the principles, conditions, safeguards, and procedures specified in the ordinance. The ordinance may also authorize the board to interpret the zoning maps and pass upon disputed questions of lot lines or district boundary lines and similar questions as they arise in the administration of the ordinance. The board shall hear and decide all such matters referred to it or upon which it is required to pass under any such ordinance.

Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of such ordinance, the board of adjustment shall have the power, in passing upon appeals, to vary or modify any of the regulations or provisions of such ordinance relating to the use, construction or alteration of buildings or structures or the use of land, so that the spirit of the ordinance shall be observed, public safety and welfare secured, and substantial justice done.

The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision, or determination of any administrative official charged with the enforcement of an ordinance adopted pursuant to this Section, or to decide in favor of the applicant any matter upon which it is required to pass under any such ordinance, or to grant a variance from the provisions of such ordinance. Every decision of such board shall be subject to review by the Superior Court by proceedings in the nature of certiorari.

(9) Remedies. In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained, or any building, structure, or land is used in violation of this Section or of any ordinance or other regulation made under authority conferred hereby, the proper authorities of the county, in addition to other remedies, may institute any appropriate action or proceedings (a) to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use; (b) to restrain, correct, or abate such violation; (c) to prevent the occupancy of said building, structure, or land; or (d) to prevent any illegal act, conduct, business, or use in or about such premises.

(10) Conflict with other laws. Wherever the regulations made under authority of this Section require a greater width or size of yards or courts, or require a lower height of building or less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required in any other statute or local ordinance

or regulation, the provisions of the regulations made under authority of this Act shall govern. Wherever the provisions of any other statute or local ordinance or regulation require a greater width or size of yards or courts, or require a lower height of building or a less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required by the regulations made under authority of this Act, the provisions of such statute or local ordinance or regulation shall govern.

(11) Section applicable to buildings constructed by State and its subdivisions. All of the provisions of this Section and any ordinance adopted pursuant hereto are hereby made applicable to the erection and construction of buildings by the State of North Carolina and its political subdivisions.

Sec. 7. County Authorized to Adopt Subdivision Regulations. (1) Board of Commissioners as platting authority. The Board of County Commissioners of Carteret County is hereby authorized to enact an ordinance regulating the platting and recording of any subdivision of land, as defined by this Section, lying within the county and outside the subdivision-regulation jurisdiction of any municipality. Such ordinance may also regulate territory within the subdivision-regulation jurisdiction of any municipality whose governing body by resolution agrees to such regulation; provided, however, that any such municipal governing body may, upon one year's written notice, withdraw its approval of the county subdivision regulations, and those regulations shall have no further effect within the municipality's jurisdiction.

(2) Procedure for adopting subdivision ordinance. Before the County Commissioners may adopt a subdivision control ordinance or any amendment thereto under the provisions of this Section, the Planning Commission shall recommend and the Board of County Commissioners shall hold a public hearing on the proposed ordinance. A notice of such public hearing shall be given once a week for two successive calendar weeks in a newspaper published in the county.

(3) Subdivision regulations. The county shall not regulate the platting and recording of subdivisions in any manner other than through the adoption of an ordinance pursuant to the provisions of this Section. Such ordinance may provide for the orderly development of the county; for the coordination of streets and highways within proposed subdivisions with existing or planned streets and highways and with other public facilities; for the dedication or reservation of rights of way or easements for street and utility purposes; and for the distribution of population and traffic which shall avoid congestion and overcrowding and which shall create conditions essential to public health, safety, and the general welfare.

Such ordinance may include requirements for the final plat to show sufficient data to determine readily and reproduce accurately on the ground and location, bearing, and length of every street and alley line, lot line, easement boundary line, and other property boundaries, including the radius and other data for curved property lines, to an appropriate accuracy and in conformance with good surveying practice.

(4) Procedure for filing plat. Any subdivision ordinance adopted pursuant to this Section shall contain provisions setting forth the procedures to be followed in granting or denying approval of a subdivision plat prior to its registration. Such ordinance shall give the following agencies an opportunity to make recommendations prior to the approval of any individual subdivision plat:

(a) The district highway engineer as to proposed streets, highways, and drainage systems;

(b) The county health director as to proposed water and sewerage systems;

(c) The county school superintendent as to proposed school sites;

(d) Such other agencies and officials as the County Commissioners may deem necessary or desirable.

The ordinance may provide that final approval of each individual subdivision plat is to be given by (a) the Board of County Commissioners, (b) the Board of County Commissioners on recommendation of the County Planning Commission, or (c) the County Planning Commission.

From and after the time that a subdivision ordinance is filed with the register of deeds of the county, no subdivision plat of land within the county's subdivision-regulation jurisdiction shall be filed or recorded until it shall have been submitted to and approved by the appropriate board, as specified in the subdivision ordinance, and until such approval shall have been entered on the face of the plat in writing by the chairman of said board. The register of deeds shall not file a plat of a subdivision of land located within the territorial jurisdiction of the County Commissioners as defined in subsection (1) of this Section which has not been approved in accordance with these provisions, nor shall the Clerk of the Superior Court order or direct the recording of a plat where such recording would be in conflict with this subsection. The owner of land shown on a subdivision plat submitted for recording, or his authorized agent, shall sign a statement on the plat stating whether or not any land shown thereon is within the subdivision-regulation jurisdiction of the Board of County Commissioners.

(5) Effect of plat approval on status of dedications. The approval of a plat pursuant to regulations adopted under this Section shall not be deemed to constitute or effect the acceptance by the county or the public of the dedication of any street or other ground, public utility line, or other public facility shown on the plat.

(6) Penalties for transferring lots in unapproved subdivisions. If the Board of County Commissioners adopts an ordinance regulating the subdivision of land as authorized herein any person who, being the owner or agent of the owner of any land located within the platting jurisdiction granted to the County Commissioners by subsection (1) of this Section, thereafter transfers or sells such land by reference to a plat showing a subdivision of land before such plat has been properly approved under such ordinance and recorded in the office of the appropriate register of deeds, shall be guilty of a misdemeanor. The description by metes and bounds in the instrument of transfer or other document used in the process

of selling or transferring shall not exempt the transaction from such penalties. The county, through its county attorney or other official designated by the Board of County Commissioners, may enjoin such illegal transfer or sale by action for injunction.

(7) Definitions. For the purpose of this Section, the following definition shall apply:

Subdivision. A "subdivision" shall include all divisions of a tract or parcel of land into two or more lots, building sites, or other divisions, for the purpose, whether immediate or future, of sale or building development, and shall include all divisions of land involving the dedication of a new street or a change in existing streets; provided, however, that the following shall not be included within this definition nor be subject to the regulations authorized by this Section: (1) The combination or recombination of portions of previously platted lots where the total number of lots is not increased and the resultant lots are equal to or exceed the standards of the county as shown in its subdivision ordinance; (2) the division of land into parcels greater than five acres where no street right of way dedication is involved; (3) the public acquisition by purchase of strips of land for the widening or opening of streets; (4) the division of a tract in single ownership whose entire area is no greater than two acres into not more than three lots, where no street right of way dedication is involved and where the resultant lots are equal to or exceed the standards of the county as shown in its subdivision ordinance.

Sec. 8. County Authorized to Adopt Major Highway Plan. The Board of County Commissioners of Carteret County is hereby authorized to adopt an official county plan for the location, construction, extension or improvement of major highways within the county. The Board of Commissioners are hereby authorized to enter into an agreement with the State Highway Commission and the several municipalities in the county for the joint adoption of a coordinated system of major highways and streets within the county. The Board of Commissioners is hereby authorized to exercise any power or authority that may be now or hereafter granted to the county by general law or special Act in providing for the acquisition of rights of way or the construction or improvement of roads, highways and bridges that is deemed necessary and desirable in establishing and implementing a coordinated major highway plan for the county.

Sec. 9. County Authorized to Adopt and Enforce Building Codes. The Board of County Commissioners is hereby authorized to adopt and enforce building, plumbing, electrical and other similar type regulatory codes concerned with the construction, alteration or repair of buildings or structures for the county outside the jurisdiction of municipalities. No such regulatory code or regulation adopted shall be less restrictive in its requirements than any code or regulation of the State of North Carolina or department or agency thereof which pertains to the same type of regulations or requirements. In addition, the county shall have the authority to enforce or assist with the enforcement of any building code or regulation of the State of North Carolina or any agency or department thereof in effect and applicable to Carteret County. The Board of Com-

missioners shall advertise and hold a public hearing in the manner they deem best prior to adopting any building code or other regulation authorized by this Section.

Sec. 10. County Authorized to Appoint Building Inspector. The Board of County Commissioners may appoint one or more building inspectors to serve at the will of the board, whose duties shall be: To enforce the State Building Code adopted under Article 9 of Chapter 143 of the General Statutes; to enforce any county building regulations adopted under G. S. 143-138(b) or 143-138(e); to enforce any county zoning ordinance or ordinances; to enforce any regulatory codes or other regulations adopted pursuant to this Act; to collect inspection fees determined by the Board of County Commissioners, which the board is hereby authorized to impose, and deliver same to the county treasurer; to furnish a surety bond approved by the Board of County Commissioners; and to carry out such related duties as may be specified by the Board of County Commissioners.

In lieu of appointing a separate building inspector, the Board of County Commissioners may designate as county building inspector: (a) A municipal building inspector of any municipality or municipalities within the county, with the approval of the municipal governing body; (b) the county fire marshal; (c) a county electrical inspector appointed under G. S. 160-122; (d) a county plumbing inspector appointed under G. S. 153-9(47); or (e) any other person or persons whom they deem to be qualified.

The Board of County Commissioners may pay a building inspector a fixed salary or may in lieu thereof reimburse him for his services by paying over any inspection fees which he collects. The Board of County Commissioners may make necessary appropriations for the special purpose of paying the salary or salaries of county building inspectors and any expenses pertaining to building inspection.

The Board of County Commissioners may enter into and carry out contracts with any municipality or municipalities within the county, or with any other county or counties, under which the parties agree to support a joint building inspection department. The Board of County Commissioners and the municipal governing body may make any necessary appropriations for such a purpose.

On official request of the governing body of any municipality within the county, the Board of County Commissioners may direct the county building inspector to exercise his powers within said municipality, and he shall thereupon be empowered to do so until such time as the municipal governing body officially withdraws its request.

Sec. 11. County Authorized to Adopt Other County Plans. The Board of County Commissioners is hereby authorized to adopt as the official plan or plans of the county the "Carteret County Development Plan" or parts thereof or to adopt any other plan which has been prepared or approved and recommended by the Planning Commission. The appropriations hereby made shall be in addition to all other appropriations heretofore made, or which may be made at the present Session of the General Assembly, and shall be expended and disbursed under the direction and supervision of the Director of the Budget.

Each project must be so planned that its estimated cost will be within such limits that will allow the purchase of all needed equipment and provide drives, walks, grading and connections to all needed utilities so that when completed the facility may be fully utilized without requiring additional State funds. All or any part of the appropriations as provided on page 11, "Land Acquisition—State Parks 150,000" may be used to purchase lands adjoining Mt. Mitchell State Park known as "Stepps Gap lands", however, no part of said appropriation may be used to condemn all or any part of said "Stepps Gap lands".

Sec. 6. The funds appropriated to provide for Capital Improvements, by Section 5 of this Act, shall be disbursed for the purposes provided in this Act upon warrants drawn by the State Disbursing Officer, which warrants shall not be drawn for any State institution, department or agency until a requisition has been approved by the Director of the Budget and which requisition shall be approved only after full compliance with the Executive Budget Act, Article 1 of Chapter 143 of the General Statutes. Any officer of the State or executive head of any institution, or any director, trustee or commissioner of any State institution, department or agency to which an appropriation is made under the provisions of this Act who votes for or aids in spending more money for any improvement for his institution, department or agency than is appropriated therefor, may be removed from office by the Governor. Any additional moneys which may be received by means of a grant or grants from the United States of

America or any agency or department thereof or from any other source to aid in financing the cost of any of the improvements herein referred to, may be placed by the State Treasurer in the same fund or in a separate fund and, to the extent permitted by the terms of such grant or grants, shall be disbursed in the same manner and for the purposes mentioned in this Act.

Sec. 7. The Director of the Budget is authorized and empowered to make transfers and changes between the appropriations made in this Act, within the appropriations made to each agency, to provide changes to permit completion of the projects as described in the appropriations. When all projects enumerated in the appropriation for any institution or agency have been completed, all remaining funds shall revert to the General Fund of the State.

Sec. 7.1. (a) The appropriation made herein to the Department of Conservation and Development for "Outer Banks Survey and Land Acquisition" is made for the purpose of making necessary surveys and land acquisitions in connection with restoring, stabilizing, preserving, and rehabilitating that portion of the Outer Banks of North Carolina located between Ocracoke Inlet on the North and Cape Lookout on the South, and so much of Shackleford Banks as may be determined by the Department to be reasonable or necessary to stabilize Barden's Inlet.

(b) In carrying out the purpose for which this appropriation is made, the Department of Conservation and Development shall, subject to other applicable laws of this State, have authority: to make such surveys as it deems necessary; to acquire real property of any nature by purchase, condemnation, or other legal means; to enter into contracts and other agreements in connection therewith; and to do any and all other acts and things which may be reasonable or necessary to carry out the purposes for which this appropriation is made.

(c) All receipts of whatever nature relating to this project which may accrue to the State, including funds paid to the State by the Federal Government to be used in connection with this project, shall be deposited in the account established for the purposes of this appropriation, and shall be disbursed in the same manner as provided for this appropriation. When the purposes for which this appropriation is made have been completed, any remaining funds in this account shall revert to the General Fund of the State.

(d) Notwithstanding the provisions of this Act and any reference herein to the Department of Conservation and Development, when and if a water commission is created by the General Assembly of North Carolina, the Governor of North Carolina may transfer such funds as are appropriated for these purposes from the Department of Conservation and Development to the newly created water resources commission, and the duties and rights of the Department of Conservation and Development herein provided for shall then devolve upon such water resources commission.

Sec. 8. Bonds authorized by this Act shall bear such date or dates, shall be serial bonds, and shall mature at such times and in such amounts, not exceeding twenty (20) years from their date or respective dates, and

shall bear interest at such rate or rates, not exceeding four per centum (4%) per annum, payable semiannually, as may be fixed by the State Treasurer with the approval of the Governor and Council of State.

Sec. 9. Said bonds shall be signed on behalf of the State of North Carolina by the Governor or shall bear his facsimile signature and shall be signed by the State Treasurer, shall bear the Great Seal of the State or a facsimile thereof shall be impressed or imprinted thereon, and said bonds shall carry interest coupons which shall bear a facsimile of the signature of the State Treasurer. In case any officer whose signature or facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The form and denomination of the bonds shall be such as the State Treasurer may determine in conformity with this Act, and said bonds shall be subject to registration as is now or may hereafter be provided by law for State bonds, and provision may also be made for the reconversion into coupon bonds of any bonds registered as to both principal and interest.

Sec. 10. Subject to determination by the Governor and Council of State as to the manner in which said bonds shall be offered for sale, whether by publishing notices in certain newspapers and financial journals or by mailing notices or by inviting bids by correspondence or otherwise, the State Treasurer is authorized to sell said bonds at one time or from time to time at the best price obtainable, but in no case for less than par and accrued interest, and when the conditions are equal he shall give the preference of purchase to the citizens of North Carolina. All expenses necessarily incurred in the preparation and sale of the bonds shall be paid from the proceeds of such sale in excess of the appropriations herein authorized or from the Contingency and Emergency Appropriation.

Sec. 11. The proceeds of said bonds and of the bond anticipation notes herein authorized (except the proceeds of bonds the issuance of which has been anticipated by such bond anticipation notes) shall be placed by the State Treasurer in a special fund known as the "Capital Improvement Fund of 1959," and shall be disbursed only for the purposes provided in this Act.

Sec. 12. By and with the consent of the Governor and Council of State, who shall determine the rate or rates or maximum rate of interest and the date or approximate date of payment, the State Treasurer is hereby authorized to borrow money at the lowest rate of interest obtainable, and to execute and issue notes of the State for the same, but only in the following circumstances and under the following conditions:

(a) For anticipating the sale of any of said bonds to the issuance of which the Governor and Council of State shall have given consent, if the State Treasurer shall deem it advisable to postpone the issuance of such bonds.

(b) For the payment of interest upon or any installment of principal of any of said bonds then outstanding, if there shall not be sufficient funds

in the State Treasury with which to pay such interest or installment of principal as they respectively fall due.

(c) For the renewal of any loan evidenced by notes herein authorized.

Sec. 13. Funds derived from the sale of bonds herein authorized shall be used in the payment of any bond anticipation notes that may have been issued in anticipation of the sale of such bonds and any renewals of such notes; and funds provided by the General Assembly for the payment of interest on or principal of bonds herein authorized shall be used in paying the interest on or principal of any notes and any renewals thereof the proceeds of which shall have been used in paying interest on or principal of such bonds. Interest payments upon said notes may be evidenced by interest coupons in the State Treasurer's discretion.

Sec. 14. The full faith, credit and taxing power of the State are hereby pledged for the payment of the principal of and the interest on the bonds and notes herein authorized.

Sec. 15. The coupons appertaining to said bonds and notes after maturity shall be receivable in payment of all taxes, debts, dues, licenses, fines and demands due the State of any kind whatsoever.

Sec. 16. All of said bonds and notes and coupons shall be exempt from all State, county and municipal taxation or assessment, direct or indirect, general or special, whether imposed for the purpose of general revenue or otherwise, and the interest on said bonds and notes shall not be subject to taxation as for income, nor shall said bonds or notes or coupons be subject to taxation when constituting a part of the surplus of any bank, trust company or other corporation.

Sec. 17. It shall be lawful for all executors, administrators, guardians and fiduciaries generally, and all sinking fund commissions, to invest any moneys in their hands in said bonds and notes.

Sec. 18. All laws and clauses of laws in conflict with this Act are hereby repealed.

Sec. 19. This Act shall be in full force and effect from and after its ratification.

The General Assembly of North Carolina do enact:

Section 1. Notwithstanding any constitutional limitation or limitation provided by any general or special law, and notwithstanding any limitations as to net indebtedness, the Board of County Commissioners of Alexander County is hereby authorized and empowered, in its discretion, to au-

thorize the issuance of bonds of said county, in accordance with the provisions of the County Finance Act, as amended, and the Local Government Act, as amended, except for the provisions as to net indebtedness, for the purpose of extending and providing water and sewage facilities on a rental basis to communities and industries in Alexander County, such as in the opinion of the Board of Commissioners of Alexander County will best serve the purpose of promoting health and sanitation in such communities or in communities in, around and near to industries in said county, and for the further purpose of furnishing a water supply and/or water and sewage to any of the public schools in Alexander County. The order, adopted pursuant to the County Finance Act, except as otherwise provided to authorize said bonds, shall take effect when approved by a majority of the qualified electors of Alexander County, such majority to be a majority of those voting in an election as provided in the County Finance Act. The said Board of Commissioners of Alexander County may submit said question in a general election or in a special election called for such purpose, and such special election shall be called, held, conducted, and the results thereof canvassed and determined in accordance with the County Finance Act and in the same manner as elections held under Article 9 of Chapter 153 of the General Statutes, as amended.

Sec. 2. That at the same time the said Board of Commissioners of Alexander County, and along with the question of issuing bonds in such amount and denominations as the board of commissioners may determine, there shall be submitted the question of levying a sufficient tax for the purpose of paying off and discharging said bonds and the interest which may accrue thereon should a majority of the qualified electors of Alexander County voting in said election approve the order authorizing said bonds and in favor of issuing said bonds. The form of the question shall be printed on a ballot furnished to each qualified voter at said election and shall be in substantially these words: "For the issuance of one and one-half million dollar-water and sewage bonds for the purpose of extending same to communities and industries in Alexander County on a rental basis; for the further purpose of furnishing water supply and/or water and sewage to any public school in Alexander County, and for the levying of a sufficient tax for the payment of the principal and interest thereof." Such affirmative and negative form may be printed upon separate ballots, or both thereof may be printed upon one ballot containing squares opposite the affirmative and negative forms, in one of which squares the voter may make an (X) mark.

Sec. 3. The Board of County Commissioners of Alexander County shall determine the amount of bonds to be voted upon according to its bond order, and if a majority of the qualified voters voting in said election favor the issuance of said bonds the said Board of County Commissioners of Alexander County is hereby authorized, in its discretion, to do any and all things necessary and to apply the proceeds of said bond issue for the purpose of providing water and sewage facilities on a rental basis to communities and industries in said county; also for the further purpose of furnishing water supply and/or water and sewage to any of the public

schools in Alexander County, and said bonds when issued shall have the full faith and credit of said county which shall be deemed to be pledged for the punctual payment of the principal and interest on every bond issue by virtue hereof; and the Board of Commissioners of Alexander County shall annually levy and collect a tax ad valorem on all the taxable property in the county sufficient to pay the principal and interest on all bonds issued under this Act. The said election may be held at any time fixed by the governing body of the municipality, and if submitted in a special election the same shall not be governed by any limitations of time before or subsequent to any general election.

Sec. 4. No right of action or defense founded upon the invalidity of such election or the invalidity of any proceedings in connection therewith, or the right or duty to levy sufficient tax for the payment of the principal and interest of such bonds, shall be open to question in any court upon any ground whatever, except in an action or proceeding commenced within thirty (30) days after the publication of such statement of results as provided under the law under which said election is held. The special tax authorized herein, should said bond order be approved in such election, shall be in addition to all other taxes authorized to be levied in said county and shall be collected by the county officer collecting other taxes and be applied solely to the payment of principal and interest of such bonds.

Sec. 5. The powers granted under this Act shall be in addition to and not in substitute for powers granted under any other laws.

Sec. 6. This Act shall be in full force and effect from and after its ratification.

In the General Assembly read three times and ratified, this the 17th day of June, 1959.

(a) Whenever any candidate of a political party for nomination to any office in a primary election shall die before the primary ballots have been printed, or if printed and there is sufficient time left in the opinion of the proper Board of Elections to reprint the ballots before the primary, and there was only one other candidate filed for the same office of the same political party, then the Board of Elections with whom such deceased candidate filed shall immediately upon receiving notice of the death of such candidate, reopen the filing time for filing notices of candidacy for the same office, for a period of five (5) days. The names of all candidates of the same party as that of the deceased candidate who filed for such office during the period in which the filing time was reopened and who paid the proper filing fees, shall be printed on the primary ballots along with the other one candidate for the same office who had filed the first filing period, and shall be voted for in the first regular primary election."

If such recount should still result in a tie vote, then a second primary shall be had on the date prescribed for holding second primaries between the two candidates having an equal vote, unless one of the two candidates should withdraw and file a written notice of withdrawal within three days thereafter with the proper board of elections with which the candidate filed his notice of candidacy. In the event of a tie vote in a primary election between two candidates for any district or State office, or for United States Senator, no recount shall be held by reason of the tie, but the two candidates having a tie vote shall be entered in a second primary to be held on

the prescribed date for second primaries, unless one of the two candidates files a notice of withdrawal with the State Board of Elections within three days after the results of the first primary have been officially declared and published. If in any second primary there is a tie vote between any two candidates, no third primary shall be held, but the proper party executive committee shall select the party nominee for such office in accordance with the provisions of G. S. 163-145.

"In the event of a tie vote between more than two candidates, all of whom received the same highest vote for party nomination, no recount shall be held, but all of such candidates shall run in a second primary and the one who receives the highest vote in the second primary shall be the nominee.

"In the event one candidate receives the highest number of votes cast, but short of a majority, and two or more other candidates receive the second highest number of votes cast in an equal number, then unless all but one of the tied candidates receiving the second highest number of votes withdraw in writing within three days after the official declaration of the results of the primary, the proper board of elections shall declare the candidate having the highest vote as the party nominee. If all but one of the candidates receiving the second highest vote withdraw in writing within the three-day period herein prescribed, and such remaining candidate demands in writing a second primary, then a second primary shall be held between the candidates receiving the highest vote and the remaining candidate who received the second highest vote."

The State Board of Assessment shall determine each year, on the basis of current tax laws, the total taxes that would be due to both the State of North Carolina and the local governments in the same manner as if the property owned and/or operated by the Authority were owned and/or operated by a privately-owned public utility: Provided, however, in making said calculations the State Board of Assessment shall use the tax rate fixed by the local government unit and taxing district involved for the tax year next preceding such calculations. The State Board of Assessment and the Treasurer of the State of North Carolina shall then prorate the funds received from the Authority by the State and local governments between the local governments upon the basis of the foregoing calculations.

(2) Certify each month to the Treasurer of the State of North Carolina a statement of the amount received by the local government direct from the Authority.

H. B. 773 CHAPTER 1064

AN ACT TO REGULATE THE OPERATION OF WATERCRAFT ON THE WATERS OF THE STATE.

The General Assembly of North Carolina do enact:

Section 1. It is the policy of this State to promote safety for persons and property in and connected with the use, operation, and equipment of vessels, and to promote uniformity of laws relating thereto.

Sec. 2. As used in this Act, unless the context clearly requires a different meaning:

(1) "Vessel" means every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water.

(2) "Motorboat" means any vessel propelled by machinery of more than ten horsepower, whether or not such machinery is the principal source of propulsion, but shall not include a vessel which has a valid marine document issued by the Bureau of Customs of the United States Government or any Federal agency successor thereto.

(3) "Owner" means a person, other than a lien holder, having the property in or title to a motorboat. The term includes a person entitled to the use or possession of a motorboat subject to an interest in another person, reserved or created by agreement and securing payment or performance of an obligation, but the term excludes a lessee under a lease not intended as security.

(4) "Waters of this State" means any public waters within the territorial limits of this State, and the marginal sea adjacent to this State and the high seas when navigated as a part of a journey or ride to or from the shore of this State.

(5) "Person" means an individual, partnership, firm, corporation, association, or other entity.

(6) "Operate" means to navigate or otherwise use a motorboat or a vessel.

Sec. 3. (a) It shall be the duty and responsibility of the North Carolina Wildlife Resources Commission to enforce and administer the provisions of this Act.

(b) The Chairman of the Wildlife Resources Commission shall designate from among the members of the Wildlife Resources Commission three members who shall serve as the Motorboat Committee of the Wildlife Resources Commission, and who shall, in their activities with the Commission, place special emphasis on the administration and enforcement of this Act.

(c) All expenses required for administration and enforcement of this Act shall be paid from the funds collected pursuant to the numbering provisions of this Act, provided however, that the Wildlife Resources Commission is hereby authorized, subject to the approval of the Advisory Budget Commission and the Governor and Council of State, to borrow funds from the Contingency and Emergency Fund in an amount not to exceed one hundred thousand dollars ($100,000.00), to be used for initiating the provisions of this Act and to be repaid within two years from the funds collected pursuant to the numbering provisions of this Act. All monies collected pursuant to the numbering provisions of this Act shall be deposited in the State Treasury and credited to a special fund known as the Wildlife Resources Fund and accounted for as a separate part thereof. The said monies shall be made available to the Wildlife Resource Commission, subject to the provisions of the Executive Budget Act and the provisions of the Personnel Act of the General Statutes of North Carolina, for the administration and enforcement of this Act as herein provided and for educational activities relating to boating safety and for no other purpose. All monies collected pursuant to the numbering provisions of this Act and monies otherwise provided for in this Act shall be made available to carry out the intent and purposes as set forth herein in accordance with plans approved by the Wildlife Resources Commission and all such funds are hereby appropriated, reserved, set aside and made available until expended for the enforcement and administration of this Act; provided that the Wildlife Resources Commission is hereby authorized to adopt a plan or formula for the use of said monies for employing and equipping such additional personnel as may be necessary for carrying out the provisions of this Act and for paying a proportionate share of the salaries, expense, and operational costs of existing personnel according to the time and effort expended by them in carrying out the provisions of this Act. Such plan or formula may be altered or amended from time to time by the Wildlife Resources Commission as existing conditions may warrant. No funds derived from the sale of hunting licenses or fishing licenses shall be expended or diverted for carrying out the provisions of this Act.

Sec. 4. Every motorboat on the waters of this State shall be numbered. No person shall operate or give permission for the operation of any motorboat on such waters unless the motorboat is numbered in accordance with this Act, or in accordance with applicable Federal law, or in accordance with a Federally-approved numbering system of another state, and unless (1) the certificate of number awarded to such motorboat is in full force and effect, and (2) the identifying number set forth in the certificate of number is displayed on each side of the bow of such motorboat.

Sec. 5. (a) The owner of each motorboat requiring numbering by this State shall file an application for number with the Wildlife Resources Commission on forms approved by it. The application shall be signed by the owner, or his agent, of the motorboat and shall be accompanied by a fee of three dollars ($3.00). Upon receipt of the application in approved form the Commission shall have the same entered upon the records of its office and issue to the applicant a certificate of number stating the number

awarded to the motorboat and the name and address of the owner. The owner shall paint on or attach to each side of the bow of the motorboat the identification number in such manner as may be prescribed by rules and regulations of the Commission in order that it may be clearly visible. The number shall be maintained in legible condition. The certificate of number shall be pocket size and shall be available at all times for inspection on the motorboat for which issued, whenever such motorboat is in operation.

(b) The owner of any motorboat already covered by a number in full force and effect which has been awarded to it pursuant to then operative Federal law or a Federally-approved numbering system of another state shall record the number prior to operating the motorboat on the waters of this State in excess of the 90-day reciprocity period provided for in Section 7 (1) of this Act. Such recordation shall be in the manner and pursuant to the procedure required for the award of a number under subsection (a) of this Section, except that no additional or substitute number shall be issued.

(c) Should the ownership of a motorboat change, a new application form with fee of one dollar ($1.00) shall be filed with the Wildlife Resources Commission and a new certificate bearing the same number shall be awarded in the manner as provided for in an original award of number. In case a certificate should become lost, a new certificate bearing the same number shall be issued upon payment of a fee of fifty cents (50¢). Possession of the certificate shall in cases involving prosecution for violation of any provision of this Act be prima facie evidence that the person whose name appears thereon is the owner of the boat referred to therein.

(d) In the event that an agency of the United States Government shall have in force an over-all system of identification numbering for motorboats within the United States, the numbering system employed pursuant to this Act by the Wildlife Resources Commission shall be in conformity therewith.

(e) The Wildlife Resources Commission may award any certificate of number directly or may authorize any person to act as agent for the awarding thereof. In the event that a person accepts such authorization, he may be assigned a block of numbers and certificates therefor which upon award, in conformity with this Act and with any rules and regulations of the Commission, shall be valid as if awarded directly by the Commission.

(f) All records of the Wildlife Resources Commission made or kept pursuant to this Section shall be public records.

(g) Every certificate of number awarded pursuant to this Act shall continue in full force and effect for a period of one year unless sooner terminated or discontinued in accordance with the provisions of this Act. Certificates of number may be renewed by the owner in the same manner provided for in the initial securing of the same.

(h) Each certificate of number awarded pursuant to this Act must be renewed each year on or before January 1; otherwise, such certificate shall

lapse and be void. Application for renewal shall be submitted on forms approved by the Wildlife Resources Commission and shall be accompanied by a fee of three dollars ($3.00).

(i) The owner shall furnish the Wildlife Resources Commission notice of the transfer of all or any part of his interest other than the creation of a security interest in a motorboat numbered in this State pursuant to subsections (a) and (b) of this Section or of the destruction or abandonment of such motorboat, within fifteen days thereof. Such transfer, destruction, or abandonment shall terminate the certificate of number for such motorboat except that, in the case of a transfer of a part interest which does not affect the owner's right to operate such motorboat, such transfer shall not terminate the certificate of number.

(j) Any holder of a certificate of number shall notify the Wildlife Resources Commission within fifteen days if his address no longer conforms to the address appearing on the certificate, and shall, as a part of such notification, furnish the Commission his new address. The Commission may provide in its rules and regulations for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or for the alteration of an outstanding certificate to show the new address of the holder.

(k) No number other than the number awarded to a motorboat or granted reciprocity pursuant to this Act shall be painted, attached, or otherwise displayed on either side of the bow of such motorboat.

Sec. 6. (a) Motorboats subject to the provisions of this Act shall be divided into four classes as follows:

(1) Class A. Less than sixteen feet in length.

(2) Class 1. Sixteen feet or over and less than twenty-six feet in length.

(3) Class 2. Twenty-six feet or over and less than forty feet in length.

(4) Class 3. Forty feet or over.

(b) Every motorboat in all weathers from sunset to sunrise shall carry and exhibit the following lights when under way, and during such times no other lights which may be mistaken for those prescribed shall be exhibited:

(1) Class A shall carry a white light to show all around the horizon. Class 1 shall carry a combined lantern in the fore part of the vessel and lower than the white light aft, showing green to starboard and red to port, so fixed as to throw light from right ahead to two points abaft the beam on their respective sides.

(2) Every motorboat of Classes 2 and 3 shall carry the following lights:

a. A bright white light in the fore part of the vessel as near the stem as practicable, so constructed as to show an unbroken light over an arc of the horizon of twenty points of the compass so fixed as to throw the light ten points on each side of the vessel; namely, from right ahead to two points abaft the beam on either side.

b. A bright white light aft to show all around the horizon and higher than the white light forward.

c. On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam of the starboard side. On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side. The said side lights shall be fitted with inboard screens of sufficient height so set as to prevent these lights from being seen across the bow.

(3) Motorboats of Classes A and 1 when propelled by sail alone shall carry the combined lantern, but not the white light aft prescribed by this Section. Motorboats of Classes 2 and 3 when so propelled, shall carry the colored side lights, suitably screened, but not the white lights prescribed by this Section. Motorboats of all classes, when so propelled, shall carry, ready at hand, a lantern or flashlight showing a white light which shall be exhibited in sufficient time to avert collision.

(4) Every white light prescribed by this Section shall be of such character as to be visible at a distance of at least two miles. Every colored light prescribed by this Section shall be of such character as to be visible at a distance of at least one mile. The word "visible" in this subsection, when applied to lights, shall mean visible on a dark night with clear atmosphere.

(5) When propelled by sail and machinery any motorboat shall carry the lights required by this Section for a motorboat propelled by machinery only.

(c) Any vessel may carry and exhibit the lights required by the Federal Regulations for Preventing Collisions at Sea, 1948, Federal Act of October 11, 1951, (33 USC 143-147d) as amended, in lieu of the lights required by subsection (b) of this Section.

(d) Every motorboat of Classes 1, 2, or 3 shall be provided with an efficient whistle or other sound-producing mechanical appliance.

(e) Every motorboat of Classes 2 or 3 shall be provided with an efficient bell.

(f) Every motorboat shall carry at least one life preserver, or life belt, or ring buoy, or other device of the sort prescribed by the regulations of the Wildlife Resources Commission for each person on board, so placed as to be readily accessible: Provided, that every motorboat carrying passengers for hire shall carry so placed as to be readily accessible at least one life preserver of the sort prescribed by the regulations of the Commission for each person on board.

(g) Every motorboat shall be provided with such number, size, and type of fire extinguishers, capable of promptly and effectually extinguishing burning gasoline, as may be prescribed by the regulations of the Wildlife Resources Commission, which fire extinguishers shall be at all times kept in condition for immediate and effective use and shall be so placed as to be readily accessible.

(h) The provisions of subsections (d), (e), and (g) of this Section shall not apply to motorboats while competing in any race conducted pursuant

to Section 14 of this Act, or if such boats be designed and intended solely for racing, while engaged in such navigation as is incidental to the tuning up of the boats and engines for the race.

(i) Every motorboat shall have the carburetor or carburetors of every engine therein (except outboard motors) using gasoline as fuel, equipped with such efficient flame arrestor, backfire trap, or other similar device as may be prescribed by the regulations of the Wildlife Resources Commission.

(j) Every such motorboat and every such vessel, except open boats, using as fuel any liquid of a volatile nature, shall be provided with such means as may be prescribed by the regulations of the Wildlife Resources Commission properly and efficiently ventilating the bilges of the engine and fuel tank compartments so as to remove any explosive or inflammable gases.

(k) The Wildlife Resources Commission is hereby authorized to make rules and regulations modifying the equipment requirements contained in this Section to the extent necessary to keep these requirements in conformity with the provisions of the Federal Navigation Laws or with the navigation rules promulgated by the United States Coast Guard.

(l) No person shall operate or give permission for the operation of a vessel which is not equipped as required by this Section or modification thereof.

(m) In the event that any of the regulations of subsections (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (k), and (l) of Section 6 are in conflict with the equipment regulations of the Federal Motorboat Act of 1958 as amended, the Wildlife Resources Commission is hereby granted the authority to adopt such regulations as are necessary to conform with the Federal Motorboat Act of 1958 as amended.

Sec. 7. A motorboat shall not be required to be numbered under this Act if it is:

(1) A motorboat which is required to be awarded a number pursuant to Federal law or a Federally-approved numbering system of another state, and for which a number has been so awarded: Provided, that any such boat shall not have been within this State for a period in excess of 90 consecutive days.

(2) A motorboat from a country other than the United States temporarily using the waters of this State.

(3) A motorboat whose owner is the United States, a state or a subdivision thereof.

(4) A ship's lifeboat.

Sec. 8. It shall be unlawful for the owner of a boat livery to rent a boat equipped with more than ten horsepower to any person unless the provisions of this Act have been complied with. It shall be the duty of owners of boat liveries to equip all motorboats rented as required by this Act.

Sec. 9. The exhaust of every internal combustion engine used on any motorboat shall be effectively muffled by equipment so constructed and used to muffle the noise of the exhaust in a reasonable manner. The use

of cutouts is prohibited, except for motorboats competing in a regatta or boat race approved as provided in Section 14 of this Act, and for such motorboats while on trial runs, during a period not to exceed 48 hours immediately preceding such regatta or race and for such motorboats while competing in official trials for speed records during a period not to exceed 48 hours immediately following such regatta or race.

Sec. 10. (a) No person shall operate any motorboat or vessel, or manipulate any water skis, surfboard, or similar device in a reckless or negligent manner so as to endanger the life, limb, or property of any person.

(b) No person shall operate any motorboat or vessel, or manipulate any water skis, surfboard, similar device while intoxicated or under the influence of any narcotic drug, barbiturate, or marijuana.

Sec. 11. (a) It shall be the duty of the operator of a vessel involved in a collision, accident, or other casualty, so far as he can do so without serious danger to his own vessel, crew, and passengers (if any), to render persons affected by the collision, accident, or other casualty such assistance as may be practicable and as may be necessary in order to save them from or minimize any danger caused by the collision, accident, or other casualty, and also to give his name, address and identification of his vessel in writing to any person injured and to the owner of any property damaged in the collision, accident, or other casualty.

(b) In the case of collision, accident, or other casualty involving a vessel, the operator thereof, if the collision, accident, or other casualty results in death or injury to a person or damage to property in excess of one hundred dollars ($100.00), shall, within ten days, file with the Wildlife Resources Commission a full description of the collision, accident, or other casualty, including such information as said agency may, by regulation, require. Such report shall not be admissible as evidence.

Sec. 12. In accordance with any request duly made by an authorized official or agency of the United States, any information compiled or otherwise available to the Wildlife Resources Commission pursuant to Section 11 (b) shall be transmitted to said official or agency of the United States.

Sec. 13. (a) No person shall operate a vessel on any waters of this State for towing a person or persons on water skis, or a surfboard, or similar device unless there is in such vessel a person, in addition to the operator, in a position to observe the progress of the person or persons being towed or unless the skiers wear a life preserver or unless the boat is equipped with a rear view mirror.

(b) No person shall operate a vessel on any water of this State towing a person or persons on water skis, a surfboard, or similar device, nor shall any person engage in water skiing, surfboarding, or similar activity at any time between the hours from one hour after sunset to one hour before sunrise.

(c) The provisions of subsections (a) and (b) of this Section do not apply to a performer engaged in a professional exhibition or a person or persons engaged in an activity authorized under Section 14 of this Act.

(d) No person shall operate or manipulate any vessel, tow rope, or other device by which the direction or location or water skis, a surfboard, or similar device may be affected or controlled in such a way as to cause the water skis, surfboard, or similar device, or any person thereon to collide with any object or person.

Sec. 14. (a) The Wildlife Resources Commission may authorize the holding of regattas, motorboat or other boat races, marine parades, tournaments, or exhibitions on any waters of this State. It shall adopt and may, from time to time, amend regulations concerning the safety of motorboats and other vessels and persons thereon, either observers or participants. Whenever a regatta, motorboat, or other boat race, marine parade, tournament, or exhibition is proposed to be held, the person in charge thereof, shall, at least fifteen days prior thereto, file an application with the Wildlife Resources Commission for permission to hold such regatta, motorboat, or other boat race, marine parade, tournament, or exhibition. The application shall set forth the date, time and location where it is proposed to hold such regatta, motorboat, or other boat race, marine parade, tournament, or exhibition, and it shall not be conducted without authorization of the Wildlife Resources Commission in writing.

(b) The provisions of this Section shall not exempt any person from compliance with applicable Federal law or regulation, but nothing contained herein shall be construed to require the securing of a State permit pursuant to this Section if a permit therefor has been obtained from an authorized agency of the United States.

Sec. 15. (a) Any subdivision of this State may at any time, but only after public notice, make formal application to the Wildlife Resources Commission for special rules and regulations with reference to the safe and reasonable operation of vessels on any water within its territorial limits and shall set forth therein the reasons which make such special rules or regulations necessary or appropriate.

(b) The Wildlife Resources Commission is hereby authorized to make special rules and regulations with reference to the safe and reasonable operation of vessels on any waters within the territorial limits of any subdivision of this State; provided however, that such rules and regulations governing the operation of vessels on State-owned lakes shall be made exclusively by the Department of Conservation and Development.

Sec. 16. A copy of the regulations adopted pursuant to this Act, and of any amendments thereto, shall be filed in the office of the Wildlife Resources Commission and in the office of the Secretary of State of North Carolina and in the office of the Clerks of the Superior Courts of the counties in which such boats are operated. Rules and regulations shall be published by the Wildlife Resources Commission in a convenient form, and a copy of such rules and regulations shall be furnished each owner who secures a certificate of number pursuant to this Act.

Sec. 17. (a) Every wildlife protector and every other law enforcement officer of this State and its subdivisions shall have the authority to enforce the provisions of this Act and in the exercise thereof shall have

authority to stop any vessel subject to this Act; and, after having identified himself in his official capacity, shall have authority to board and inspect any vessel subject to this Act.

(b) In order to secure broader enforcement of the provisions of this Act, the Wildlife Resources Commission is authorized to enter into an agreement with the Department of Conservation and Development whereby the enforcement personnel of the Commercial Fisheries Division shall assume responsibility for enforcing the provisions of this Act in the territory and area normally policed by such enforcement personnel and whereby the Wildlife Resources Commission shall contribute a share of the expense of such personnel according to a ratio of time and effort expended by them in enforcing the provisions of this Act, when such ratio has been agreed upon by both of the contracting agencies. Such agreement may be modified from time to time as conditions may warrant.

Sec. 18. (a) Any person who violates any provisions of Sections 4, 5, 6, 8, 9, 11, 13, and 14 of this Act shall be guilty of a misdemeanor and shall be subject to a fine of not to exceed fifty dollars ($50.00) for each such violation.

(b) Any person who violates any provision of Section 10 of this Act shall be guilty of a misdemeanor and shall be subject to a fine of not to exceed five hundred dollars ($500.00) or imprisonment for not to exceed six months, or both, for each violation.

Provided however that notwithstanding any other provisions of this Act, the Wildlife Resources Commission may promulgate such rules and regulations regarding the operation of watercraft by manufacturers, distributors, dealers, and demonstrators as the Commission may deem necessary and proper.

Sec. 19. All laws and clauses of laws in conflict with this Act are hereby repealed.

Sec. 20. This Act shall be in full force and effect from and after January 1, 1960.

In the General Assembly read three times and ratified, this the 17th day of June, 1959.

H. B. 788 CHAPTER 1065

AN ACT TO AUTHORIZE THE ISSUANCE OF SCHOOL BUILDING BONDS AND NOTES IN BEHALF OF THE WADESBORO CITY ADMINISTRATIVE UNIT AS A SPECIAL BOND TAX UNIT AND THE LEVY OF TAXES WITHIN SUCH UNIT FOR THE PAYMENT OF THE PRINCIPAL AND INTEREST OF SUCH BONDS AND NOTES.

The General Assembly of North Carolina do enact:

Section 1. Upon receipt of a petition, signed by not less than ten per cent (10%) of the qualified voters of the territory embraced within the Wadesboro City Administrative Unit and described in such petition, praying that bonds or notes be issued under the provisions of this Act, the Board of County Commissioners of Anson County shall order a special

election to be held in such school district for the purpose of voting upon the question of issuing bonds or notes and levying a sufficient tax for the payment thereof for the purpose of acquiring, erecting, enlarging, altering and equipping school buildings, including gymnasiums, agricultural buildings, shops, school cafeterias and other necessary buildings, and purchasing sites in such district or unit, or for any one or more of said purposes. In all such elections the board of county commissioners shall designate the polling place or places, appoint the registrars and judges, and canvass and judicially determine the results of the election upon filing with it of the election returns by the officers holding the election, and shall record such determination on their records, which shall be conclusive of all the facts therein found and determined. The notice of election shall be given by publication at least three times in some newspaper published or circulating in such district or unit. The notice shall state the date of the election, the place or places at which the election will be held, the boundary lines of such district or unit, unless the district or unit is coterminous with a city, town or township (in which event the notice shall so state), the maximum amount of bonds or notes to be issued, the purpose or purposes for which the bonds or notes are to be issued, and the fact that a sufficient tax will be levied on all taxable property within the district or unit for the payment of the principal and interest of the bonds or notes. The first publication of the notice shall be at least thirty days before the election. A new registration of the qualified voters of such district or unit shall be ordered and notice of such new registration shall be deemed to be sufficiently given by publication once in some newspaper published or circulating in such district or unit at least thirty (30) days before the close of the registration books. This notice of registration may be considered one of the three notices required of the election. Such published notice of registration shall state the days on which the books will be open for registration of the voters and the place or places at which they will be open on Saturday. The books of such new registration shall close on the second Saturday before election. The Saturday before the election shall be challenge day and except as otherwise provided in this Act, such election shall be held in accordance with the laws governing general elections. The form of the question, as stated on the ballots, shall be in substantially the words: "For the issuance of $..... School Bonds or Notes and the levying of a sufficient tax for the payment thereof," and "Against the issuance of $..... School Bonds or Notes and the levying of a sufficient tax for the payment thereof." Such affirmative and negative form may be printed upon separate ballots, or both thereof may be printed on one ballot, containing squares opposite the affirmative and negative forms, in one of which squares the voter may make a cross (X) mark. The petition herein provided for shall be filed with the Board of Commissioners of Anson County and referred to the Board of Elections of Anson County to determine the sufficiency thereof, and upon a finding by said board that the petition meets the requirements of this Section, the chairman of said board shall file a certificate to that effect with the Chairman of said Board of Commissioners of Anson County.

Sec. 2. At the close of the polls the election officers shall count the votes and make returns thereof to the Board of County Commissioners of Anson County, which board shall, as soon as practicable after the election, judicially pass upon the returns and judicially determine and declare the results of such election, which determination shall be spread upon the minutes of said board. The returns shall be made in duplicate, one copy of which shall be delivered to the Board of County Commissioners of Anson County as aforesaid and the other filed with the Clerk of the Superior Court of Anson County. The Board of County Commissioners of Anson County shall prepare a statement showing the number of votes cast for and against the bonds or notes, and declaring the result of the election, which statement shall be signed by the chairman of the board and attested by the clerk, who shall record it in the minutes of the board and file the original in his office and publish it once in a newspaper published or circulating in such district or unit.

Sec. 3. No right of action or defense founded upon the invalidity of such election or the invalidity of any proceedings or steps taken in the creation of such district or such unit shall be asserted, nor shall the validity of such election or the validity of the creation of such district or such unit, or the right or duty to levy a sufficient tax for the payment of the principal and interest of such bonds or notes, be open to question in any court upon any ground whatever, except in an action or proceeding commenced within thirty (30) days after the publication of such statement of results as provided in the preceding Section.

Sec. 4. If a majority of the votes cast shall be in favor of the issuance of such bonds or notes and the levy of such tax, then the Board of Commissioners of Anson County shall provide by resolution, which resolution may be finally passed at the same meeting at which it is introduced, for the issuance of such bonds or notes, which bonds or notes shall be issued in the name of the county, but shall be made payable exclusively out of the taxes to be levied in such district or such unit. They shall be issued in such form and denominations, and with such provisions as to the time, place and medium of payment of principal and interest as the Board of County Commissioners of Anson County may determine, subject to the limitations and restrictions of this Act. They may be issued as one issue, or divided into two or more separate issues, and in either case may be issued at one time or in blocks from time to time. When bonds are to be issued, they shall be serial bonds and each issue thereof shall so mature that the aggregate principal amount of the issue shall be payable in annual installments or series, beginning not more than three years after the date of the bonds of such issue and ending not more than thirty (30) years after such date. No such installment shall be more than two and one-half (2½) times as great in amount as the smallest prior installment, of the same bond issue. The bonds or notes shall bear interest at a rate not exceeding six per cent (6%) per annum, payable semiannually, and may have interest coupons attached, and may be made registerable as to principal or as to both principal and interest, under such terms and conditions as may be prescribed by said board. They shall be signed by the Chairman of the Board of County Commissioners of Anson County, and

the seal of the county shall be affixed to or impressed upon each bond or note and attested by the register of deeds or by the clerk of said board; and the interest coupons shall bear the printed, lithographed or facsimile signature of such chairman. The delivery of bonds or notes, signed as aforesaid by officers in the office at the time of such signing, shall be valid, notwithstanding any changes in office occurring after such signing.

Sec. 5. The Board of County Commissioners of Anson County is hereby authorized and directed to levy annually a special tax, ad valorem, on all taxable property in the district or in the special bond tax unit in which the election was held, sufficient to pay the principal and interest of the bonds or notes as such principal and interest become due. H. B. 1191 **CHAPTER 1084**

AN ACT TO AUTHORIZE AND EMPOWER THE CITY OF BURLINGTON TO MAKE CERTAIN LOCAL IMPROVEMENTS AND PRESCRIBING THE PROCEDURE THEREFOR AND FOR THE ASSESSMENT OF ALL OR A PART OF THE COSTS THEREOF.

The General Assembly of North Carolina do enact:

Section 1. General Purpose of Act. It is the purpose of this Act to provide a method whereby one or more local improvements of the kind specified in Section 4 of this Act and the assessments therefor may be made on or in one or more streets or between streets in a single proceeding by the City of Burlington.

Sec. 2. Procedure Herein Prescribed Complete but Not Exclusive. This Act is intended to prescribe the complete procedure for the making of those local improvements referred to in the Act and for assessing and collecting such portion of the costs thereof as is hereinafter provided; but the method hereby provided is not intended to be exclusive and the City of Burlington may proceed with respect to such local improvements either as prescribed by this Act or as is now or may hereafter be prescribed by the Charter of the City of Burlington or by other general laws of the State.

Sec. 3. Definition of Terms. In this Act certain words and phrases will be used with the following meaning, unless some other meaning is plainly intended:

(a) A "local improvement" is an improvement authorized by this Act and made under the provisions hereof.

(b) "Governing body" refers to the City Council of the City of Burlington.

(c) A "street" is a public way embracing a street, boulevard, avenue, land, alley, parkway, court and terrace, but not embracing sidewalks.

(d) A "storm sewer" is a conduit above or below ground for the passage of storm water, and may embrace a pumping station and outlet where deemed necessary; and may also embrace the building of culverts over or the enclosing of streams where necessary or advisable to carry off storm water.

(e) A "sanitary sewer" is an underground or aboveground conduit for the passage of sewage and may embrace a pumping station and outlet where deemed necessary.

(f) A "water main" is a pipe for the passage of city water for public hydrants and private and public use and consumption.

(g) A "lateral" is a pipe connecting a storm or sanitary sewer or water main with the line of adjacent property or the curb line, as the governing body may prescribe, being either a sewer lateral or a water lateral, but does not include a building connection; that is, a pipe extending from a lateral at the property line or curb line to the house or plumbing fixtures on the property to be served.

(h) The word "sewer" includes both sanitary and storm sewers unless a contrary intention is shown.

Sec. 4. Local Improvements Authorized by This Act. Improvements authorized to be made under the provisions of this Act are divided into five classes, as follows:

(a) Water main improvements, which include the laying or construction of water mains, the relaying where necessary of parts of paved streets and sidewalks torn up or damaged incident to the laying or construction of such mains, and in any case where the improvements are made upon petition and the petition so requests, or in any case where the improvement is made without petition and the governing body so directs, the laying of water laterals.

(b) Storm sewer improvements, which include the laying or construction of storm sewers, the relaying, where necessary, of parts of paved streets and sidewalks torn up or damaged incident to the laying or construction of such sewers, and in any case where the improvement is made upon petition and the petition so requests, or in any case where the improvement is made without petition and the governing body so directs, the laying of storm sewer laterals.

(c) Sanitary sewer improvements, which include the laying or construction of sanitary sewers, the relaying, where necessary, of parts of streets and sidewalks torn up or damaged incident to the laying or construction of such sewers, and in any case where the improvement is made upon petition and the petition so requests or in any case where the improvement is made without petition and the governing body so directs, the laying of sanitary sewer laterals.

(d) Street paving improvements, which include the grading, regrading, paving, repaving, macadamizing and remacadamizing of streets, with necessary drainage, sewer inlets, manholes and catch basins and the construction or reconstruction of retaining walls made necessary by any change of grade incident to such improvement, and in any case where the improvement is made upon petition if the petition so requests, or in any case where

the improvement is made without petition if the governing body so directs, it may include the construction or reconstruction of curbs, gutters and drains.

(e) Sidewalk improvements, which include the grading, regrading, construction and reconstruction of paved or otherwise improved sidewalks, the construction or reconstruction of retaining walls made necessary by and incident to such improvement, and in any case where the improvement is made upon petition, if the petition so requests, or in any case where the improvement is made without petition if the governing body so directs, it may include the construction or reconstruction of curbs, gutters and drains.

Sec. 5. Power to Make Local Improvements Embraced in this Act. The power of the City of Burlington to make the local improvements embraced in this Act shall be exercised only upon petition as set out in Section 7 of this Act, except in those cases covered by Section 8 of this Act, in which cases such power may be exercised without petition.

Sec. 6. Petition may Embrace Any One or More Local Improvements to Which this Act is Applicable. Any petition to the governing body of the City of Burlington for the making of the local improvements authorized by this Act may embrace any one or more of the classes of local improvements named in Section 4, or any one or more of the local improvements named in any subsection or subsections of said Section 4, and may embrace improvements to be made on or in one or more streets or between streets: Provided, any improvement to be made on or in more than one street shall be practically uniform in cost and kind throughout the improvement. In any case where there is park land or unimproved land on one side, or a part of one side, of a street, or where the land on one side, or a part of one side of a street, is of such a nature or is devoted to such a purpose that a special assessment against it cannot be made, or if made would probably exceed the value of the land assessed, or in any case where the owners of all the property to be assessed agree thereto, the petition may provide for making any one or more local improvements in or on a street or streets and for the assessments of the costs thereof, except the city's portion, wholly against the property on one side of such street or streets or otherwise against such abutting property as may be designated in the petition.

Sec. 7. The Petition; Certificate of Sufficiency of Petition. The petition for any one or more of such local improvements shall designate by a general description the improvement or improvements proposed, and shall request that the same be made in conformity with the provisions of this Act and that such proportion of the cost of each of such improvements as may be specified in the petition be specially assessed against the property abutting on the street or streets or part thereof in which or on which such improvements are proposed to be made; provided, that in any case where the improvement is to be made on one side of a street only, the petition shall request that the assessment be made only against the property on that side of the street whereon the improvement is to be made. The petition shall be signed by at least a mojority in number of the owners, which majority must own at least a majority of all the lineal feet of frontage, of the lands abutting upon the street or streets or part of a street or streets proposed to be improved, excluding street intersections. For the pur-

pose of the petition, all the owners of undivided interests in any land shall be deemed and treated as one person and such land shall be sufficiently signed for when the petition is signed by the owner or owners of a majority in amount of such undivided interests; provided, that for the purpose of this Section the word "owner" shall be considered to mean the owners of any life estate, or an estate by entirety, or of the estate of inheritance, and shall not include mortgagees, trustees of a naked trust, trustees under deeds of trust to secure payment of money, lien holders, or persons having inchoate rights of curtesy or dower. Upon the filing of such petition with the city, the clerk, or other person designated by the governing body thereof, shall investigate the sufficiency of the petition and if it is found to be sufficient, he shall certify the same to the governing body.

Sec. 8. Improvements on Streets Abutting Railroads. If the governing body desires to make street and sidewalk improvements on or abutting property owned and/or leased by railroad companies, it is hereby authorized to make such improvement on any such street used as a public street, subject to the rights of any railroad company to use and occupy the same for railroad purposes: Provided, however, that the petition or petitions contemplated and required by the provisions of this Act need not be signed by such railroad company or companies, nor shall any part of the railroad right of way be considered as abutting property, but the petition shall be signed by at least a majority in number of the owners of property other than the railroad right of way, who must represent at least a majority of all the lineal feet frontage of the lands, other than said railroad right of way, abutting upon such street or streets proposed to be improved: Provided, further, that as to that portion of the street which abuts upon the railroad right of way, not more than one half of the total cost of the street or sidewalk improvement, exclusive of so much of the cost as is incurred at street intersections, shall be specially assessed upon the lots or parcels of land abutting directly on the improvement, other than the property included in the railroad right of way, according to the extent of their respective frontage thereon, by an equal rate per foot of such frontage.

Sec. 9. When Petition Unnecessary. Whenever in the judgment of the governing body of the City of Burlington public interest requires that one or more of the local improvements specified in this Act be made, and if, in the opinion of the governing body, the abutting property will be benefited by such improvement to the extent of the part of the cost thereof to be assessed against the abutting property, the governing body may, without petition of the property owners, order the making of such improvement or improvements and the assessment of the costs thereof: Provided, however, no order or resolution shall be entered under this Section unless fifteen days' written notice by registered or certified mail shall be given to each known owner of the abutting property of the intention to enter such order or adopt a resolution. No part of the cost of any street or sidewalk improvement shall be assessed against any railroad right of way on account of an improvement made pursuant to this Section if said street or sidewalk substantially parallels the railroad track. In such event if the governing body proceeds without petition under this Section, then, as to the portion of the improvement abutting the railroad right of way, not more than one

half of the total cost of the street or sidewalk improvement, exclusive of so much of the cost as is incurred at street intersections, shall be specifically assessed upon the lots or parcels of land abutting directly on the improvement, other than the property included in the railroad right of way.

Sec. 10. Preliminary Resolution. Upon the finding by the governing body that the petition for a local improvement or improvements is sufficient, or when it is proposed to make without petition any improvement or improvements authorized to be made without petition by Section 8 of this Act, the governing body shall adopt a resolution which shall contain substantially the following:

(a) That a sufficient petition has been filed for the making of the improvement or improvements, or, if it is proposed to make the improvement or improvements without petition, a statement of the reasons proposed for the making thereof;

(b) A brief description of the proposed improvement or improvements;

(c) The proportion of the cost of the improvement or improvements to be specially assessed and the terms of payment;

(d) A notice of the time and place, when and where a public hearing will be held on the proposed improvement or improvements;

(e) A notice that all objections to the legality of the making of the proposed improvement or improvements shall be made in writing, signed in person or by attorney, and filed with the clerk of the city at or before the time of such hearing, and that any such objections not so made will be waived.

The resolution shall be published one time in a newspaper published in the city or if there be no such newspaper, such resolution shall be posted in three public places in the city for at least thirty days, the date of publication or posting of the resolution to be not less than ten days prior to the date fixed for the hearing; provided, that in any case where the governing body so directs such notice as is hereinbefore provided for may be given of the proposed improvement or improvements in the following manner: A copy of said preliminary resolution shall be served upon the owners of the lands subject to assessment for such improvement (the word "owners" as used herein having the same meaning as in Section 7), if such owners can be found with reasonable diligence within the city. If any such owner cannot with reasonable diligence be found within the city, then a copy of such resolution shall be mailed to the address of such owners, as nearly as the same can be ascertained with due diligence. Such copies may be served or mailed by any police officer of the city, and the return of such officer that such copies were served or mailed as hereinbefore provided shall be conclusive in the absence of fraud. The serving or mailing of such copies shall be completed not less than five days prior to the date fixed for the hearing.

Sec. 11. Public Hearing on Preliminary Resolution. At the time for the public hearing, or at some subsequent time to which such hearing shall be adjourned, the governing body shall consider such objections to the legality of the making of the improvement or improvements as have been made in compliance with subsection (e) of the preceding Section, together with such objections as may be made to the policy or expediency of the making of the

improvement or improvements and the governing body shall thereafter determine whether it will order the making of said improvement or improvements. Any objection against the legality of the making of the improvement or improvements not made in writing, signed in person or by attorney, and filed with the clerk of the city at or before the time or adjourned time of such hearing shall be considered as waived; and if any such objection shall be made and shall not be sustained by the governing body, the adoption of the resolution ordering the making of the improvement or improvements as provided in the next following Section shall be the final adjudication of the issues presented, unless within ten days after the adoption of such resolution proper steps shall be taken in a court of competent jurisdiction to secure relief.

Sec. 12. Contents of Resolution Ordering Improvements; Publication. After such public hearing, if the governing body determines to make the improvement or improvements proposed, the governing body shall adopt a resolution which shall contain:

(a) If the improvement or improvements are to be made by virtue of a petition, a finding by the governing body as to the sufficiency of the petition. (The finding of the governing body as to the sufficiency of the petition shall be final and conclusive.) If the improvement or improvements are to be made without petition by virtue of the authority contained in Section 8 of this Act, a finding by the governing body of such facts as are required by said Section in order to authorize said governing body to order such improvement or improvements made without petition.

(b) A general description of the improvement or improvements to be made and the designation of the street or streets or parts thereof where the work is to be done.

(c) A designation of the proportion of the cost of the improvement or improvements to be assessed against abutting property, and of the number of equal annual installments in which assessments may be paid.

Sec. 13. Governing Body to Determine Details of Construction; Power with Respect to Contracts for Construction. The governing body of the city shall have power to determine the character and type of construction and of material to be used and to determine any other details of plan or construction necessary to be determined in making any of the improvements authorized by this Act and to determine whether any work to be done by the city shall be done by contract or by forces of the city. If said work or any part thereof is to be done by contract, the city may let all of said work in one contract, or it may divide the same into several contracts, and may let said contracts separately.

Sec. 14. Governing Body to Determine Cost of Improvement. Upon the completion of the improvement or improvements to be made by said resolution, the governing body of the city shall ascertain the total cost thereof. In addition to other items of cost, there shall be included in such total cost, the cost of all necessary legal services, engineering fees, the amount of damages paid or to be paid for injury to property by reason of any change of grade or drainage, including court costs and other expenses incidental to the determination of such damages. In determining the cost of any of the improvements authorized by this Act, the governing body shall include

therein the interest paid on the cost of the improvement during the period of construction. The determination of the governing body as to the total cost of any improvement shall be conclusive.

Sec. 15. Preliminary Assessment. Having determined such total cost, the governing body of the municipality shall thereupon make a preliminary assessment as hereinafter set out in this Section. Such preliminary assessment shall, however, be advisory only, and shall be subject to the action of the governing body thereon as hereinafter set out in Section 17 of this Act. Said preliminary assessment shall be made on the basis hereinafter set out in this Section for the classes of improvements indicated: Provided, that if the petition or the resolution, in those cases where the improvement was ordered made without petition, specified that there should be specially assessed against the abutting property a smaller proportion of the cost of any improvement than is hereinafter specified in this Section, then there shall be assessed against such abutting property only such proportion of the cost of such improvement as was specified in said petition or in said resolution.

(a) Street paving. The total cost of any street paving improvement, exclusive of so much of said cost as is incurred at street intersections, shall be specially assessed against the lots and parcels of land abutting directly on the street paved, according to the extent of their respective frontages thereon, by an equal rate per foot of such frontage.

(b) Sidewalks. The total cost of constructing or reconstructing sidewalks shall be assessed against the lots and parcels of land abutting on that side of the street upon which such improvement is made, according to their respective frontages thereon by an equal rate per foot of such frontage, the lots within a block being deemed to abut upon a sidewalk although the latter extends beyond the lots to the curb line of an intersecting street.

(c) Water mains and sewers. In the case of water mains and storm and sanitary sewers, the cost of not exceeding an eight-inch water or sanitary sewer main and of not exceeding a thirty-inch storm sewer main and of such portion of said mains as lie within the limits of the street or streets or part thereof, to be improved as provided in the petition or resolution ordering the same, shall be assessed against the abutting property. Such cost shall be assessed against the lots and parcels of land abutting on said street or streets or parts thereof, according to their respective frontages thereon by an equal rate per foot of such frontage; provided, that in case of a corner lot used as a single lot, where there is a water main or sewer already laid on the intersecting street on which such lot abuts and by which such lot is or can be served, no assessment shall be made against said lot for the second water main or sewer for any part of the frontage of said lot except that portion in excess of one hundred and fifty feet if said lot is in a residential section of the city, or in excess of one hundred feet if said lot is in a business section of the city, and in such case, such portion of said cost as would otherwise be assessed against said lot shall be borne by the city; provided, further, that if a water or sanitary sewer main in excess of eight inches in size or a storm sewer main in excess of thirty inches in size is laid in said portion of said street or streets, then the cost of such water or sanitary sewer main in excess of the cost of an eight-

inch main and the cost of such storm sewer main in excess of a thirty-inch main shall be borne by the city; provided, further, that if the resolution ordered the construction of any pumping station or disposal plant, no part of the costs of same shall be specially assessed. Whenever in the opinion of the governing body the best interest of the city will be served, and it will be more economical and the interest of the property owners will best be served by constructing either water or sanitary sewer mains, or both, between the streets rather than in a street, the petition may provide therefor, or in the event the water and sanitary sewer mains may be constructed in a street without petition, they may be constructed between streets without petition, and the cost of the construction of such water or sewer mains and laterals shall be assessed according to the street frontage in the same manner and to the same extent that it would be assessed if the improvements were constructed in a street; provided that the city shall provide the rights of way for construction and maintenance of such mains at its own expense and without assessing the costs thereof.

Nothing contained herein shall be construed to limit the right of the city to contract with any property owner or owners for the construction of any pumping station, outfall, or disposal plant or for the construction of water mains or storm or sanitary sewers and for the assessment of the costs thereof according to the terms of such contract.

(d) The entire cost of each water and sewer lateral required to be laid shall be specially charged against the particular lot and parcel of land for or in connection with which it was made.

Sec. 16. Preliminary Assessment Roll. For the purpose of assessment, the governing body of the city shall cause to be prepared a preliminary assessment roll, on which shall be entered a brief description of each lot or parcel of land assessed, the amount assessed against each such lot as determined under the provisions of the next preceding Section, and the name or names of the owner or owners of each such lot, as far as the same can be ascertained; provided, that a general plan map of the improvement or improvements on which is shown the frontage and location of each lot on the street improved, together with the amount assessed against each such lot and the name or names of the owner or owners thereof, as far as the same can be ascertained, shall be a sufficient assessment roll. If the resolution directed the making of more than one improvement, a single preliminary assessment roll for all of the improvements authorized by such resolution shall be sufficient, but the cost of each improvement to each lot affected shall be shown separately.

Sec. 17. Filing of Preliminary Assessment Roll; Publication of Notice of Hearing Thereon. After such preliminary assessment roll has been completed, the governing body of the city shall cause it to be filed in the office of the clerk of the city for inspection by parties interested, and shall cause to be published one time, in some newspaper published in the city, or if there be no such newspaper the governing body shall cause to be posted in three public places in the city, a notice of the completion of the assessment roll, setting forth a description in general terms of the local improvement or improvements, and stating the time fixed for the meeting of the govern-

ing body for the hearing of objections to the special assessments, such meeting to be not earlier than ten days after the publication or from the date of posting of said notice. Any number of assessment rolls may be included in one notice. The governing body shall publish in said notice the amount of each assessment. In any case where the governing body directed as provided by Section 9 that the preliminary resolution should be served or mailed instead of being published, the notice hereinbefore required by this Section need not be published or posted, but may be served or mailed as provided with respect to the preliminary resolution by said Section 9. The serving or mailing of such notices shall be completed not less than five days prior to the date fixed for the hearing of the assessment roll, and the return of the police officer serving or mailing the same shall in the absence of fraud be conclusive that the same were served or mailed.

Sec. 18. Hearing; Revision; Confirmation; Lien. At the time appointed for that purpose or at some other time to which it may adjourn, the governing body of the city shall hear the objections to the preliminary assessment roll of all persons interested, who may appear and offer proof in relation thereto. Then or thereafter, the governing body shall either annul or sustain or modify in whole or in part the prima facie assessment as indicated on said roll, either by confirming the prima facie assessment against any or all lots or parcels described therein, or by canceling, increasing or reducing the same, according to the special benefits which said governing body decides each of said lots or parcels has received or will receive on account of such improvement. If any property which may be chargeable under this Act shall have been omitted from said preliminary roll if the prima facie assessment has not been made against it, the governing body may place on said roll an apportionment to said property. The governing body may thereupon confirm said roll, but shall not confirm any assessment in excess of the special benefits to the property assessed and the assessments so confirmed shall be in proportion to the special benefits. Whenever the governing body shall confirm an assessment for a local improvement, the clerk of the city shall enter on the minutes of the governing body and on the assessment roll, the date, hour and minute of such confirmation, and from the time of such confirmation the assessments embraced in the assessment roll shall be a lien on the property against which the same are assessed of the same nature and to the same extent as county and city or town taxes and superior to all other liens and encumbrances. After the assessment roll is confirmed, a copy of the same shall be delivered to the tax collector of the city.

Sec. 19. Appeal to Superior Court. If the owner of, or any person interested in, any lot or parcel of land against which an assessment is made is dissatisfied with the amount of such assessment he may, within ten days after the confirmation of the assessment roll, give written notice to the mayor or clerk of the city that he takes an appeal to the Superior Court of Alamance County, in which case he shall within twenty days after the confirmation of the assessment roll serve on said mayor or clerk a statement of facts upon which he bases his appeal. The appeal shall be tried as other actions at law. The remedy herein provided for any person

dissatisfied with the amount of the assessment against any property of which he is the owner or in which he is interested, shall be exclusive.

Sec. 20. Power to Correct Error in Assessment. If it shall be made to appear to the governing body after confirmation of any assessment roll that any error has been made therein, then the governing body shall cause to be published one time in some newspaper published in the city, or if there be no such newspaper the governing body shall cause to be posted at three places in the city, a notice referring to the assessment roll in which such error was made, naming the owner or owners of the lot or parcel of land with respect to which such error was made, if the same can be ascertained, and naming the time and place fixed for the meeting of the governing body for the correction of such error, such meeting not to be earlier than ten days from the publication or from the date of the posting of said notice. At the time fixed in the notice or at some subsequent time to which the governing body may adjourn, said governing body, after giving the owner or owners of the property affected and other persons interested therein an opportunity to be heard, may proceed to correct such error, and the assessment then made shall have the same force and effect as if it had originally been properly made.

Sec. 21. Reassessment. The governing body shall have the power, when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto, to set aside the whole of the local assessment made by it, and thereupon to make a reassessment. In such case there shall be included, as a part of the cost of the public improvement involved, all interest paid or accrued on notes or certificates of indebtedness, or bonds issued by the city to pay the expenses of such improvement. The proceeding shall, as far as practicable, be in all respects as in the case of original assessments, and the reassessment shall have the same force as if it had originally been properly made.

Sec. 22. Notice of Confirmation of Assessment Roll. After the expiration of twenty days from the confirmation of the assessment roll, the tax collector, or such other officer of the city as the governing body may direct so to do, shall notify each property owner by regular mail that any asessment contained in the assessment roll, naming and describing it, may be paid to him at any time before the expiration of thirty days from the date of such notice, without interest from the date of confirmation of said assessment roll, but that if such assessment is not paid in full within said time, all installments thereof shall bear interest at the rate of six per cent (6%) per annum from said date of confirmation of said assessment roll.

Sec. 23. Payment of Assessments in Cash or by Installments. The property owner hereinbefore mentioned in this Act shall have the option and privilege of paying for the improvements hereinbefore provided for in cash as provided in the preceding Section or in not less than five or more than ten equal annual installments as may have been determined in the original resolution ordering the improvement or improvements. If paid in installments, such installments shall bear interest at the rate of six per cent (6%) per annum from the date of the confirmation of the assessment roll. If any assessment is not paid in cash, the first installment thereof with interest thereon shall become due and payable thirty days after the

notice required by the preceding Section and one subsequent installment and interest thereon shall be due and payable on the same day of the same month in each successive year until said assessment is paid in full; provided, however, that if the governing body shall so direct such installments shall become due and payable on the same date when property taxes of the city are due and payable. If any installment with interest thereon is not paid when due, it shall be subject to the same penalties as are now prescribed by law for unpaid taxes, in addition to the interest herein provided for. The whole assessment may be paid at any time by the payment of the full amount due with accrued interest.

Sec. 24. Enforcement of Payment of Assessments. In case of the failure of any property owner to pay any installment when the same shall become due and payable, then and in that event all of the installments remaining unpaid shall immediately become due and payable, and such property may be sold by the city under the same rules, regulations, rights of redemption and savings as are now prescribed by law for the sale of land for unpaid taxes. Collection of such assessments with interest and penalties, may also be made by the city by proceedings to foreclose the lien of assessments as a lien for mortgages is or may be foreclosed under the laws of the State, and it shall be lawful to join in any bill for foreclosure any one or more lots or parcels of land, by whomsoever owned, if assessed for an improvement ordered by the same resolution, after default in the payment of any installment, the payment of said installment, together with interest and penalties due thereon, before the lot or parcel of land, against which the same is a lien, is sold or said lien is foreclosed as hereinbefore provided, shall bar the right of the city to sell said land or to foreclose the lien therein by reason of said default.

Sec. 25. Apportionment of Assessments. In any case where one or more special assessments shall have been made against any property for any improvement or improvements authorized by this Act, whether such improvements shall have been made on one or more streets, and said property has been, or is about to be, subdivided, and it is therefore desirable that said assessment or assessments be apportioned among the subdivisions of such property, the governing body may, with the consent of the owner or owners of said property, apportion said assessment or assessments, or the total thereof, fairly among said subdivision. Thereafter, each of said subdivisions shall be relieved of any part of such original assessment except the part thereof apportioned to said subdivision, and the part of said original assessment apportioned to any such subdivision shall be of the same force and effect as the original assessment. At the time of making any such apportionment, the governing body shall cause to be entered upon its minutes an entry to the effect that such apportionment is made with the consent of the owner or owners of the property affected, and such entry shall be conclusive of the truth thereof except in case of fraud.

Sec. 26. No Change of Ownership Affects Proceedings. No change of ownership of any property or interest therein after the passage of a resolution ordering the making of any improvement authorized by this Act

shall in any manner affect subsequent proceedings, and such improvement may be completed and assessments made therefor as if there had been no change in such ownership.

Sec. 27. Proceedings in Rem. All proceedings for special assessment under the provisions of this Act shall be regarded as proceedings in rem, and no mistake or omission as to the name of any owner or person interested in any lot or parcel of land affected thereby shall be regarded as substantial mistake or omission.

Section 1. Article 4 of subchapter 1 of Chapter 105 of the General Statutes is hereby amended by inserting therein a new subsection to be designated G. S. 105-144.4 to read as follows:

"§ 105-144.4. Stock distribution pursuant to antitrust laws.

(a) Effect on distributees.

(1) General rule. If a corporation (referred to in this Section as the 'distributing corporation') distributes to a shareholder, with respect to its stock held by such shareholder, stock which, when distributed to the distributee, is divested stock (as defined in subsection (d) then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder on the receipt of such divested stock.

(2) Non pro rata distribution, etc. Paragraph (1) shall be applied without regard to the following:

(A) whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation, and

(B) whether or not the shareholder surrenders stock in the distributing corporation.

(3) Distributions to avoid federal income tax. Paragraph (1) shall not apply to any transaction one of the principal purposes of which is the distribution of the earnings and profits of the distributing corporation or of the corporation whose stock is distributed, or both (but the mere fact that either corporation has accumulated earnings and profits shall not be construed to mean that one of the principal purposes of the transaction is the distribution of the earnings and profits of either corporation, or both).

(4) Distribution involving gift or compensation. In the case of a distribution to which paragraph (1) applies, but which

(A) results in a gift, see § 105-188 et seq. of the General Statutes, or

(B) has the effect of the payment of compensation, see § 105-141 of the General Statutes.

(b) Basis of property acquired in distributions. If, by reason of subsection (a), gain or loss is not recognized with respect to the receipt of divested stock, then, under regulations prescribed pursuant to G. S. 105-262.

(1) if the divested stock is received by a shareholder without the surrender by such shareholder of stock in the distributing corporation, the basis of such divested stock and of the stock with respect to which it is distributed shall, in the distributee's hands, be determined by allocating the adjusted basis of the stock with respect to which the distribution was received between such stock and the divested stock received; or

(2) if the divested stock is received by a shareholder in exchange for stock in the distributing corporation, the basis of the divested stock shall, in the distributee's hands, be the same as the adjusted basis of the stock exchanged therefor.

(c) Allocation of earnings and profits.

(1) Allocation in certain corporate separations. In the case of a distribution or exchange under subsection (a) of stock in a controlled corporation, proper allocation with respect to the earnings and profits of the distributing corporation and the controlled corporation shall be made under regulations prescribed pursuant to G. S. 105-262.

(2) Definition of controlled corporation. For the purposes of paragraph (1), the term 'controlled corporation' means a corporation with respect to which at least eighty per cent (80%) of the total combined voting power of all classes of stock entitled to vote and at least eighty per cent (80%) of the total number of shares of all other classes of stock is owned by the distributing corporation.

(d) Definition of divested stock. For the purposes of this Section, the term 'divested stock' means stock which is

(1) the subject of a judgment, decree, or other order of a court or of a commission or board authorized to enforce compliance in a suit or other proceeding brought by the United States or such a commission or

board under the Sherman Act (26 Stat. 209, 15 U. S. C. Sec. 1-7, as amended) and the Clayton Act (38 Stat. 730, 15 U. S. C. Sec. 12-27, as amended), and

(2) distributed by the distributing corporation pursuant to a judgment, decree, or order entered after June 1, 1958, in such suit or proceeding, if such judgment, decree, or order

(A) directs the distributing corporation to divest itself of such stock,

(B) specifies and itemizes the stock to be divested,

(C) recites that such divestment is necessary or appropriate to effectuate the policies of the Sherman Act or the Clayton Act, or both, and

(D) recites that nonrecognition of gain pursuant to Section 1111 of the Internal Revenue Code of 1954 is required to reach an equitable judgment, decree, or order in such suit or proceeding."

Sec. 2. All laws and clauses of laws in conflict with this Act are hereby repealed.

(d) If paper ballots are used, the city clerk shall cause to be delivered at each polling place a number of ballots equal to 5 per cent greater than the number of persons registered in the precinct. The persons who are qualified to vote at the succeeding general municipal election shall be qualified to vote at the primary election.

(e) The primary election shall be conducted and the returns shall be canvassed in the manner provided by subchapter C of this Chapter with respect to the general municipal election. After the returns are canvassed, the city clerk shall make and publish in all daily newspapers of the city, at least once, the result thereof.

(f) The fourteen persons receiving the highest number of votes for councilmen shall be the candidates in the general municipal election. If there shall be an equal number of votes for two or more persons, and the resulting tie must be resolved in order to determine the identity of the candidates in the general election, there shall be held three days after the date of the primary a runoff primary election for nomination of candidates in accordance with the provisions for holding the original primary.

(g) If there be not more than fourteen candidates for councilmen, then it shall not be necessary to hold a primary, but all candidates for councilmen shall be nominated.

(h) The clerk shall place on the election ballot the names of those persons determined to be the candidates pursuant to the provisions of this Section.

SUBCHAPTER C. GENERAL ELECTIONS

Sec. 2.43. Conduct of Elections; Counting of Ballots; Canvassing of Results.

(a) The registrar and judges of election shall be appointed by the county board of elections, and shall open the polls and superintend the same until the close of elections. The polls shall open and close at the same hours provided for primary and general elections by Chapter 163 of the General Statutes.

(b) At the end of the election, in each precinct the polls shall be closed, the ballot boxes opened, unless voting machines are used, and the ballots counted by or under the supervision of the registrar and judges of the election in the manner provided for with respect to general elections by Chapter 163 of the General Statutes.

(c) The registrar shall attend the meeting of the board of canvassers as a member thereof. When the results of the counting of the ballots have been ascertained, the results shall be embodied in a duplicate state-

ment to be prepared by the registrar and judges on forms furnished by the city clerk and certified to by him. One of the statements of the voting in the precinct shall be placed in a sealed envelope and presented by the registrar at the meeting of the board of canvassers. The other duplicate statement shall be mailed by one of the other precinct election officers to the city clerk immediately after the vote count has been completed on election night.

(d) The members of the board of canvassers shall meet at 11:00 A. M. on the second day next after the election at the city hall. The board shall organize by the election of one of its members as chairman and one as secretary. Any member of the board who fails to deliver the certified returns from his precinct by 12:00 Noon on the day of the board meeting shall be guilty of a misdemeanor, unless for illness or good cause shown for such failure. If any precinct returns have not been received by the board by 12:00 Noon on the first day of this meeting, or if any returns are incomplete or defective, it shall have authority to dispatch an officer for the purpose of securing the proper returns for the precinct.

(e) The board of canvassers shall, at their meeting, in the presence of such electors as choose to attend, open, canvass, and judicially determine the results, and shall make abstracts, stating the number of legal ballots cast in each precinct, the name of each candidate for councilman voted for and the number of votes given to each candidate, and shall sign the abstracts in duplicate with their certificates as to the correctness of the abstracts. It shall have power and authority to pass upon judicially all the votes relative to the election and judicially determine and declare the results of the same; to send for papers and persons and examine the latter upon oath; and to pass upon the legality of any disputed ballots transmitted to them by any precinct officer.

(f) The seven candidates receiving the highest number of votes for each of the positions of councilmen shall be declared elected councilmen of the city at large. If there shall be an equal number of votes for two or more candidates, and the tie must be resolved in order to determine the identity of the elected councilmen, the result shall be determined by the drawing of lots to be conducted by the council. When a name is written in on the official ballot, the new name so written in is to be treated like any other name on the ballot, if the person whose name is written in is qualified to serve on the city council. Write-in votes shall not be counted in a primary election, however.

(g) The board of canvassers shall transmit one copy of the certified abstract of the results to the mayor and shall file the other copy, together with the original precinct return, with the city clerk. The clerk shall publish the results of the election at the door of the city hall.

Sec. 2.44. Statement of Expenses by Candidates.

Every candidate in the city election, city primary, or both shall, within ten days from the election file with the city clerk an itemized statement under oath showing all expenditures of money or other things of value made by him, or by anyone for him to his knowledge, in connection with or in any way for the purpose of promoting or aiding his candidacy;

and any person failing to comply with the provisions of this Section shall be guilty of a misdemeanor and fined or imprisoned in the discretion of the court.

Sec. 2.45. Failure of Council to Give Notice of Election.

If the council shall fail to give notice of elections, or to hold or declare the same, each of them as shall be in fault shall forfeit and pay for the equal benefit of the city, and of him who shall sue therefore, one hundred dollars ($100.00).

Sec. 2.46. Applicable General Statutes Provisions.

In addition to the provisions set forth in this Chapter, elections in the city shall be governed by and conducted in accordance with the pertinent provisions of the "Australian Ballot Law" and the "Corrupt Practices Act of 1931" (respectively Articles 20 and 21 of Chapter 163 of the General Statutes).

SUBCHAPTER D. OTHER ELECTIONS

ARTICLE 1. SPECIAL ELECTIONS

Sec. 2.61. Authority of City Council to Call Special Elections.

The council shall have the power to call at any time any special election for the purpose of voting upon the question of issuing bonds for any purpose, or for any other purpose expressly authorized by law. No special election shall be held for any purpose unless notice is published once each week for four successive weeks in some newspaper published in the city which is qualified to carry legal notices, or if there be no such newspaper, by posting in three public places in the city, unless expressly provided to the contrary. Registrations made and elections held under the authority of the Municipal Finance Act shall be called, conducted, and canvassed as provided by said Act, and initiative, referendum and recall elections shall be governed by Article 2 of this subchapter. All other special elections shall be held under the same rules and conditions as are provided in this Chapter for general elections.

Sec. 2.71. Powers of Initiative, Referendum and Recall.

(a) (1) The voters of the city shall have power, except as provided in paragraph (2) of this subsection, to propose ordinances to the city council. If the council rejects an ordinance proposed hereunder or passes it with amendment, the voters shall have power to approve or reject the proposed or amended ordinance at the polls. These powers comprise the initiative power.

(2) The initiative shall not extend to the proposing of: any part or all of the annual budget; or any ordinance making or repealing any appropriation of money, fixing the salaries of city officers or employees, or authorizing or repealing the levying of taxes.

(3) Voters seeking to propose an ordinance subject to initiative shall proceed by way of initiative petition addressed to the council and containing the full text of the proposed ordinance. Any initiative petition must be filed with the city clerk and must be signed by qualified voters of the city equal in number to at least 25% of the qualified voters of the city who voted at the last preceding election for city council members.

(b) (1) The voters of the city shall have power, except as provided in paragraph (2) of this subsection, to require reconsideration by the council of any adopted ordinance, including any ordinance initiated under subsection (a) of this Section and adopted by the council. If the council fails to repeal an ordinance which it has been required to reconsider, the voters shall have power to approve or reject that ordinance at the polls. These powers comprise the referendum power.

(2) The referendum power shall not extend to any part or all of the annual budget or the property tax levied therein; to any ordinance making or repealing any appropriation of money or fixing the salary of any officer or employee; or to any repealing ordinance adopted by the council in compliance with a referendum petition.

(3) Voters seeking a referendum on any ordinance shall proceed by way of a referendum petition addressed to the council, identifying the ordinance concerned and requesting that it be either amended, repealed, or referred to the voters of the city. Any referendum petition must be filed with the city clerk within 30 days after adoption by the council of the ordinance concerned and must be signed by qualified voters of the city equal in number to at least 25% of the qualified voters of the city who voted at the last preceding election for city council members.

(c) (1) The voters of the city shall have the power, which shall be known as the recall power, to remove from office any member of the city council.

(2) Voters seeking the recall of any member of the council shall proceed by way of a recall petition addressed to the council, identifying the council member concerned, requesting his removal from office and stating the grounds alleged for his removal. Any recall petition must be filed with the city clerk and must be signed by qualified voters of the city equal in number to at least 25% of the qualified voters of the city who voted at the last preceding election for city council members.

Sec. 2.72. Petitioners' Committee.

In each initiative, referendum, or recall petition there shall be named a petitioners' committee representing all the petitioners and composed of five members who shall be qualified voters of the city and signers of the petition concerned. The petitioners' committee shall be responsible for circulation of the petition and for its assembling and filing in proper form. The committee may also amend or withdraw its petition as provided in this Article.

Sec. 2.73. Initiative, Referendum and Recall Petitions: Form and Sufficiency.

(a) Initiative, referendum and recall petitions shall be governed by the rules regarding form and sufficiency set out in this Section, as well as by such other rules regarding form and sufficiency as the city council may impose by ordinance consistent with the provisions and with the spirit and purpose of this charter.

(b) The signatures to a petition shall be executed in ink or indelible pencil and need not all be affixed to one paper, but all papers of a petition shall be of uniform size and style and shall be assembled as one instrument

for filing with the city clerk. Each signature shall be followed by the address of the signer. Petitions or petition papers which reasonably comply with these requirements shall be accepted by the clerk without delay upon presentation and their filing shall be completed by his acceptance. Noncomplying petitions or papers may be rejected by the clerk until they are brought into reasonable compliance.

(c) The clerk shall not accept any petition until it indicates: (1) by name and address, the five petitioners who constitute the petitioners' committee for that petition and (2) the address to which all notices for the petitioners' committee are to be sent.

(d) Any petition shall be certified or determined insufficient which: (1) is validly signed by less than the required number of qualified voters of the city, (2) proposes, or requests repeal of, an ordinance not subject to the power under which the petitioners are proceeding, (3) if a referendum petition, is not filed within the time allowed, or (4) if a recall petition, seeks the removal of an official not subject to recall hereunder.

(e) No signature on a petition paper shall be counted in support of the petition involved if that paper (1) being part of an initiative petition, has not contained or had attached to it throughout its circulation the full text of the proposed ordinance, (2) being part of a referendum petition, has not contained throughout its circulation a clear, concise designation and description of the ordinance concerned, or (3) being part of a recall petition has not contained or had attached to it throughout its circulation a copy of the recall petition identifying the council member concerned and stating the grounds alleged for his removal.

(f) No signature on a petition paper shall be counted in support of the petition involved if that paper at the time of filing, does not have attached to it an affidavit, executed by the circulator of that paper, to the effect: (1) that he personally circulated the paper; (2) that each signature on the paper was affixed in his presence; (3) that he believes each signature to be the genuine signature of the person whose name it purports to be; (4) if an initiative petition is concerned, that the full text of the proposed measure was attached to or contained in the accompanying paper throughout its circulation, and that each signer of the accompanying paper had an opportunity before signing to read the full text of the ordinance attached; and (5) if a referendum petition is concerned, that each signer of the accompanying paper had an opportunity before signing to read the designation and description of the ordinance in question; and (6) if a recall petition is concerned, that a copy of the recall petition was attached to or contained in accompanying paper throughout its circulation, and that each signer of the accompanying paper had an opportunity before signing to read the full text.

(g) Upon receipt of a petition that complies with the requirements of subsections (b) and (c) of this Section, the clerk shall examine the petition to determine whether, on its face, it is insufficient under paragraphs (1), (2) or (3) of subsection (d). If he finds the petition insufficient on its face for any of these reasons, he shall so certify to the city council at the next regular council meeting occurring not sooner than five days

after the filing of the petition, and the determination shall be subject to review in the manner provided in subsection (d) of Section 7.75. If he does not find the petition insufficient for these reasons, the clerk shall determine which signatures on the petition papers may be counted in support of the petition under subsections (e) and (f). He shall then clearly mark the signatures that may be so counted. Within ten days after the filing of the petition he shall deliver the petition papers with signatures marked to the Guilford County Board of Elections for a checking of the marked signatures against the registration books. The Board of Elections shall complete its check within 15 days after receipt of the petition papers; except that the said board shall not be obligated to conduct a check in any 30-day period immediately preceding, or in any 10-day period immediately following, a county-wide or city-wide election. Upon completion of its check, the Board of Elections shall forthwith certify to the city clerk: (1) the total number of registered voters of the city at the time of the most recent election of members of the city council; and (2) the number of voters registered in the city whose signatures, marked by the clerk, appear on the petition papers that the board found it necessary to examine. If it was found unnecessary to check all names on the petition papers, this fact shall be indicated on the certificate. The petition papers shall be returned to the city clerk by the Board of Elections together with its certificate.

Sec. 2.74. Referendum Petitions: Suspension of Ordinance after Filing.

When, within the time allowed, a referendum petition is filed with the city clerk, the ordinance to which that petition is directed shall immediately be and shall remain suspended from taking effect. This suspension shall terminate when, in accordance with this Article: (1) a final determination is made that the petition concerned is insufficient, or (2) the petitioners' committee withdraws the petition, or (3) the council reconsiders the ordinance and repeals it without modification.

Sec. 2.75. Initiative, Referendum and Recall Petitions; Procedure after Filing.

(a) Within five days after the return of the petition papers by the county board of elections, the city clerk shall complete a certificate as to whether the petition is sufficient. If the clerk certifies a petition insufficient, his certificate shall show the particulars wherein the petition is defective. As soon as he has completed his certificate, the clerk shall notify the committee of petitions of the contents of the certificate. If a petition is certified sufficient, the clerk shall present his certificate to the city council at its next meeting and that certificate shall be a final determination as to the sufficiency of the petition. If a petition certified sufficient is a recall petition, the clerk shall also give written notice of the action taken to the council member whose removal is sought. If a petition is certified insufficient under Section 7.72 (d) (1), a majority of the committee of petitioners may elect to amend the petition; but if a majority does not so elect to amend the petition, the clerk shall present his certificate to the council at its next meeting and that certificate shall be a final determination as to the sufficiency of the petition.

(b) If a majority of the committee of petitioners elects to amend the petition, then within ten days after notice of the contents of the clerk's certificate, the committee may file, for purposes of amendment, a supplementary petition upon additional papers. The supplementary petition shall be governed by the same requirements as an original petition with respect to such matters as uniformity and assembly of papers, listing of the petitioners' committee, text or designation and description of measures, circulators' affidavits, the writing and counting but not the number of signatures; and the clerk shall proceed as in the case of an original petition. Within two days after receipt of a supplementary petition complying with the requirements of subsections (b) and (c) of Section 2.73, the clerk shall deliver the supplementary petition papers to the county board of elections for a checking of the marked signatures against the registration books. The Board of Elections shall complete its check within five days after receipt of the said petition papers; except that the said board shall not be obligated to conduct a check in any 30-day period immediately preceding, or in any 10-day period immediately following a county-wide or city-wide election. Upon completion of this check, the Board of Elections shall forthwith certify to the city clerk the number of voters registered in the city whose signatures, marked by the clerk, appear on the supplementary petition papers that the board found it necessary to examine. If it was found unnecessary to check all names on the supplementary papers, this fact shall be indicated in the certificate. The supplementary petition papers shall be returned to the city clerk by the Board of Elections together with the certificate.

(c) Within two days after the return of the supplementary petition papers by the Board of Elections, the clerk shall complete a second certificate as to whether the original petition, as amended by the supplementary petition is sufficient. If the clerk certifies the amended petition insufficient, his second certificate shall show the particulars wherein the petition is still defective. As soon as he has completed his second certificate, the clerk shall notify the petitioners' committee of its contents and shall present that certificate to the council at its next meeting, and that certificate shall be a final determination as to the sufficiency of the petition.

(d) If a petition has been certified insufficient and there is no election to amend it, or if an amended petition is certified insufficient, the clerk shall present his latest certificate on the petition to the council at its next meeting.

(e) If, in any one of the ways provided in this Section, a final determination has been made that a petition is insufficient, that determination shall be subject to judicial review, but no further action shall be taken on the petition unless the reviewing court directs otherwise. Such a final determination, even if sustained upon review, shall not prejudice the filing of a new petition for the same purposes.

Sec. 2.76. Consideration by the City Council and Submission to the Voters.

(a) When the city council has been presented with, or has, an initiative or referendum petition which has been finally determined sufficient in

accordance with the preceding Sections of this Article, it shall proceed at once to consider that petition. If an initiative petition is concerned, the ordinance it proposes shall at once be introduced and shall undergo all other procedures required for ordinances of the same kind; however, not later than 30 days after the date on which the petition proposing the ordinance is finally determined to be sufficient, the council shall complete its consideration of the proposed ordinance and shall adopt it with or without amendment or reject it. If a referendum petition is concerned, the ordinance to which that petition is directed shall be reconsidered by the council and, not later than 30 days after the date on which the referendum petition was finally determined sufficient, the council shall repeal or sustain the ordinance.

(b) If the council fails to adopt, or adopts with amendment, a proposed initiative ordinance, or if the council fails to repeal an ordinance reconsidered pursuant to a referendum petition, it shall submit the originally proposed initiative ordinance or refer the reconsidered ordinance concerned to the voters of the city.

(c) When the council has been presented with, or has, a recall petition which has been finally determined sufficient in accordance with the preceding Sections of this subchapter, it shall thereupon fix a day for holding a recall election unless, prior to council consideration of the matter, the council member whose removal is sought has resigned and his resignation has been accepted by the council.

(d) Any such initiative, referendum, or recall election shall be held not sooner than 30 days and not later than 60 days after the petition has been finally determined sufficient. It may be held at the same time as any other general or special election within such period, but if no other election is to be held within such period the council shall call a special initiative referendum or recall election (or combination thereof).

Sec. 2.77. Ballots for Initiative, Referendum, and Recall Elections.

(a) Any initiative or referendum ordinance to be voted on in accordance with this charter shall be presented for voting by ballot title. The ballot title shall be prepared by the city attorney. The ballot title may differ from the legal title and shall be a clear, concise statement describing the substance of the ordinance without argument or prejudice. If the ballot used in voting is a paper ballot, it shall have below the ballot title the following instructions: "Place a cross (x) in only one of the squares below." Below this instruction shall appear, in the order indicated the following propositions: "FOR THE ORDINANCE" and "AGAINST THE ORDINANCE." Immediately at the left of each of the two propositions set out, there shall be a square in which by making a cross (x) the voter may cast his vote.

(b) The ballots used in a recall election, if a paper ballot is used, shall contain the following instructions: "Place a cross (x) in one of the squares below." Below the instruction shall appear, in the order indicated, the following propositions: "FOR THE RECALL OF (NAME OF OFFICER)" and "AGAINST THE RECALL OF (NAME OF OFFICER)." Immediately at the left of each of the two propositions thus set out, there shall

be a square in which by making a cross (x) the voter may cast his vote.

(c) If voting machines are used for an initiative, referendum or recall election, the ballot title shall have below it the same two propositions appropriate to its nature as prescribed for the paper ballot, one above the other or one preceding the other in the order indicated, and the voter shall have an opportunity to vote in favor of either of the two propositions and thereby to vote his preference.

(d) Any number of initiative, referendum or recall proposals may be voted on at the same election and may appear on the same ballot. Paper ballots used for voting on one or more such proposals shall be used for that purpose only. If more than one proposal appears on the same paper ballot or is voted on by paper ballot at the same election, each one shall be presented for voting with ballot title, instruction, propositions, and voting squares as prescribed for single proposals. If voting machines are used, each proposal shall be presented for voting as prescribed for single proposals on voting machines.

Sec. 2.78. Withdrawal of Initiative and Referendum Petitions.

(a) A petitioners' committee may withdraw an initiative or referendum petition:

(1) At any time after the city council, if an initiative petition is concerned, has finally rejected or has adopted with amendment the ordinance proposed; or, if a referendum petition is concerned, has finally refused to repeal the ordinance to which the petition is directed; but the city clerk shall retain the petition papers as part of the official records of the city.

(2) But not later than the fifteenth day immediately preceding the day scheduled for a vote in the city on the proposal concerned.

(b) No petition shall be withdrawn except by written request for its withdrawal filed with the council within the time limits prescribed for withdrawal and signed by at least four of the five members of the petitioners' committee for that petition. The filing of such request immediately withdraws the petition and there shall be no further action on or under that petition and no city vote or further action pursuant to that petition on the proposal concerned.

Sec. 2.79. Results of Election.

(a) If a majority of the voters of the city voting upon a proposed initiative ordinance shall vote in favor of it, the ordinance involved shall thereupon be an ordinance of the city. A referred ordinance not approved by a majority of the voters voting on it shall thereupon be repealed.

(b) If a majority of the votes cast on the question of recalling a council member be against his recall he shall continue in office for the remainder of the unexpired term, but subject to recall as before. If a majority of such votes be for the recall of the council member designated on the ballot, he shall be removed from office.

(c) If a council member in regard to whom a sufficient recall petition is submitted to the council shall resign before the election and his resignation be accepted by the council, or shall be removed as a result thereof, the vacancy shall be filled in the manner provided by this charter for

filling vacancies in such office, except as otherwise provided in subsection (d) of this Section. But a council member removed by the voters as the result of a recall election, or resigning after a sufficient petition for his recall has been submitted to the council shall not be re-elected to fill the vacancy caused by his own removal or resignation.

(d) If the recall of a majority of the members of the city council, including the mayor as one of the members, shall be effected at a single recall election, the successors of the council members recalled shall be elected by the registered, qualified voters of the city at a special municipal election, and said successors shall serve for the unexpired part of the term of the council members recalled. The members of the city council who have not been recalled are empowered to call such special election and to make all necessary provisions regarding the same in conformity with the Constitution and general laws of North Carolina. If the recall of the members of the city council, including the mayor, shall be effected at a single recall election, they shall be continued in office for the sole purpose of calling a special municipal election for the election of their successors as above provided, and of ascertaining and declaring the results thereof.

Sec. 2.80. Publication of Ordinances; Repeal and Amendment; Conflicts.

(a) Ordinances adopted under this Article by the city council or by the voters of the city shall be published and shall take effect as prescribed for ordinances generally.

(b) Any ordinance so adopted and any ordinance approved by the voters of the city under this Article may be amended or repealed by the council as are other ordinances of like nature.

(c) If two or more clearly conflicting ordinances are adopted or approved at the same city election, then, as soon as practicable thereafter, the council shall enact such amendments or repeals or both as may be necessary to remove the conflicts between these ordinances. In making these amendments or repeals or both, the council shall preserve, and wherever reasonably possible preserve intact, the provisions of that ordinance which, among those in conflict, was adopted or approved by the greatest number of affirmative votes.

CHAPTER III. MAYOR AND COUNCIL

SUBCHAPTER A. COUNCIL: COMPOSITION, TERMS, QUALIFICATIONS, COMPENSATION

Sec. 3.01. Composition of the City Council.

The city council shall consist of seven members, who shall be elected from the city at large in the manner provided by Chapter II.

Sec. 3.02. Qualifications and Terms of Councilmen; Vacancies.

(a) Members of the council shall serve for terms of two years, beginning the day and hour of the organizational meeting of the council, but members shall continue to serve until their successors are elected and qualified.

(b) No person shall be eligible to be nominated or elected to the city council, or to serve thereon, unless he is a qualified voter and resident of the city.

(c) If any elected councilmen shall refuse to be qualified, or if there is a vacancy in the office of councilman after election and qualification, or if any councilman be unable to discharge the duties of his office, the council shall choose some person for the unexpired term, or during his disability, as the case may be, to act as councilman. Councilmen so selected shall have all authority and powers given under this charter to regularly elected councilmen and shall be subject to recall.

Sec. 3.03. Salary of Mayor and Councilmen.

The mayor shall receive for his services the sum of two thousand four hundred dollars ($2,400.00) a year payable in semi-monthly installments. Each member of the council, except the mayor, shall receive a salary of one thousand two hundred dollars ($1,200.00) a year payable in semi-monthly installments. From the salary of the mayor or any councilman shall be deducted the sum of ten dollars ($10.00) for each regular or special meeting of the council which is not attended by such member, unless prevented by illness or other unavoidable cause.

SUBCHAPTER B. ORGANIZATION AND PROCEDURES

Sec. 3.21. Oath of Office; Organizational Meetings.

The organizational meeting of each council shall be held on Monday following the date of the election of its members, at 2:15 o'clock P. M. Before entering upon the duties of their respective offices, councilmen shall severally take oath before the city clerk to perform faithfully the duties of their respective offices. The council shall organize by the choice from its members of a mayor and a mayor pro tem., who shall hold their offices at the pleasure of the council. The organization of the council shall take place notwithstanding the absence, death, refusal to serve or non-election of one or more members; provided, that at least four of the persons entitled to be members are present and take oath. Any member who shall not be present may take oath at any time thereafter.

Sec. 3.22. Regular and Special Meetings.

(a) The council shall fix suitable times for its regular meetings, which shall be as often as twice monthly. The mayor, the mayor pro tem., or any two members of the council may at any time call a special meeting by signing a written notice stating the time of the meeting to be delivered to each member or left at his usual dwelling place at least six hours before the meeting. Meetings of the council may also be held at any time when all members of the council are present and consent thereto. It shall not be necessary to state in the notice of a special meeting the business to be transacted; and any business may be transacted at a special meeting that might be transacted at a regular meeting.

(b) Except where otherwise specifically provided by this charter, the city council shall have authority to determine the time and place of council meetings, to make such provisions as it may deem wise relative to regular, special, adjourned and continued meetings, to adopt rules of procedure, and generally to regulate the time, place, manner and method of the exercise of its powers. All meetings shall be held within Guilford County except in the case of an emergency. In the event the council is authorized or required by

law to hold a joint meeting with the governing body of another municipality or political subdivision of the State of North Carolina, it may at its election meet with the other governing body at a designated place within the area subject to the jurisdiction of the other governing body.

Sec. 3.23. Meetings; Quorum; Votes; Attendance of Members.

(a) All meetings of the council shall be public meetings. The city council shall not by executive session or otherwise formally consider or vote on any question in private session.

(b) A majority of the members elected to the council shall constitute a quorum to do business, but a less number may adjourn from time to time and compel the attendance of absent members by ordering them to be taken into custody. The affirmative vote of a majority of the members of the council shall be necessary to adopt any ordinance. All other matters voted upon shall be by a majority vote of the council members present, but no ordinance shall be adopted on the same day it is introduced unless five members of the council vote in favor of it. No member shall be excused from voting except on matters involving the consideration of his own official conduct or involving his financial interest.

(c) All final votes of the council involving the expenditure of money or the enactment of ordinances shall be by roll call and shall be entered in the minutes. It shall not be necessary to call the roll, however, if a voting device is provided which records the vote of each council member for later entry in the council minutes, and the voting device is constructed so that the vote of each council member is visible to the member. The mayor shall announce the result of each vote of the council.

(d) The council shall have power to compel the attendance of absent members by ordering them to be taken into custody.

Sec. 3.24. Continuance of Public Hearing.

If a public hearing is set for a given date, and a quorum is not then present, the hearing shall be continued until the next regular council meeting without further advertising. The council may continue any public hearing without further advertisement.

SUBCHAPTER C. COUNCIL: ORDINANCE PROCEDURE

Sec. 3.41. Applicable General Law Provisions.

Except as herein otherwise provided, the adoption, amendment, repeal, pleading and proving of ordinances shall be governed by applicable provisions of general law.

Sec. 3.42. Publication of Ordinances.

(a) Any compilation or codification of the city ordinances adopted by the city council, and ordered printed by it in pamphlet or book form, may be published by publication of the ordinance adopting the compilation or codification, and the ordinances included in the compilation or codification shall be effective not less than twenty days after publication of the adopting ordinance.

(b) Any new Chapter of the city code whether by way of addition or substitution may be published in its entirety or a notice may be published stating the title of the Chapter, the date of its adoption, and that it will

be effective twenty days after the publication of said notice. Any new Chapter published in its entirety shall become effective upon publication. Any new Chapter published by title shall become effective not less than twenty days after publication.

(c) All other ordinances shall be published in their entirety and shall become effective upon publication, unless the ordinance expressly provides for a different effective date.

(d) As used in this Section the term "publication" means publication once in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper by posting in three public places in the city.

Sec. 3.43. Code of Ordinances.

(a) The city council may adopt and provide for the publication and distribution of a codification of the city ordinances, to be known as the "Greensboro Code of Ordinances." The Code of Ordinances shall consist of two separate parts. The first part shall be known as "General Ordinances." The second part shall be known as "Technical Ordinances," and shall include all ordinances regarding the construction of buildings, the installation of plumbing, the installation of electric wiring, the installation of oil appliances, or gas appliances and equipment, and other technical ordinances designated as such by the city council.

(b) The official copy of the Code of Ordinances, including all ordinances, amending or supplementing the code, shall be kept in the office of the city clerk.

Sec. 3.44. Codification of Certain Zoning, Traffic and Related Ordinances by Appropriate Entries upon Official Map Books.

(a) Every ordinance concerning the matters enumerated in subsections (b) and (c) of this Section shall be codified by appropriate entries upon official map books to be retained permanently in the office of the city clerk. Such entries shall be made by or under the direction of the city manager. In conjunction with the introduction of every proposed ordinance concerning any of these matters, a map of the affected area shall be presented to the city council, but failure to present a map shall not affect the validity of the ordinance.

(b) The ordinances referred to in subsection (a) include all ordinances establishing or amending boundaries of any district under zoning regulations.

(c) The ordinances referred to in subsection (a) also include all ordinances:

(1) Designating the location of official traffic control devices;

The council shall have the power to pass ordinances which shall be effective only in certain districts or sections of the city, or ordinances which may except from their operations any district or sections of the city, if in the judgment of the city council the condition in such sections or districts require them to be included in or excepted from the provisions of any such ordinance.

(a) The following offices and positions are hereby continued under this charter:

Mayor, mayor pro tem., city manager, city clerk, city treasurer, city attorney, chief of police, tax collector, fire chief, and building inspector. ARTICLE 2. CITY MANAGER

Sec. 4.11. City Manager: Appointment, Qualifications, Term and Compensation.

The council shall appoint the city manager, who shall be the administrative head of the city government. He shall be responsible for the administration of all city offices, positions, departments, boards, commissions and agencies created by or under this charter. He shall be appointed with regard to merit only and he need not be a resident of the city when appointed. He shall hold office during the pleasure of the council, and shall receive such compensation as it may fix.

Sec. 4.12. City Manager: Powers and Duties.

The city manager shall (1) be the administrative head of the city government; (2) see that within the jurisdiction of the city the laws of the State and the ordinances, resolutions, and regulations of the council are faithfully executed; (3) attend all meetings of the council, and recommend for adoption such measures as he shall deem expedient; (4) make reports to the council from time to time upon the affairs of the city, and keep the council fully advised of the city's financial condition and its future financial needs.

Sec. 4.13. City Manager: Absence or Disability.

In the event the city manager shall be sick, absent from the city or otherwise unable to perform the duties of his office, the mayor shall be ex officio city manager until the manager is able to resume his duties, and during said period the mayor shall have all the power and authority of the manager. Should the position of city manager be vacant or in the event of the prolonged absence, illness, or other incapacity of the manager, the council may designate one of its number, the mayor or any other person, as temporary manager, and the person so designated shall have all the powers and authority of the manager while he shall serve in the capacity. If the mayor or any member of the council serves as manager for a temporary period, he shall receive such additional compensation as the council may determine.

ARTICLE 3. CITY ATTORNEY

Sec. 4.21. Powers and Duties of the City Attorney.

The city attorney shall (1) serve as legal advisor to the city council, the city manager and all city departments, officers and agencies; (2) represent as counsel the city, its officers, agents, or employees, in any legal action arising out of or connected with the proper functions of the city,

its officers, agents, or employees, unless disqualified to so act; (3) approve as to form all ordinances and resolutions, including initiated or referred ordinances, prior to their introduction.

ARTICLE 4. POLICE AND FIRE OFFICERS

(b) The chief of police and each member of the police force shall have —for the purpose of enforcing city ordinances and regulations, of preserving the peace of the city, of suppressing disturbances and apprehending offenders, and for serving civil process—the powers of peace officers vested in sheriffs and constables. Such powers may be exercised within the corporate limits of the city and one mile beyond, upon city real property wherever located, and within the limits of the watershed of the city water supply.

Sec. 4.32. Power to Establish Police Emergency Lines.

The city council shall have the power to authorize the chief of police or other police officer in charge at the scene of a parade, fire, accident, disturbance, crime scene, natural or artificial disaster or emergency, or any large gathering of people, to provide barricades, ropes, signs, or other means of restraint, and it shall be unlawful for any person other than a law enforcement officer, fireman, or other person having official business at the scene, to cross a duly established police emergency line without express permission of a police officer at the scene.

Sec. 4.33. Fingerprinting and Photographing of Arrested Persons.

The chief of police may provide for the taking of fingerprints and photographs of any person arrested by any police officer of the City of Greensboro, and the provisions of G. S. 148-79 shall not apply to the City of Greensboro.

Sec. 4.34. City and County Jails.

The keeper of the jail of Guilford County is hereby required to receive into the jail without a mittimus, any person under arrest by a police officer of the city, and to keep such person safely until he is brought out for trial. For such services the jailer shall be entitled to such fees as are allowed him in like cases. The city may also provide and use a jail for the confinement of prisoners in its discretion, but the providing of a city jail shall not relieve the county jailer of the duty to receive prisoners from police officers of the city.

Sec. 4.35. Auxiliary Policemen and Firemen.

(a) The city council may provide for the organization, recruiting, training, equipping, and appointing of auxiliary policemen and auxiliary firemen for the City of Greensboro.

(b) Duly appointed auxiliary policemen and firemen shall, while training and while performing duties on behalf of the city incidental to their appointment, be entitled to workmen's compensation benefits to the same extent as regular city employees. Compensation payments to auxiliary po-

licemen shall be based upon the entrance salary of a regular city police patrolman at the time of the injury. Compensation payments to auxiliary firemen shall be based upon the entrance salary of a regular city fireman at the time of the injury.

(c) Auxiliary policemen and firemen shall not be entitled to remuneration for their services unless called into active duty by the city council because of an emergency, in which event they may receive such compensation for their services as shall be fixed by the council. Auxiliary policemen and firemen shall not be entitled to any benefits of compensation other than those provided by or pursuant to this Section. This subsection shall not in any manner affect the rights of any person to benefits provided by the State of North Carolina or by Act of Congress for civilian defense workers or auxiliary policemen and firemen.

(d) The City of Greensboro shall be entitled to the same immunities with respect to the action of auxiliary policemen and auxiliary firemen in the performance of their duties or training or otherwise, to which it is entitled with respect to the actions of regular city policemen and firemen in the performance of their duties.

Sec. 4.36. Municipal Rescue Squad.

The city council may create a municipal rescue squad and, for the purpose of providing emergency life saving and rescue service to persons within the city whose lives or property are imperiled, may allocate sufficient funds to train and equip such an organization. The city may share the expense thereof with Guilford County in the manner provided by Chapter 525 of the Session Laws of 1957. In the event it shall be deemed advisable, the city council may provide emergency life saving and rescue services by contracting with any incorporated, nonprofit volunteer or community rescue squad. Any expenditure made hereunder is declared to be a necessary expense and for a public purpose.

SUBCHAPTER B. FINANCES AND FISCAL MATTERS

ARTICLE 1. FINANCES AND FISCAL ADMINISTRATION

Sec. 4.51. City Treasurer.

The city treasurer shall perform the functions prescribed by this charter and by general law, and shall be provided with a surety bond at the expense of the city, in an amount fixed by the council. The bond shall be filed with the city clerk.

Sec. 4.52. City Tax Collector.

The city tax collector shall perform the functions prescribed by this charter and by general law, and shall be provided with a surety bond at the expense of the city, in an amount fixed by the council. The bond shall be filed with the city clerk.

ARTICLE 2. TAXATION

Sec. 4.61. General Authority to Levy and Collect Taxes.

To raise revenue for defraying expenses incident to the proper government of the city, the council may annually levy and collect (1) an ad valorem tax on real and personal property (including intangible property

not exempt from taxation) and on all other property subject to ad valorem tax; (2) a tax on all businesses, trades, professions, avocations, and franchises, carried on or enjoyed within the city; and (3) any other taxes permitted by general law.

Sec. 4.62. Levy, Collection and Payment of Ad Valorem Property Taxes.

(a) Except as otherwise herein provided, ad valorem property taxes shall be imposed and collected in the manner provided by general law.

(b) Ad valorem property taxes shall become due and payable on the date provided by general law, and interest shall be charged for late payment in the amounts and during the periods provided by general law. In the discretion of the city council, discounts may be allowed for prepayment of taxes, and if allowed, shall be granted in the amounts and for the periods provided by general law.

(c) The council may make rules and regulations for the payment of the tax on any particular parcel or parcels of real estate or personal property listed in the name of any person, firm or corporation without requiring the payment of all of the taxes listed by such person, firm or corporation. The property upon which taxes are so paid shall be released or exempt from the lien of the unpaid portion of taxes.

(d) If for any reason the making out of tax statements is delayed so that persons cannot ascertain the full amount of their taxes in time to take advantage of the discounts herein provided for, the council may revise the schedule of discounts and penalties, either or both, as in its judgment may be fair and proper, but the maximum discount or penalty thus fixed by the council shall not exceed the maximum provided for by subsection (b).

(e) The city tax collector shall, on the second Monday in June of each year, report a list of all taxpayers owing taxes for the current year which are liens on real property, and the city council shall thereupon, at its next regular meeting, order the sale of the tax lien on said real property of said taxpayers to be held at one of the times prescribed in the General Statutes of North Carolina. District taxes collected by the city tax collector shall be regarded as city taxes for purposes of advertisement and sale.

Sec. 4.63. Additional Remedies for Collection of Privilege License Taxes.

In addition to any other civil or criminal remedy available to enforce the collection of privilege license taxes, the tax collector may employ the remedies of levy upon personal property, attachment and garnishment, in the manner of and subject to the limitations provided in G. S. 105-385(c) through (g).

ARTICLE 3. INVESTMENT OF FUNDS

Sec. 4.71. Investment of Proceeds of the Sale of Bonds and Other Surplus Funds.

(a) The city council, or the mayor, the city manager and the treasurer acting jointly with authority granted by ordinance, shall from time to time carefully analyze the amount of cash in the general fund of the city and

in all special funds of the city credited to any special purpose, and all proceeds from the sale of bonds heretofore or hereafter issued by the city. When in the opinion of the city council, or the mayor, city manager and treasurer, acting jointly, it is determined that the cash in any fund is in excess of the amount required to meet current needs, the council, or the mayor, manager and treasurer, acting jointly, may deposit excess funds at interest with an official depository in the city upon terms authorized by applicable laws of the United States and the State of North Carolina, or invest in shares of any building and loan association organized and licensed under the laws of the State of North Carolina, or in shares of any federal savings and loan association organized under the laws of the United States and having its principal office in this State; or invest excess funds in bonds or certificates of indebtedness or treasury bills of the United States of America, or in bonds, notes or other obligations of any agency or instrumentality of the United States of America when the payment of principal and interest thereon is fully guaranteed by the United States of America, or in bonds of the City of Greensboro, North Carolina, or in certificates of deposit issued by banks or official depositories within the City of Greensboro, North Carolina. No funds may be invested, however, in building and loan associations unless and until authorized by the Insurance Commissioner, or in case of shares of a federal savings and loan association, unless and until authorized by an officer of the Federal Home Loan Bank.

(b) The funds shall be so invested that, in the judgment of the council, or of the mayor, manager and treasurer, acting jointly, they may be readily converted into money as needed. Earnings from the investment of proceeds of sale of bonds may be applied to the payment of the interest or principal of the bonds from the sale of which the proceeds were derived, or may be applied as increment to the proceeds. Earnings received on deposits and the income from investments, other than the investment of the proceeds from the sale of bonds, unless otherwise required by law, shall be paid into the city's general fund. Nothing in this Section shall be construed as permitting moneys realized from the investment of the proceeds of the sale of City of Greensboro bonds to be used for any purpose other than the purpose for which the bonds were authorized.

(c) The city council or the mayor, manager, and treasurer, acting jointly, may make deposits in designated depositories to the extent that the depositories have qualified to receive such deposits under the law, and may purchase and sell the securities or investments hereinabove set out privately and without notice, but no such securities or investments shall be purchased at more than the market price thereof nor sold at less than the market price thereof. The city may pay all costs of every nature incident to the purchase and sale of securities.

(d) When the United States Government securities hereinabove mentioned are purchased and sold in New York City, New York, and it is not deemed practical to transport any or all of such securities from New York to Greensboro and from Greensboro to New York, the city council is authorized to name a bank or banks with which such securities may be left

in a safekeeping account, either in the name of the city or in the name of a Greensboro bank, designated by the city council as a bank which may hold for the city such securities in its customer's account with a New York bank or banks likewise designated by the city council. No security shall be required for the protection of securities or investments thus held for safekeeping. No city officer or employee, including the officer or employees having charge or custody of city funds, or the surety or sureties on any official bond, shall be liable for any losses sustained when United States securities and investments are deposited or left with any bank or banks in the manner hereinabove authorized.

SUBCHAPTER C. PERSONNEL

Sec. 4.91. Appointment and Removal of Department Heads and Employees; Salaries; Absence or Disability.

(a) The city manager, except as otherwise provided in this charter, shall appoint and may suspend and remove all city employees, and heads of departments, and, in his discretion, may employ consultants of any kind when needed. The manager shall report to the city council every appointment and removal of a department head at the next council meeting following the appointment or removal.

(b) All compensation and salaries shall be fixed or approved by the council.

(c) In case of the absence or disability of any department head or holder of any position named in this charter, an assistant designated by the city manager may perform the functions of the department head or position holder.

(d) City employees and department heads shall perform such duties as may be required of them by the manager under general regulations of the council.

(e) Neither the council nor any of its members shall take any part in the appointment or removal of department heads and employees in the administrative service of the city. Except for the purpose of inquiry, or for consultation with the city attorney, the council and its members shall deal with the administrative service solely through the manager, and neither the council nor any member thereof shall give specific orders to any subordinates of the city manager, be it publicly or privately. This Section shall not apply to action taken by a member of the council while serving temporarily as manager, or as manager ex officio.

Sec. 4.92. Public Liability Insurance Policies Covering Certain Employees.

The city may purchase and pay the premium on a public liability insurance policy or policies to protect and hold harmless from loss any city employee or employees engaged in occupations found by the council to be hazardous to the public generally.

Sec. 4.93. Loss and Theft Insurance Policies Covering Certain Employees.

The city may purchase and pay the premium on an insurance policy or policies to protect and hold harmless from loss by disappearance, theft, or

means other than the wrongdoing of the insured employee or employees, any city employee or employees who are engaged in duties which require them to be responsible for public funds.

Sec. 4.94. Oaths of Certain Officers and Employees.

Before entering upon the discharge of their duties, the holders of the following offices and positions shall be required to take and subscribe before the mayor, or some other officer authorized to administer oaths in such cases, the oath prescribed for public officers and an oath that they will faithfully and impartially discharge the duties of their respective offices or positions according to law: the chief of police and each member of the police force, the tax collector and assistant tax collector, and the building inspector and all employees empowered to enforce the building code. All such oaths shall be filed with the city clerk.

SUBCHAPTER D. PROCUREMENT AND PROPERTY MANAGEMENT

ARTICLE 1. CONTRACTING, PURCHASING AND PROPERTY MANAGEMENT PROCEDURES

Sec. 4.111. Contracting Procedures.

All contracts, except leases provided for in Section 4.125 (b) and (c) of this charter, shall be made or authorized by the city council, and no contracts shall bind the city unless reduced to writing and approved by the council. All contracts, and all ordinances or resolutions making contracts or authorizing the same, shall be drawn by the city attorney or shall be submitted to him before authorization by the council.

ARTICLE 2. SALE AND DISPOSITION OF PROPERTY

Sec. 4.121. Sale of Personal Property.

Any personal property not exceeding twenty-five hundred dollars ($2500.00) in value at the time of sale may be sold or exchanged by the council without advertisement. Personal property having a value in excess of twenty-five hundred dollars ($2500.00) may be sold only at public sale after advertisement as prescribed in Section 4.123.

Sec. 4.122. Sale of Real Property Not Exceeding Fifteen Thousand Dollars ($15,000.00) in Value.

Any real property owned and held by the city for governmental or other purposes, the fair market value of which (exclusive of special assessments thereon) does not at the time of sale exceed fifteen thousand dollars ($15,000.00), may be sold by the council. When any satisfactory offer is made for the same, and a deposit of five per cent of the amount bid is made with the city clerk, the council shall cause to be published one time in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, there shall be posted in three places in the city, a general description of the property, the amount and the terms of payment offered, together with a notice that within ten days any person may raise the bid not less than five per cent. If within ten days any person raises the bid five per cent and deposits with the city clerk a certified check covering the deposit for the increased bid, the city clerk shall readvertise the offer, and shall continue to readvertise so long as the bids

are increased and proper deposits are made; and when there is no increased bid within the prescribed time, the council may sell and convey such property for the amount of the highest bid offered; but the council may at any time refuse to proceed further with the proposed sale. In lieu of the foregoing procedure, the council may, in its discretion, order a public auction sale of any real property without regard to its value.

Sec. 4.123. Sale of Real Property Exceeding Fifteen Thousand Dollars ($15,000.00) in Value.

By a two-thirds vote of all the members of the city council, any real property owned and held by the city for governmental or other purposes having an apparent fair market value in excess of fifteen thousand dollars ($15,000.00) may be sold by the city council, but only at public sale and after advertisement. The resolution authorizing the sale shall describe the property to be sold, the time, place, and terms of sale, and shall state that any offer or bid must be accepted and confirmed by the council before the sale shall be effective. The resolution may, but need not, require that the highest bidder at the sale deliver to the city treasurer, or other official designated by the city council, a certified check in an amount named in the resolution, to guarantee that, if the sale is confirmed by the council, the bidder will comply with the terms of his bid. The resolution shall be published in some newspaper published in the city which is qualified to carry legal notices, once a week for four successive weeks, or, if there be no such newspaper, the resolution shall be posted in three public places in the city, and the last publication may, but need not, be on the day of sale. After the bids have been received at the sale, the highest bid for the property shall be reported to the council, and within thirty days thereafter the council shall accept or reject the bid. If the bid is rejected, the council may readvertise the property for sale.

Sec. 4.124. Sale or Exchange of Excess Property.

In any case where the city has purchased property instead of taking it by condemnation for any public purpose, and, in the opinion of the council, it is desirable to sell any excess of the property, that is, such property as is not needed for the particular improvement or public purpose, the council may sell it by public sale, by receiving sealed bids, or by exchanging it for other property. In such case the provisions of Sections 4.122 and 4.123 shall not apply, except that public sale shall be as provided by Section 4.123.

Sec. 4.125. Lease of Property.

(a) Any property owned by the city, whether originally acquired for governmental or other purposes, may be rented or leased by the council for a term not to exceed ten years if, in the opinion of the city council, the property will not be needed by the city for the period of the lease. A lease may be made privately by the council or publicly after notice is given in such manner and for such length of time as prescribed by the council. In any case, however, where the lessee enters into a binding obligation to erect, upon property owned by the city, improvements to cost not less than one hundred thousand dollars ($100,000.00), the council may rent or lease such property for a term not to exceed forty (40) years and such lease

may be made by the council either privately or publicly and upon such terms as in the judgment of the council will promote the best interest of the city.

(b) The Greensboro War Memorial Stadium on Bagley Street and the Greensboro War Memorial on the old fairground property, in whole or in part, may be leased, privately or publicly, for a period not to exceed fourteen (14) days by the city manager under rules and regulations adopted by the city council.

(c) The city manager shall have the authority, under rules and regulations adopted by the city council, to lease, privately or publicly, any vacant land or any building to be used for dwelling purposes, owned by the city, from month to month, at a rental to be determined by the city manager to be the fair rental value of the property.

Sec. 4.126. Real Property Conveyed to the City for Parks, Recreation and Playgrounds; Sale; Dedication for Street, Sidewalk, Water or Sewer Purposes.

The city council may (1) sell, as provided in Section 4.123, any part of any real property heretofore or hereafter conveyed or dedicated to the city for parks, recreation or playgrounds; and (2) dedicate and use for street, sidewalk, water, or sewer purposes such portion or portions of any such property as in the opinion of the city council public convenience or necessity may require; but nothing herein shall have the effect of altering the terms or conditions of any agreement with the city, or conveyance to the city, relative to the use of property.

Sec. 4.127. Releases and Quitclaims.

(a) The city manager is hereby authorized to execute releases of persons, firms, and corporations because of damages to personal property belonging to the city when the full amount of damages to such property is ascertained and statement thereof has been furnished to the manager by the city attorney and the amount of such release does not exceed five hundred dollars ($500.00). In the event that a draft or check is presented to the city which constitutes a release, instead of a regular release form, the manager may direct that such draft or check be handled as other payments to the city and, when approved by the manager, it shall constitute a release to the extent stated on the draft or check.

(b) The city may quitclaim any rights it may have in property not needed for public purposes upon report by the city attorney and city manager, and adoption of a resolution by the city council, both finding that the property is not needed for public purposes and that the city's interest has no readily ascertainable monetary value.

Sec. 4.131. Conflict of Interest.

Any officer, department head, employee, or board or commission member who has financial interest, direct or indirect, in any proposed contract with the city or in a proposed sale of any land, material, supplies, or services to the city or to a contractor supplying the city, shall make known that interest and shall refrain from voting upon or otherwise participating in the making of such a contract or sale. Any officer, department head, or employee who willfully conceals such a financial interest or willfully

violates the requirements of this Section shall be guilty of malfeasance in office or position and shall forfeit his office or position. Violation of this Section with the knowledge expressed or implied of the person or corporation contracting with or making a sale to the city shall render the contract void.

SUBCHAPTER E. RECORDS MANAGEMENT

Sec. 4.151. City Clerk.

The city clerk shall be ex officio clerk of the city council, and shall keep records of its proceedings. He shall perform all other functions prescribed by this charter and by general law. He shall have the same power to administer oaths, in the exercise of his official functions, as the Clerk of the Superior Court of Guilford County. He shall be provided with a surety bond at the expense of the city, in an amount fixed by the council. The bond shall be filed with the city manager.

CHAPTER V. REGULATORY AND PLANNING FUNCTIONS

SUBCHAPTER A. ADMINISTRATION OF JUSTICE

Sec. 5.01. Rewards for Conviction of Certain Offenses.

The city council may offer and pay rewards for the conviction of any person or persons alleged to have committed criminal offenses which, in the judgment of the council, involved serious danger to the public peace or public safety. The council shall fix the terms, conditions and amounts of such rewards. Rewards shall be paid only by order of the council from nontax revenues in the general fund of the city. The council shall, in its discretion, determine who shall be entitled to the collection of any reward.

SUBCHAPTER B. ALCOHOLIC BEVERAGE CONTROL

Sec. 5.21. Board of Alcoholic Control: Selection, Composition and Terms.

The City of Greensboro Board of Alcoholic Control is hereby continued under this charter, and shall consist of three members who shall be known for their character, ability, and business acumen. The city council shall appoint the members of said board for three-year overlapping terms; shall fix their compensation; and shall designate one of the members as chairman. Vacancies occurring otherwise than by expiration of term shall be filled by the council for the unexpired term.

Sec. 5.22. Board of Alcoholic Control: Powers and Duties.

The Board of Alcoholic Control shall have all of the powers and duties imposed by Section 18-45 of the General Statutes on county boards of alcoholic control and shall be subject to the powers and authority of the State Board of Alcoholic Control to the same extent as county boards of alcoholic control, as provided in Section 18-39 of the General Statutes. The city board and the operation of any city liquor stores authorized under the provisions of this subchapter shall be subject to and in pursuance with the provisions of Article 3 of Chapter 18 of the General Statutes except to the extent which the same may be in conflict with the provisions of this Act. Wherever the word "County" board of alcoholic control appears

in said Article, it shall include the City of Greensboro Board of Alcoholic Control. The board shall have authority to employ legal counsel and such other employees as it may deem wise and to fix their compensation. Any law enforcement officer appointed by the board shall have all of the powers provided for law enforcement officers by Section 18-4(o) of the General Statutes.

Sec. 5.23. Board of Alcoholic Control: Distribution of Profits.

Out of profits remaining after the payment of all costs and operating expenses, the Board of Alcoholic Control shall expend a sum not less than five per cent (5%) nor more than ten per cent (10%) for law enforcement purposes and for education as to the effects of the use of alcoholic beverages. The board also shall retain out of such profits a sufficient and proper working capital, the amount to be determined by the board. Any profits remaining at the end of each quarterly period following the establishment of liquor control stores shall be paid out and distributed as follows:

(1) Twenty-seven per cent (27%) shall be allocated and distributed to the general funds of Guilford County and the municipal corporations, other than the City of Greensboro, located in the county, until they shall establish liquor control stores. The amounts distributable to the county and to each of the municipal corporations shall be determined upon the basis of population as shown by the latest federal decennial census; provided, however, the population of the county shall be the entire population exclusive of the population of all of the municipal corporations located therein. Upon the establishing of liquor or alcoholic beverage control store or stores by any city or town located in Guilford County, other than the City of Greensboro, the distributive share of the profits which would be payable to such city or town during the period such stores are operated by any such city or town shall be paid by the board to the City of Greensboro in the same manner and for the same purposes set out in paragraph (2) of this Section.

(2) Seventy-three per cent (73%) shall be allocated and distributed to the tax collector of the City of Greensboro and may be used by the City of Greensboro in the operation of the water and sewer system of the city, for debt service, for the general fund or for any public purpose.

Sec. 5.24. Subsequent Elections Concerning Alcoholic Beverage Control.

(a) Elections may be held upon the continued operation of city liquor control stores in the City of Greensboro or, in the event of a vote in opposition thereto, then, elections may be held thereafter upon the renewed operation of such stores. Such elections shall be conducted in accordance with the provisions of this charter applicable to initiative petitions (Section 2.71 through 2.80) except that:

(1) The number of signers required upon petition to initiate such election shall be fifteen per cent (15%) of the qualified voters of the city who voted at the last preceding election for city council members;

(2) The propositions to be voted upon shall be "For City Liquor Control Stores" and "Against City Liquor Control Stores"; and

(3) A new registration of voters for such election shall not be necessary and all qualified voters who are properly registered prior to registration for the election and those registered in the liquor election shall be entitled to vote in the election.

(b) If a subsequent election shall be held and at such election a majority of the votes shall be cast "Against City Liquor Control Stores," the city liquor control board shall within three months from the canvassing of such votes and the declaration of the results thereof, close the stores and shall thereafter cease to operate them, and within three months the city control board shall dispose of all alcoholic beverages on hand, all fixtures, and all other property under the control of the board, convert it into cash, and turn the cash over to the city treasurer. Thereafter, all public, public-local and private laws applicable to the sale of intoxicating beverages within the City of Greensboro in effect prior to the authorization to operate city liquor stores shall be in effect as if the election had not been held and until and unless another election is held under the provisions of this Act in which a majority of the votes shall be cast "For City Liquor Control Stores." No election shall be called and held in the City of Greensboro under the provisions of this Act within three years from the holding of the last election thereunder.

SUBCHAPTER D. PLANNING, ZONING, BUILDING REGULATIONS AND RELATED MEASURES

ARTICLE I. IN GENERAL

Sec. 5.61. Authority Within Corporate Limits.

The city council may exercise within the corporate limits any planning, subdivision, zoning and building regulation powers (including plumbing, heating or electrical regulation powers) now or hereafter conferred by law upon cities and city governing bodies generally, or specifically conferred by law upon it or upon the City of Greensboro.

Sec. 5.62. Extraterritorial Authority.

(a) For the purpose of promoting the orderly growth, expansion and development of the City of Greensboro and the surrounding territory hereinafter defined, and for the purpose of promoting the health, safety, morals, and general welfare of the citizens of such area, the city council is hereby authorized to exercise any planning, subdivision, zoning and building regulation powers (including plumbing, heating, or electrical regulation powers) now or hereafter conferred upon the City of Greensboro and vested in the council by this charter, the General Statutes, or any other statute applicable to the City of Greensboro, not only within the corporate limits of the city but also within the territory beyond the corporate limits, as now or hereafter fixed, for a distance of one mile in all directions. Such powers may be exercised to the same extent and according to the same procedures as are applicable to the exercise of planning, zoning, subdivision, or building regulation powers (including plumbing, heating, or electrical regulation powers) within the corporate limits of the city; but any ordinance intended to have application beyond the corporate limits of the city shall so provide. Such powers shall include the power to adopt such ordinances and regulations as may be considered necessary or expedient by the council to regulate, control and restrict:

(1) The height, number of stories, and size of buildings and other structures;

(2) The percentage of a lot that may be occupied;

(3) The size of yards, courts and other open spaces;

(4) The density of population;

(5) The location and use of buildings, structures, and land for trade, industry, residences, or other purposes;

(6) The construction of buildings, including plumbing, heating and electrical installations; and

(7) The names of streets, and the city may provide street name signs in the area.

(b) At least two but not more than four members of the Greensboro Planning Board, authorized by G. S. 160-22, shall be citizens and residents of the territory beyond the corporate limits of Greensboro and within one mile thereof. Members appointed from the territory beyond the corporate limits of the City of Greensboro shall be appointed in the same manner and shall have the same powers and duties as the other members of the Greensboro Planning Board, and the laws, ordinances, rules and regulations applicable to the members of the Greensboro Planning Board shall be applicable to said members.

(c) The city council is authorized, in order to enforce properly the provisions of any zoning ordinance or building regulation, to require by ordinance that prior to the beginning of any construction, reconstruction or alteration of any building or structure, or for plumbing, heating or electrical installations within said area, a permit or permits be obtained therefor from the building inspector of the City of Greensboro. All permits, plans, inspections and fees which are specified in the Greensboro Code of Ordinances will apply to such area within one mile beyond the corporate limits.

(d) Membership on the Greensboro Board of Adjustment, authorized by G. S. 160-178, and the Greensboro Board of Building Appeals, authorized by this charter, shall not be limited to citizens and residents of the City of Greensboro, and members may be appointed to these boards who reside within the corporate limits of the city or within the territory beyond the corporate limits and within one mile thereof; except that not more than two members of the Greensboro Board of Adjustment, or one member and one alternate member, and not more than one member of the Greensboro Board of Building Appeals, shall be a resident or residents of the territory beyond the corporate limits and within one mile thereof.

(e) In the event that any portion of the territory beyond the corporate limits of the City of Greensboro and within one mile thereof comes within an area which is subject to the jurisdiction of another municipality or political subdivision of the State which has authority to exercise planning, zoning, subdivision, or building regulation powers (including plumbing, heating, or electrical regulation powers) and is exercising such jurisdiction, then the authority herein granted to City of Greensboro, to the extent that any conflict of jurisdiction may exist, shall not attach unless and until the governing body of such other municipality or political subdivision shall relinquish jurisdiction over said portion of said territory by resolution or ordinance of its governing board or body, or by repealing the regulations which it has adopted, and any such governing body or board is hereby authorized to pass or enact a resolution or ordinance relinquishing such jurisdiction. Except as otherwise herein provided, the authority hereby given to City of Greensboro shall become effective immediately upon the adoption by the city council of an ordinance making such territory subject to its authority.

(f) The powers herein granted to the city council are intended to be supplementary to any powers now or hereafter conferred upon it. The exercise of powers herein granted shall be within the discretion of the council. This Section shall have no effect upon any existing city ordinances. The adoption of any ordinance under authority of this Section shall have no effect upon any litigation pending at the time of adoption of such ordinance.

Sec. 5.63. Authority to Require Installation of Certain Improvements Prior to Approval of Plats.

(a) In connection with subdivision or platting controls, the City council may require the improvement and grading of streets and the construction and installation of street pavements, curbs, gutters, sidewalks, and water, sewer, surface water drainage, and other utility mains, as a condition precedent to approval of the plat. The requirement may provide for tentative approval of the plat previous to such improvement and installation; but any such tentative approval shall not be entered on the plat. The requirements may provide that in lieu of completion of the work and installations prior to final approval of a plat, the council may accept a bond, in an amount and with surety and condition satisfactory to it, providing for and securing to the city the actual construction and installation of the improvements and utilities within a period specified by the council and expressed in the bond. The city is empowered to enforce the bond by

all appropriate legal and equitable remedies. Requirements adopted under this subsection may be applied throughout the area over which the city is authorized by law to exercise platting or subdivision controls.

(b) The requirements may provide, in lieu of the completion prior to the final approval of a plat of such work and installation on land within the corporate limits of the city, for an assessment under this charter or under Article 9 of Chapter 160 of the General Statutes or other statutory authorization whereby the city may do the work and make the installations at the cost of the owners of the property within the subdivision.

ARTICLE 2. BUILDING REGULATIONS

Sec. 5.71. Building Inspector.

The building inspector shall enforce the city building code, shall perform the functions prescribed by this charter and by general law, and shall perform such additional functions as may be assigned to him by the city council.

Sec. 5.72. Board of Building Appeals.

(a) The city council may provide for the creation and organization of a board of building appeals to which appeals may be taken from the decision of the building inspector upon any provision of the building code of the city.

(b) The board shall consist of five members to serve for three-year overlapping terms. It shall have power to elect its own officers, to fix the times and places for its meetings, to adopt necessary rules of procedure, and to adopt all other rules and regulations not inconsistent herewith which may be necessary for the proper discharge of its duties; and it shall keep an accurate record of all its proceedings.

(c) An appeal from any decision or order of the building inspector may be taken by any person aggrieved thereby or by any officer, board or commission of the city. Any appeal from the building inspector to the board shall be taken within such reasonable time as shall be prescribed by the board by general rule and shall be taken by filing with the building inspector and with the clerk or secretary of the board, or with such other person as may be designated by the board, a notice of appeal which shall specify the grounds upon which the appeal is based. Upon the filing of any notice of appeal, the building inspector shall forthwith transmit to the board all the papers constituting the record upon which the decision appealed from was made. When an appeal is from a decision of the building inspector refusing to allow the person aggrieved thereby to do any act, his decision shall remain in force until modified or reversed by the board. When any appeal is from a decision of the building inspector requiring the person aggrieved to do any act, the appeal shall have the effect of suspending the requirement of the building inspector until the hearing by the board, unless the building inspector certifies to the board, after the notice of appeal is filed with him, that by reason of the facts stated in the certificate (a copy of which shall be furnished the appellant), a suspension of his requirement would cause imminent peril to life or property, in which case the requirement shall not be suspended except by a restraining order,

which may be granted, for due cause shown and upon not less than one day's written notice to the building inspector, by the board or by the Superior Court of Guilford County.

(d) The board shall fix a reasonable time for the hearing of all appeals and shall render its decision within a reasonable time. Any party may appear in person or by agent or attorney. The board may reverse or affirm, wholly or partly, or may modify the decision appealed from, and may make such decision and order as in its opinion ought to be made in the matter, and to that end it shall have all the powers of the building inspector; but the concurring vote of four members of the board shall be necessary to reverse or modify any decision of the building inspector. In passing upon appeals, the board shall have power not only to determine whether the decision of the building inspector is made upon a proper construction of the pertinent provisions of the building code but it shall have power also to allow materials and methods of construction other than those required by the building code to be used when in its opinion other materials and methods of construction are as good as those required by the code; and for this purpose the requirements of the building code shall be considered as a standard to which construction shall conform. The board shall have power also in passing upon appeals, in any case where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the building code, to adapt the application of the code to the necessities of the case to the end that the spirit of the code shall be observed, public safety and welfare secured and substantial justice done.

(e) Every decision of the board shall be subject to review by the Superior Court of Guilford County by proceedings in the nature of certiorari instituted within fifteen days of the decision of the board, but not otherwise.

Sec. 5.73. Fees for Building Inspection and Related Matters.

The city council may fix its own fees, notwithstanding any State law for fixing such fees generally, for the inspection of: (1) the construction, alteration, repair, removal and demolition of buildings; (2) all plumbing, electrical, heating and air conditioning work done in the city; and (3) the erection, installation, repair, maintenance and operation of smokestacks and smoke-producing apparatus of any kind whatsoever.

SUBCHAPTER E. UTILITY REGULATIONS

Sec. 5.91. Public Utility Franchises.

(a) The council may grant franchises for any public utility in the manner provided by law, and, in its discretion and in accordance with subchapter D of Chapter II, may hold a referendum at the expense of the applicant on the question of granting a franchise.

(b) Franchises granted hereunder:

(1) Shall extend for such periods as the council may determine, not to exceed sixty years, and may be renewable;

(2) Shall be revocable at the will of the council for violation of their terms or conditions;

(3) Shall—if they pertain to streets, sidewalks, public grounds or places in the city—be separately taxable, such taxes to be in addition to all

other taxes; except when such imposition by the city is prohibited by any statute now or hereafter in effect.

(4) May not be transferred without the approval of the council;

(5) May contain such provisions—consistent with the General Statutes relating to the jurisdiction of the State Utilities Commission—as the council deems proper concerning service, facilities, maintenance, operation, rates, accounting, reports and other matters; and

(6) May reserve to the city the right to purchase the utility properties covered by the franchise upon such terms (including price) as may be provided for by the franchise, but in no event shall the value of the franchise be considered in determining the purchase price.

SUBCHAPTER F. VEHICLES AND TRAFFIC

ARTICLE 1. CITY REGULATION OF VEHICLES AND TRAFFIC IN GENERAL

Sec. 5.111. Authority of City Council to Adopt Regulations.

(a) Subject to the provisions of subsection (b) of this Section, the city council may adopt ordinances regulating the speeds of vehicles upon any city streets and may establish truck routes (or other required routes for limited classes of vehicles or traffic) applicable to any city streets. As used in this Section the term "city streets" includes all public highways, roads and streets within the city limits, including numbered State highways, and highways, roads and streets maintained, repaired, constructed, reconstructed or widened in whole or in part with State funds.

(b) An ordinance concerning vehicle speeds, truck routes or other required routes that applies to numbered State highways shall become effective only as provided in this subsection. The council shall transmit to the State Highway Commission by registered mail a copy of the ordinance upon its adoption. The ordinance shall become effective if not disapproved by the commission within twenty days following the next regular meeting of the commission after the commission has received a copy of the ordinance.

(c) The authority herein granted to the city council shall be in addition to any authority conferred by general law upon the city council or the city to regulate vehicles, traffic or the use of city streets.

Sec. 5.112. Power to Regulate Ambulances and Wreckers.

The council may establish regulations governing the operations of ambulances, wreckers, and other motor vehicles used in connection with emergencies, disasters, or accidents, and may provide for the operation of an ambulance service or a wrecker service, or to enter into a contract or contracts for the providing of such service by a private person or persons.

Sec. 5.113. Power to Regulate Obstruction of Alleys.

If, in the opinion of the city council, a fire hazard is created by the obstruction of private alleys, the city council may adopt regulations governing the obstruction of private alleys, either by reason of the parking of motor vehicles or otherwise, but such regulations shall not be construed so as to restrict or limit the legal right of the owners of interests in a private alley to close the alley or to exercise other property rights therein.

Sec. 5.114. Location of Traffic Control Devices.

The city council may authorize an official to designate the location of official traffic control devices, upon a determination by him:

(1) If such a device is to be installed at a particular location, that its installation is necessary in order to control traffic congestion in the interest of public safety; or

(2) If such a device is to be moved or removed from a particular location, that the device is no longer required at such location for control of traffic congestion in the interest of public safety.

An "official traffic control device," as used in this Section, is a sign, signal, marking, or device, including a parking meter, which is intended to regulate vehicular or pedestrian traffic.

ARTICLE 2. TRAFFIC BUREAU

(1) Overtime parking one dollar ($1.00)

(2) Traffic violations, other than overtime parking, not to exceed five dollars ($5.00) as fixed by the council.

(d) Any person given a citation or ticket by a police officer of the City of Greensboro for a violation designated as provided in subsection (a) may tender an amount not in excess of the sum provided for in subsection (c) as payment of the civil penalty.

(e) No State tax shall be paid to the State of North Carolina in cases finally disposed of by the traffic bureau.

(f) The city manager shall designate a sufficient number of persons to operate the traffic bureau.

(g) All civil penalties collected in the traffic bureau shall be paid into the general fund of the City of Greensboro.

CHAPTER VI. CITY SERVICES AND FACILITIES

SUBCHAPTER A. ESTABLISHMENT AND MAINTENANCE OF SERVICES AND FACILITIES

ARTICLE 1. ANIMAL SHELTERS

Sec. 6.01. Joint Animal Shelters.

The city council may participate in the construction, operation and management of one or more animal shelters for the joint use of Guilford County and the cities of Greensboro and High Point, as provided by Chapter 314 of the Session Laws of 1955.

ARTICLE 2. CITY CEMETERIES

Sec. 6.11. Sale of Cemetery Lots.

The city manager may sell cemetery lots in the city cemeteries, subject to rules and regulations adopted by the city council. All deeds or instruments conveying title to such lots shall be signed by the mayor.

ARTICLE 3. FIRE PROTECTION SERVICES

Sec. 6.21. Power to Destroy Property to Stop Fires.

The mayor, city manager or any two members of the city council may order the blowing up, tearing down or other destruction of any building when it is deemed necessary to stop the progress of a fire. No person shall be held liable, civilly or criminally, for acting in obedience to orders, nor shall the city, the mayor, the city manager, or the council members be held liable, civilly or criminally, for the giving of such orders or for damages to property ordered destroyed.

ARTICLE 4. GARBAGE AND REFUSE DISPOSAL

Sec. 6.31. Liens for Garbage and Refuse Disposal Charges.

The council may establish charges to be made for garbage and refuse disposal. In case any charge for the removal and disposal of garbage and refuse is not paid within ten days after it becomes due, the charge shall become a lien against the property served or in connection with which the service or facility is used and may be collected thereafter in the manner provided by Section 6.83 for collection of utility charges.

ARTICLE 5. RECREATION FACILITIES

Sec. 6.41. Power to Regulate Use of Facilities.

(a) The city council may:

(1) Regulate the use of War Memorial and other recreation facilities belonging to the city;

(2) Regulate recreational uses of the city lake and other city-owned reservoirs or bodies of water;

(3) Promote athletic events and other recreation and entertainments in or involving any such facilities, reservoirs, or bodies of water, or contract for the promotion of athletic events, entertainment or recreation events, by leasing such facilities as provided in this charter, or otherwise.

(b) With respect to the use of city-owned reservoirs or bodies of water, the council may:

(1) Adopt regulations concerning boating on city-owned reservoirs and the taking of fish therefrom (including regulations of the size, kind and number of fish that may be taken, and of fishing seasons);

(2) Fix charges for fishing permits, boating permits, rental of fishing tackle and sale of bait;

(3) Employ wardens to enforce any such regulations, and stock such reservoirs with fish; and

(4) Exercise all other rights and privileges incident to the ownership of such properties.

ARTICLE 6. ROADS AND STREETS

Sec. 6.51. Establishment of Proposed Street Lines.

Whenever, in the opinion of the city council, it is for the best interest of the city that any street should be widened or extended, or both, or that a new street should be opened, the council may pass an ordinance declaring that such street should be widened or extended, or both, or that such new street should be opened, and shall lay out in the ordinance the lines within which such street should be widened, extended, or opened. If any street under the provision of such ordinance is to be widened, it need not be widened on both sides; and, if it is to be widened on both sides, the distance to be widened on both sides need not be the same. Any ordinance introduced for the purpose of widening, extending, or opening any street under the provisions of this charter, may not be adopted until the proposed ordinance is published in a newspaper published in the city and qualified to carry legal notices at least two times, on separate days at least ten days before the passage of the ordinance, or, if there be no such newspaper, posted in three public places in the city. There shall be posted or published with the ordinance a notice stating when property owners may be heard by the council. A public hearing on the question of the adoption of such ordinance shall be held prior to the passage of the ordinance.

Sec. 6.52. Notice to City Required before Improvement.

After the passage of such ordinance, it shall be unlawful for any land within the proposed street lines established by such ordinance to be built upon or improved, or for any part of any existing building within said lines to be repaired or otherwise improved until the city shall have first been given an opportunity to purchase or otherwise acquire said property for street purposes as provided in this charter. To that end, any person proposing to build upon such land or to make repairs or improvements to that part of any existing building situated thereon shall, in writing, notify the city council of the nature and estimated cost of such building, repairs, or improvements. The council shall then determine whether it will take the necessary steps to acquire said land prior to the construction of said

building or the making of such repairs or improvements, and if it fails within sixty days from date of receipt of said notice to acquire, or to institute condemnation proceedings to acquire, said property, the owner or other person giving such notice may proceed to erect the building in accordance with the ordinances and regulations of the city, or to make the repairs or improvements described in said notice.

Sec. 6.53. Failure to Give Notice Bars Recovery.

If any person, firm, or corporation builds upon any land included within proposed street lines, or repairs or otherwise improves that part of any existing building within proposed street lines without giving the city an opportunity to acquire said land free from said improvements, as provided in the preceding Section, the city shall not be required to pay for the value of the building, repairs, or improvements in any proceeding subsequently brought to acquire said land for the purpose set out in said Section.

Sec. 6.54. Acquisition of Land.

If upon receiving any notice in compliance with Section 6.52, the city council determines to acquire said land immediately, it may acquire the same by grant, purchase, or condemnation. In no case shall an effort to purchase said land be necessary to the institution of condemnation proceedings. If the council determines to proceed by condemnation, the condemnation shall be as set forth in this charter.

Sec. 6.55. Cost of Land Acquired for Street Widening to be Assessed as Part of Improvement.

After any land has been purchased or condemned for the purpose of widening, extending, or opening any street, and the land purchased or condemned lies within the limits of an improvement directed in said proceeding, then the amount paid by the city for the land purchased or condemned, together with the cost of the condemnation proceeding and interest on said amount paid and costs at the rate of six per cent per annum from the date of payment, shall be included in the cost of said improvement and shall be assessed as provided by law against the property to be assessed for the improvements.

Sec. 6.56. Exercise of Condemnation Power after Failure to Condemn Following Notice.

The failure of the city to acquire any land within thirty days after receiving notice that the same is to be built upon, or that a building thereon is to be repaired or otherwise improved, or its failure within said time to institute proceedings to condemn the same, shall not limit the right of the city at any subsequent time to condemn the same; but in such case the owner shall be entitled to compensation as now provided by law for the building, repairs, or improvements made after the giving of the required notice and the failure of the city to acquire said land free of said improvements.

Sec. 6.61. Power to Close Streets.

(a) The city council shall have the power to close any street or portion thereof that is now or may hereafter be opened or dedicated, either by the recording of a subdivision plat or otherwise. Upon receipt of a sufficient petition signed by the owners of a majority of the property abutting a

street, requesting that it be closed, and after an investigation of the sufficiency of the petition by the city attorney, the city clerk shall publish a notice of a public hearing to be held by the council, such publication to be once a week for four successive weeks in some newspaper published in the city which is qualified to carry legal notices, or if there be no such newspaper, by posting a notice at three public places in the city. Any individuals owning property abutting a street who do not join in the request for closing the street shall be notified by registered letter of the time and place of the public hearing. If it appears to the satisfaction of the city council that the closing of the street is not contrary to the public interest, and that no individual owning property in the vicinity of the street or in the subdivision in which it is located will thereby be deprived of reasonable means of ingress or egress to his property, the city council may order the closing of the street; provided, that any person aggrieved may appeal within thirty days from the order of the council to the Superior Court of Guilford County, where the question shall be heard de novo. Upon such an appeal, the Superior Court shall have full jurisdiction to decide the matter upon the issues arising and to order the street closed upon proper finding of fact by a jury. A certified copy of the order of the council (or the judgment of the Superior Court in the event of an appeal) shall be filed in the office of the Register of Deeds of Guilford County. Upon the closing of a street in accordance with the provisions of this Section, all right, title, and interest in the portion of the street closed shall be conclusively presumed to be vested in the owners of the lots or parcels of land abutting the portion of the street closed, and the title of each of such owners shall, for the width of the abutting land owned by such persons, extend to the center of the street. Copies of the registered letters giving the notice required by this Section, and the return receipts or other good and sufficient evidence of the giving of the required notice, shall be recorded in the register of deed's office, together with the resolution of the council (or with the judgment of the Superior Court, in cases where an appeal was taken). No final action shall be taken by the city council to close a street until the matter has been referred to the Greensboro Planning Board for study and recommendations, but no public hearing shall be necessary before the Greensboro Planning Board.

(b) The resolution ordering the closing of a street may provide for utility rights-of-way to be retained by the city or public utility company, if needed.

ARTICLE 7. WATER SUPPLY, SEWERAGE AND WASTE DISPOSAL AND OTHER UTILITIES

Sec. 6.81. Operation of Water Systems, Sewerage and Waste Disposal Systems, and Other Utilities.

(a) The city council may:

(1) Provide for the construction or acquisition and operation of utilities and utility systems;

(2) Acquire any real or personal property necessary or incidental thereto, including equipment, machinery, and all manner of rights or interests in or relating to land and water, and appurtenances thereto; and

(3) Establish rates of charge for utility services and for the use of utility facilities.

(b) The city manager shall have the entire supervision and control of the management of all city utilities and utility systems. With the approval of the city council he may adopt rules and regulations:

(1) Concerning the management of utility and utility systems, with regard to such matters as maintenance, operation, and improvement thereof, or requiring the pretreatment of waste; and

(2) Concerning collection of charges for utility services and for the use of utility facilities. If pursuant to any rule or regulation utility service to any property is discontinued, it shall be unlawful for any person, firm or corporation without the city manager's approval to renew a utility service or to use it without having first paid any outstanding charges and obtained the approval of the city manager. Violations of this paragraph shall be misdemeanors punishable by a fine of not exceeding fifty dollars ($50.00), or imprisonment for not exceeding thirty days.

(c) As used in this charter, unless the context otherwise requires, the term "utility" includes water supply, water distribution, sewerage, waste disposal, electric power, gas, and public transportation utilities.

Sec. 6.82. Water Connection by Abutting Owners.

The city council may require that within thirty days after a water main or sewer main is completed and made ready for use, the owner of every abutting lot whereon water is supplied for any human use shall cause the lot to be connected to the water main or sewer main.

Sec. 6.83. Liens for Utility Charges.

In case any charge for utility service or for the use of utility facilities is not paid within ten days after it becomes due, the same shall become a lien upon the property served or in connection with which the service or facility is used. The charge may at any time thereafter be collected, either by suit in the name of the city or by the city tax collector for the city, by the sale of the property upon which the lien attaches at the Guilford County courthouse door, after advertising the sale once a week for four successive weeks in some newspaper published in the city which is qualified to carry legal notices. The sale shall be made under the same rules and regulations, and subject to the same costs and penalties and to the same rights of redemption as are provided by law for the foreclosure of the lien on real estate for taxes.

SUBCHAPTER B. EMINENT DOMAIN AND LOCAL IMPROVEMENTS

ARTICLE 1. EMINENT DOMAIN

Sec. 6.101. Condemnation Procedure; Interest Acquired.

The City of Greensboro shall possess the power of eminent domain, and may acquire, either by purchase or condemnation, any land, right of access, right-of-way, water right, privilege, easement, or any other interest in or relating to land or water, either within or beyond the city limits, including and limited to a right-of-way in and across lands owned or held as right-of-way by a railroad or other public utility company (provided that the

operation of such railroad or other public utility company may not be impaired unreasonably thereby), for any lawful public use or purpose. Unless otherwise expressly provided in the condemnation resolution, a fee simple title shall pass to the city upon the condemnation of any such interest. In any case where the owner of land to be condemned or of any interest therein is a minor, an insane person, or otherwise under any disability, any notice hereinafter required by this Article to be served upon such owner shall be served upon his guardian, and service upon such guardian shall be sufficient without service on the minor, insane person, or person under disability. Thereafter such guardian may exercise on behalf of his ward with respect to such condemnation proceeding all the powers conferred upon such person as owner. Water rights or other interests relating to water may be condemned under the procedure set forth in this Article for the condemnation of land and interests therein.

Sec. 6.102. Effort to Purchase Not Required.

It shall not be necessary to the condemnation by the city of any land or interest therein, whether pursuant to this Article or otherwise, that the city shall have attempted to acquire the needed land by grant or purchase prior to the commencement of condemnation proceedings.

Sec. 6.103. Resolution Proposing Condemnation.

(a) When any land required by the city for any purpose allowed by this charter or the general law of the State is proposed to be condemned under the specific provisions of this charter, the city council shall adopt a resolution which shall contain substantially the following provisions:

(1) A description of the land proposed to be condemned in fee, or of the interest or easement proposed to be condemned.

(2) If there is any building or other property situated wholly or partly upon the land to be condemned, the determination of the city council as to whether the owner shall be allowed to remove such property or whether the same shall be condemned;

(3) A statement of the purpose for which said land or easement is proposed to be condemned;

(4) The name and address of the owner or owners of said land and of any other person or persons interested therein whom it is necessary to make a party to the proceeding;

(5) The name of a disinterested freeholder of the city appointed as appraiser by the city council;

(6) A notice that the owner or owners of said land, or interest therein, or a majority in interest of said owners, may, within fifteen days after service of said resolution upon all of them, appoint one appraiser (who shall be a disinterested freeholder of the city) to represent them, the name of which appraiser shall be reported in writing to the city clerk within said fifteen days;

(7) A notice that the appraiser appointed by the city and the appraiser appointed by the owner or owners, or if the owner or owners fail to appoint, then the two appraisers appointed by the city, shall appoint a third appraiser, and that the three thus appointed shall constitute a board of

appraisers, whose duty it shall be to determine the damages and benefits which will result from the condemnation of said land or easement or interest therein;

(8) A notice of the time fixed for the first meeting of the appraisers, and that said meeting will be held upon the premises to be condemned.

(b) It shall not be necessary to institute separate condemnation proceedings against the several owners of tracts or parcels of land affected by proposed local improvements.

Sec. 6.104. Service of Resolution Proposing Condemnation.

A copy of the resolution proposing condemnation shall be personally served upon each of the owners of the land proposed to be condemned; provided, that if the resolution cannot be personally served upon any of the owners, then it may be served by publication once a week for two successive weeks in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city.

Sec. 6.105. Failure of Owners to Appoint Appraiser.

If within fifteen days after service of the resolution upon all of the owners, they or a majority in interest of them fail to appoint an appraiser and to report his name to the city clerk, the city council shall appoint a disinterested freeholder of the city to represent them.

Sec. 6.106. Appointment of Third Appraiser; Oath.

The appraiser appointed by the city council, and the appraiser appointed by the owner or owners, or if the owner or owners fail to appoint, then the two appraisers appointed by the city council, shall appoint a third appraiser, who shall be a disinterested freeholder of the city, and shall report his name to the city clerk. Each appraiser shall take an oath or affirmation that he will fairly and impartially discharge his duties as an appraiser.

Sec. 6.107. First Meeting of Appraisers.

At the time fixed by the resolution of condemnation, the appraisers shall meet on the premises proposed to be condemned. If for any reason a meeting cannot be held at the time fixed by the city council, then a meeting shall be held at another time fixed by the appraisers, in which case notice of the time and place of the meeting shall be personally served upon each of the owners of the land or easement proposed to be condemned, or if the notice cannot be personally served, it may be served by publication once a week for two successive weeks in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city. The notice, whether given personally, by publication, or by posting, shall be served not less than five days prior to the date of the hearing. At the first meeting the appraisers shall view the premises affected by the proposed condemnation; and shall hear, but need not reduce to writing, any evidence as to damages and benefits that will result from the proposed condemnation presented by the owners or by the city. The appraisers may make their report at or after the hearing or they may, in their discretion, hold subsequent meetings.

Sec. 6.108. Subsequent Meetings; When Notice Required.

Subsequent meetings of the appraisers shall be held at such times and places as may be determined by them. Of such meetings no notice need be given either to the owners or to the city unless such meetings are to be public and for the purpose of hearing evidence. If held for such purpose, then unless such meeting is held at a time and place to which a former meeting of which the parties had lawful notice was adjourned, notice of the meeting shall be personally served upon all the parties, or, if such notice cannot be personally served, it may be served by publication once a week for two successive weeks in a newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, by posting in three public places in the city. The notice shall be served or publication or posting thereof completed not less than five days prior to the time fixed for the meeting.

Sec. 6.109. Determination of Damages and Benefits; Report.

In determining the compensation to be paid by the city for the land or easement condemned, the appraisers shall take into consideration both the loss or damage which will result to the owners from the condemnation of the land or easement and the benefits that will result to any remainder of such land from the improvement for which the land or easement is to be condemned, the benefits to include both benefits or advantages special to the land and the benefits or advantages to the land in common with other lands affected by the improvement. The appraisers shall also take into consideration the value of any building or other property situated on the land proposed to be condemned if the owner is to be allowed to remove the building or other property, and the value thereof shall not be included in the compensation award. Having determined damages and benefits, the appraisers shall make their report to the city council, in which report the appraisers shall show separately the amount of damages, the amount of benefits, and the amount which shall be paid by the city if it finally condemns the land or easement. In the event the property condemned is subject to a recorded lease or leases, the appraisers shall apportion the award between or among the person or persons owning the fee or fees and the person or persons owning the leasehold interest or interests; but in no event shall the total of the amounts so apportioned exceed the value of the property were it not subject to a recorded lease or leases. The report shall be sufficient if it is concurred in by two of three appraisers. In the event that no two of the three appraisers can agree upon an appraisal, three new appraisers may be appointed in the same manner as the original appraisers, and the new appraisal board shall follow the same procedure as required of the original appraisal board.

Sec. 6.110. Action of Council on Report.

Within thirty days after the report of the appraisers is submitted to the city council, the council shall determine what action it will take thereon. If the council determines to abandon the proposed condemnation, it shall adopt a resolution to that effect; but the abandonment of the condemnation shall not prevent the city council from thereafter instituting a proceeding to condemn the same land or easement. If the council determines to condemn the land or easement, it shall adopt a resolution which shall contain substantially the following:

(1) A recital that a board of appraisers has been appointed to determine the compensation to be paid for the land or easement, as provided by this charter, and that the appraisers have submitted their report to the council;

(2) A statement of the amount of damages and benefits as fixed by the appraisers and of the compensation to be paid by the city for the land or easement condemned as fixed by the appraisers;

(3) The determination of the council as to the condemnation of the land or easement;

(4) A description of the land condemned in fee or of the easement condemned;

(5) A statement of the purpose for which the land or easement is condemned;

(6) The name of the owner or owners of the land and of other persons interested therein who were made parties to the proceeding;

(7) The determination of the council as to the time when the city will take possession of the land or easement condemned, and a direction that such premises shall be vacated by such time, and, in case the owner is allowed to remove any building or part thereof or any other property on the premises, a direction that such property shall be removed before said date and that if the owner fails to remove the same within said time, the council will have the same removed and the cost thereof shall be a lien upon the remainder of the property.

Sec. 6.111. Vesting of Title in City.

The adoption by the city council of a final resolution of condemnation, as provided in the preceding Section shall have the effect of a judgment against the City of Greensboro for the amount of compensation fixed by the appraisers and shall vest in the city title to the land or easement condemned.

Sec. 6.112. Appeal to Superior Court.

If upon the adoption by the city council of a final resolution of condemnation, either the owner of the land or easement condemned or the city council itself is dissatisfied with the amount of the compensation to be paid for such land or easement as fixed by the appraisers, such owner or the city or both may, within ten days from the date of adoption of such resolution, appeal to the Superior Court of Guilford County. The party or parties appealing shall, within said ten days, give notice of appeal to the other party by personal service if practicable and, if not, by publication of a notice one time in a newspaper published in the city which is qualified to carry legal notices. The appeal or appeals shall not interfere with the vesting in the city of the title to the land or easement condemned or hinder the city in any way from proceeding with the improvements for which such land or easement was condemned, except that if the land or interest therein is owned by another public or quasi-public body, or by a railroad or public utility company, the vesting of title in the city shall not become effective until the court has rendered final judgment on the question of whether the condemnation by the city is in the public interest, and has determined the amount of compensation to be awarded for the condemnation, in which case

the court may, in its discretion, reduce the amount of land or interest therein which it shall allow to be condemned.

Sec. 6.113. Record upon Appeal.

Upon an appeal taken by either party, the city clerk shall certify a copy of the record in the condemnation proceeding to the Superior Court of Guilford County, and such appeal shall be tried as other actions at law. The record upon appeal shall be composed of the preliminary resolution of condemnation, the oath of appraisers, the report of appraisers, the final resolution of condemnation, and the notice or notices of appeal. The record upon appeal, or any part thereof, shall be competent as evidence upon the trial of an appeal.

Sec. 6.114. Condemnation before Determination of Compensation.

When, in the judgment of the city council, the public interest requires that the city enter into immediate possession of any land, it shall adopt a resolution stating such necessity and the reason therefor, and condemning the required land or easement, and providing for the determination of the compensation to be paid by the city for the land or easement. The procedure therefor with respect to determination of such compensation shall follow as closely as practicable the provisions of this Article, or of the provisions of general law concerning "Eminent Domain." This Section shall not apply to land, or interests therein, owned by another public or quasi-public body, or railroad or public utility company.

Sec. 6.115. Registration of Condemnation Proceedings.

In any case where any land or any easement therein has been or may hereafter be condemned by the city council, a copy of so much of the condemnation proceedings as may be necessary to show the land or easement therein condemned and the condemnation thereof shall be certified by the city clerk and the same, upon being probated by the Clerk of the Superior Court, or other person authorized by law to probate instruments for registration, shall be registered in the office of the Register of Deeds of Guilford County.

Sec. 6.116. Sale or Other Disposition of Land Condemned.

When any land condemned in fee by the city is no longer needed for the purpose for which it was condemned, the same may be used by the city for any other public purpose or may be sold or otherwise disposed of.

Sec. 6.117. Removal by City of Structures on Condemned Land; Lien.

When property upon which any building or other structure is wholly or partly located is condemned by the city under the provisions of this charter or any other law, and the owner is allowed to remove such building or structure or part thereof, the city council may, after the report of the appraisers has been made, name the time within which the owner may remove the building or structure, or part thereof, and if the owner fails to remove the same within said time, the council may remove the same and the cost thereof shall be a lien upon the remainder of said land, or such cost may be recovered by the city in any court of competent jurisdiction.

Sec. 6.118. Procedure Not Exclusive.

The condemnation procedure set forth in this Article shall not be exclusive, but shall be in addition to any other procedure provided by law.

Sec. 6.119. Procedure Not Applicable Outside of Guilford County.

The condemnation procedure set forth in Article 2 of Chapter 40 of the General Statutes of North Carolina and not the procedure set forth in this Article shall be applicable to the exercise of the power of eminent domain by the city for the condemnation of any land, right of access, right-of-way, water right, privilege, easement, or any other interest in or relating to land or water which is or are located outside of the geographic boundaries of Guilford County.

ARTICLE 2. LOCAL IMPROVEMENTS AND ASSESSMENTS FOR LOCAL IMPROVEMENTS

Sec. 6.131. Authority to Make Local Improvements.

The city council shall have authority to make the local improvements described in this charter, and to assess the cost against benefited property. The procedure set forth in this Article shall not be exclusive, but shall be in addition to any other procedure provided by law.

Sec. 6.132. Separate Proceedings Not Required.

One or more local improvements may be made in a single proceeding, and assessments for one or more local improvements may be combined.

Sec. 6.133. Definitions.

Certain words and phrases will be used with the following meanings with reference to local improvements, unless some other meaning is plainly intended.

(a) A "street" is the entire width between property lines of every way or place, of whatever nature, when any part thereof is dedicated or open to the use of the public as a matter of right for the purpose of vehicular or pedestrian traffic.

(b) A "sidewalk" is the part of a street which is used, or to be used, for pedestrian traffic.

(c) A "storm sewer" is a conduit above or below ground for the passage of storm water, and may include a pumping station and outlet where deemed necessary, and may also include the building of culverts over or the enclosing of streams where needed to carry off storm water.

(d) A "sanitary sewer" is an underground conduit for the passage of sewage and may include a pumping station and outlet.

(e) A "water main" is a pipe for the passage of city water for public hydrants and private and public use and consumption.

(f) A "lateral" is a pipe connecting a storm or sanitary sewer or water main with the line of adjacent property or the curb line, being either a sewer lateral or water lateral, but does not include a building connection, that is, a pipe extending from a lateral at the property line or curb line to the house or plumbing fixture to be served.

(g) A "roadway" is the part of a street which is used, or to be used, for vehicular traffic.

(h) The word "sewer" includes both sanitary and storm sewers unless a contrary intention is shown.

Sec. 6.134. Improvements Described.

The council shall have authority to make the following local improvements:

(a) Roadway paving improvements, which include the grading, regrading, paving, repaving and widening of roadways, or the improvement thereof with any treatment designed to provide an improved wearing surface, with necessary drainage, sewer inlets, manholes and catch basins and the construction or reconstruction of retaining walls made necessary by any change of grade incident to such improvement, and in any case where the improvement is made upon petition if the petition so requests, or in any case where the improvement is made without petition if the council so directs, it may include the construction or reconstruction of curbs, gutters, drains, and sidewalks.

(b) Water main improvements, which include the laying or construction of water mains, the relaying where necessary of parts of paved roadways and sidewalks torn up or damaged by the laying or construction of such mains, and, in any case where the improvement is made upon petition and the petition so requests, or in any case where the improvement is made without petition and the council so directs, the laying of water laterals.

(c) Sanitary sewer improvements, which include the laying or construction of sanitary sewers, the relaying, where necessary, of parts of roadways and sidewalks torn up or damaged by the laying or construction of such sewers, and in any case where the improvement is made upon petition and the petition so requests, or in any case where the improvement is made without petition and the city council so directs, the laying of sanitary sewer laterals.

(d) Storm sewer improvements, which include the laying or construction of storm sewers, the relaying, where necessary, of parts of paved roadways and sidewalks torn up or damaged by the laying or construction of such sewers, and in any case where the improvement is made upon petition and the petition so requests, or in any case where the improvement is made without petition and the council so directs, the laying of storm sewer laterals.

(e) Sidewalk improvements, which include the grading, regrading, construction, reconstruction and repair of paved or other improved sidewalks, the construction or reconstruction of retaining walls made necessary by and incident to such improvements, and, in any case where the improvement is made upon petition, if the petition so requests, or in any case where the improvement is made without petition if the council so directs, it may include the construction or reconstruction of curbs, gutters and drains, and the construction or reconstruction of all such portions of driveways as in the judgment of the council ought to be laid in the street area.

(f) Grass plot improvements, which include the grading and planting of grass plots in a street.

Sec. 6.135. Water and Sewer Mains between Streets.

Whenever the council finds it in the public interest, and it will be more economical and the interest of the property owners will best be served by constructing either water or sanitary sewer mains, or both, between streets rather than in a street, the petition may provide therefor, or in the event the water and sanitary sewer mains may be constructed in a street without petition, they may be constructed between streets without petition. The cost

of the construction of such water or sewer mains and laterals shall be assessed according to the street frontage in the same manner and to the same extent that it would be assessed if the improvements were constructed in a street; provided that the city shall provide the rights-of-way for construction and maintenance of such mains at its own expense without assessing the cost thereof.

Sec. 6.136. Inclusion of More than Improvement in Single Proceeding. (a) Any proceeding may include one or more local improvements on one or more streets, but all improvements included in one procedure shall be practically uniform in cost and kind. A petition may include improvements on only one side of a street.

(b) The petition may provide for making any one or more local improvements in or on a street or streets and for the assessment of the cost thereof, except the city's portion, wholly against the property abutting one side of such street or streets or otherwise against such abutting property as may be designated in the petition in any of the following cases: (1) In any case where there is park land or unimproved land abutting one side, or a part of one side, of a street; or (2) where the land abutting one side, or a part of one side of a street, is of such a nature or is devoted to such a purpose that a special assessment against it cannot be made, or, if made would probably exceed the value of the land assessed; or (3) where the owners of all the property to be assessed agree thereto.

Sec. 6.137. The Petition; Certificate of Sufficiency. (a) Except as otherwise provided in subsection (b), the petition for any local improvements shall designate by a general description the improvements proposed, and shall request that such proportion of the cost of each of such improvements as may be specified in the petition be specially assessed against the property abutting on the street or streets or part thereof in which or on which such improvements are proposed to be made. The petition shall be filed with the city attorney.

(b) (1) In any case where the improvement is to be made on one side of a street only, the petition shall request that the assessment be made only against the property abutting that side of the street whereon the improvement is to be made.

(2) In any case where it is proposed to assess the cost of any local improvement covering the entire width of a street against the land abutting one side of the street only or against any lands less than all of those abutting the improved portion of the street, such petition shall designate the lands to be assessed.

(c) Except as otherwise provided in subsection (d), the petition shall be signed by at least a majority in number of the owners, which majority must own at least a majority of all the lineal feet of frontage, of the lands abutting the street or streets or part of a street or streets proposed to be improved, excluding street intersections.

(d) (1) A petition for the making of local improvements on one side of a street only need be signed only by a majority in number of the owners of land abutting the side of the street whereon such improvement is to be

made, which majority must own at least a majority of all the lineal feet of frontage of the land abutting such side of the street, excluding street intersections.

(2) Any petition for the making of any improvements covering the entire width of a street and the assessment of the cost thereof against the land abutting one side of the street only or against any lands less than all of those abutting the improved portion of the street, shall be signed by all of the owners of the lands thus proposed to be assessed.

(e) (1) For the purpose of the petition, all the owners of undivided interests in any land shall be deemed and treated as one person and such land shall be sufficiently signed for when the petition is signed by the owner or owners of a majority in amount of such individed interest.

(2) For the purpose of this Section the word "owner" shall be considered to include the owners of any life estate, of an estate by entirety, or of the estate of inheritance, and shall not include mortgagees, trustees of a naked trust, trustees under deeds of trust to secure the payment of money, lienholders, or persons having inchoate rights of curtesy or dower.

(f) Upon the filing of such petition, the city attorney shall investigate the sufficiency of the petition, and if it is found to be sufficient, he shall certify the same to the council.

Sec. 6.138. When Petition Unnecessary.

(a) No petition shall be necessary for the making of any local improvements for which the city bears the entire cost without assessment.

(b) If, in the judgment of the city council, the abutting property to be assessed will be benefited in an amount at least equal to the assessment, no petition for local improvements shall be necessary in the cases set forth in subsections (c) through (h) of this Section.

(c) Street Paving Improvements.—When, in the judgment of the council:

(1) Any street or part of a street is unsafe; or

(2) The improvement of a street or part of a street not more than three blocks in length is necessary to connect streets already paved; or

(3) The improvement of a street or part of a street is necessary to connect a paved street, or portion thereof, within the city with a paved highway beyond the city limits; or

(4) The improvement of a street or part of a street is necessary to provide a paved approach to a railroad or street grade separation or any bridge; or

(5) Any street or part of a street should be widened.

(d) Water Main Improvements—When, in the judgment of the council, any street or part of a street, or any property within the city, is without a public water supply and can be served, and water service should be provided in the public interest.

(e) Sanitary Sewer Improvements—When, in the judgment of the council, any street or part of a street, or any property within the city, is without a public sanitary sewer system and can be served, and sanitary sewer service should be provided in the public interest.

(f) Storm Sewer Improvement—When, in the judgment of the council, any street or part of a street, or any property within the city, is without storm sewer facilities, and can be served, and storm sewers should be provided in the public interest.

(g) Sidewalk Improvements—When, in the judgment of the council, any street or part of a street is without sidewalks and sidewalks should be provided in the public interest, or that any existing sidewalk is unsafe and should be repaired.

Sec. 6.139. Notice of Hearing.

(a) Upon the presentation of a sufficient petition for local improvements, or when it is proposed to make without petition any improvements authorized to be made without petition, a notice shall be prepared by the city attorney which shall contain substantially the following:

(1) That a sufficient petition has been filed for the making of the improvements, or, if it is proposed to make the improvements without petition, a statement of the reasons proposed for the making thereof;

(2) A brief description of the proposed improvements;

(3) The proportion of the cost of the improvements to be assessed and the terms of payment;

(4) A statement of the time and place of a public hearing on the proposed improvements;

(5) A statement that all objections to the legality of the making of the proposed improvements shall be made in writing, signed in person or by attorney, and filed with the city clerk at or before the time of the hearing, and that any objections not so made will be waived.

(b) The notice shall be published one time in a newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, the city clerk shall cause it to be posted in three public places in the city, the date of publication or posting to be not less than ten days prior to the date fixed for the hearing. A copy of the notice shall be served upon the owners of the lands subject to assessment for such improvements if such owners can be found with reasonable diligence within the city. If any such owner cannot with reasonable diligence be found within the city, then a copy of the notice shall be mailed to his address, as nearly as the same can be ascertained with due diligence. The certificate of the person designated to serve or mail the notices that such notices were served or mailed shall be conclusive in the absence of fraud. The serving or mailing of notices shall be completed not less than five days prior to the date fixed for the hearing. The word "owners" as used herein has the same meaning as in Section 6.137.

Sec. 6.140. Public Hearing.

At the time for the public hearing, or at some subsequent time to which such hearing shall be adjourned, the council shall consider objections to the legality of the improvements made in compliance with paragraph (5) of subsection (a) of the preceding Section, together with objections to the policy or expediency of the making of the improvements, and the council shall thereafter determine whether it will order the making of the improvements. Any objections to the legality of the making of the improve-

ments not made in writing, signed in person or by attorney, and filed with the city clerk at or before the time or adjourned time of the hearing shall be considered as waived; and if any such objection shall be made and shall not be sustained by the council, the adoption of the resolution ordering the making of the improvements shall be the final adjudication of the issues presented, unless within ten days after the adoption of the resolution proper steps shall be taken in a court of competent jurisdiction to secure relief.

Sec. 6.141. Resolution Ordering Improvements; Publication.

(a) After the public hearing, if the council determines to make the improvements proposed, it shall adopt a resolution which shall contain:

(1) If the improvements are to be made by petition, a finding by the council as to the sufficiency of the petition, which finding shall be final and conclusive.

(2) If the improvements are to be made without petition, a finding by the council of such facts as are required in order to authorize improvements without petition.

(3) A general description of the improvements to be made and the designation of the street or streets or parts thereof where the work is to be done.

(4) If the improvement directed to be made is the paving of a roadway or part thereof wherein a railroad company has tracks, a direction that said company pave that part of the street occupied by its tracks, the rails of the tracks, and 18 inches in width outside such tracks, with such material and in such manner as the governing body may prescribe, and that unless such paving be completed on or before a day specified in the resolution, the governing body will cause the same to be done. Where such railroad company shall occupy such street or streets under a franchise or contract which otherwise provides, such franchise or contract shall not be affected by this Section, except insofar as may be consistent with the provisions of such franchise or contract.

(5) If the improvement directed to be made includes the construction of water mains or sewers, and in order to provide the mains or sewers in the street or streets to be improved it is necessary to extend them beyond the limits of the street or streets, the resolution shall contain a provision for the necessary extension of such mains or sewers and a further provision that the cost of such extension shall eventually be assessed against the lots or parcels of land abutting the street or streets in which such extensions are made but that assessments shall not be made until such time as the council shall thereafter determine by appropriate resolution.

(6) If the improvement directed to be made is the paving of a roadway or part thereof, or the construction of sidewalks, the resolution may, but need not, contain a direction that the owner of each lot abutting the part of the street to be improved, connect his lot by means of laterals with water mains, gas or sewer pipes, or any one or more thereof, located in the street adjacent to his premises in accordance with the requirements governing the laying of laterals, and that unless the owners cause laterals to

be laid on or before a date specified in the resolution, the date to be not less than thirty days after the date of the resolution, the council will cause the same to be laid.

(7) A designation of the proportion of the cost of the improvements to be assessed against abutting property, and of the number of equal annual installments in which assessments may be paid.

(b) The resolution after its passage shall be published at least once in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newpaper, the resolution shall be posted in three public places in the city for at least five days; except, that in any case where the council directed that the notice should be served or mailed instead of being published, the resolution ordering the improvements need not be either published or posted.

Sec. 6.142. Details of Construction; Contracts for Construction.

The council shall have power to determine the character and type of construction and of material to be used and to determine any other details of plan or construction necessary to be determined in making any local improvements and to determine whether any work to be done by the city shall be done by contract or by the city. The council shall have power also, unless otherwise limited, to determine the number of water, sewer and gas laterals that shall be laid to any lot on any street to be improved. If the work or any part thereof is to be done by contract, the council may let all of the work in one contract, or it may divide it into several contracts, and may let contracts separately.

Sec. 6.143. Determination as to Cost of Improvements.

Upon completion of the improvements, the council shall ascertain the total cost. In addition to other items of cost, there may be included therein the cost of all necessary legal services, the amount of interest paid during construction, the amount of damages paid or to be paid for injury to property by reason of any change of grade or drainage, including court costs and other expenses incidental to the determination of damages, and the cost of retaining walls, sidewalks or fences built or altered in lieu of cash payment for property damage, including the cost of moving or altering any building. The determination of the council as to the total cost of any improvement shall be conclusive.

Sec. 6.144. Preliminary Assessment.

(a) Having determined the total cost, the council shall make a preliminary assessment. The preliminary assessment shall be advisory only and shall be subject to modification. Except as otherwise provided in subsection (b), the preliminary assessment shall be as follows:

(1) Roadway paving. The total cost of any roadway paving improvement, excluding the cost incurred at street intersections, shall be specially assessed against the lots and parcels of land abutting the street containing the roadway paved, according to the frontages thereon, by an equal rate per foot of frontage, except that, where the petition so requested, the cost shall be assessed against the lands on one side of the street only or against such lands as were designated in the petition.

(2) Water mains and sewers. The cost of not exceeding an eight-inch water or sanitary sewer main and of not exceeding a thirty-inch storm sewer main shall be assessed against the abutting property. Such cost shall be assessed against the lots and parcels of land according to their respective frontages thereon by an equal rate per foot of such frontage. If a water or sanitary sewer main in excess of eight inches in size or a storm sewer in excess of thirty inches in size is laid, the excess cost shall be borne by the city. If the resolution ordered the construction of any pumping station, outfall, septic tank or disposal plant, no part of the cost of the same shall be specially assessed. Nothing contained herein shall be construed to limit the power of the council to contract with any property owner or owners for the construction of any pumping station, outfall, septic tank or disposal plant or for the construction of water mains or storm or sanitary sewers and for the assessment of the cost thereof according to the terms of such contract. The entire cost of each water and sewer lateral shall be specially charged against the particular lot or parcel of land for or in connection with which it was constructed, except that the assessments shall be calculated as if the lateral were laid from the center of the street. The cost of installing storm sewers may, however, be assessed as part of the cost of roadway paving.

(3) Sidewalks. The total cost of constructing or reconstructing sidewalks shall be assessed against the lots and parcels of land abutting that side of the street upon which the improvement is made according to their respective frontages thereon by an equal rate per foot of such frontage, the lots within a block being deemed to abut upon a sidewalk although the latter extends beyond the lot to the curb line of an intersecting street. The total cost of constructing portions of driveways within the street area shall be assessed against the lots for which they are constructed.

(4) Grass plots. The entire cost of grading or otherwise improving or of planting the grass plots in any street or part thereof shall be assessed against the lots and parcels of land abutting the street or part thereof where or whereon the improvements are made by an equal rate per front foot of such frontage; provided, that this subsection shall be construed to mean that when a grass plot in any street is graded or planted or otherwise improved, the cost thereof shall be assessed against all of the property abutting the street within the block where such grass plot is located.

(b) If the petition (or the resolution in those cases where the improvement was ordered made without petition) specified that there should be specially assessed against the abutting property a smaller proportion of the cost of any improvement than that set forth in subsection (2), there shall be assessed against abutting property only the proportion of the cost as was specified in the petition or in said resolution. No restriction or denial of access to an abutting street shall affect the levy or collection of any assessment for local improvements.

(c) The cost of paving, water, sewer, and sidewalk improvements upon, in, or to any portion of a right-of-way or any property owned by the State of North Carolina, any agency or subdivision thereof, shall be assessed against the right-of-way or property and shall be paid by the State, its agency or subdivision.

Sec. 6.145. Corner Lot Exemptions.

The council shall have authority to determine the amount and applicability of assessment exemptions for corner lots, and to distinguish between different classifications of property uses. The exemptions for paving sidewalk, and storm sewer improvements shall not exceed sixty feet and shall be limited to residential uses, and the exemptions for water mains and sanitary sewers shall not exceed one hundred and fifty feet for residential uses and one hundred feet for business uses. If the corner formed by two intersecting streets is rounded into a curve or is foreshortened for the purpose of providing sight distance or for any other purpose of construction, the frontage for assessment purposes shall be calculated to the midpoint of the curve or foreshortened corner.

Sec. 6.146. Preliminary Assessment Roll.

The council shall cause to be prepared a preliminary assessment roll, on which shall be entered a brief description of each lot or parcel of land assessed, the amount assessed against each lot, the name or names of the owner or owners of each lot, as far as the same can be ascertained; provided, that a map of the improvements on which is shown the frontage and location of each affected lot, together with the amount assessed against each lot and the name or names of the owner or owners thereof, as far as the same can be ascertained, shall be a sufficient assessment roll. If the resolution directed the making of more than one improvement, a single preliminary assessment roll for all the improvements authorized by such resolution shall be sufficient, but the cost of each improvement to each lot affected shall be shown separately. After the preliminary assessment roll has been completed, it shall be filed in the office of the city clerk, and there shall be published in some newspaper published in the city which is qualified to carry legal notices, or if there be no such newspaper, the city clerk shall cause to be posted in three public places in the city, a notice of the completion of the assessment roll, setting forth a description in general terms of the improvements, the amount of each assessment, and stating the time fixed for the meeting of the council for the hearing of objections to the special assessments, such meeting to be not earlier than ten days after the first publication or from the date of posting of said notice. Any number of assessment rolls may be included in one notice. In any case where the preliminary notice was served or mailed instead of being published, this notice need not be published or posted but may be served or mailed. The serving or mailing of notices shall be completed not less than five days prior to the date fixed for the hearing of the assessment roll, and the return of the person serving or mailing the same shall in the absence of fraud be conclusive that the same were served or mailed.

Sec. 6.147. Hearing; Revision; Confirmation; Lien.

At the time appointed for that purpose or at some other time to which it may adjourn, the council shall hear objections to the preliminary assessment roll of all persons interested who may appear and offer proof in relation thereto. Then or thereafter, the council shall either annul or sustain or modify in whole or in part the assessment, either by confirming the preliminary assessment against any or all lots or parcels described

thereon, or by cancelling, increasing or reducing the same, according to the special benefits which the council decides each of the lots or parcels has received or will receive on account of the improvements, except that assessments against railroads because of contract or franchise obligations shall be in accordance with such obligations. If any property is omitted from the preliminary roll, the council may place it on the roll and levy the proper assessment. The council may thereupon confirm the assessment roll, and the assessments so confirmed shall be in proportion to the special benefits, except in the case of franchise obligations of railroads. Whenever the governing body shall confirm assessments for local improvements, the city clerk shall enter on the council minutes and on the assessment roll the date, hour, and minute of confirmation, and from the time of confirmation the assessments shall be a lien on the property assessed of the same nature and to the same extent as county and city taxes and shall be superior to all other liens and encumbrances. After the assessment roll is confirmed a copy of the same shall be delivered to the city tax collector.

Sec. 6.148. Appeal to Superior Court.

If the owner of, or any person interested in, any lot or parcel of land against which an assessment is made is dissatisfied with the amount of the assessment, he may, within ten days after the confirmation of the assessment roll, give written notice to the council that he takes an appeal to the Superior Court of Guilford County, in which case he shall within twenty days after the confirmation of the assessment roll serve on the mayor or city clerk a statement of facts upon which he bases his appeal. The appeal shall be tried as other actions at law. The remedy herein provided for any person dissatisfied with the amount of the assessment against any property of which he is the owner or in which he is interested shall be exclusive.

Sec. 6.149. Power to Correct Error in Assessment.

If it shall appear after confirmation of any assessment roll that an error has been made, the city clerk shall cause to be published one time in some newspaper published in the city, or if there be no such newspaper, the city clerk shall cause to be posted at three public places in the city, a notice referring to the assessment roll in which the error was made, naming the owner or owners of the lot or parcel of land affected by the error, if the same can be ascertained, and naming the time and place fixed for a hearing by the council for the correction of the error, such meeting not to be earlier than ten days from the publication or from the date of the posting of the notice. At the time fixed in the notice or at some subsequent time to which the council may adjourn, the council, after giving the owner or owners of the property affected and other persons interested therein an opportunity to be heard, may proceed to correct the error, and the assessment then made shall have the same force and effect as if it had originally been properly made. No notice and hearing shall be necessary if the correction does not increase an assessment against any property not owned by the city, or if all of the property owners affected by the correction waive notice in writing.

Sec. 6.150. Reassessment.

The council shall have the power, when in its judgment there is any irregularity, omission, error or lack of jurisdiction in any of the proceedings relating thereto, to set aside the whole of the local assessment made by it, and thereupon to make a reassessment. In such case there shall be included, as a part of the cost of the improvements involved, all interest paid or accrued on notes or certificates of indebtedness, or bonds issued by the city to pay the expenses of such improvement. The proceeding shall, as far as practicable, be in all respects as in the case of original assessments, and the reassessment shall have the same force as if it had originally been properly made.

Sec. 6.151. Publication of Notice of Confirmation of Assessment Roll.

After the expiration of twenty days from the confirmation of the assessment roll, the city clerk shall cause to be published one time in some newspaper published in the city which is qualified to carry legal notices, or, if there be no such newspaper, shall cause to be posted at three public places in the city, a notice of confirmation of the assessment roll, and that assessments may be paid at any time before the expiration of thirty days from the date of publication or posting of the notice, without interest from the date of confirmation of the assessment roll, but that if such assessment is not paid in full within said time, all installments thereof shall bear interest at the rate of six per centum per annum from the date of confirmation of the assessment roll.

Sec. 6.152. Payment of Assessments in Cash or by Installments.

The property owner or railroad company assessed shall have the option of paying for improvements in cash or in not less than two or more than ten equal annual installments as may have been determined in the resolution ordering the improvements. If paid in installments, installments shall bear interest at the rate of six per centum per annum from the date of confirmation of the assessment roll. If any assessment is not paid in cash, the first installment with interest shall become due and payable thirty days after the publication or posting of the notice of confirmation, and one subsequent installment and interest shall be due and payable on the same day of the same month in each successive year until the assessment is paid in full; provided, however, that if the council shall so direct installments shall become due and payable on the same date when property taxes of the city are due and payable. If any installment with interest is not paid when due, it shall be subject to the same penalties as are now prescribed by law for unpaid taxes, in addition to the interest herein provided for. The whole assessment may be paid at any time by the payment of the full amount due with accrued interest.

Sec. 6.153. Enforcement of Payment of Assessments.

Upon the failure of any property owner to pay any installment when due and payable, all of the installments remaining unpaid shall immediately become due and payable, and property and rights-of-way may be sold by the city under the same rules, regulations, rights of redemption and savings as are now prescribed by law for the sale of land for unpaid taxes. Unpaid assessments, interest, and penalties owed by railroad companies

and the State of North Carolina, its agencies or subdivisions, may be collected by writs of mandamus issued by the Superior Court of Guilford County. Collection of assessments with interest and penalties may also be made by the city by proceedings to foreclose the lien of assessments as a lien for mortgages is or may be foreclosed under the laws of the State, and it shall be lawful to join in any bill for foreclosure any one or more lots or parcels of land, by whomsoever owned, if assessed for an improvement ordered by the same resolution, after default in the payment of any installment. The payment of said installment, together with interest and penalties due thereon, before the lot or parcel of land, against which the same is a lien, is sold or said lien is foreclosed shall bar the right of the city to sell land or to foreclose the lien by reason of default.

Sec. 6.154. Assessment of Cost of Water Main and Sewer Extensions.

If the resolution ordering the making of any improvement or improvements included a provision for any necessary extension of a water main or sewer or sewers beyond the limit of a street or streets, at such time after the completion of said extension or extensions as, in the judgment of the council, circumstances justify the assessment of the cost thereof, the council shall cause a preliminary assessment to be made and the procedure thereafter to be followed with respect to such assessment and the force and effect thereof shall be as already prescribed for other assessments.

Sec. 6.155. Apportionment of Assessments.

In any case where one or more special assessments have been made, and property has been, or is about to be, subdivided, and it is desirable that the assessments be apportioned among the subdivisions of such property, the council may, upon application by the owner or owners, apportion the assessments among the subdivisions. Thereafter, each subdivision shall be relieved of any part of the original assessment except the part apportioned to the subdivision, and the part of the original assessment apportioned to any subdivision shall be of the same force and effect as the original assessment.

Sec. 6.156. Change of Ownership.

No change of ownership of any property or interest therein after the passage of a resolution ordering the making of a local improvement shall affect subsequent proceedings, and the improvement may be completed and assessments made therefor as if there had been no change in ownership.

Sec. 6.157. Lands Subject to Assessment.

No lands in the city, including railroad company lands and rights-of-way and property of the State of North Carolina, its agencies or subdivisions, shall be exempt from special assessments except lands belonging to the United States which are exempt under the provisions of Federal Statutes, and the council and the officers, trustees or boards of all incorporated or unincorporated bodies in whom is vested the right to hold and dispose of real property shall have the right by authority duly given to sign the petition for any local improvements.

Sec. 6.158. Proceedings in Rem.

All proceedings for special assessments shall be proceedings in rem, and no mistake or omission as to the name of any owner or person interested in any lot or parcel of land affected thereby shall be regarded as a substantial mistake or omission.

Sec. 6.159. Grass Plot and Driveway Maintenance.

It shall be the responsibility of the abutting property owner to maintain any grass plot or driveway between the property line and the curb of a paved street.

Sec. 6.160. Council May Hold in Abeyance Certain Water and Sewer Assessments.

(a) The city council may provide by resolution that assessments levied against abutting lots or parcels of land for water main improvements or sanitary sewer improvements, when in its opinion such improvements may not presently be used by the owner or owners of the abutting lots or parcels of land, may be held in abeyance without the payment of any interest thereon until such time as the council shall determine that any such assessments shall be paid in accordance with the terms set out in the confirming resolution. A part of the assessments, levied for the improvements herein set out on a street or streets, or portion thereof, may be held in abeyance as herein provided without holding all of said assessments in abeyance.

(b) All statutes of limitations, and particularly the statute of limitations provided for in Chapter 331, Section 1, of Public Laws 1929 (G. S. 160-93) are hereby suspended during the time that any assessment is held in abeyance without the payment of interest, as provided in subsection (a). Such time shall not be a part of the time limited for the commencement of action for the enforcement of the payment of any such assessment, and such action may be brought at any time within ten years from the date of the adpotion of a resolution by the council, determining that such assessment shall be paid in accordance with the original resolution confirming it.

(c) Nothing herein shall be construed to revive any right of action which has heretofore been barred by the statute of limitations.

Sec. 6.161. Abutting Property Outside City Limits.

If any lots or parcels of land abutting any local improvements are located outside the city limits, the council may continue and delay the levy of assessments against such property until the city limits are extended to include such property, or the council may provide that no water or sewer service connections shall be made to such property, pending the annexation thereof, until all assessments thereon are paid. Upon annexation, if not paid prior thereto, the council may levy assessments for such local improvements against such property, and the procedure therefor shall be the same as provided in this charter. Nothing contained in this Section shall be construed to prohibit or restrict the city council and a property owner from entering into an agreement for payments in lieu of assessments.

CHAPTER VII. MISCELLANEOUS

SUBCHAPTER A. CLAIMS AGAINST THE CITY.

Sec. 7.01. Presentation of Claims to City Council.

No action shall be instituted or maintained against the City of Greensboro upon any claim or demand whatever of any kind or character until the claimant shall have first presented in writing his or her claim or demand to the city council and the council shall have declined to pay or settle the same as presented, or for sixty days after presentation shall have neglected to enter or cause to be entered upon its minutes its determination in regard thereto. Nothing contained in this subchapter shall be construed to prevent any statute of limitations from commencing to run at the time when a claim accrued or demand arose, or in any manner to interfere with its running.

Sec. 7.02. Time for Presentation of Claims.

(a) Except as otherwise provided in this Section, no action for damages of any character whatever, to either person or property, shall be instituted against the city unless, within six months after the happening or infliction of the injury complained of, the complainant, his executor, administrator, guardian, or next friend shall have given notice in writing to the council of the injury, stating in the notice the date and place of the injury, the manner of infliction, the character of the injury, and the amount of damage claimed.

(b) No action shall be instituted against the city on account of damages to or compensation for real property used or taken by the city for any public purpose of any kind unless, within two years after such alleged use, the owner, his executor, administrator, guardian, or next friend shall have given notice in writing to the council of the claim, the notice to set forth the date that the alleged use commenced, a description of the property alleged to have been used, and the amount of damage or compensation claimed.

(c) Notwithstanding the provisions of subsection (a) and (b), if a complainant suffers from physical or mental incapacity that renders it impossible for him to give notice, his action shall not be barred if notice of claim is given by him or on his behalf within six months after the termination of the physical or mental incapacity, provided that minority shall not of itself constitute physical or mental incapacity. If the complainant is a minor, his action shall not be barred if notice of claim is given on his behalf within three years after the happening or the infliction of the injury complained of; or, if the minor suffers from physical or mental incapacity that renders it impossible for him to give notice, his action shall not be barred if notice of claim is given on his behalf within six months after termination of the physical or mental incapacity, or within three years after the happening or infliction of the injury complained of, whichever is the longer period. The city at any time may request the appointment of a next friend to represent any person having a potential claim against the city and known to be suffering from physical or mental incapacity.

Sec. 7.03. Settlement of Claims by City Manager.

The city manager may settle claims against the city for (1) personal injury or for damages to property when the amount involved does not exceed the sum of five hundred dollars ($500.00) and does not exceed the actual loss sustained, including loss of time, medical expenses, and any other expense actually incurred, and (2) the taking of small portions of private property which are needed for the rounding of corners at street intersections, when the amount involved in any such settlement does not exceed the sum of five hundred dollars ($500.00) and does not exceed the actual loss sustained. Settlement of a claim by the city manager pursuant to this Section shall constitute a complete release of the city from any and all damages sustained by the person involved in such settlement in any manner arising out of the accident, occasion, or taking complained of. All such releases shall be subject to the approval of the city attorney.

(c) A donor who makes a gift to a minor in a manner prescribed in subsection (a) shall promptly do all things within his power to put the subject of the gift in the possession and control of the custodian, but neither the donor's failure to comply with this subsection, nor his designation of an ineligible person as custodian, nor renunciation by the person designated as custodian affects the consummation of the gift.

Sec. 3. Effect of Gift. (a) A gift made in a manner prescribed in this Act is irrevocable and conveys to the minor indefeasibly vested legal title to the security, money, or life insurance given, but no guardian of the minor has any right, power, duty or authority with respect to the custodial property except as provided in this Act.

(b) By making a gift in a manner prescribed in this Article, the donor incorporates in his gift all the provisions of this Article and grants to the custodian, and to any issuer, transfer agent, bank, broker or third person dealing with a person designated as custodian, the respective powers, rights and immunities provided in this Article.

Sec. 4. Duties and Powers of Custodian. (a) The custodian shall collect, hold, manage, invest and reinvest the custodial property.

(b) The custodian shall pay over to the minor for expenditure by him, or expend for the minor's benefit, so much of or all the custodial property as the custodian deems advisable for the support, maintenance, education and benefit of the minor in the manner, at the time or times, and to the extent that the custodian in his discretion deems suitable and proper, with or without court order, with or without regard to the duty of himself or of any other person to support the minor or his ability to do so, and with or without regard to any other income or property of the minor which may be applicable or available for any such purpose.

(c) The court, on the petition of a parent or guardian of the minor or of the minor, if he has attained the age of fourteen years, may order

the custodian to pay over to the minor for expenditure by him or to expend so much of or all the custodial property as is necessary for the minor's support, maintenance or education.

(d) To the extent that the custodial property is not so expended, the custodian shall deliver or pay it over to the minor on his attaining the age of twenty-one years or, if the minor dies before attaining the age of twenty-one years, he shall thereupon deliver or pay it over to the estate of the minor.

(e) The custodian, notwithstanding statutes restricting investments by fiduciaries, shall invest and reinvest the custodial property as would a prudent man of discretion and intelligence who is seeking a reasonable income and the preservation of his capital, except that he may, in his discretion and without liability to the minor or his estate, retain a security given to the minor in a manner prescribed in this Article.

(f) The custodian may sell, exchange, convert or otherwise dispose of custodial property in the manner, at the time or times, for the price or prices and upon the terms he deems advisable. He may vote in person or by general or limited proxy a security which is custodial property. He may consent, directly or through a committee or other agent, to the reorganization, consolidation, merger, dissolution or liquidation of an issuer, a security which is custodial property, and to the sale, lease, pledge or mortgage of any property by or to such an issuer, and to any other action by such an issuer. He may execute and deliver any and all instruments in writing which he deems advisable to carry out any of his powers as custodian.

(g) The custodian shall register each security which is custodial property and in registered form in the name of the custodian, followed, in substance, by the words: 'as custodian for .....
(name of minor)
under the North Carolina Uniform Gifts to Minors Act'. The custodian shall hold all money which is custodial property in an account with a broker or in a bank in the name of the custodian, followed, in substance, by the words: 'as custodian for .....
(name of minor)
under the North Carolina Uniform Gifts to Minors Act'. The custodian shall keep all other custodial property separate and distinct from his own property in a manner to identify it clearly as custodial property.

(h) The custodian shall keep records of all transactions with respect to the custodial property and make them available for inspection at reasonable intervals by a parent or legal representative of the minor or by the minor, if he has attained the age of fourteen years.

(i) A custodian has and holds as powers in trust with respect to the custodial property, in addition to the rights and powers provided in this Article, all the rights and powers which a guardian has with respect to property not held as custodial property.

(j) If the subject of the gift is life insurance, the custodian shall have all of the incidents of ownership in the life insurance policy which he may hold as custodian to the same extent as if he were the owner thereof

personally. The designated beneficiary of any such policy of insurance held by a custodian shall be the minor or, in the event of his death, the minor's estate.

Sec. 5. Custodian's Expenses, Compensation, Bond and Liabilities. (a) A custodian is entitled to reimbursement from the custodial property for his reasonable expenses incurred in the performance of his duties.

(b) A custodian may act without compensation for his services.

(c) Unless he is a donor, a custodian may receive from the custodial property reasonable compensation for his services determined by one of the following standards in the order stated:

(1) A direction by the donor when the gift is made;

(2) A statute of this State applicable to custodians;

(3) The statute of this State applicable to guardians;

(4) An order of the court.

(d) Except as otherwise provided in this Article, a custodian shall not be required to give a bond for the performance of his duties.

(e) A custodian not compensated for his services is not liable for losses to the custodial property unless they result from his bad faith, intentional wrongdoing or gross negligence or from his failure to maintain the standard of prudence in investing the custodial property provided in this Article.

Sec. 6. Exemption of Third Person from Liability. No issuer, transfer agent, bank, broker or other person acting on the instructions of or otherwise dealing with any person purporting to act as a donor or in the capacity of a custodian is responsible for determining whether the person designated by the purported donor or purporting to act as a custodian has been duly designated or whether any purchase, sale or transfer to or by or any other act of any person purporting to act in the capacity of custodian is in accordance with or authorized by this Article, or is obliged to inquire into the validity or propriety under this Article of any instrument or instructions executed or given by a person purporting to act as a donor or in the capacity of a custodian, or is bound to see to the application by any person purporting to act in the capacity of a custodian of any money or other property paid or delivered to him.

Sec. 7. Resignation, Death or Removal of Custodian; Bond; Appointment of Successor Custodian. (a) Only an adult member of the minor's family, a guardian of the minor or a trust company is eligible to become successor custodian. A successor custodian has all the rights, powers, duties and immunities of a custodian designated in a manner prescribed by this Article.

(b) A custodian, other than the donor, may resign and designate his successor by:

(1) Executing an instrument of resignation designating the successor custodian; and

(2) Causing each security which is custodial property and in registered form to be registered in the name of the successor custodian

followed, in substance, by the words: 'as custodian for .....
(name
..... under the North Carolina Uniform Gifts to
of minor)
Minors Act'; and

(3) Delivering to the successor custodian the instrument of resignation, each security registered in the name of the successor custodian and all other custodial property, together with any additional instruments required for the transfer thereof.

(c) A custodian, whether or not a donor, may petition the court for permission to resign and for the designation of a successor custodian.

(d) If the person designated as custodian is not eligible, renounces or dies before the minor attains the age of twenty-one years, the guardian of the minor shall be successor custodian. If the minor has no guardian, a donor, his legal representative, the legal representative of the custodian, an adult member of the minor's family, or the minor, if he has attained the age of fourteen years, may petition the court for the designation of a successor custodian.

(e) A donor, the legal representative of a donor, an adult member of the minor's family, a guardian of the minor or the minor, if he has attained the age of fourteen years, may petition the court that, for cause shown in the petition, the custodian be removed and a successor custodian be designated or, in the alternative, that the custodian be required to give bond for the performance of his duties.

(f) Upon the filing of a petition as provided in this Section, the court shall grant an order, directed to the persons and returnable on such notice as the court may require, to show cause why the relief prayed for in the petition should not be granted and, in due course, grant such relief as the court finds to be in the best interests of the minor.

Sec. 8. Accounting by Custodian. (a) The minor, if he has attained the age of fourteen years, or the legal representative of the minor, an adult member of the minor's family, or a donor or his legal representative may petition the court for an accounting by the custodian or his legal representative.

(b) The court, in a proceeding under this Article or otherwise, may require or permit the custodian or his legal representative to account and, if the custodian is removed, shall so require and order delivery of all custodial property to the successor custodian and the execution of all instruments required for the transfer thereof.

Sec. 9. Construction. (a) This Article shall be so construed as to effectuate its general purpose to make uniform the law of those states which enact it.

(b) This Article shall not be construed as providing an exclusive method for making gifts to minors.

Sec. 10. Short Title. This Article may be cited as the 'North Carolina Uniform Gifts to Minors Act'.

Sec. 11. Severability. If any provision of this Article or the application thereof to any person or circumstances is held invalid, the invalidity shall

not affect other provisions or applications of this Article which can be given effect without the invalid provision or application, and to this end the provisions of this Article are severable."

Sec. 12. The rewriting of this Article does not affect gifts made in a manner prescribed in the original Article nor the powers, duties and immunities conferred by gifts in such manner upon custodians and persons dealing with custodians. The provisions of this Act henceforth apply, however, to all gifts made in a manner and form prescribed in the original Article hereby rewritten except insofar as such application impairs constitutionally vested rights. The Sections of this Act shall be construed as a continuation of the provisions of the original Article hereby rewritten.

Sec. 13. All laws and clauses of laws in conflict with this Act are hereby repealed.

Sec. 14. This Act shall be in full force and effect from and after its ratification.

S. B. 308 CHAPTER 1172

AN ACT TO PROVIDE FOR SETTING UP AND OPERATING A PROGRAM OF PERFORMANCE TESTING OF BEEF CATTLE.

WHEREAS, it is highly desirable that North Carolina inaugurate for its cattle producers a program of performance testing of beef cattle.

Performance testing is the actual measuring and recording of the performance of animals as to one or more traits; and performance records take on meaning only when they are compared with records of other animals.

Performance records are useful both for selecting the high producers and for culling undesirable animals; and measuring the performance of all calves produced in a herd helps to identify the best performing individuals and gives information about the breeding value of the sires and dams that produced them.

Performance is improved by keeping replacement animals with above-average performance in the traits selected for; and since it is not possible to identify accurately the best performing individuals by conformation alone, it is necessary to measure the performance of all calves in order to find those individuals that are above average in total merit.

Performance testing is based on the facts that individual animals differ in their ability to grow rapidly, mature early, convert feed to meat efficiently, and to develop desirable carcasses.

Performance testing of cattle on farms is feasible and provides data for selecting the best individuals, progeny testing of sires, and for evaluating cows in their reproductive performance.

The operation of a performance testing program will provide North Carolina beef cattle producers a means of evaluating their herds so that

the loafers and low producers can be culled more intelligently, to the end that beef may be produced more efficiently and profitably.

This program will assist in producing and locating outstanding sires that will aid breeders in improving the beef cattle in North Carolina.

The fact that 31 states have such programs is proof of the benefits of such a program. With neighboring states promoting such testing programs, many North Carolina producers are going out of State to obtain bulls. This program will identify bulls of outstanding merit in North Carolina: Now, therefore,

The General Assembly of North Carolina do enact:

Section 1. From the total appropriations made by the 1959 Session of the General Assembly to North Carolina Cooperative Agricultural Extension Service out of the General Fund of the State, there shall be expended the sum of ten thousand dollars ($10,000.00) for the fiscal year beginning July 1, 1959 and ending June 30, 1960, and the sum of ten thousand dollars ($10,000.00) for the fiscal year beginning July 1, 1960 and ending June 30, 1961, to be expended by State College to inaugurate and carry out a program of performance testing of beef cattle, as agreed between the Budget Bureau and the Administration of the Consolidated University.

"In any case where additional territory shall have been annexed to a sanitary district and the proposition of issuing bonds of the sanitary district after such annexation shall not be approved by the qualified voters at an election held within one year subsequent to such annexation fifty-one per cent (51%) or more of the resident freeholders within the territory so annexed may petition the sanitary district board for the removal and exclusion of such territory from the sanitary district, provided, however, that no such petition may be filed after bonds of the sanitary district shall have been approved in an election held at any time after such annexation. If the sanitary district board shall approve such petition it shall certify a copy thereof to the State Board of Health requesting that the petition be granted and shall certify additional copies to the board or boards of commissioners of the county or counties in which all or any part of the sanitary district is located. If, after a public hearing, conducted under the same procedure as provided herein for the annexation of additional territory, the State Board of Health shall deem it advisable to comply with the request of such petition, said Board shall adopt a resolution to that effect and shall redefine the boundaries of the sanitary district, which shall be the boundaries of the sanitary district as it existed before the annexation of such additional territory."

Sec. 118-25. Any member who has served 30 years as a fireman in the State of North Carolina, who has been an 'eligible fireman' for two years immediately preceding his application for the payment of a pension hereunder, and who is otherwise eligible as provided in Section 118-23 hereof, and who has attained the age of 55 years shall be entitled to be paid from the fund herein created a monthly pension. No person shall be entitled to a pension hereunder until his official duties as a fireman shall have been terminated and he shall have retired as such according to standards or rules fixed by the board of trustees.

Sec. 118-26. The board of trustees shall direct payment in lump sums from the fund in the following cases:

(1) To any fireman, upon the attaining of the age of 60 years, who, for any reason, is not qualified to receive the monthly retirement pension and who was enrolled as a member of the fund, an amount equal to the amount paid into the fund by him; provided, this provision shall not be construed to preclude any active fireman from completing the requisite number of years of active service after attaining the age of 60 years as may be necessary to entitle him to the pension as herein provided.

(2) If any fireman dies before attaining the age at which a pension is payable to him under the provisions of this Act, there shall be paid to his widow, or if there be no widow, to his child or children, or, if there be no widow or children, then to his heirs at law as may be determined by the board of trustees or to his estate, if it is administered and there are no heirs, an amount equal to the amount paid in into the fund by said fireman.

(3) If any fireman dies after beginning to receive the pension herein provided for, and before receiving an amount equal to the amount paid into the fund by him, there shall be paid to his widow, or if there be no widow, then to his child or children, or if there be no widow or children, then to his heirs at law as may be determined by the board of trustees, or to his estate, if it is administered and there are no heirs, an amount equal to the difference between the amount paid into the fund by the said fireman and the amount received by him as a pensioner.

(4) Any member withdrawing from the fund shall, upon proper application, be paid all moneys such individual contributed to the fund, provided, if all or any part of the moneys contributed to the fund with respect to such member shall have been paid by any person, firm or corporation other than the member and notification of such action shall have been made to the

board of trustees at the time of said contribution and each of them, then, upon proper application, by such other person, firm or corporation, said moneys contributed to the fund shall be paid to such other person, firm or corporation originally contributing the same, upon the withdrawal of said member.

Sec. 118-27. If, for any reason, the fund hereby created and made available for any purpose covered by this Act shall be insufficient to pay in full any pension benefits, or other charges thereupon then all benefits or payments shall be proratably reduced for such time and in such amount as such deficiency exists; provided, no claim shall accrue with respect to any amount by which pension or benefit payments shall have been so reduced.

Sec. 118-28. The pensions provided herein shall be subject to future legislative change or revision, and no member of the fund, or any person, shall be deemed to have acquired any vested right to any pension or other payment herein provided.

Sec. 118-29. The board of trustees shall fix and determine by appropriate rules and regulations the number of years credit for service of firemen. Firemen who are now serving as such shall furnish the board with information upon applying for membership as to previous service.

Sec. 118-30. A fireman's length of service shall not be affected by the fact that he may have served in more than one fire department as defined in Section 118-23, and upon transfer from one department to another, notice of such fact shall be given to the board.

Sec. 118-31. Any member who becomes six months delinquent in making monthly payments as required by Section 118-23 of this Act by the tenth of the month with respect to which said payment shall be due shall be removed from membership in the fund and shall lose one year of service credit and all rights hereunder with respect thereto for each six months' period that he remains so delinquent.

Sec. 118-32. The pensions herein provided shall not be subject to attachment, garnishments or judgments against the firemen entitled to same, nor shall any rights in said fund or pensions or benefits therefrom be assignable."

Sec. 2. It is the purpose and intent of this Act that the State's contribution to the pension fund created hereby be derived solely from the proceeds of a one per cent (1%) tax imposed by the 1959 General Assembly upon amounts collected on contracts of insurance applicable to fire and lightning. In the event that such tax should not be imposed or that no appropriation be made for said fund, or in the event that such tax should be declared unconstitutional or invalid, then the fund herein established shall be dissolved.

Sec. 3. If any Section or provisions of this Act be declared unconstitutional or invalid by the courts, the same shall not affect the validity of the Act as a whole or any part other than the part so declared to be unconstitutional or invalid.

Sec. 4. All laws and clauses of laws in conflict herewith are hereby repealed.

CHAPTER 1246

AN ACT TO ADOPT THE UNIFORM ACT FOR SIMPLIFICATION OF FIDUCIARY SECURITY TRANSFERS IN NORTH CAROLINA.

The General Assembly of North Carolina do enact:

Section 1. Definitions. In this Act, unless the context otherwise requires:

(1) "Assignment" includes any written stock power, bond power, bill of sale, deed, declaration of trust or other instrument of transfer.

(2) "Claim of beneficial interest" includes a claim of any interest by a decedent's legatee, distributee, heir or creditor, a beneficiary under a trust, a ward, a beneficial owner of a security registered in the name of a nominee, or a minor owner of a security registered in the name of a custodian, or a claim of any similar interest, whether the claim is asserted by the claimant or by a fiduciary or by any other authorized person on his behalf, and includes a claim that the transfer would be in breach of fiduciary duties.

(3) "Corporation" means a private or public corporation, association or trust issuing a security.

(4) "Fiduciary" means an executor, administrator, trustee, guardian, committee, conservator, curator, tutor, custodian or nominee.

(5) "Person" includes an individual, a corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, two or more persons having a joint or common interest, or any other legal or commercial entity.

(6) "Security" includes any share of stock, bond, debenture, note or other security issued by a corporation which is registered as to ownership on the books of the corporation.

(7) "Transfer" means a change on the books of a corporation in the registered ownership of a security.

(8) "Transfer agent" means a person employed or authorized by a corporation to transfer securities issued by the corporation.

Sec. 2. Registration in the Name of a Fiduciary. A corporation or transfer agent registering a security in the name of a person who is a fiduciary or who is described as a fiduciary is not bound to inquire into the existence, extent, or correct description of the fiduciary relationship, and thereafter the corporation and its transfer agent may assume without inquiry that the newly registered owner continues to be the fiduciary until the corporation or transfer agent receives written notice that the fiduciary is no longer acting as such with respect to the particular security.

Sec. 3. Assignment by a Fiduciary. Except as otherwise provided in this Act, a corporation or transfer agent making a transfer of a security pursuant to an assignment by a fiduciary:

(1) May assume without inquiry that the assignment, even though to the fiduciary himself or to his nominee, is within his authority and capacity and is not in breach of his fiduciary duties;

(2) May assume without inquiry that the fiduciary has complied with any controlling instrument and with the law of the jurisdiction governing the fiduciary relationship, including any law requiring the fiduciary to obtain court approval of the transfer; and

(3) Is not charged with notice of and is not bound to obtain or examine any court record or any recorded or unrecorded document relating to the fiduciary relationship or the assignment, even though the record or document is in its possession.

Sec. 4. Evidence of Appointment or Incumbency. A corporation or transfer agent making a transfer pursuant to an assignment by a fiduciary who is not the registered owner shall obtain the following evidence of appointment or incumbency:

(1) In the case of a fiduciary appointed or qualified by a court, a certificate issued by or under the direction or supervision of that court or an officer thereof and dated within sixty days before the transfer; or

(2) In any other case, a copy of a document showing the appointment or certificate issued by or on behalf of a person reasonably believed by the corporation or transfer agent to be responsible or, in the absence of such a document or certificate, other evidence reasonably deemed by the corporation or transfer agent to be appropriate. Corporations and transfer agents may adopt standards with respect to evidence of appointment or incumbency under this subdivision (2) provided such standards are not manifestly unreasonable. Neither the corporation nor transfer agent is charged with notice of the contents of any document obtained pursuant to this subdivision (2) except to the extent that the contents relate directly to the appointment or incumbency.

Sec. 5. Adverse Claims. (a) A person asserting a claim of beneficial interest adverse to the transfer of a security pursuant to an assignment by a fiduciary may give the corporation or transfer agent written notice of the claim. The corporation or transfer agent is not put on notice unless the written notice identifies the claimant, the registered owner and the issue of which the security is a part, provides an address for communications directed to the claimant and is received before the transfer. Nothing in this Act relieves the corporation or transfer agent of any liability for making or refusing to make the transfer after it is so put on notice, unless it proceeds in the manner authorized in subsection (b).

(b) As soon as practicable after the presentation of a security for transfer pursuant to an assignment by a fiduciary, a corporation or transfer agent which has received notice of a claim of beneficial interest adverse to the transfer may send notice of the presentation by registered or certified mail to the claimant at the address given by him. If the corporation or transfer agent so mails such a notice it shall withhold the transfer for thirty days after the mailing and shall then make the transfer unless restrained by a court order.

Sec. 6. Non-Liability of Corporation and Transfer Agent. A corporation or transfer agent incurs no liability to any person by making a transfer or otherwise acting in a manner authorized by this Act.

Sec. 7. Non-Liability of Third Persons. (a) No person who participates in the acquisition, disposition, assignment or transfer of a security by or to a fiduciary including a person who guarantees the signature of the fiduciary is liable for participation in any breach of fiduciary duty by reason of failure to inquire whether the transaction involves such a breach unless it is shown that he acted with actual knowledge that the proceeds of the transaction were being or were to be used wrongfully for the individual benefit of the fiduciary or that the transaction was otherwise in breach of duty.

(b) If a corporation or transfer agent makes a transfer pursuant to an assignment by a fiduciary, a person who guaranteed the signature of the fiduciary is not liable on the guarantee to any person to whom the corporation or transfer agent by reason of this Act incurs no liability.

(c) This Section does not impose any liability upon the corporation or its transfer agent.

Sec. 8. Territorial Application. (a) The rights and duties of a corporation and its transfer agents in registering a security in the name of a fiduciary or in making a transfer of a security pursuant to an assignment by fiduciary are governed by the law of the jurisdiction under whose laws the corporation is organized.

(b) This Act applies to the rights and duties of a person other than the corporation and its transfer agents with regard to acts and omissions in this State in connection with the acquisition, disposition, assignment or transfer of a security by or to a fiduciary and of a person who guarantees in this State the signature of a fiduciary in connection with such a transaction.

Sec. 9. Tax Obligations. This Act does not affect any obligation of a corporation or transfer agent with respect to estate, inheritance, succession or other taxes imposed by the laws of this State.

Sec. 10. Uniformity of Interpretation. This Act shall be so construed as to effectuate its general purpose to make uniform the law of those states which enact it.

(m) The Alcoholic Beverages Control Board of Halifax County, created by this Section, shall operate the Alcoholic Beverages Control System in Halifax County in an efficient and economical manner and shall operate said system as nearly within the limits of the present cost as possible, unless the decrease or increase in the volume of business may justify the increase or decrease of said operation expenses, and, in no event, shall any employee of the Alcoholic Beverages Control Board of Halifax County be compensated for services at a rate in excess of six thousand dollars ($6,000.00) per annum plus necessary expenses incurred in the performance of his duties for the Board.

"G. S. 105-163.2. Withholding. (a) Every employer making payment of wages on or after January 1, 1960, shall deduct and withhold with respect to the wages of each employee for each payroll period an amount determined as follows:

Such amount which, if an equal amount was collected for each similar payroll period with respect to a similar amount of wages for each payroll period during an entire calendar year, would aggregate or approximate the income tax liability of such employee under Article 4 of this Chapter after making allowance for the personal exemptions to which such employee would be entitled on the basis of his status during such payroll period and after making allowance for withholding purposes for a deduction from wages of ten per cent (10%) thereof, but not exceeding five hundred dollars ($500.00) per calendar year, and without making allowance for any other deductions.

(b) The Commissioner of Revenue shall cause to be prepared and shall promulgate tables for computing amounts to be withheld with respect to different rates of wages for different payroll periods applicable to the various combinations of exemptions to which an employee may be entitled and taking into account the limited ten per cent (10%) deduction above referred to. Such tables may provide for the same amount to be withheld within reasonable salary brackets or ranges so designed as to result in the withholding during a year of approximately the amount of an employee's indicated income tax liability with respect to said year. The withholding of wages pursuant to and in accordance with such tables shall be deemed as a matter of law to constitute compliance with the provisions of subsection (a) of this Section, notwithstanding any other provisions of this Article.

(c) If wages are paid with respect to a period which is not a payroll period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days, excluding Sundays and holidays, equal to the number of days in the period with respect to which such wages are paid.

(d) In any case in which wages are paid by an employer without regard to any payroll period or other period, the amount to be deducted and withheld shall be that applicable in the case of a miscellaneous payroll period containing a number of days equal to the number of days, excluding Sundays and holidays, which have elapsed since the date of the last payment of such wages by such employer during the calendar year, or the date of commencement of employment with such employer during such year, or January 1 of such year, whichever is the later.

(e) The Commissioner may, by regulations, authorize employers:

(1) to estimate the wages which will be paid to any employee in any quarter of the calendar year;

(2) to determine the amount to be deducted and withheld upon each payment of wages to such employee during such quarter as if the appropriate average of the wages so estimated constituted the actual wages paid; and

(3) to deduct and withhold upon any payment of wages to such employee during such quarter such amount as may be necessary to adjust the amount actually deducted and withheld upon the wages of such employee during such quarter to the amount that would be required to be deducted and withheld during such quarter if the payroll period of the employee was quarterly.

(f) The Commissioner is authorized in unusual circumstances wherein he finds that the use of the prescribed tables is impracticable or constitutes an unreasonable requirement of the employer to authorize such employer to use some other method of determining the amounts to be withheld under this Article, provided the amounts withheld under such other method will reasonably approximate the indicated income tax liability of his employees. Further, the Commissioner may authorize an employer to use another method for determining the amounts to be withheld under the provisions of this Article from the wages or salaries of groups of employees or individual employees if the circumstances are such that the use of the tables would produce substantially incorrect results. Any authorization of the use of a different method shall be subject to review and cancellation or alteration by the Commissioner every twelfth month, and the Commissioner may cancel such authorization or order an alteration of such method at any time upon a finding by him that such authorization is being abused or that such method is not resulting in the withholding of a sum reasonably approximating the indicated income tax liability of the employees, which finding may be made by the Commissioner with or without notice or a hearing and shall be conclusive except as hereinafter provided. The Commissioner shall notify the employer in writing of his finding and order thereon, and such notice shall be deemed to have been received by the employer on the third day after having been deposited in the mail and the employer shall thereafter abide by such order. Any employer feeling aggrieved by such order may thereafter apply for a hearing thereon before the Commissioner, unless a hearing has been previously held, and upon such hearing the findings of the Commissioner shall be deemed conclusive.

(g) The Commissioner is authorized to provide by regulation, under such conditions and to such extent as he deems proper, for withholding in addition to that otherwise required under this Section in cases in which the employer and the employee agree to such additional withholding. Such additional withholding shall for all purposes be treated as other withholding amounts required to be deducted and withheld under this Article.

(h) The act of compliance with any of the provisions of this Article by a nonresident employer shall not constitute an act in evidence of and shall not be deemed to be evidence that such nonresident is doing business in this State."

"G. S. 105-163.3. Withholding in Accordance with Regulations. The manner of withholding and the amount to be deducted and withheld under G. S. 105-163.2 shall be determined in accordance with tables, rules and regulations promulgated by the Commissioner. The withholding exemption allowed by such tables, rules and regulations shall, as nearly as possible, approximate the exemptions to which an employee would be entitled under G. S. 105-149."

"G. S. 105-163.4. Basis of Determination of Remuneration Being Wages. If any of the remuneration paid by an employer to an employee during any payroll period or during any miscellaneous period without reference to a payroll period constitutes actual reimbursement of the employee for ordinary and necessary expenses incurred by the employee on behalf of the employer and in the futherance of the business of the employer, then such amounts as are paid to reimburse the employee for such expenses are not to be considered as wages and no amounts shall be deducted and withheld therefrom."

"G. S. 105-163.5. Exemptions Allowable; Certificates. (a) An employee receiving wages shall be entitled to the exemptions for which such employee qualifies under the provisions of Article 4 of this Chapter.

(b) Every employee shall, on or before January 1, 1960, or at the time of commencing employment, whichever is later, furnish his employer with a signed withholding exemption certificate informing the employer of the exemptions which the employee claims, which in no event shall exceed the amount of exemptions to which the employee is entitled under G. S. 105-149; but, in the event that the employee fails to file the exemption certificate required herein, the employer, in computing amounts to be withheld from said employee's wages, shall allow the employee the exemption accorded a single person with no dependents.

(c) Withholding exemption certificates shall take effect as of the beginning of the first payroll period which ends on or after the date on which such certificate is furnished, or if payment of wages is made without regard to a payroll period, then such certificate shall take effect as of the beginning of the miscellaneous payroll period for which the first payment of wages is made on or after the date on which such certificate is furnished; provided, that certificates furnished before January 1, 1960, shall be deemed to have been furnished on that date.

(d) If, on any day during the calendar year, the amount of withholding exemptions to which the employee is entitled is less than the amount of withholding exemptions claimed by the employee on the withholding exemption certificate then in effect with respect to him, the employee shall, within ten days thereafter, furnish the employer with a new withholding exemption certificate relating to the amount of withholding exemptions which the employee then claims, which shall in no event exceed the amount to which he is entitled on such day. If, on any day during the calendar year, the amount of withholding exemptions to which the employee is entitled is greater than the amount of withholding exemptions claimed, the employee may furnish the employer with a new withholding exemption certificate relating to the amount of withholding exemptions which the employee then claims, which shall in no event exceed the amount to which he is entitled on such day.

(e) Withholding exemption certificates shall be in such form and contain such information as the Commissioner may prescribe, but, insofar as practicable, the Commissioner shall cause the form of such certificates to be substantially similar to Federal Exemption certificates."

"G. S. 105-163.6. Payment of Amounts Withheld; Personal Liability for Failure to Withhold; Limitation of Recovery. (a) Every employer required to deduct and withhold from an employee's wages under G. S. 105-163.2 shall, for the quarterly period beginning January 1, 1960, and for each quarterly period thereafter, on or before the last day of the month following the close of each quarterly period, make return and pay over to the Commissioner the amounts required to be withheld under G. S. 105-163.2. Such returns shall be in such form and contain such information as the Commissioner may prescribe.

(b) Notwithstanding any of the other provisions of this Section, all transient employers shall make return and pay over to the Commissioner on a monthly basis the amounts required to be withheld under G. S. 105-163.2. Such returns and payments to the Commissioner by transient employers shall be made on or before the last day of the month following the month for which such amounts were deducted and withheld from the wages of his employees.

(c) Notwithstanding any of the other provisions of this Section, all employers engaged in any business which is seasonal shall make return and pay over to the Commissioner on a monthly basis the amounts required to be withheld under G. S. 105-163.2. Such returns and payments to the Commissioner by employers engaged in such seasonal business shall be made on or before the last day of the month following the month for which such amounts were deducted and withheld from the wages of his employees.

(d) If the Commissioner, in any case, has reason to believe that the collection of moneys, required by this Article to be withheld by the employer, is in jeopardy, he may require the employer to make such return and pay to the Commissioner such amounts required to be withheld at

any time said Commissioner may designate therefor subsequent to the time when such amounts should have been deducted from wages and withheld.

(e) Every employer who fails to withhold or pay to the Commissioner any sums required by this Article to be withheld and paid shall be personally and individually liable therefor to the Commissioner; and any sum or sums withheld in accordance with the provisions of G. S. 105-163.2 shall be deemed to be held in trust for the Commissioner."

"G. S. 105-163.7. Statement to Employees; Information to Commissioner. (a) Every employer required to deduct and withhold from an employee's wages under G. S. 105-163.2 shall furnish to each such employee in respect to the remuneration paid by such employer to such employee during the calendar year, on or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, within thirty days from the date on which the last payment of remuneration is made, duplicate copies of a written statement showing the following: (1) the name of such person; (2) the name of the employee and his social security account number; (3) the total amount of wages; (4) the total amount deducted and withheld under G. S. 105-163.2.

(b) The written statement above referred to shall be furnished at such other times, shall contain such other information, and shall be in such form as the Commissioner may by regulations prescribe. Every employer shall file annual returns or reports setting forth such information as the Commissioner may require, and the Commissioner may require the filing of such additional copies of all written statements described above as he may deem necessary. On and after January 1, 1961, the annual returns or reports required to be made to the Commissioner under the provisions of this Section shall be in lieu of such returns required under G. S. 105-154 as would furnish identical information."

"G. S. 105-163.8. Liability of Employer. An employer shall be liable for the payment to the Commissioner of the amounts required to be deducted and withheld under G. S. 105-163.2, and an employer who has withheld and paid such amounts to the Commissioner shall not otherwise be liable to any person for the amounts of any such payments. Upon failure of an employer to pay over any amounts withheld or required to be withheld by said employer under this Article, the Commissioner may make assessments, issue warrants for the collection of such amounts, issue certificates of tax liability, collect by attachment or garnishment proceedings or bring actions for the collection of such amounts and for penalties due under the provisions of G. S. 105-241.1, G. S. 105-242 and G. S. 105-243."

"G. S. 105-163.9. Refund to Employer; Application. (a) Where there has been an overpayment to the Commissioner by the employer or withholding agent under the provisions of this Article, refund shall be made to the employer or withholding agent, as the case may be, only to the extent that the amount of such overpayment was not deducted and withheld by the employer or withholding agent from the employee's

wages, and such refund shall be paid together with interest thereon at the rate of four per cent (4%) per annum; provided, that interest on any such refund shall be computed from a date ninety (90) days after the date the overpayment was originally made by the employer or withholding agent.

(b) Unless written application for refund is received by the Commissioner from the employer within two years from the date the overpayment was made, no refund shall be allowed."

"G. S. 105-163.10. Withheld Amounts Credited to Individual for Calendar Year. The amount deducted and withheld under G. S. 105-163.2 during any calendar year from the wages of any individual shall be allowed as a credit to such individual against the tax imposed by G. S. 105-133, for taxable years beginning in such calendar year. If more than one taxable year begins in such calendar year such amount shall be allowed as a credit against the tax for the last taxable year so beginning. As a prerequisite to obtaining the credit allowed herein, the individual taxpayer must file with the Commissioner one copy, and such other copies and information as may be required by regulation, of the withholding statement provided for by G. S. 105-163.7, and such withholding statement must accompany the annual income tax return required by G. S. 105-152."

"G. S. 105-163.11. Estimated Declaration of Income and Income Tax; Contents; When and Where Filed; Amendments to Declaration; Option of Amendment. (a) Every individual shall, for all taxable years beginning on and after January 1, 1960, and at the times prescribed in subsection (c) of this Section, make a declaration of his estimated income and his estimated income tax for the taxable year:

(1) if no part of his income consists of wages, and his net taxable income can reasonably be expected to equal or exceed two hundred dollars ($200.00) for the taxable year, or

(2) if his income consists of wages and other income, and his net taxable income can reasonably be expected to equal or exceed two hundred dollars ($200.00) for the taxable year; provided, that no individual shall be required to file a declaration pursuant to this paragraph unless all of his income from whatever source, other than wages from which tax has been withheld under the provisions of this Article, which may be subject to an income tax under Article 4 of this Chapter can be reasonably expected to exceed, by two hundred dollars ($200.00) or more, the sum of: (A) all business connected deductions allowable under the provisions of Article 4 to which the taxpayer can be reasonably expected to be entitled during the taxable year in the production of all income, other than wages earned by the taxpayer, and (B) the amount of all deductible dividends from stocks which can be reasonably expected to be earned by the taxpayer during the taxable year.

(b) In the declaration required under subsection (a) above, the individual shall state:

(1) the amount which he estimates as his total income from all sources for the taxable year;

(2) the amount which he estimates as the amount of tax for which he will be liable under G. S. 105-133 for the taxable year, less any credits to which he can reasonably be expected to be entitled under G. S. 105-151;

(3) the amount which he estimates will be withheld, if any, from wages of the taxpayer for the taxable year under the provisions of G. S. 105-163.2;

(4) the excess of the amount estimated under paragraph (2) of this subsection over the amount estimated under paragraph (3) of this subsection, which excess for the purposes of this Article shall be considered the estimated tax for the taxable year to be paid to the Commissioner directly by the individual; and

(5) such other information as may be required by the Commissioner.

(c) The declaration required under subsection (a) of this Section shall be filed with the Commissioner on or before April 15 of the taxable year, except that if the requirements of subsection (a) of this Section are first met:

(1) After April 1 and before June 2 of the taxable year, the declaration shall be filed on or before June 15 of the taxable year; or

(2) After June 1 and before September 2 of the taxable year, the declaration shall be filed on or before September 15 of the taxable year; or

(3) After September 1 of the taxable year, the declaration shall be filed on or before January 15 of the succeeding taxable year.

(d) An individual may make amendments of a declaration filed during the taxable year under regulations prescribed by the Commissioner.

(e) If on or before January 31 (or February 15, in the case of an individual referred to in subsection (f) below, relating to income from farming) of the succeeding taxable year the taxpayer files a return, for the taxable year for which the declaration is required, and pays in full the amount computed on the return as payable, then—

(1) if the declaration is not required to be filed during the taxable year, but is required to be filed on or before January 15, such return shall be considered as such declaration; and

(2) if the tax shown on the return (reduced by the sum of all credits against tax to which the taxpayer may be entitled under the provisions of Article 4 and Article 4A of this Chapter) is greater than the estimated tax shown in a declaration previously made, or in the last amendment thereof, such return shall be considered as the amendment of the declaration permitted by subsection (d) to be filed on or before January 15.

In the application of this subsection in the case of a taxable year beginning on any date other than January 1, there shall be substituted, for the 15th or last day of the months specified in this subsection, the 15th or last day of the months which correspond thereto.

(f) Declaration of estimated tax required to be filed by this Section from individuals whose estimated gross income from farming (including oyster farming) for the taxable year is at least two-thirds of the total estimated gross income from all sources for the taxable year may, in

lieu of the time prescribed in subsection (c), be filed at any time on or before January 15 of the succeeding taxable year.

(g) The application of this Section to taxable years of less than twelve months shall be in accordance with regulations prescribed by the Commissioner.

(h) In the application of this Section to the case of a taxable year beginning on any date other than January 1, there shall be substituted, for the months specified in this Section, the months which correspond thereto."

"G. S. 105-163.12. Filing of Declarations and Amended Declarations Hereunder. If the taxpayer is unable to make his own declarations, amended declarations, payments or any information returns required under the provisions of this Article, then the same shall be made by a duly authorized agent or by a guardian or other person charged with the care of the person or property of such taxpayer."

"G. S. 105-163.13. Affirmation; Penalty for False Declaration. Whenever any declaration, amended declaration, or information returns required under the provisions of this Article shall be furnished to the Commissioner, there shall be annexed thereto the affirmation of the taxpayer, or of any other person furnishing same, in the following form: 'I hereby affirm that this declaration, amended declaration, or return, including any schedules and attachments thereto, has been examined by me, and, to the best of my knowledge and belief, is true and complete and is made in good faith covering the taxable period stated, pursuant to the Revenue Act of 1939, as amended, and the regulations issued under authority thereof, and that this affirmation is made under the penalties prescribed by law.' Any individual who wilfully makes and subscribes a declaration, amended declaration, or return required by this Article, which he does not believe to be true and correct as to every material matter, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be subject to a fine not to exceed one thousand dollars ($1,000.00) or imprisonment not to exceed six months, or both, in the discretion of the court. The Commissioner shall cause to be prepared blank forms for the said declarations, amended declarations and returns, and shall cause them to be distributed throughout the State, and to be furnished upon application; but failure to receive or secure the form shall not relieve any taxpayer from the obligation of making any declaration, amended declaration or return herein required."

"G. S. 105-163.14. Payment of Tax. (a) The estimated income tax, as defined in G. S. 105-163.11 and with respect to which a declaration is required to be filed thereunder, shall be paid as follows:

(1) If the declaration is filed on or before April 15 of the taxable year, the estimated tax shall be paid in four equal installments. The first installment shall be paid at the time of the filing of the declaration, the second and third on June 15 and September 15, respectively, of the taxable year, and the fourth on January 15 of the succeeding taxable year.

(2) If the declaration is filed after April 15 and not after June 15 of the taxable year and is not required by subsection (c) of G. S. 105-163.11 to be filed on or before April 15 of the taxable year, the estimated tax shall be paid in three equal installments. The first installment shall be paid at the time of the filing of the declaration, the second on September 15 of the taxable year, and the third on January 15 of the succeeding taxable year.

(3) If the declaration is filed after June 15 and not after September 15 of the taxable year and is not required by subsection (c) of G. S. 105-163.11 to be filed on or before June 15 of the taxable year, the estimated tax shall be paid in two equal installments. The first installment shall be paid at the time of the filing of the declaration, and the second on January 15 of the succeeding taxable year.

(4) If the declaration is filed after September 15 of the taxable year, and is not required by subsection (c) of G. S. 105-163.11 to be filed on or before September 15 of the taxable year, the estimated tax shall be paid in full at the time of the filing of the declaration.

(5) If the declaration is filed after the time prescribed in G. S. 105-163.11, there shall be paid at the time of such filing all installments of estimated tax which would have been payable on or before such time if the declaration had been filed within the time prescribed in subsection (c) of G. S. 105-163.11, and the remaining installments shall be paid at the times at which, and in the amounts in which, they would have been payable if the declaration had been filed on time.

(b) If any amendment of a declaration is filed, the remaining installments, if any, shall be ratably increased or decreased as the case may be, to reflect the respective increase or decrease in the estimated tax by reason of such amendment, and if any amendment is made after September 15 of the taxable year any increase in the estimated tax by reason thereof shall be paid at the time of making such amendment.

(c) At the election of the individual, any installment of the estimated tax may be paid prior to the date prescribed for its payment.

(d) Payment of estimated income tax, or any installment thereof, shall be considered payment on account of the income taxes imposed by Article 4 of this Chapter for the taxable year.

(e) The application of this Section to taxable years of less than twelve months shall be in accordance with regulations prescribed by the Commissioner.

(f) In the application of this Section to the case of a taxable year beginning on any date other than January 1, there shall be substituted, for the months specified in this Section, the months which correspond thereto."

"G. S. 105-163.15. Failure by Individual to Pay Estimated Income Tax; Penalty. (a) In the case of any underpayment of the estimated tax by an individual, except as provided in subsection (d), there shall be added to the tax imposed under Article 4 for the taxable year an amount determined at the rate of six per cent (6%) per annum upon the amount of the underpayment as determined under subsection (b), for the period

of the underpayment, as determined under subsection (c) of this Section.

(b) For the purposes of subsection (a), the amount of the underpayment shall be the excess of:

(1) the amount of the installment which would be required to be paid if the estimated tax were equal to seventy per cent (70%) (sixty-six and two-thirds per cent (66-2/3%) in the case of individuals referred to in G. S. 105-163.11(f), relating to income from farming) of the tax shown on the return for the taxable year or, if no return was filed, seventy per cent (70%) (sixty-six and two-thirds per cent (66-2/3%) in the case of individuals referred to in G. S. 105-163.11(f), relating to income from farming) of the tax for such year, over

(2) the amount, if any, of the installment paid on or before the last date prescribed for such payment.

(c) The period of the underpayment shall run from the date the installment was required to be paid to whichever of the following dates is the earlier:

(1) The 15th day of the fourth month following the close of the taxable year.

(2) With respect to any portion of the underpayment, the date on which such portion is paid. For purposes of this paragraph, a payment of estimated tax on any installment date shall be considered a payment of any previous underpayment only to the extent such payment exceeds the amount of the installment determined under subsection (b) (1) for such installment date.

(d) Notwithstanding the provisions of the preceding subsections, the addition to the tax with respect to any underpayment of any installment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds whichever of the following is the lesser:

(1) The amount which would have been required to be paid on or before such date if the estimated tax were whichever of the following is the least:

(A) The tax shown on the return of the individual for the preceding taxable year, if a return showing a liability for tax was filed by the individual for the preceding taxable year and such preceding year was a taxable year of 12 months, or

(B) An amount equal to the tax computed, at the rates applicable to the taxable year, on the basis of the taxpayer's status with respect to personal exemptions under Article 4 of the taxable year, but otherwise on the basis of the facts shown on his return for, and the law applicable to, the preceding taxable year, or

(C) An amount equal to seventy per cent (70%) (sixty-six and two-thirds per cent (66-2/3%) in the case of individuals referred to in G. S. 105-163.11(f), relating to income from farming) of the tax for the taxable year computed by placing on an annualized basis the taxable income for the months in the taxable year ending before the month in which the installment is required to be paid. For purposes of this subparagraph, the taxable income shall be placed on an annualized basis by:

(i) multiplying by 12 (or, in case of a taxable year of less than 12 months, the number of months in the taxable year) the taxable income (computed without deduction of personal exemptions) for the months in the taxable year ending before the month in which the installment is required to be paid,

(ii) dividing the resulting amount by the number of months in the taxable year ending before the month in which such installment date falls, and

(iii) deducting from such amount the deductions for personal exemptions allowable for the taxable year (such personal exemptions being determined as of the last date prescribed for payment of the installment); or

(2) An amount equal to ninety per cent (90%) of the tax computed, at the rates applicable to the taxable year, on the basis of the actual taxable income for the months in the taxable year ending before the month in which the installment is required to be paid.

(e) For purposes of applying this Section—

(1) the estimated tax shall be computed without any reduction for the amount which the individual estimates as his credit under G. S. 105-163.10 (relating to tax withheld at source on wages), and

(2) the amount of the credit allowed under G. S. 105-163.10 for the taxable year shall be deemed a payment of estimated tax, and an equal part of such amount shall be deemed paid on each installment date (as determined under G. S. 105-163.14) for such taxable year, unless the taxpayer establishes the dates on which all amounts were actually withheld, in which case the amounts so withheld shall be deemed payments of estimated tax on the dates on which such amounts were actually withheld.

(f) The application of this Section to taxable years of less than twelve months shall be in accordance with regulations prescribed by the Commissioner.

(g) Except as otherwise provided in this Article, all provisions of Articles 4 and 9 of this Chapter relating to penalties for failure to file returns or pay taxes when due under said Articles shall apply with respect to returns, declarations, and payments of tax by any individual, or failure to file returns or other records or make payment of withholding taxes or sums withheld from wages by any employer, pursuant to the provisions of this Article. The penalties provided by Articles 4 and 9 shall apply with respect to delinquencies for periods of time not specifically provided for in this Article."

"G. S. 105-163.16. Overpayment Refunded. (a) Where the amount of wages withheld at the source under G. S. 105-163.2 exceeds the taxes imposed by Article 4 of this Chapter against which the tax so withheld may be credited under G. S. 105-163.10, the amount of such excess shall be considered an overpayment by the employee, and, notwithstanding the provisions of G. S. 105-266 and G. S. 105-266.1, overpayment by the employee shall be refunded by the Commissioner under the provisions of this Section.

(b) Where the amount of estimated tax paid under the provisions of G. S. 105-163.14 exceeds the taxes imposed by Article 4 of this Chapter against which the estimated tax so paid may be credited under the provisions of this Article, the amount of such excess shall be considered an overpayment by the taxpayer, and, notwithstanding the provisions of G. S. 105-266 and G. S. 105-266.1, such overpayment by the taxpayer shall be refunded by the Commissioner under the provisions of this Section.

(c) Where there has been an overpayment (as specified in subsections (a) and (b) of this Section) of any tax imposed under Article 4 of this Chapter, as disclosed by the taxpayer's annual return required to be filed by Article 4, the amount of such overpayment shall be refunded to the taxpayer; except that overpayments of fifty cents (50¢) or less shall be refunded only upon receipt by the Commissioner of a written demand for such refund from the taxpayer. Every refund authorized by this Section shall be made as expeditiously as possible, and within six months from the date on which the annual return is filed or due to be filed, whichever is later, insofar as the same is practicable; except that no refunds for overpayment of estimated tax shall be made by the Commissioner prior to the date on which the final return is filed by the taxpayer. No interest shall be paid with respect to any such refund if the refund is made within the six months' period above referred to. Interest computed at the rate of four per cent (4%) per annum shall be paid on refunds made after the expiration of said six months' period, such interest to be computed from the time of the expiration of said six months' period until paid. It shall not be necessary for the Attorney General or any member of his staff to approve such refund. The making of such refund does not absolve any taxpayer of any income tax liability which may in fact exist and the Commissioner may make any assessment for any deficiency in the manner provided in Article 4 of this Chapter. No overpayment of tax by the taxpayer shall be refunded irrespective of whether upon discovery or receipt of written demand if such discovery is not made or such demand is not received within three (3) years from the date set by the statute for the filing of the annual return by the taxpayer or within six (6) months of the payment of the tax alleged to be an overpayment, whichever date is the later.

"G. S. 105-163.17. Enforcement. Except as otherwise provided in this Article, all provisions of Articles 4 and 9 of this Chapter relating to assessments, interest on delinquent payments, liens and collections with respect to taxes shall apply to all taxes and to the withholding of proper amounts from employees' wages for which an employer is responsible pursuant to this Article, and the procedure with respect thereto shall be the same as provided in said Articles 4 and 9 with respect to assessment and collection of taxes.

Any employer required under the provisions of this Article to deduct and withhold from wages and make returns and payment of amounts withheld to the Commissioner, who fails to withhold such amounts, or to make such returns, or who fails to remit amounts collected to the Commissioner, or otherwise fails to remit to the Commissioner as required by this Article, shall be subject to a penalty equal to twenty-five per cent (25%)

of the amount that should have been properly withheld and paid over to the Commissioner for each such failure. Such penalty shall be assessed and collected by the Commissioner in the same manner as is provided with respect to penalties on delinquent income tax payments under the provisions of Articles 4 and 9 of this Chapter.

The withholding of the proper amounts of an employee's wages pursuant to this Article and the payment of proper amounts to the Commissioner as herein required, whether withheld in fact or not, shall be subject to all the provisions of Articles 4 and 9 of this Chapter relating to payment of income taxes, not inconsistent with this Article."

"G. S. 105-163.18. Rules and Regulations. The Commissioner is hereby authorized to prescribe forms and make all rules and regulations which he deems necessary in order to achieve effective and efficient enforcement of this Article."

"G. S. 105-163.19. Wilful Failure to Collect or Pay Over Tax. Any person required under this Article to deduct and withhold, account for, make returns and pay over any tax imposed by Article 4 and required to be withheld from wages and paid over under the provisions of this Article who wilfully fails to withhold, collect and truthfully account for, make returns and pay over such tax shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not to exceed five hundred dollars ($500.00) or imprisonment not to exceed six months, or both, in the discretion of the court."

"G. S. 105-163.20. Wilful Failure to File Declaration, Amended Declaration or Pay Estimated Tax. Any person required under this Article to file any declaration, amended declaration, or to pay estimated tax, or required by the provisions of this Article or regulations made under the authority thereof to make any return or furnish any information, who wilfully fails to file such declarations, amended declarations and such other returns as may be required, or who wilfully fails to pay any estimated tax, at the time or times required by law or regulations, shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not to exceed five hundred dollars ($500.00) or imprisonment not to exceed six months, or both, in the discretion of the court."

"G. S. 105-163.21. Penalty for Making False Statement. Any person who knowingly falsifies any statement, certificate or return required under this Article or under any rule or regulation promulgated by the Commissioner of Revenue under authority of this Article shall, in addition to other penalties provided by law, be guilty of a misdemeanor and, upon conviction thereof, shall be subject to a fine not to exceed five hundred dollars ($500.00) or imprisonment not to exceed six months, or both, in the discretion of the court."

"G. S. 105-163.22. Reciprocity. The Commissioner of Revenue may, with the approval of the Attorney General, enter into agreements with the taxing authorities of states having income tax withholding statutes with such agreements to govern the amounts to be withheld from the wages and salaries of residents of such other state or states under the

provisions of this Article when such other state or states grant similar treatment to the residents of this State. Such agreements may provide for recognition of the anticipated tax credits allowed under the provisions of G. S. 105-151 in determining the amounts to be withheld."

"G. S. 105-163.23. Withholding from Federal Employees. The Commissioner of Revenue is hereby designated as the proper official to make request for and enter into agreements with the Secretary of the Treasury of the United States to provide for the compliance with this Article by the head of each department or agency of the United States in withholding of State income taxes from wages of Federal employees and paying the same to this State. (d) Notwithstanding the provisions of the preceding subsections, the addition to the tax with respect to any underpayment of any installment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax were whichever of the following is the lesser—

The Commissioner shall cause to be prepared blank forms for the said declarations, amended declarations and returns, and shall cause them to be distributed throughout the State, and to be furnished upon application; but failure to receive or secure the form shall not relieve any taxpayer from the obligation of making any declaration, amended declaration or return herein required."

(a) By changing the period at the end of the paragraph numbered (3) on page 624 of Volume 2C of the General Statutes, the same being a paragraph of G. S. 105-134, to a comma and by adding thereafter the following: "unless such income is received from sources constituting a part of the corporation's principal, regular or unitary business in which event such income shall be allocated in accordance with the applicable allocation formula hereinafter set out".

(g) By rewriting G. S. 105-144.1 to read as follows:

"§ 105-144.1. Involuntary Conversions; Recognition of Gain. (a) General Rule. If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted—

(1) Into property similar or related in service or use to the property so converted, no gain shall be recognized.

(2) Into money or into property not similar or related in service or use to the converted property, and the disposition of the converted property occurred after December 31, 1958, the gain (if any) shall be recognized except to the extent hereinafter provided in this paragraph:

(A) If the taxpayer during the period specified in subparagraph (B), for the purpose of replacing the property so converted, purchases other property similar or related in service or use to the property so converted, or purchases stock in the acquisition of control of a corporation owning such other property, at the election of the taxpayer the gain shall be recognized only to the extent that the amount realized upon such conversion (regardless of whether such amount is received in one or more taxable years) exceeds the cost of such other property or such stock. For purposes of this paragraph—

(i) no property or stock acquired before the disposition of the converted property shall be considered to have been acquired for the purpose of replacing such converted property unless held by the taxpayer on the date of such disposition; and

(ii) the taxpayer shall be considered to have purchased property or stock only if, but for the provisions of subsection (b) of this Section, the unadjusted basis of such property or stock would be its cost within the meaning of this Article.

(B) The period referred to in subparagraph (A) shall be the period beginning with the date of the disposition of the converted property, or the earliest date of the threat or imminence or requisition or condemnation of the converted property, whichever is the earlier, and ending—

(i) one year after the close of the first taxable year in which any part of the gain upon the conversion is realized, or

(ii) subject to such terms and conditions as may be specified by the Commission of Revenue, at the close of such later date as the Commissioner of Revenue may designate on application by the taxpayer. Such application shall be made at such time and in such manner as the Commissioner of Revenue may prescribe.

(C) If a taxpayer has made the election provided in subparagraph (A) then—

(i) the statutory period for the assessment of any deficiency, for any taxable year in which any part of the gain on such conversion is realized, attributable to such gain shall not expire prior to the expiration of three years from the date the Commissioner of Revenue is notified by the taxpayer of the replacement of the converted property or of an intention not to replace, and

(ii) such deficiency may be assessed before the expiration of such three-year period not withstanding the provisions of law which would otherwise prevent such assessment.

(D) If the election provided in subparagraph (A) is made by the taxpayer and such other property or such stock was purchased before the beginning of the last taxable year in which any part of the gain upon such conversion is realized, any deficiency, to the extent resulting from such election, for any taxable year ending before such last taxable year may be assessed (notwithstanding the provisions of law which would otherwise prevent such assessment) at any time before the expiration of the period within which a deficiency for such last taxable year may be assessed.

(b) If the property was acquired, after January 1, 1921, as the result of a compulsory or involuntary conversion described in subsection (a) (1), the basis shall be the same as in the case of the property so converted, decreased in the amount of any money received by the taxpayer which was not expended in accordance with the provisions of law (applicable to the year in which such conversion was made) determining the taxable status of the gain or loss upon such conversion, and increased in the amount of gain or decreased in the amount of loss to the taxpayer recognized upon such conversion under the law applicable to the year in which such conversion was made. In the case of property purchased by the taxpayer in a transaction described in subsection (a) (2) which resulted in the nonrecognition of any part of the gain realized as the result of a compulsory or involuntary conversion, the basis shall be the cost of such property decreased in the amount of the gain not so recognized; and if the property purchased consists of more than one piece of property, the basis determined under this sentence shall be allocated to the purchased properties in proportion to their respective costs.

(c) For purposes of this Section, if livestock are destroyed by or on account of disease, or are sold or exchanged because of disease, such destruction or such sale or exchange shall be treated as an involuntary conversion to which this Section applies.

(d) For purposes of this Section, the sale or exchange of livestock (other than poultry) held by a taxpayer for draft, breeding, or dairy purposes in excess of the number the taxpayer would sell if he followed his usual business practices shall be treated as an involuntary conversion to which this Section applies if such livestock are sold or exchanged by the taxpayer solely on account of drought.

(e) As used in this Section, the term "control" means the ownership of stock possessing at least eighty per centum (80%) of the total combined voting power of all classes of stock entitled to vote, and at least eighty per centum (80%) of the total number of shares of all other classes of stock of the corporation.

(f) (1) For purposes of subsection (a), if real property (not including stock in trade or other property held primarily for sale) held for productive use in trade or business or for investment is (as the result of its seizure, requisition, or condemnation, or threat or imminence thereof) compulsorily or involuntarily converted, property of a like kind to be held either for productive use in trade or business or for investment shall be treated as property similar or related in service or use to the property so converted.

(2) Paragraph (1) shall not apply to the purchase of stock in the acquisition of control of a corporation described in subsection (a) (2) (A).

(g) In the administration of this Section, the Commissioner may, in his discretion, apply the Federal rules and regulations, rulings, and Federal Court decisions pertinent to the administration and construction of Section 1033 of the Federal Internal Revenue Code of 1954, but the Commissioner shall not be bound by such rules and regulations, rulings and decisions."

(h) By adding a new subsection to G. S. 105-145 to be designated as subsection (e) to read as follows:

"(e) In administering this Section and in interpreting the clause 'property of like kind,' the Commissioner shall whenever applicable use as a guide the Federal rules and regulations in the administration of Section 1031 of the Federal Internal Revenue Code of 1954 to the extent that same are not in conflict with the provisions of this Section."

(i) By rewriting the first paragraph of subsection (7) of G. S. 105-147 to read as follows:

(7) Dividends from stock issued by any corporation to the extent herein provided. As soon as may be practicable after the close of each calendar year, the Commissioner of Revenue shall determine from each corporate income tax return filed with him during such year, and due from the filing corporation during such year, the proportion of the entire net income or loss of the corporation allocable to this State under the provisions of G. S. 105-134, except as provided herein; if a corporation has a net taxable income in North Carolina and a net loss from all sources

wherever located, or, if a corporation has a net loss in North Carolina and a net income from all sources wherever located, the Commissioner shall require the use of the allocation ratio determined under the provisions of subsection or item (6) of G. S. 105-134. A taxpayer who is a stockholder in any such corporation shall be allowed to deduct from his gross income the same proportion of the dividends received by him from such corporation during his income year ending at or after the end of such calendar year. No deduction shall be allowed for any part of any dividend received by such taxpayer from any corporation which filed no income tax return with the Commissioner of Revenue during such calendar year. Dividends received by a taxpayer from stock in any insurance company of this State taxed under the provisions of § 105-228.5 shall be deductible from the gross income of such taxpayer, and a proportionate part of any dividends received from stock in any foreign insurance corporation shall be deductible, such part to be determined on the basis of the ratio of premiums reported for taxation in this State to total premiums collected both in and out of the State. Dividends received by a taxpayer from stock in any bank or trust company in this State taxed under the provisions of Article 8C of subchapter I of this Chapter shall be deductible. A taxpayer shall be allowed to deduct such proportionate part of dividends received by him from a North Carolina regulated investment company, as defined in § 105-138 as represents and corresponds to income received by such regulated investment company which would not be taxed by this State if received directly by the North Carolina corporation or resident.

(j) By striking out of line twelve of the second paragraph of subsection (7) of G. S. 105-147 the word "gross" and by inserting in lieu thereof the word "net".

(k) By adding a new sentence to the last paragraph of subsection (12) of G. (l) By inserting between the word "policy" and the period at the end of G. S. 105-148(3) the following: "except to the extent that such payments made by the employer are on group life insurance plans for the benefit of the employees, which plans have been approved by the Commissioner of Insurance and which premiums constitute ordinary and necessary business expense".

(m) G. S. 105-149, as the same now appears in 1958 Replacement Volume 2C of the General Statutes, is hereby amended by striking out the words "one thousand dollars ($1,000.00)" and by substituting therefor the words "two thousand dollars ($2,000.00)" in line 12 thereof.

H. B. 760 CHAPTER 1324

AN ACT TO CLARIFY AND AMEND THE PROVISIONS OF THE WORKMEN'S COMPENSATION ACT AS IT RELATES TO RIGHTS AND REMEDIES AGAINST THIRD PERSONS.

The General Assembly of North Carolina do enact:

Section 1. That Article I of Chapter 97 of the General Statutes be amended by deleting Section 10 thereof and substituting in lieu thereof the following:

"Section 97-10.1. If the employee and the employer are subject to and have accepted and complied with the provisions of this Article, then the rights and remedies herein granted to the employee, his dependents, next of kin, or personal representative shall exclude all other rights and remedies of the employee, his dependents, next of kin, or representative as against the employer at common law or otherwise on account of such injury or death."

"Section 97-10.2. (1) The right to compensation and other benefits under this Article for disability, disfigurement, or death shall not be affected by the fact that the injury or death was caused under circumstances creating a common law liability in some person other than the employer to pay damages therefor, such person hereinafter being referred to as the 'third party'. The respective rights and interests of the employee-beneficiary under this Article, the employer, and the employer's insurance carrier, if any, in respect of the common law cause of action against such third party and the damages recovered shall be as set forth in this Section.

(2) The employee, or his personal representatives if he be dead, shall have the exclusive right to proceed to enforce the liability of the third party by appropriate proceedings if such proceedings are instituted not

later than twelve months after the date of injury or death, whichever is later. During said twelve-month period, and at any time thereafter if summons is issued against the third party during said twelve-month period, the employee or his personal representative shall have the right to settle with the third party and to give a valid and complete release of all claims to the third party by reason of such injury or death, subject to the provisions of (8) below.

(3) If settlement is not made and summons is not issued within said twelve-months period, and if the employer shall have filed with the Industrial Commission a written admission of liability for the benefits provided by this Chapter, then all rights of the employee, or his personal representative if he be dead, against the third party shall pass by operation of law to the employer upon the expiration of said twelve-months period. All such rights shall then remain in the employer until sixty (60) days before the expiration of the period fixed by the statute of limitations applicable to such rights and if the employer shall not have settled with or instituted proceedings against the third party within such time, then all such rights shall revert to the employee or his personal representative sixty (60) days before the expiration of the applicable statute of limitations.

(4) The person in whom the right to bring such proceeding or make settlement is vested shall, during the continuation thereof, also have the exclusive right to make settlement with the third party and the release of the person having the right shall fully acquit and discharge the third party except as provided by (8) below. A proceeding so instituted by the person having the right shall be brought in the name of the employee or his personal representative and the employer or the insurance carrier shall not be a necessary or proper party thereto. If the employee or his personal representative should refuse to cooperate with the employer by being the party plaintiff, then the action shall be brought in the name of the employer and the employee or his personal representative shall be made a party plaintiff or party defendent by order of court.

(5) The amount of compensation and other benefits paid or payable on account of such injury or death shall not be admissible in evidence in any proceeding against the third party. If the third party defending such proceeding, by answer duly served on the employer, sufficiently alleges that actionable negligence of the employer joined and concurred with the negligence of the third party in producing the injury or death, then an issue shall be submitted to the jury in such case as to whether actionable negligence of the employer joined and concurred with the negligence of the third party in producing the injury or death. The employer shall have the right to appear, to be represented, to introduce evidence, to cross-examine adverse witnesses, and to argue to the jury as to this issue as fully as though he were a party although not named or joined as a party to the proceeding. Such issue shall be the last of the issues submitted to the jury. If the verdict shall be that actionable negligence of the employer did join and concur with that of the third party in producing the injury or death, then the court shall reduce the damages

awarded by the jury against the third party by the amount which the employer would otherwise be entitled to receive therefrom by way of subrogation hereunder and the entire amount recovered, after such reduction, shall belong to the employee or his personal representative free of any claim by the employer and the third party shall have no further right by way of contribution or otherwise against the employer, except any right which may exist by reason of an express contract of indemnity between the employer and the third party, which was entered into prior to the injury to the employee.

(6) (a) If the employer has filed a written admission of liability for benefits under this Chapter with, or if an award final in nature in favor of the employee has been entered by, the Industrial Commission, then any amount obtained by any person by settlement with, judgment against, or otherwise from the third party by reason of such injury or death shall be disbursed by order of the Industrial Commission for the following purposes and in the following order of priority:

1. First to the payment of actual court costs taxed by judgment.

2. Second to the payment of the fee of the attorney representing the person making settlement or obtaining judgment, and such fee shall not be subject to the provisions of Section 90 of this Chapter but shall not exceed one-third of the amount obtained or recovered of the third party.

3. Third to the reimbursement of the employer for all benefits by way of compensation or medical treatment expense paid or to be paid by the employer under award of the Industrial Commission.

4. Fourth to the payment of any amount remaining to the employee or his personal representative.

(b) The attorney fee paid under (a) shall be paid by the employee and the employer in direct proportion to the amount each shall receive under (a) 3 and (a) 4 hereof and shall be deducted from such payments when distribution is made.

(7) The insurance carrier affording coverage to the employer under this Chapter shall be subrogated to all rights and liabilities of the employer hereunder but this shall not be construed as conferring any other or further rights upon such insurance carrier than those herein conferred upon the employer, anything in the policy of insurance to the contrary notwithstanding.

(8) In any proceeding against or settlement with the third party, every party to the claim for compensation shall have a lien to the extent of his interest under (6) hereof upon any payment made by the third party by reason of such injury or death, whether paid in settlement, in satisfaction of judgment, as consideration for covenant not to sue, or otherwise and such lien may be enforced against any person receiving such funds. Neither the employee or his personal representative nor the employer shall make any settlement with or accept any payment from the third party without the written consent of the other and no release to or agreement with the third party shall be valid or enforceable for any purpose unless both employer and employee or his personal representative join therein; provided, that this sentence shall not apply if the employer

is made whole for all benefits paid or to be paid by him under this Chapter less attorney's fees as provided by (6) (a) and (b) hereof and the release to or agreement with the third party is executed by the employee.

(9) Institution of proceedings against or settlement with the third party, or acceptance of benefits under this Chapter, shall not in any way or manner affect any other remedy which any party to the claim for compensation may have except as otherwise specifically provided in this Chapter, and the exercise of one remedy shall not in any way or manner be held to constitute an election of remedies so as to bar the other."

"Section 97-10.3. In any case where an employer and employee are subject to the provisions of this Chapter, any injury to a minor while employed contrary to the laws of this State shall be compensable under this Chapter as if said minor were an adult, subject to the other provisions of this Chapter."

Sec. 2. That this Act shall be in full force and effect from and after its ratification but shall not apply to any injury occurring before the ratification hereof.

Sec. 3. All laws and clauses of laws in conflict herewith are hereby repealed.

In the General Assembly read three times and ratified, this the 20th day of June, 1959.

On all public construction contracts which are let by a board or governing body of the State government or any political subdivision thereof, except the construction of roads, highways, bridges and their approaches, the balance due prime contractors shall be paid in full within forty-five days after respective prime contracts of the project have been accepted by the owner, certified by the architect or designer to be completed in accordance with terms of the plans and specifications, or occupied by the owner and used for the purposes for which the project was constructed, which ever occurs first. S. R. 118 **RESOLUTION 20**

JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF ROBERT MARCH HANES.

WHEREAS, on the 10th day of March, 1959, there ended the life span which began for Robert March Hanes on September 22, 1890; and

WHEREAS, the General Assembly of North Carolina and its several members are profoundly saddened by his passing but are thankful that we knew him, are shocked that his work is over but are proud of his many accomplishments, are stunned by the loss of such a leader but are confident that we, and all of the people of North Carolina, will complete his unfinished tasks and will move onward and upward, warmed by the memory of his friendship and inspired by his great example; and

WHEREAS, from the time when he volunteered for military service in the United States Army in 1917, continuously through his self-sacrificing and physically heroic last great achievement, the launching of the hopeful Research Triangle program at the memorable meeting in Raleigh on January 9, 1959, Bob Hanes devoted his great talents and his abounding energy to serving his State and his Nation, building people and building things; and

WHEREAS, we are proud of his great achievements in banking. We are proud that he was President of the American Bankers Association. We are proud that he served his Nation as Director of Economic Affairs for Germany after World War II. Especially are we proud that he served as a member of the General Assembly of North Carolina, in the House of Representatives in 1929 and 1931 and in the Senate in 1933. We are proud of his many other splendid services, too numerous to be set forth here. We are proud that he was the man that he was.

When he entered a room he lighted it.

When he spoke to a man he lifted him.

When he took on a job or accepted a responsibility he put into it everything which he had.

He left an imprint upon every man whom he met.

Something of himself went into everything which he built—and forever will remain.

He was a man of keen intellect, powerful driving force, dynamic personality, complete, outspoken honesty and superb courage. He was thoughtful and considerate of others. He loved people and people loved him. He was that rarest of human beings, an unselfish man, one who put others

above himself. Truly he furnished to all who knew him a shining mark toward which they could strive—a man who had overcome self-centeredness.

And what he became in the short period of 68 years will go on forever. He will lift many people and affect many things. Bob Hanes became a part of every person who knew, respected and loved him. Every such person is the better for that. Through them and through their succeeding generations he will remain an uplifting force. As long as there is a North Carolina, Bob Hanes will be a part of it. And so he will go on.

We make ourselves better, we serve future generations, we serve our State, by honoring his memory and by resolving that it shall be kept fresh;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. There is hereby expressed profound sorrow at the passing of Robert March Hanes, great pride in his accomplishments, joy that he was the man that he was, gratitude for the services which he rendered to his people and to his State, and conviction that his good works will go on.

Sec. 2. This Resolution, together with the addendum attached thereto, setting forth biographical data of Robert March Hanes and a list of some of his services and accomplishments shall be incorporated in the public records of this General Assembly as a tribute and expression of respect to his memory, and a copy thereof shall be furnished to the members of his immediate family.

Sec. 3. This Resolution shall become effective upon its adoption.

S. R. 238 **RESOLUTION 39**

A JOINT RESOLUTION OF RESPECT TO THE MEMORY OF THE HONORABLE WILLIAM KERR SCOTT, LATE A UNITED STATES SENATOR FOR THE STATE OF NORTH CAROLINA.

WHEREAS, a year ago today, a day when the whole land and the skies above were filled with beauty and the new hopes of springtime, the people of North Carolina were shocked and saddened. Word was flashed throughout this State and across the country: "Kerr Scott is dead!"

The members of the United States Senate adjourned at once for the day in sorrow and respect for their deceased colleague. All the people in North Carolina, saddened that this man was dead, began to contemplate the brevity of mortal life and to weigh their numerous and lasting debts to this unique man of the soil of Alamance County.

This rugged, granite-like, determined, humorous man—so calm and "old shoe" in his outward manner, yet so dynamic in his energetic spirit—had answered with imagination, vision, and vigor many calls to duty during nearly forty years of devoted service to the people of North Carolina.

A year ago today, in the late afternoon, from his bed in the Alamance County General Hospital where he had been resting his tired heart, the Squire of Haw River said to "Miss Mary", his devoted and faithful wife, "Tomorrow, you know, will be my sixty-second birthday. I want you to make 'em let me have some ice cream, a piece of cake, and a chaw of tobacco."

A few minutes later, Kerr Scott—farmer and public servant—always plowing his furrows deep and straight, ever trying to help build a better North Carolina, and constantly needling the people of this State with his powerful challenge, "Let's Go Forward!", came quietly to the end of his earthly row.

Throughout his life he was faithful in the worship services of the Hawfields Presbyterian Church of Route 1, Mebane, North Carolina. He upheld its program of community and social services. He often said the eternal truth of the New Testament is that men and women should do unto others as they would have others do unto them. His philosophy of life and of government was based on his conviction that what is bad for any large segment of the people is bad for all the people. The first farmer in a hundred years to be elected Governor of North Carolina, he was a daring, progressive leader; an honest and forthright servant of the people; a builder; a democratic Democrat; a fighter for the welfare of the common man; and a true representative of the democratic ideals of Jefferson.

The example of his life, his services to the people, and the people's faith in him earned for him the immortal epitaph, "Devoted husband and father, beloved statesman, friend of mankind, servant of God."—Kerr Scott—Esse Quam Videri, To be rather than to seem. Man and Motto—The Same.

William Kerr Scott, born in the Haw River section of Alamance County, North Carolina, on April 17, 1896, educated in the Hawfield public schools and North Carolina State College, farmer and dairyman—died April 16, 1958. In succeeding steps he served the people as a private in the Field

Artillery of the United States Army in 1918; as Alamance County Farm Agent; as Master of the North Carolina State Grange; as Commissioner of Agriculture; as officer or board member of many organizations identified with the improvement of rural life; as Governor of North Carolina, 1949-52; and as United States Senator from November 29, 1954 until his death.

WHEREAS, the General Assembly of North Carolina wishes to make record of its deep appreciation for the life and public services of William Kerr Scott and its sorrow on account of his death:

Now, therefore, be it resolved by the Senate of North Carolina, the House of Representatives concurring:

Section 1. That in the death of the Honorable William Kerr Scott, North Carolina has lost a loyal son, a great citizen, and a distinguished leader and servant of all its people.

Sec. 2. That by these tokens the General Assembly of North Carolina expresses its genuine sympathy to Mrs. W. Kerr Scott, to her children, and to the brothers and sisters of the late W. Kerr Scott.

Sec. 3. That the General Assembly acknowledges North Carolina's debt to Dr. David Leroy Corbitt for his editorship of the Addresses and Papers of Governor William Kerr Scott—1949-53, including therein the biography of Governor Scott by Robert W. Redwine.

Sec. 4. That a copy of this Resolution, duly certified, be delivered to Mrs. W. Kerr Scott, Route #1, Haw River, North Carolina.

Sec. 5. That this Resolution shall be in full force and effect from and after its adoption.

In the General Assembly read three times and ratified, this the 17th day of April, 1959.

A JOINT RESOLUTION PETITIONING THE COMMODITY CREDIT CORPORATION FOR CERTAIN CHANGES IN REGULATIONS RELATING TO THE AGRICULTURAL STABILIZATION CORPORATION LOAN PROGRAM FOR GRAIN STORAGE FACILITIES.

WHEREAS, under regulations implementing the Agricultural Stabilization Corporation loan program for grain storage facilities, loans are limited to a term not to exceed five years although increased costs of agricultural equipment to meet modern standards of storing and drying agricultural products necessitate the availability of loans for a longer period of time; and

WHEREAS, at the present time loans are approved on the basis of the cost of unassembled grain storage facilities, although they should be approved on the basis of the total cost of the facilities, including erection; and

WHEREAS, some producers of grain are also involved in stock-feeding programs, giving rise to greater needs for grain storage facilities than are justified by the amount of grain produced; and

WHEREAS, consideration should be given to allowing loans to eligible grain producers, who are also involved in stock-feeding programs, for the purchase and installation of farm-size feed grinding and mixing equipment; and

WHEREAS, peanut producers are not now, but should be entitled to loans under the Agricultural Stabilization Corporation loan program:

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly of North Carolina petitions the Commodity Credit Corporation through the North Carolina Committee of the

Agricultural Stabilization Corporation to effect the following changes in regulations relating to the Agricultural Stabilization Corporation loan program for grain storage facilities:

(1) Extend the maximum term of loans under the program to ten years in light of increased costs of agricultural equipment needed to meet modern standards of storing and drying agricultural products;

(2) Provide for approval of loans for grain storage facilities on the basis of total erection cost, rather than on the cost of storage facilities in unassembled condition, so as to recognize the considerable cost involved in erecting such facilities, all of which constitutes a part of the overall cost of such facilities.

(3) Entitle grain producers who are also involved in stock-feeding programs to loans for the erection of additional grain storage facilities necessitated by the stock-feeding program in excess of those justified by grain production.

(4) Extend loan facilities to grain producers involved in stock-feeding programs for the purchase and installation of farm-size feed grinding and mixing equipment.

S. R. 312 RESOLUTION 49

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF BRANDON P. HODGES, FORMER MEMBER OF THE STATE SENATE, FORMER TREASURER OF NORTH CAROLINA, WHO SERVED HIS STATE WITH HONOR AND DISTINCTION.

On the evening of December 4, 1957, the Honorable Brandon P. Hodges, one time member of the Senate of North Carolina, died at his home in Asheville. While he had not been in the best of health for some time, his passing shocked the State and brought a sense of great sorrow and loss to all the people of North Carolina.

In a comparatively short time, he had lived a very rich and fruitful life of great benefit not only to the City of Asheville and the County of Buncombe, but to the Commonwealth of North Carolina.

Brandon Hodges was born in Asheville, North Carolina, September 6, 1903. He was educated in the public schools of Asheville, Porter Military Academy, the University of North Carolina, and Wake Forest College. He was a member of the North Carolina Bar, acting as Judge Pro Tem of the Asheville Police Court. He rendered signal service in the refinancing of Buncombe County's obligations following the depression. However, per-

haps his greatest public service began in the State Senate in 1943 and 1945; there he quickly assumed a position of leadership, being Chairman of the Senate Appropriations Committee, and serving afterwards as Chairman of the Advisory Budget Commission. He also acted as Legislative Counsel of Governor Cherry, and was elected Treasurer of the State of North Carolina on November 2, 1948, and was re-elected to that office on November 4, 1952. In addition, he served on many important commissions, and was Chairman of the Board of Trustees of Western Carolina Teachers College, 1947-48.

Of recent memory is the distinguished service of Mr. Hodges as Chairman of the Tax Study Commission, the report of which was received with sympathetic interest by the General Assembly of 1947, which enacted many of its more important recommendations into law.

Brandon Hodges was fortunate in his family life. He was married to Miss Genevive Hare, and the happy domestic circle which supported him in his career was completed by a son and a daughter: Brandon P., Jr., and Sarah Jane. Throughout his public and private life, he was strengthened by the loyalty and affection of Mrs. Hodges and their children.

Brandon Hodges possessed a high order of intelligence and had the ability to master easily the complicated and complex problems of public finance. Yet he never considered taxation and a balanced budget as isolated matters, but always related them to the human purposes that they were to serve. Thus it is proper to say that he was one fiscal expert who never forgot the humanities.

When Mr. Hodges resigned as State Treasurer in 1953, he became connected with the Champion Paper and Fibre Company of Canton, North Carolina, and it was while he was associated with this very important and progressive industry that he served with such distinction as Chairman of the Tax Study Commission.

Brandon Hodges was in every sense of the word a statesman whose mind was characterized by breadth of vision. It can be truly said of him that his view of the forest was not lost in an examination of the trees, and that he could rise above heated disputes to take a lofty look at the scene of debate or conflict. After others had expressed sharply differing views, it was good to hear his dispassionate, calm summing up of the problem, and his tactful suggestions for a solution. He was a man who led others through the warmth of his personality and through the moral suasion of his voice. His mind was capacious, his integrity complete, his vision unobstructed by prejudice. He saw the State as a whole, and, above all, believed that industry, agriculture, and every other phase of our life were made significant and meaningful through the beneficent influence of education.

In appreciation of the life of Brandon Hodges, and the knowledge that North Carolina will miss his wisdom and his foresight, and that those of us who knew him so well will feel deeply the loss of a loyal and dependable friend:

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That in the death of Brandon P. Hodges, the State of North Carolina and the citizens of Buncombe County have lost one of their most beloved and ablest citizens, whose record of public service constituted a magnificent contribution to the progress of the State and to the cause of good government.

Sec. 2. This Resolution shall be incorporated in the permanent records of this General Assembly as a tribute and expression of respect to the memory of Brandon Hodges and that a copy be furnished to the members of his immediate family.

Sec. 3. This Resolution shall be in full force and effect from and after its ratification.

In the General Assembly read three times and ratified, this the 6th day of May, 1959.

boards and commissions generally. All expenses shall be paid out of the Contingency and Emergency Fund.

H. R. 1123 RESOLUTION 73

A JOINT RESOLUTION DIRECTING THE STATE BOARD OF EDUCATION TO STUDY TEACHER EVALUATION, RATING AND CERTIFICATION.

WHEREAS, there is a growing demand on the part of the people of the State and their elected representatives in the General Assembly that greater attention should be paid to the quality of educational opportunities offered the children of the State; and

WHEREAS, there is an expressed desire by the General Assembly to give consideration to quality of educational opportunity in future appropriations for the State System of Public Schools; and

WHEREAS, studies are already underway by groups such as the Curriculum Study Commission dealing with certain aspects of improvements in quality of the educational offering; and

WHEREAS, there are other areas of public school policy and administration which, in the opinion of the General Assembly and the people, also require additional study; and

WHEREAS, the State Board of Education has, itself, recognized this fact by adopting, in August 1958, a Resolution which reads as follows:

"Teacher Evaluation, Rating and Certification. That the Board authorize a two-year study of the quality of teaching in the public schools of the State with particular attention to methods by which some determination of the degree of quality exemplified by different persons may be made. It was pointed out that many experiments in teacher evaluation have been in progress in various parts of the nation; that the problem was studied by a special commission authorized by the 1945 General Assembly; and that the Board of Directors of the North Carolina Education Association has pledged cooperation with the State Board of Education in making such a study. On motion of Dr. Phillips, seconded by Mr. McCrary, the Board authorized a two-year comprehensive study of the question through a commission of at least 25 members to be appointed by the Board—the commission to be composed of lay and professional personnel selected to insure the widest possible range of interest in all phases of the problem."

WHEREAS, such study commission has not been appointed despite the fact that it is evident that the qualitative adequacy of academic and professional preparation varies widely among individual professional trainees and that academic standards vary among institutions and among departments of institutions, there being at present no realistic method employed to maintain uniform minimum standards of quality of academic preparation for professional personnel entering upon service in the schools; and

WHEREAS, certificates issued to teachers and other professional school employees by the State of North Carolina are at present based upon the quantity of academic preparation and the amount of professional experience, the quality of said academic preparation and the quality of professional skill being entirely assumed; and

WHEREAS, a scientifically standardized professional examination designed to establish uniform minimum qualitative standards of academic and professional training appears to be a highly desirable extension and improvement of the less scientific and ununiform tests and measurements currently employed; and

WHEREAS, there have been developed a number of objective-type, printed examinations, scientifically designed, validated, and standardized by the best educational authorities, which examinations are for the purpose of comprehensively measuring the quality of academic and professional preparation in the field of education; and

WHEREAS, such objective standardized tests can provide evidence for establishing a uniform minimal standard of preparation for all teachers entering the profession in North Carolina regardless of the college attended or courses pursued; and

WHEREAS, tests can additionally provide evidence for establishing graded standards for the degree of preparation beyond the minimal standard; and

WHEREAS, it is desirable to adjust salary schedules based, at least in part, upon greater rewards for teachers with superior preparation; and

WHEREAS, superior preparation is now assumed to be recognized under existing certification regulations through the means of "B", "A" and "G" Certificates; and

WHEREAS, the problem most often cited by the education profession is the fact that superior teachers leave the State or the profession to seek jobs elsewhere because of inadequate pay; and

WHEREAS, both lay and professional educators alike generally agree that mere possession of subject matter and professional knowledge above minimum requirements is no absolute guarantee that an individual will be a good teacher but it is also recognized that teachers, no matter how interested or well-motivated, cannot impart knowledge which they do not possess; and

WHEREAS, The North Carolina Education Association, by official resolution, finds that "the passing of a test" as "another factor in the certification of beginning teachers" would raise "professional standards and (increase) the prestige of the teaching profession in the eyes and opinions of the public" and further finds that "teachers would not oppose this proposal, remembering that members of other groups take prescribed tests in order to qualify for their professions"; and

WHEREAS, The North Carolina Education Association has further endorsed a study of "Teacher Evaluation, Rating and Certification" by the State Board of Education:

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The State Board of Education is hereby directed to make a study of "Teacher Evaluation, Rating and Certification . . . with particular attention to methods by which some determination of the degree of quality exemplified by different persons may be made" and to report its findings to the 1961 Session of the General Assembly.

Sec. 2. The General Assembly of North Carolina does further direct the State Board of Education to administer the National Teacher Examination or its nationally recognized equivalent (1) to every applicant when said applicant shall first apply for certification as a teacher, supervisor, principal, superintendent or other professional status related to instruction in a school in North Carolina; (2) to every applicant who shall apply for higher class of certificate than the certificate then held by said applicant; (3) to every applicant who shall apply for a certificate in a different capacity than that in which the applicant is certified at the time of making said application; (4) to every professional employee of the public schools who, being certified prior to the ratification of this Resolution, shall thereafter voluntarily request to take said examination; it being the opinion of the General Assembly that information obtained from such examinations will provide normative data which will enable the true quality of teacher preparation to be evaluated in North Carolina by the State Board of Education.

Sec. 3. The General Assembly does further direct that specific scores of individuals should be regarded as confidential information obtained for research purposes only and that no entry should be made on an individual certificate or on any person's record as to scores achieved.

Sec. 4. The General Assembly does further recommend to the State Board of Education that it invite various educational associations, professional societies, faculties and other organizations actively concerned with the improvement of instruction in the schools of North Carolina, to appoint representatives to serve as an Advisory Committee to the State Board of Education in conducting their study of Teacher Evaluation, Rating and Certification.

Sec. 5. Nothing in this Resolution is intended to, in any way, limit the studies which the State Board of Education may wish to carry out or the recommendations which it may wish to make in its report. It is rather the intent of this Resolution that the State Board of Education shall, prior to the convening of the 1961 General Assembly, at a minimum, develop objective information as to the actual quality of professional and subject matter preparation of members of the educational profession in the State of North Carolina.

Sec. 6. The Governor and Council of State are authorized to allocate sufficient funds from the Contingency and Emergency Fund to cover costs incurred in the implementation of this program.

Sec. 7. This Resolution shall become effective upon its adoption.

In the General Assembly read three times and ratified this the 20th day of June, 1959.
